## FEBRUARY 2012 LIST

See inside for valid dates

Dear Customer

**New releases seem to be in slightly short supply this month (although the lack of EMI doesn't help - their information was delayed and will be included next month), so we have made up the space by adding even more special offers than usual!**

**There is a slight emphasis on recordings of early music amongst the new offers - DG 'Archiv', Decca 'L'Oiseau Lyre', Chandos 'Chaconne' and Harmonia Mundi 'Musique d'Abord' titles all feature, and focus primarily on baroque and classical repertoire. There is also a small selection of discs reduced from the fantastic countertenor, Andreas Scholl. Other new offers include the 'Gemini' 2CD series from EMI, a selection of Supraphon recordings, the complete Regent catalogue and two historical labels: BBC Legends and Andromeda. We have also agreed a deal on the Delos label for the first time. Founded in 1973, Delos are an important American label that perhaps don't quite have the profile in the UK that they deserve. See pp.18-19 for a selection for what is available.**

**Highlights from the new releases include new discs from Pierre Boulez and Renee Fleming (DG/Decca), the latest volume of Bach Cantatas from the Bach Collegium Japan (BIS), Nielsen from Sir Colin Davis (LSO Live) and Beethoven/Berg from Isabelle Faust (Harmonia Mundi). Our most popular labels feature on pp.2-3, after which they are listed in alphabetical order.**

**Please don't hesitate to give us a call if we can help with anything not featured in our catalogues!**

Best regards from

The Europadisc Team
