Logitech

Home Theater Remote Control

- Control of up to 15 devices.
- Program through Logitech's on-line database
- 3,000 manufacturer codes and 100,000 IR devices codes Available
#HAH550

Sony RM-AX4000

SONY

Home Theater Remote Control

- Illuminated LCD Touchscreen Back-lit LCD with adjustable brightness
- XPRESS function for easy macro setup and operation
- TiVo®/DVR Functionality
- Control 16 Components
- Learning function for programming from other remotes
- Sync-up Key gives you the ability to re-name LCD keys
- Clock and Timer Function using a maximum of 8 timer macros, turn your components on and off automatically
- Non-volatile memory function to keep your settings memorized
#SORMAX4000

Universal Remote Complete Control MX-3000

Universal Remote Control

IR/RF Color Touch Screen Remote

- 3.5" screen, 65,535 Colors
- Fluid page transitions & animated macros
- Place BMP's, JPEG's, PNG's, animated GIF's on any button.
- Macros can set up to 255 custom device variables.
- One-touch transmission via the MX-3000 quickly transmits even long macros to the MRF-250 RF/MRF-300 RF Base Station (sold separately)
- Add talking help buttons (recorded on any PC with a microphone) or music to your macros via any WAV file. • The MX-3000 Editor allows quick screen programming and user design creation
- Lithium Ion Rechargeable Battery (included) • Automatic Backlighting via Motion Sensor • Weight: 8 ounces (w/Batteries)
- Range: IR (line of sight) - 30-40 feet, RF - 50-100 feet (w/MRF 250/350)

#UNMX3000 **\$999.99**

Universal Remote Complete Control MX-950 Aurora

Universal Remote Control

IR/RF Remote

- 1.5" x 2.7" 256 Color Screen
- 255 devices can be created with up to 255 pages per device.
- Automatic Backlighting via Motion Sensor
- Lithium Ion Battery and Charger Base Included
- Integrated Sound Signaling
- Activity-based Buttons
- Range: RF - Up to 100 feet when used (with MRF-250/MRF-300 RF Base)
- IR (line of sight) - Up to 50 feet.
- Weight: 10.4oz (with batteries)

#UNMX950 **\$699.99**

Universal Remote Complete Control MX-350 Osiris

Universal Remote Control

IR/RF Remote Control

- Radio Frequency (RF) operation up to 100' range through walls, floors, doors, indoors or outdoors. *(with optional MRF-250 or MRF-300 RF Base stations) Controls Up To 10 Components which can be programmed with up to 8 pages of LCD screens, plus the 33 hard buttons. Up to 472 potential Macro buttons, each programmable up to 10 functions.
- 40 Favorite Channels Programming • EL Back Lighting
 - Gemstone Buttons • Memory Back-Up for up to ten years, even with dead batteries. • Centrally Located Joystick
 - 0.875" x 1.875" LCD Screen • IR (line of sight) - Up to 60 feet with fresh batteries. • Output Distance: RF - Up to 100 feet when used with MRF-250 or MRF-300 RF Base stations

#UNMX350 **\$149.99**

Universal Remote Complete Control MX-850 Aeros

Universal Remote Control

IR/RF Remote Control

- Radio Frequency (RF) operation up to 100' range through walls, floors, doors, indoors or outdoors. (w/ optional MRF-250 or MRF-300 RF Base stations) Controls Up To 20 Components which can be programmed with up to 8 pages of LCD screens, plus the 33 hard buttons. Up to 912 potential Macro buttons, each programmable up to 190 functions.
- Controls Up To 20 Components
 - Up to 912 potential macro buttons
 - 50 Favorite Channels Programming
 - The MX Editor software with over 1,500 code of Brands/Models in addition to "Learning Remote" Capability

#UNMX850 **\$399.99**

Universal Remote MRF-250 / MRF 300

Universal Remote Control

- RF Expanders f/MX-350/MX-850 Universal Remote Controls
- The MRF-250 eliminates the need for line-of-sight pointing at components. Signal is sent to Component via the Remote Front Blaster or 6 supplied flashers Individually addressable flasher ports can control up to 6 identical devices separately 2.5 MM mini jack plugs • Up to 15 addresses per unit AC adapter included Warranty: 1 year parts & labor • Up to units 15 per location

#UNMRF250 **\$99.99**

MRF 300

- Step Up features of the MRF-300:** Stackable Housing for Multi Unit Installation Included
- RFX-150 RF antenna isolates from components providing cleaner RF reception.
- Up to 3 antennas can be used to extend RF range 3.5 MM mini jack plugs

What is HD DVD and Blu-Ray ?

It's an exciting new technology: the "next dimension" in video disc format. Very simply, the new discs carry the huge amount of information High Def demands and the players, with their new blue-violet laser, transfer that information at extremely high speed to your HD TV.

Why do we need them?

When watching DVDs on some of the current TVs, especially those over 42 inches, noise and artifacts are noticeable. HD DVD's nearly eradicate this problem while bringing incredible detail to the screen. In addition, their vastly increased storage capacity enables greatly enhanced sound quality, rivaling that of a studio master.

At this time two different versions (and HD discs) dominate the field: "Blu-Ray" and "HD DVD." While the two brand's players, discs and accessories are not compatible, the good news is that they're both backward compatible with your standard DVD movies.

Note: To take full advantage of the high definition disc technology, connected devices must have an HDMI interface.

Toshiba HD-A1

TOSHIBA

HD DVD Video

- HD Content Output via HDMI
- 11-bit / 216MHz Video Dac
- Video Up-Conversion for SD DVD (720p/1080i)

DVDO iSCAN VP30

Hi-def Video Processor

The DVDO iScan VP30 is a high-resolution video processor and A/V switcher that sets a new standard for up, down, and cross-converting all of your video sources. Whether it's a 480i, 480p, 720p or 1080i signal-the iScan VP30 scales your video output to perfectly match the optimum resolution of your display, up to 1080p.

The iScan VP30 features 11 video inputs: four HDMI, two Component, two S-Video, two Composite, and an RGBHV input along with an SD-SDI input. Analog transcoding and analog HD processing allow connections to be "anything in, anything out" thereby reducing the number of cables needed to connect all video sources, current and legacy.

- Motion and source adaptive video deinterlacing for NTSC (3:2 and 2:2 pull-down; video) and PAL/SECAM (2:2 pull-down; video) sources
- ABT's Precision Video Scaling II technology by ABT - 10-bit Scaling, Non-linear Scaling, Enhanced Sharpness Control
- Analog HD Transcoding and Processing
- Flexible Input and Output Aspect Ratio Control
- Display Profiles - For multiple display configurations (4)
- ABT's Rightrate - High-Performance Framerate Conversion
- ABT's AutoVFR - Intelligent Component Video Inputs with Automatic Video Format Routing
- Advanced Source Transition Management provides seamless transitions between source types
- ABT's AutoCUE - Automatic Chroma Upsampling Error detection and correction
- 12-bit digital-to-analog converters (DACs)
- Full-frame Timebase Correction
- High performance, 10-bit multi-standard video decoder
- High-quality super-adaptive comb filter with 2D Y/C separation
- Flexible Digital and Analog Audio switching and routing - four digital audio inputs and one analog audio input with two digital audio outputs (both active)
- ABT's Precision A/V Lipsync intelligent digital audio delay technology to match Audio and Video timing

#DIVISVP30 **\$1,999.00**
