For those with a discriminating taste for premium woods, we are pleased to now offer wood pergolas in four beautiful lumber materials: cedar, redwood, teak and mahogany. Each wood pergola is custom made to your specifications. All wood pergolas can be ordered free-standing or to attach to a building. Premium features in our mahogany and teak models set them in a class by themselves.

NEW!

The mahogany pergola features a unique hollow construction that provides a channel for electrical wiring needs (fans, heaters & speaker wires.)

Add **more attractive features** to your ShadeTree® shade system!

shade/privacy blinds

BACKYARD BLINDS™ manually-operated blinds provide beautiful shade and privacy for many outdoor areas including patios, screen rooms, arbors, hot tubs & gazebos. In standard widths below. (Call for custom cuts charges.) **Standard "drop" length is 84"**

Airflow™ Mesh fabrics (Series "A")

4' width	\$139.95 (\$25)
5' width	\$159.95 (\$25)
6' width	\$169.95 (\$40)
8' width	\$199.95 (\$75)
10' width	\$229.95 (\$125)

Sunbrella® solid or

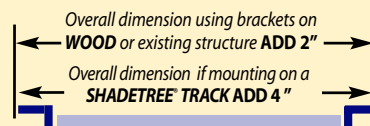

stripe fabrics (Series "B" or "C")	
4' width	\$199.95 (\$25)
5' width	\$229.95 (\$25)

Sunbrella fabrics are not available on widths greater than five feet.

Measuring instructions for Backyard Blinds™

For manual blinds:

Simply add 2" to the width of the blind size, or 4" when mounting on a ShadeTree® canopy track.

❖ **FREIGHT NOTE:** Blinds are shipped, freight-free if ordered and shipped with a ShadeTree® canopy system. All blinds 6' wide or less are shipped via UPS. 10' & 8' blinds must be shipped via truck therefore freight charge is much higher. NO additional freight charge if additional blinds are shipped with 10 foot blind.

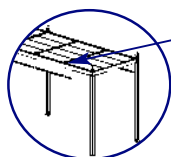

cabana curtains

Cabana Curtains are custom-made and can be easily adapted to your existing structure using our Strip Tracks. The Curtains also fit easily into the bottom channel of the ShadeTree tracks. Simply measure the length of the area(s) you would like to cover and tell us how many and what size panels you desire. Wood mount **\$44.95 per linear foot** (includes tracks), track mount **\$39.95 per linear foot**. **Indicate desired length.**

If you have a Capri, Capri II, Greenbriar (fixed posts) or ShadeRetreat, you can wrap the curtains around the outside of the corner posts for complete privacy. If you have a ShadeTree pergola, simply measure the distance between the outermost/corner supports. For the front of Capri systems*, order 1 curtain per canopy as track hardware may interfere.

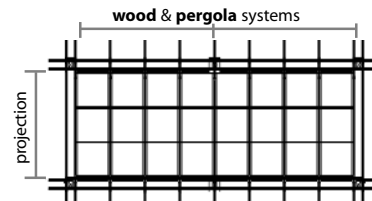

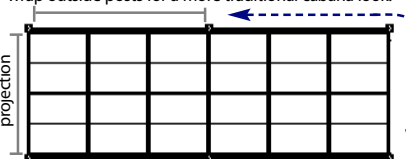

Measuring instructions for Cabana Curtains

Measure the distance between posts or projection for desired width of curtains.

*Capri, curtains can wrap around outside of posts for a more traditional cabana look. However front of Capri systems will be interrupted by canopy track hardware connector.

For Greenbriar & ShadeRetreat systems, curtains can wrap outside posts for a more traditional cabana look.
