BONES® 凡压田三

Bones REDS are manufactured in China to our Bones Skate Rated Specifications in a manufacturing facility dedicated to producing the highest quality skate bearings in China. They are inspected twice before being shipped to skaters and offer the greatest combination of performance, durability and low cost in the industry. Because they offer near Bones Swiss performance at a fraction of the cost, they have become the best selling skate bearing in the USA.

BONES® SUPER 凡压田三

Super REDS™ are designed from the ground up to be the best bearing on the market at this price point. What Super REDS™ are not is a REDS™ bearing with just better super finishing (surface polishing). Super REDS™ are a superior quality bearing, using higher quality steel races, better quality and grade balls, and a superior surface finish. The result is a bearing that is as fast as REDS™ but quieter, smoother, and longer lasting. Super REDS™ use a black shield and laser engraving to differentiate themselves from original REDS™.

BONES® CERAMIC SUPER 凡压田三

The story of Ceramic Super REDS™ is simple. Take the superior steels used in our Super REDS™ and swap the steel balls for grade 5, silicone nitride, hot isostatically pressed ceramic balls and you have Bones Ceramic Super REDS™.

Bones Ceramic Super REDS™ are lighter and provide faster acceleration because the balls weigh much less. They create less friction and are thus faster than Super REDS™, with or without lubricant! When you get dirt into your Ceramic Super REDS™, the ceramic balls will help to re-polish the steel races flat again, providing a self-healing benefit because ceramic balls are so much harder than steel. Finally, ceramic balls will not rust, further lengthening their life. Ceramic Super REDS™ use a bone colored shield with laser engraved outer races for identification.
