DIRECTIONS

Address: 5337 County Road 21, Kathryn, ND 58049

From the South: 1-29N to the HWY 46 Exit (Kindred) and then 50 miles west.
From the West: 5 miles east and ¼ mile north of the Junctions of ND Hwy's 1 & 46.

From the North: Kathryn Exit off I-94, 20 miles south on County Road 21 (National Scenic Byway).

From the East: I-94 North to the Wilkin County 30/MN 108 Exit north of Fergus Falls, MN. Head west on Wilkin County 30 to US-75 at Wolverton, MN. Go north 1 mile then, west 3 miles to I-29N. Take I-29 north 4 miles to the Hwy 46 Exit (Kindred) and then 50 miles west until you come to the farm along Hwy 46.

TRUCKING

We will deliver Free of Charge in the Continental US and to Canadian Points of Entry.

WELCOME TO DURHAM NATION 2018!

As I write this we are coming off a week of rain and temps not reaching above 40 degrees, with 6 inches of snow forecast for this evening through tomorrow, further proof that, anymore, extremes are the norm. With the drought of 2017 fresh in our minds, this year has been the polar opposite, and, has presented its own set of challenges dating back to last spring. No doubt many more are in front of us as our peers attempt to harvest an excellent crop in far from excellent conditions. There's one thing I'm sure of though. They will get it done. It's how those of us in agriculture are built.

Speaking of getting it done, the cattle on the forthcoming pages, along with the operations behind them, do just that. The heifer calves on offer from JSF & GCF combine to make them the best set to ever sell on Durham Nation. We dug deep into our cowherd to offer highly proven females from known cow families, steeped in production. As I viewed the bred heifers from SBR, all I said to myself was wow. What a group! The Osterday's continue to raise the bar year in and year out. I'm especially proud of our group of Durham Blues this year, easily the best set of blue heifers we have ever offered, examined safe to some exciting new herd sires. Our Shorthorn heifers are presented in their working clothes, fresh off 480 acres of hill pasture on the banks of the Sheyenne River valley, with nearly all bred to our lead calving ease super sire, Jake's Reincarnation 228Y. A true feature for 2018 will be the offer of 2 herd sires from our bull battery, Outlaw and Dumbledore. I can't think of the last time more highly proven, impressive herd sires have been offered on auction in the Shorthorn breed.

I hope you are able to take time out of your busy schedules to be with us on October 27th, 2018 at 6 pm. Not only will a great set of cattle sell, but an even greater group of people will have the opportunity to reconnect, enjoy some camaraderie, and be a part of something that is bigger than any one person or operation, the Shorthorn movement.

DURHAMS FOREVER!

Only befitting of Durham Nation, we lead off the sale with a female to build a herd around.

CONSIGNED BY: JUNGELS SHORTHORN FARM

Ultrasound examined safe with a bull calf sired by Saskvalley Outlaw. Due approximately March 20th, 2019.

Countless visitors have inquired about purchasing 17X, dating clear back to when she was at foot of her mother on pasture. Her production record, and that of her progeny, is impeccable. In addition, the longevity this cow family possesses is something to behold as both her dam (10) and granddam (14) are still in production. Lastly, not only are you buying one of the best Shorthorn females we have ever raised, but your next herd bull as well.

I love this heifer calf, as has everyone that's seen her. Can't wait to hear about her next summer!

CONSIGNED BY: JUNGELS SHORTHORN FARM

Ultrasound examined safe with a bull calf sired by JSF Optimizer 261D, Due approximately March 20, 2019. This female was my pick of the Hero Breds at Studers a couple years back. The only reason she is selling is because of that white stunner she raised. As for her service sire, you'll hear a lot more about him in the years to come. A member of our Denver Champion Pen of 3 in 2017, he was later selected by Collin LaPlant of the LaPlant Ranch at Binford, ND on the bull sale for \$15,000. They calve their 350 hd commercial herd in May and allowed us to use the bull early. I sure am glad they did. He bred 20 cows here again as a 2 yr old before heading up there. Next year he'll see 40, and everyone will see his sons in Denver.

The first Checkered Flag heifer calf to be offered on auction and she is a RIP. You will hear a lot more from her sire, who, had been the herdsire at North Dakota State University for the past 6 years.

CONSIGNED BY: JUNGELS SHORTHORN FARM

Selling the right to one flush. Guarantee 6 transferable embryos. Buyer to pay all flush costs. Examined safe with a bull calf sired by JSF Optimizer 261D, due approximately March 20th, 2019. Flush to take place on or prior to June 20th, 2019. 26X3 is an incredible Shorthorn cow. As some may know, when the North Dakota State University Shorthorn Herd was dispersed last fall, we were offered the opportunity to purchase 6 cows and their herd bull, Checkered Flag. I've learned over the years small things can turn into big things. I'm confident this acquisition will prove that true once again. I chose to offer a flush on this female due to the fact that no female had been offered for sale from the NDSU herd for years, yet many who have been around the breed as long as I have will remember the Orange Blossoms. Proud to make a name for them once again, fittingly still in North Dakota, this time at JSF.

CONSIGNED BY: JUNGELS SHORTHORN FARM

These 4 heifer calves are truly outstanding. The Patty's are one of our best cow families and 46F will only further that given her quality, balance, and overall eye appeal. 91F is one of the best show heifer prospects in this sale. 133F is stunning in her appearance, sound in her design, and has a tremendous future as both a show heifer and brood cow. Last, but certainly not least, 114F might be my favorite in the entire offering. She is a combination of power, balance, and eye appeal that I believe is very rare. Note her sire. More to come.

Ultrasound examined safe, due approximately February 10th, 2019 to Jake's Reincarnation 228Y.

I debated for a long time about keeping both of these females. 261E's dam, 4T, is 13, looks great, and just weaned off one of the heaviest bull calves. 30E has a striking phenotype, unique pedigree, and hails from a great cow family. Both should mate very well to Reincarnation.

SIRE

DONOR DAM

This mating couples the high selling bull from our 2018 Bull sale with the highest revenue generating female on the ranch. I think the resulting progeny from these embryos could be truly outstanding. The look, power, and style of Skyfall coupled with the doability and maternal function of 451. Let's go!

GENERAL SALE INFORMATION

Flushing: All consignors retain a flush on all females selling from their program. The flush will be at our expense and the buyer's convenience with a guarantee of six grade one embryos.

Mailed Bids: Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

Terms And Conditions: Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

Update On Breeding And Calving Information: There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

Billed Accounts: All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance

and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

Liability: Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

Health: Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-P13 and John's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

Insurance will be available at the settlement desk upon conclusion of the sale.

Announcements made from the auction block take precedence over all printed material in this catalog.

ALL ANIMALS SELLING WILL BE GENETIC CONDITION TESTED WITH RESULTS AVAILABLE SALE DAY.

No bull we have ever used has sired cattle as good through their front one-third. We have retained a large number of daughters over the last couple years, with another large heifer calf crop in 2018 and over 40 more coming in 2019. For that reason, I felt it was time to make Outlaw available to the general public. This bull does an incredible job of producing attractive, good bodied, sound cattle with excellent EPD profiles and utility built in. His daughters in this offering could be his best yet. He consistently covers 45-60 pairs each summer. For a video of this great bull, check out our farm facebook page, or see him in person sale day.
