Introduction

FACULTY OF HEALTH SCIENCES – THERAPEUTIC RECREATION

Congratulations from Mr. Devan McNeill, Program Coordinator of the Therapeutic Recreation program in the Faculty of Health Sciences – University of Lethbridge

Congratulations on the final stage of your journey in the Therapeutic Recreation Program. My colleagues and I are delighted that you have selected this opportunity; as a result you are already on the right path to a rewarding career! This is a very important milestone of the program and of your learning experience.

We worked closely with the Alberta Therapeutic Recreation Association, employers, supervisors, and practitioners as we developed this internship experience. You will benefit from working with experienced supervisors, practitioners, allied health professionals, and researchers who will provide you with a first rate experience. Such a partnership model fosters a learning culture that supports continuing professional development and lifelong learning.

On behalf of all faculty and staff in the Faculty of Health Sciences, I extend best wishes to each of you as you embark upon your internship journey.

Best regards,

A handwritten signature in black ink that reads "D McNeill". The signature is written in a cursive, flowing style with a large initial "D" and a long, sweeping tail on the "l".

Devan McNeill, CTRS

Program Coordinator, Therapeutic Recreation

Faculty of Health Sciences, University of Lethbridge

OVERALL THERAPEUTIC RECREATION PROGRAM DESCRIPTION

Our Bachelor of Therapeutic Recreation is the first of its kind in Alberta and one of only nine degree programs leading to therapeutic recreation certification in Canada. The program is accredited through the Committee on Accreditation of Recreational Therapy Education (CARTE) and meets the requirements of the National Council for Therapeutic Recreation Certification (NCTRC). This ensures that graduates from this program are eligible to become Certified Therapeutic Recreation Specialists (CTRS).

- NCTRC: The non-profit organization, which was established in 1981, is the one and only internationally recognized credentialing organization for the profession of therapeutic recreation (NCTRC, 2018). It is dedicated to professional excellence by ensuring that recreation therapists meet their stringent requirements and maintain continual growth in the profession. Only these qualified individuals may gain and maintain the Certified Therapeutic Recreation Specialist (CTRS) credential.
- CARTE: An approved accreditation program under the Commission on Accreditation of Allied Health Education Program (CAAHEP) and whose overall mission is to promote the highest levels of professional competence of recreation therapists.

Summary of what students learn prior to their internship:

- Foundations of Therapeutic Recreation: History, development, and benefits of the profession, as well as the different models of service.
- Program planning in Therapeutic Recreation: Development, application, and evaluation of therapeutic recreation programming.
- Recreation and leisure across the life course: Overview of the characteristics, evolution, and functions of leisure in Canada across the life course.
- Processes and techniques in Therapeutic Recreation: Theoretical and practical aspects of the procedures necessary for assessment, planning, implementation, management, and evaluation specific to therapeutic recreation services.
- Facilitation in Therapeutic Recreation: Various hands on and applicable facilitation techniques.
- Therapeutic Recreation for special populations: Introduction to the different characteristics and needs of individuals with varying abilities in regard to therapeutic recreation domains of service delivery.
- Issues and trends in Therapeutic Recreation: Contemporary issues within the profession.
- Research Design in Therapeutic Recreation: Understanding of research methodologies relevant to the profession, as well as an overview of current assessment and evaluation instruments.
- Administration in Therapeutic Recreation: Essential management and effective practices of the profession in various settings.

Support Courses

- Human Anatomy and Physiology: A study of the human body from investigation of anatomical systems, to physiological functioning and biomechanical processes of movement.
- Abnormal Psychology: Examination of behaviour disorders, theories of causation, descriptions of the disorders, and strategies of various therapies throughout the lifespan.
- Human Development Across the Lifespan: Examination of human growth and psychological development across the lifespan. Overview of the interplay of biological, sociological and psychological forces in human development.

Liberal Education List Requirement Courses

The University of Lethbridge is deeply rooted in a liberal education philosophy, so the Liberal Education Requirement has been incorporated into every degree and combined degree program.

The Liberal Education List Requirement ensures that throughout your degree you will acquire a breadth of knowledge, encompassing a variety of disciplines, perspectives and theories - a solid foundation for personal and professional development. Over the course of your program, each student must complete four courses from each of the following three lists (12 courses in total):

- List I - Fine Arts and Humanities
- List II - Social Science
- List III - Science

SUGGESTED INTERNSHIP TIMELINE

	Tasks	Completed Date
WEEK 1 – 2	Orientation to Facility / Department <ul style="list-style-type: none"> • Services delivered • Communication • Professionalism • Writing goals & objectives • Time management • Risk Management • Infection Control 	
	Review Policies and Procedures Manual, as well as important legislative acts (e.g., FOIP, Mental Health Act, etc.)	
	Discuss & review student's goals	
	Discuss the evaluation forms	
	Complete the following forms: <ul style="list-style-type: none"> • Confidentiality Agreement and Crisis Support Plan • SMART Goals 	Due: After 2 days Due: End of week 2
	Introduction to Other Disciplines / co-workers	
	Review University Assignments / Tasks	
	Brainstorm Service Project Ideas	
	Observe an intervention (group or 1:1)	
	Observe an Assessment	
WEEK 3 – 4	Define Project & Outline service project	Due: End of Week 3 (5%)
	Complete Initial Assessment	
	Caseload Minimum of 1 person/client/patient	
	Co-facilitate an intervention	
	Begin the Self-Reflection online discussion on Moodle	Due: End of Weeks 3-12 (20%)
WEEK 5 – 6	Continue work on Service Project	
	Midterm Evaluation given to Agency Supervisor to review prior to completion	
	Complete Progress Notes	
	Complete Discharge Summary	
	Target: 25% of supervisor's caseload	
	Facilitate an intervention on your own	
	Complete minimum 3 Assessments	
WEEK 7, 8, 9	Target: 50% of supervisor's caseload	
	Continue to complete more Assessments	
	Complete evaluations on activities/interventions/programs	
	Midterm Evaluation	Due: End of Week 8 (10%)
	Student midterm self-evaluation form	Due: End of Week 8
	Complete Update on Service Project	Due: End of Week 7 (5%)

	Continue to contribute to the online Self-Reflection discussions	
WEEK 10,11,12	Target: 75% of supervisor's caseload	
	Continue to complete more Assessments	
	Continue to complete evaluations on activities/interventions/programs	
	Complete the final Self-Reflection online discussion on Moodle	Last one End of Week 12
WEEK 13 – 14	Service Project Presentation to Departmental Staff and Agency Supervisor	
	Final Evaluation given to Agency Supervisor to look over and set a date for a review	
	Submit SMART Goals evaluation	Due: End of week 14(5%)
	Target: 100% of supervisor's caseload	
WEEK 15	Service Project Final <ul style="list-style-type: none"> • Presentation Assessment • Evaluation Form 	Due: End of Week 15 (20%)
	Student Self-Evaluation Form	Due: End of Week 15
	Documentation of Internship Form	Due: End of Week 15
	Exit Interview / Final Evaluation	Due: End of Week 15 (35%)
	End professional relationships with clients and staff members. Thank people and stay in contact with your supervisor.	

As the student takes over the supervisors caseload of clients, student supervision and guidance are still necessary.

PURPOSE, STRUCTURE, AND EXPECTATIONS

Purpose – By the end of the placement, students will be able to develop and demonstrate classroom skills (program planning, ethics, professional behaviour) in a practical work environment. The students will develop clinical practice skills and abilities under the guidance of a Certified Therapeutic Recreation Specialist (CTRS). During the internship the students will be assessed on competencies related to Therapeutic Recreation (TR). This experience will lead to further understanding of critical issues related to practice and understanding of how TR fits into health and human services. By the end of the placement, students should transition to as close as possible to 100% of the supervisors work/caseload. Essentially, the student should be doing the complete work of their supervisor at the placement site. This course will meet all NCTRC requirements for a successful internship experience, leading to potential CTRS designation.

Structure – Under the supervision of a CTRS, the internship will be completed over 15 weeks and a minimum of 560 full-time hours. The internship may be in an area of practice that serves students' needs and can be established through partnership with the Therapeutic Recreation program and the Faculty of Health Sciences. The practicum will run from September 6th 2022, to December 16th 2022.

Expectations – The student is expected to work full time hours throughout their internship to accumulate a minimum of 560 hours over 15 weeks. Also, some agencies may require additional hours (for example, Nova Scotia Health Authority requires students commit to 600 hours). The internship supervisor must be employed with a regular position at the sponsoring agency and work a minimum of 30 hours per week (some exceptions may apply). At least 50% of the supervisor's duties must be in therapeutic recreation (some exceptions may apply). The internship must be supervised by an academic supervisor and an agency supervisor, both of whom need to be a CTRS. The internship agency supervisor must be certified for at least one year prior to supervising students. The internship experience must be based on the therapeutic recreation process as defined by the current NCTRC Job Analysis.

DEFINITIONS OF TERMS

Academic Supervisor – a CTRS employed by the University of Lethbridge to coordinate, advise, monitor, and evaluate the student in an internship for academic credit.

Site/Agency Supervisor – a CTRS who has been working in the field of Therapeutic Recreation. This person will direct, supervise, and evaluate the student in the completion of an internship in an agency to satisfy academic requirements and NCTRC Standards.

Practicum/Internship – an experiential process of translating knowledge into clinical skills and abilities in a safe, structured, and supervised setting. The internship must be completed at one agency for 15 consecutive weeks for a total of 560 hours. Completion of the internship results in 15.0 credit academic hours.

Student – is enrolled at the University of Lethbridge, pursuing a Bachelor of Therapeutic Recreation. The student is expected to be an active participant in the learning and supervisory process. The student is expected to be professional and be knowledgeable of the Alberta Therapeutic Recreation Association and the Canadian Therapeutic Recreation Associations Code of Ethics and Standards of Practice (<http://www.alberta-tr.org/about-atra/code-of-ethics.aspx>; <http://canadian-tr.org/resources/>).

**THE UNIVERSITY OF LETHBRIDGE
FACULTY OF HEALTH SCIENCES
TREC 4550 – Practicum in Therapeutic Recreation
Course Syllabus – Fall 2022**

TREC 4550X

INSTRUCTOR: Aimee Douziech, MSc., CTRS (#70214)
OFFICE: M3060
PHONE: 403-332-4576
E-MAIL: aimee.douziech@uleth.ca

TREC 4550XA

INSTRUCTOR: Zac Crouse, M.Ed., CTRS (#48794)
OFFICE: LaHave, Nova Scotia
PHONE: 902-220-0313
E-MAIL: Zac.Crouse@uleth.ca

COURSE DESCRIPTION:

This course will meet all NCTRC requirements for a successful internship experience, leading to potential CTRS designation. Under the supervision of a CTRS, the internship will be completed over 15 consecutive weeks and 560 full-time hours. The internship may be in any area of practice that serves students' needs and can be established through partnership with the Therapeutic Recreation program and the Faculty of Health Sciences.

COURSE FORMAT:

On-site and in person practicum/internship, off campus, 15 weeks (560 hours)

PREREQUISITES:

TREC 3000, TREC 3100, TREC 3200, TREC 3300, TREC 3400, TREC 3500, TREC 4000, TREC 4100, TREC 4200, plus all support and elective courses.

REQUIREMENTS:

Students are required to submit all required documentation to the Internship Specialist (Marina Christman) prior to placement start. We highly advise students to start on these items right away, as they can take quite a while to complete. Please also keep in mind that agencies might have their own documentation requirements in addition to the University of Lethbridge. Students need to submit the following:

1. Faculty of Health Sciences Consent Form
2. HSPnet Consent form (for sites that require this for application purposes)
3. Immunization Records
4. Immunization History Form
5. Original Police Information Check (including vulnerable sector search) – scan in your check then submit an original via mail – reduced cost form available on the website
6. Moodle Module “The Practicum Student Orientation” found here: https://moodle.uleth.ca/long_term/course/view.php?id=916 – submit certificate upon course completion
7. DocuSign Forms – required 1 week prior to placement start include the following forms:
 - a. UofL Informed Consent Risk and Indemnity Agreement
 - b. UofL Hazard Assessment
8. Any additional forms or documentation as required and requested

COURSE OBJECTIVES:

By the end of the placement, students will be able to develop and demonstrate classroom skills in a practical in person work environment. They will also meet the following competencies:

1. Skill in the use of behavioral observations.
2. Skill in the use of functional performance testing.
3. Skill in gathering and use of relevant information from records, charts, family, significant others, and other professionals.
4. Skill in establishing an effective therapeutic/helping relationship.
5. Skill in applying individual and group leadership/helping techniques.
6. Skill in assisting the patient/client to process the treatment intervention, thereby enhancing self-awareness and formulating conclusions relevant to treatment goals and objectives.
7. Skill in facilitating a variety of evidence-based treatment interventions or modalities, such as games, exercise, community reintegration, etc., to reach treatment outcomes.
8. Skill in applying ethical and conduct standards to practice.
9. Skill in practicing safety, emergency, infection control and risk management procedures.
10. Skill in scheduling, time management, and prioritization of tasks and decisions.
11. Skill in managing productivity and labor resources.
12. Skill in assisting the patient/client in processing and applying knowledge and skills learned to meet individual needs.
13. Knowledge of word root, prefixes, and suffixes used in medical and psychiatric vocabulary.
14. Skill in use of standard charting signs, symbols and abbreviations.
15. The Recreational Therapy curriculum must include provision for clinical experiences, including clinical education/practicum and clinical internship/field placement, under the direct supervision of a qualified clinical supervisor (CTRS) in an appropriate setting.
16. Clinical education experiences must provide students with opportunities to practice and integrate the cognitive learning and associated psychomotor skills required of the profession, in accordance with professional standards of practice, to develop entry-level clinical proficiency and professional behavior as a Recreational Therapist as defined by professional guidelines for competencies necessary for safe and effective recreation therapy practice.
17. The clinical internship or field placement experience must meet the requirements of the international credentialing organization and laws and regulations for certification, registration or licensure. Competencies for practice as a recreation therapist must be a focus of development during the clinical internship or field placement experience.

REQUIRED TEXT:

TREC 4550 Internship Manual. Lethbridge, AB: University of Lethbridge.

COURSE ASSIGNMENTS AND EVALUATION:

Assignments are to be completed primarily on your own time. Some exceptions may occur due to confidentiality or access to information while on site, but any exceptions are based on relevance and require discussion between the student and supervisor. **Students can expect to spend approximately 3-5 hours per week working on assignments (example: forum posts, service project) outside of their scheduled internship hours.**

The following is a breakdown of how the internship will be evaluated. Please remember that the Internship in Therapeutic Recreation is a Pass/Fail in which students must obtain a GPA equal to or higher than 2.5

Assignment	Value	Dates to be completed
SMART Goals: Develop five (5) SMART goals (3 professional and 2 personal) that are relevant to your placement and the population. Needs to be approved by Agency and Academic Supervisors.	5% of final mark	Goals due End of Week 2, Evaluation due End of Week 14
Service Project: This project is to be decided upon in collaboration with the student's agency supervisor. The project should make a significant contribution to the department and will include a presentation to department, TR team, and staff. Needs to be approved by Agency and Academic Supervisors.	30% of final mark	Draft due End of Week 3 (5%), Update due End of Week 7 (5%), Final due End of Week 15 (20%)
Weekly Online Discussion: Students are required to complete a weekly submission that documents what they completed/learned, what competencies were covered, and how they felt about their experience.	20% of final mark	10 weekly entries Two entries per week (1 original post and one peer response) due at the end of Weeks 3-12 worth 2% per week.
Midterm and Final Evaluation: This mark will be divided between the student's midterm grade and final evaluation by the agency supervisor. The student should be included in the process and a meeting should be scheduled at both dates to go over grades and comments.	45% of final mark	Midterm (Week 8, 10%) Final (Week 15, 35%)

Service Project**(Value 30%)****Due at the end of Week 3, 7, 15**

During the internship, students will take responsibility for a **major** project from inception to evaluation. The project must be useful to the agency and it must provide the student with a new learning experience. Students may work with other staff and their site/agency supervisor in all phases of the project but must be the person primarily responsible for the implementation and evaluation of the service project. Some aspects of the service project can be done on site (based on relevance and discussion with agency supervisor), however students can expect to spend time outside their internship hours working on this project (anywhere from approximately 2-3 hours a week).

Although the planning and implementation of a special event or community outing is an acceptable task for an internship student, it is not considered to be an acceptable service project idea.

The service project needs to connect with a minimum of three sub-tasks of the Job Task Domains (Table 2) according to 2014 CTRS Job Analysis Report (NCTRC, 2017), <https://www.nctrc.org/wp-content/uploads/2019/05/JobAnalysisReport.pdf>

Some ideas for a service project include:

- a Comprehensive Program Plan,
- multiple Specific Program Plans/Protocols,
- an in-depth Case Study of a client/patient,
- a Special Grant for the agency,
- Adoption of a new service delivery model,
- Research Project,
- Volunteer Manual and orientation training,

- Community Recourse Manual and SPP,
- Best Practice Article review and proposal for conference/symposium, etc.

All service projects should connect to relevant research. A review of relevant research must be incorporated to help guide your project.

The Service Project is broken down into different sections to keep you on track:

1. OUTLINE [5%] - Due End of Week 3

A one page, double spaced outline must be approved by your agency supervisor and submitted for approval by the academic supervisor by the end of week 3.

Format:

- Provide a PLAN of how you will reach your goal including a detailed SCHEDULE (1 mark).
- Describe how you will MEASURE the effect or success of your project (2 marks).
- Discuss your chosen method of EVALUATION and any BENEFITS the agency will receive from your project (1 mark).
- List and explain the LINK between your service project and at least three (3) sub-tasks of the NCTRC Job Task Domains (1 mark).

2. UPDATE [5%] - Due End of Week 7

A one page, double space paper that describes the progress of your service project.

Format:

- Detail your progress toward your goal(s); work that has been done so far, reflections, and upcoming presentation ideas (3 marks).
- Describe any adaptations or modifications to your schedule, methods of measurement or evaluation (1 mark).
- Discuss any challenges you have encountered so far. If you do not feel you have experienced any challenges, then indicate what you will do to increase the level of challenge for your project (2 marks).

3. FINAL draft [20%] – Due End of Week 15

- For the final draft, please submit any written materials and presentation slides.
- Your presentation should be 20-30 minutes for the TR department, staff, and any other member of the agency that has interest in attending.
- Included in the evaluation of your service project is the **presentation assessment** (see page 32) for your site/agency supervisor to complete during your presentation and the **special service project evaluation form** (see page 33) to be completed after your presentation.

Goals/Discussion

(Value 5%)

Due at the end of Week 2 and Week 14

Fill out the attached **SMART Goals document** (page 28), sign it, have your site/agency supervisor sign it, and submit it to the academic supervisor by the end of Week 2.

SMART stands for Specific, Measurable, Action-oriented, Realistic, and Time-based. Remember you are to create 3 professional goals and 2 personal goals.

- **Professional goals** are related to your work, duties, and role as a recreation therapy intern (review the NCTRC Job Task Analysis for ideas).

- **Personal goals** are related to you as you grow and develop as a person that will benefit you in your future career (e.g., assertiveness, communication, relationship building, etc.).

At the end of Week 14, complete the **SMART goal evaluation form** (see pages 29-30) with your agency/site supervisor.

Online Discussion

(Value 20%)

Due at the end of Week 3-12

At the end of Week's 3-12 (Sunday's at 11:59pm, MST) you will be required to respond to questions posted on Moodle by the academic supervisor. Each week students are required to make at least 1 original post and 1 peer response regarding the weekly topic. Additionally, students are expected to answer any question or discussion that arise from peers or the academic supervisor. Attached is a **guide to self-reflection** (see page 31) that would be useful for structuring your online submissions. Each week your submissions will be evaluated and given a mark of 0-2%.

Mid-Term and Final Evaluation

(Value 45%)

Due at the end of Week 8 & 15

To assist in ensuring that by the end of the internship, the student is competent in NCTRC's various job tasks, formal evaluations are to occur midway through the internship (week 8) and again at the end (week 15). These evaluations are to be thoroughly discussed with the student and shared with the academic supervisor. By conducting formal evaluations, the student, site/agency supervisor, and academic supervisor will be made aware of student strengths, as well as areas that require more support and guidance for improvement to occur.

Please note that as important as the formal evaluations are, it is also essential that ongoing informal evaluations/feedback are discussed with the student for continual growth and understanding on a day to day basis.

Grading for the mid-term evaluation is as follows:

- Above 80% means you are progressing exceptionally well.
- 70-80% means you are progressing well and that your skills are on track.
- Below 70% means you may need to put extra effort into ensuring you are developing the necessary skills.

Please see the attached **mid-term and final evaluation** (pages 37-43) form to be filled out by the site/agency supervisor and reviewed with the student afterwards. There is also a **student mid-term self-evaluation as well as a final self-evaluation that the student is to fill out regarding their experience** (see page 34-35). The mid-term evaluation is to be submitted to your academic supervisor during week 8 and the final evaluation is to be submitted during week 15.

STUDENT RESPONSIBILITIES:

- Students are responsible to review the University of Lethbridge Therapeutic Recreation (TR) program Handbook found on the TR website <https://www.uleth.ca/healthsciences/tr>
- Students are responsible for the timely completion of all materials indicated in this course syllabus.
- Students must follow the academic regulations and policies laid out in The University of Lethbridge calendar. Students are responsible, in particular, for all sections in 4.c dealing with the Student Discipline Policy – Academic Offenses.
<https://www.ulethbridge.ca/sites/ross/files/imported/academiccalendar/2021-22/Undergraduate-Calendar.pdf>
- Please follow the specific agency policy guidelines for cell phone use.

LATE POLICY:

Late submission of assignments is strongly discouraged. The final mark on any assignment which is submitted late will be reduced by 15% for greater than 15 minutes past the due date and time and 10% for every 24 hours past thereafter. For example, if the mark earned is 85%, and the assignment is submitted 40 hours after the due date, the final mark on the late assignment will be 60%. Because late assignments allow the author more time to develop the work, this policy has been created so as not to penalize those students who submit their work on time. Any assignment submitted greater than 96 hours will receive a zero grade for that assignment.

Emergencies can occur during the term; when this is the case, the implementation of the late policy will be at the discretion of the instructor. Students are encouraged to reach out to the instructor in a timely manner for further information and instruction.

SICK TIME POLICY:

The internship experience should be continuous, uninterrupted and in person. In the case where serious illness or personal emergency causes absence or the inability to attend your placement, this needs to be communicated with your site/agency supervisor and academic supervisor. Additionally, students are expected to follow any policies the agency has regarding student illness/sickness. Any missed hours need to be made up.

COPYRIGHT STATEMENT:

All University of Lethbridge students, faculty and staff must comply with Canadian law and institutional license agreements pertaining to copyright. At the same time, keeping abreast of our copyright obligations and options is a complex task as copyright matters locally and globally are in flux and are likely to remain so for at least the near future.

The University's Copyright website (www.uleth.ca/copyright) is a source of current copyright information that includes:

- answers to common copyright questions (see the [FAQs](#)),
- guidance on whether you need permission or a license to copy a particular work (see the [Copyright Permissions Flow Chart](#)),
- guidance on assessing whether fair dealing may apply to specific instances of copying you wish to undertake (see the [Guidelines for Copying under Fair Dealing](#)), and
- a [permissions look-up tool](#) to help you determine the kinds of copying and other uses permitted by the Library's license agreements covering specific online journals and other online resources.

You are encouraged to contact the University Copyright Advisor (copyright@uleth.ca) for assistance with any copyright questions or issues.

PLAGIARISM STATEMENT:

The University of Lethbridge subscribes to Turnitin.com, a plagiarism detection service. Please be advised that student work submitted for credit in this course may be submitted to this system to verify its originality. Students must be able to submit both electronic and hard copy versions of their work upon request.

ACCOMMODATIONS FOR STUDENTS WITH A DISABILITY:

Reasonable accommodations are available for students who have a documented disability. If you have been diagnosed with a disability, there is no need to face the challenge of University without support. Please contact the Accommodated Learning Centre to set up an appointment at 403-329-2766 <https://www.uleth.ca/ross/accommodated-learning-centre/>. After registering with the Accommodated Learning Centre, your instructor will be notified by a formal letter of any accommodations you require. In addition, students are responsible for requesting accommodations from the instructor at least ***two weeks*** in advance of the evaluation date. The instructor and student are jointly responsible for arranging the resources needed for the evaluation process.

GRADING BREAKDOWN:

The grading system for this course is consistent with that established in the Faculty of Health Sciences, effective May, 2002 (updated June, 2018). This course is a Pass/Fail.

A+, A, or A- is earned by work which is technically superior and shows mastery of the subject matter with considerable evidence of original thinking, demonstrated outstanding capacity to analyze and synthesize, and evidence of extensive knowledge base. Grades in this range are normally achieved by a minority of students. An A+ represents original insight and/or goes beyond course expectations.

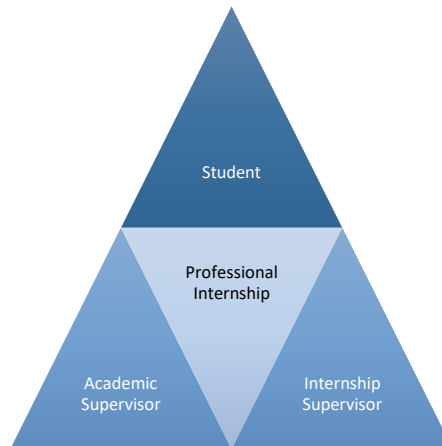

B+, B, or B- is earned by work that indicates a good comprehension of the course material, a good command of the skills needed to work with the course material, and the student's full engagement with the course requirements and activities. Grades in this range are normally achieved by the largest number of students. A B+ represents a more complex understanding and/or application of the course material.

C+, C, or C- is earned by work that indicates an adequate comprehension of the course material and the skills needed to work with the course material; it also indicates the student has met the basic requirements for completion (i.e., all components of an assignment are completed satisfactorily).

D+ or D is earned by work that indicates minimal command of the course materials and/or minimal participation in class activities that is worthy of course credit toward the degree.

Letter	GPA	Percent	Letter	GPA	Percent
A+	4.00	95 – 100	C+	2.30	71 – 74.99
A	4.00	91 – 94.99	C	2.00	67 – 70.99
A-	3.70	87 – 90.99	C-	1.70	63 – 66.99
B+	3.30	83 – 86.99	D+	1.30	59 – 62.99
B	3.00	79 – 82.99	D	1.00	55 – 58.99
B-	2.70	75 – 78.99	F	0.00	0 – 54.99

Who's all involved in the internship/practicum experience?

The student's internship is supported by an interdependent relationship among the student, the academic supervisor, and the internship agency/site supervisor. Transparent open communication needs to take place between all involved. This is especially relevant if there are major changes taking place regarding the internship, uncertainties or questions about the internship process, or issues that are arising. By having open communication between student, internship supervisor, and academic instructor, additional insight/perspective can be provided, potentially negative situations can be mitigated before progressing further, and additional support/guidance with the internship process can be provided. In addition, each party has defined responsibilities (see below), which work together to help ensure a successful internship experience.

STUDENT RESPONSIBILITIES

Before the Internship (12 – 1 months prior)

- Reflect on what population, setting, agency, and geographic area you wish to complete the internship. Work with the academic supervisor and other resources to locate possible internship sites. Complete the Pre-Internship Placement Survey (<https://www.ulethbridge.ca/healthsciences/practicum-therapeutic-recreation>)
- Review and familiarize yourself with NCTRC Standards and the Student Internship Guide (nctrc.org).
- Prepare a current and up-to-date resume and cover letter with list of references.
- Thoroughly review the University of Lethbridge's Internship Manual.
- Start looking for CTRS supervisors in your preferred location and who works with your preferred population.
- Complete an application for internship to a specific agency. Prepare for your interview.
 - The agency will contact you for an interview.
 - Once interviewed you will be contacted by the agency if you are a successful candidate.
 - It is highly recommended that you provide the agency a response regarding your acceptance no later than 1 week after being contacted by them. Although you may have more than one potential option, it is important to be decisive and timely as this reflects on your professionalism and allows the agency time to plan accordingly.
- Confirm internship experience by completing Internship Agreement (see pages 26-27).
- Complete required documentation and UofL consent form (<https://www.ulethbridge.ca/healthsciences/practicum-therapeutic-recreation>), and review any agency specific prerequisites for internships.

- Inquire about the agency's dress code by contacting the site/agency supervisor in advance and be sure to inquire about the working schedule and any other questions you may have.
- Prepare a personal budget to make certain you have the finances to support participation in the internship for 15 weeks.
- Ensure you have adequate accommodations set up for you during your internship.

During the Internship

- Each student is recommended to obtain a copy of the agency/site supervisor's active CTRS credential on the 1st day of the placement (NCTRC, 2019).
- Conform to policies, procedures and expectations of the internship agency. If there is a policy or procedure you have a particular concern about, speak to your site/agency supervisor and your academic supervisor. Complete the Confidentiality Agreement and Crisis Support Plan (see page 25).
- Attend placement as scheduled and inform the site/agency supervisor and academic supervisor in advance of any anticipated absence. Remember missed days could result in missed hours that have to be made up. In some instances, missing hours (and not being able to make them up within the term) can result in the student being required to repeat the internship. If ever unsure, contact your academic supervisor to discuss your situation if you are having to miss hours/unable to attend your placement.
- Create a relationship with your site/agency supervisor as soon as your internship begins. Establish and maintain good communication with your site supervisor. Let them know how you would like to receive feedback and assure them that you appreciate it. Discuss concerns with staff quickly when problems arise.
- Record time spent at the agency daily and ensure that the time log is regularly reviewed by the site/agency supervisor on a weekly basis (page 36).
- Present yourself as a professional at all times in dress, work quality, and attitude.
- Demonstrate interest in clients/patients, their families, staff, program ideas and school events and procedures.
- Ask questions at an appropriate time and in an appropriate place. Try to organize a consistent time and place to discuss the days/weeks events with your site/agency supervisor.
- Complete all assignments, weekly log sheets, journal entries, and documents/assignments as required by the Therapeutic Recreation program.
- Discuss activity plans with the site/agency supervisor both prior to and following the activity.
- Initiate the evaluation process by giving your site/agency supervisor the evaluation and asking when would be a good time to sit down and review it together.
- Near the end of the placement, remind the site/agency supervisor of when your last day is scheduled.
- Thank your site/agency supervisor and all staff that you have worked with.
- Keep in touch with your site/agency supervisor following the internship in a friendly and professional manner.

SITE/AGENCY SUPERVISOR RESPONSIBILITIES

Before the Internship

- Reflect on the process of taking a student. Make sure you have the time and ability to provide competent and ethical clinical supervision and mentoring of the student.
- Enter into an affiliation agreement with the academic institute if one does not exist.
- Discuss student selection criteria, agency expectations, policies and procedures, internship termination procedures, and goals prior to reviewing student's applications.
- Review resumes and cover letters of students applying for internship under your supervision and guidance.
- Prepare to interview student(s) for the internship opportunity at your agency.
- Start to develop a structured, sequential learning experience (see example timeline on pages 5-6)

During the Internship

- Show the student around the agency, introduce her/him to the patients/clients and other staff and discuss your program philosophy, schedules, policies and procedures, as well as the expectations you have for the student.
- Prepare the students to have agency specific identification badges and keys if applicable.
- Model professional standards of TR scope of practice in accordance with your provincial association and/or CTRA.
- Discuss your approaches with clients/patients and provide opportunities for the student to try out approaches with you close by.
- Review the Internship Manual thoroughly. Ask questions to students or academic supervisor if needed.
- Review learning objectives and make sure objectives are met.
- Show an interest in the student's experiences and questions. Provide regular, honest feedback; this is essential in the learning process.
- Take time to preview student's activity plans prior to implementation and provide feedback.
- Assist the student in networking within the agency and in the community if applicable.
- Take part in the evaluation process by completing the evaluation forms and discussing the results with the student. Regular communication will eliminate any surprises at evaluation time.
- Support the student's learning by recognizing that learning comes in all forms and there is often more learning from mistakes than successes. Allow her/him to try out new ideas, within reason, and encourage problem solving.
- Consult with the academic supervisor regarding the student's performance.
- Complete all paperwork in a timely manner and submit all forms to the academic supervisor.
- After the internship, recover agency property (keys, ID, etc.), provide letter of reference if requested by student, and maintain file of student in order to claim CEU credit for supervision.

Important note regarding students working with clients not part of supervisors designated caseload of clients, but still within the same internship agency:

- The student is to work closely with their supervisor and be provided supervision/guidance in working with their designated caseload of clients throughout the internship. If their agency supervisor feels that there

is a potential benefit for the student in working with clients (providing direct client care) who are not part of the supervisors' direct client caseload, then this needs to be discussed with the student and the academic supervisor. This may be relevant later on in the 4-month internship (not early in the internship / not prior to the mid-term evaluation). Basic guidelines regarding what needs to take place for this to occur include:

- The students' academic supervisor is aware of the plan and consents to the plan
 - The student is familiar with the location, risk factors, emergency plan and has the knowledge and skills to manage an unexpected situation
 - The student is aware of and trained properly to any departmental working alone standards and has completed hazard identification, assessment & control (HIAC) process
 - The student is able to reach their agency supervisor at any time if needed.
 - The risk assessment by the agency supervisor determines the situation as low risk patient, low complexity offsite intervention and high student skill/confidence
- Students can observe/shadow other disciplines and other recreation team members within the agency. Since they are not providing direct client care, this is welcomed to take place early on in the internship and does not need to be discussed with the academic supervisor unless there are concerns or questions regarding this.

ACADEMIC SUPERVISOR RESPONSIBILITIES

- Prepare students for the internship experience by arranging and organizing resources, information, and guidelines for the experience.
- Assist students in the selection of appropriate agency sites that meet the requirements of the program and NCTRC Standards.
- Consult with the site/agency supervisor about the process, provide them with the internship manual, and complete an affiliation agreement.
- Assign academic work to be carried out in the internship that will support the student's development.
- Conduct a fieldwork site visit (or a thorough phone discussion if a site visit is geographically impossible): This is meant as an opportunity to discuss concerns, observe and evaluate the internship progress, and ensure that the student is on track.
- Internship termination: This is a last resort as there are several early intervention strategies to help prevent this. If there is difficulty with a student's performance, the academic supervisor will conduct the following:
 - Document noted concerns/difficulties
 - Communicate the concerns to the student (and collaborate possible strategies and goals for improvement). Involve and communicate the concerns with the internship supervisor if necessary.
 - Set a time and date to re-assess the student's progress
- Communicate to both the student and the site/agency supervisor insights into how the student is performing.
- Be available to the site/agency supervisor if student concerns arise.
- Collect evaluations, grade assignments, and maintain a record of student's internship.
- Submit a final internship (Pass/No Pass), which takes into consideration the site/agency supervisors' evaluation of the student, the academic supervisor's own assessment and student's completed work.

HELPFUL TIPS FOR STUDENTS

Making the most of your internship experience

Take the time for self-awareness:

- Reflect on ethical considerations, personal values, beliefs, and biases
- Define your strengths and areas to grow on
- Become aware of your own signs of personal stress and burnout and ways to overcome them

Take the time to really know and understand your agency/field site:

- Know the mission and vision of the organization
- Get to know the different programs, services, and resources of the site
- Understand your role within the field site
- Get to know the community in which the site serves

Self-care

- Be conscious of personal signs and symptoms of undue stress and burnout and know when and how to discuss this with others if you need to
- Develop effective coping strategies to relieve stress and maintain lifestyle balance (work, social, and home life)
- Take the time for self-reflection
- Practice self-compassion

Feeling empowered

- Take the time to be critical about your personal perspectives and opinions
- Trust yourself and your instincts
- Take the time to create your own individual identity as an educated and trained professional
- Know your values

Other Tips:

- Accept learning as a lifelong process
- Continuously accept new challenges and experiences
- Accept both positive and constructive feedback as an opportunity for growth

Appendices

FREQUENTLY ASKED QUESTIONS

Q: When is a student eligible for the internship course?

A: An acceptable internship must be completed after all required therapeutic recreation, support, and elective coursework is completed.

Q: How long is the internship?

A: The internship experience will take place over a 15-week period. The total minimum number of required hours is 560.

Q: How do students select their internship sites?

A: With the assistance of the internship coordinator and internship specialist, students will select potential internship sites and may or may not be asked to make initial contact with the agency. Once an internship agreement is complete, the student submits the agreement form to the academic supervisor for final approval.

Q: When may students look for internship sites?

A: Students are encouraged to begin researching possible internship sites once they have completed 10 courses or 30 credits.

Q: Who qualifies as a site/agency supervisor?

A: According to NCTRC, an acceptable internship must have one (1) identified primary supervisor. The primary supervisor is responsible for working with the student on a consistent basis, coordinates all other secondary supervision and completes all evaluation materials and weekly reports pertaining to the internship experience. Individuals must have had their CTRS credential for one year minimum to supervise. You can go to www.NCTRC.org and place the supervisor's last name there and see if they have had their credential for 1 year.

Q: Can students get paid for their internship?

A: Typically, the internship is unpaid. The agency is not required to arrange living quarters for students or defray student living expenses while they are engaged in the internship; however, there are some that may partially cover expenses or allow for a stipend to be given to the student. Students are also responsible for parking, transportation, insurance, and other costs associated with the role.

Q: How will students be evaluated and graded?

A: Students will receive a pass/fail upon completion of their internship experience. The grade will be based on the agency supervisor's evaluation and satisfactory completion of assignments. Students are required to achieve a minimum final GPA greater than 2.5 in order to attain credit for TREC 4550.

Q: Can students complete an international internship?

A: Students must have a minimum cumulative GPA of 3.0 and submit a Letter of Intent written by the student about why they are interested in this experience, 3 Letters of References (supervisors, employers, faculty, clergy, etc.), and an interview with Faculty and Internship Coordinator. ****This is currently on hold for Fall 2022 internships.***

Code of Ethics (Alberta Therapeutic Recreation Association, 2018)

The Recreation Therapist:

- is obligated to be competent in the service of defined Standards of Practice for Therapeutic Recreation.
- is committed to the continuous task of learning and self-improvement, to increase individual effectiveness as a professional.
- encourages the trust and confidence of the client and others through professional conduct and appearance.
- encourages and participates in projects or research aimed at upgrading professional services, and communicates the results of these efforts.
- acknowledges inherent human rights guaranteed by law and treats each client with dignity and respect.
- recognizes the client has the right to accept or refuse any therapeutic recreation service recommended to him/her.
- responds to requests for information and education. Requests are referred to appropriate sources when information is beyond the resources of the therapist or agency.
- will conduct all programs with due regard to the safety of the client, other clients, colleagues, and himself/herself.
- is obligated to preserve and protect the confidentiality of any information, either medical or personal, acquired through professional contact with the client, except where disclosure of such information is necessary to the service or treatment of the client, or is a legal requirement of the courts.
- functions as a cooperative member of a treatment team for the delivery of effective health care.
- serves as an advocate for Therapeutic Recreation by promoting the purpose, values, and ethics of the profession.

STUDENT, AGENCY, AND UNIVERSITY INTERNSHIP AGREEMENT

Policies and Guidelines

Supervision

Supervisors initials _____

1. The student's immediate on-site agency supervisor is in a regular position, employed in Therapeutic Recreation/Recreation Therapy by the agency and is currently certified by NCTRC at the Therapeutic Recreation Specialist Professional Level.
2. The student's agency supervisor is their immediate supervisor during the internship experience. Current certification indicates that the supervisor is "actively" certified from the date the student begins the internship experience through the date of completion.
3. Daily contact between the agency/site supervisor and the student is highly desirable. In addition, the agency/site supervisor and student agree to meet regularly to discuss student goals and objectives, performance and training and provide on-going mentorship.

Student

Students initials _____

1. Student will register for TREC 4550 (X or XA) – Practicum in Therapeutic Recreation.
2. The student will abide by the policies and procedures of the agency, including those dealing with patient confidentiality. Students will prepare and send to their academic supervisor all written requirements as outlined in the course outline.
3. The student is responsible for keeping informed and for following through on details relating to the fulfillment of any requirements expected of him/her regarding graduation.

Additional Concerns

1. A midterm and a final evaluation report form will be provided by the student at the beginning of the term with the identified deadlines. The agency/site supervisor will discuss the results of the evaluations with the student, have the student sign the forms and the agency supervisor will return the evaluation form within the designated time period to the academic supervisor.

Liability

1. While enrolled in the internship component of their University program, students are covered under Workers' Compensation Board of Alberta. Students will be covered under the extension of the student coverage for students attending the University of Lethbridge as defined in the Post-secondary Learning Act (under (Section 7(1) (c) of the Alberta Workers' Compensation Regulations).
2. Students are responsible for their own automobile and property insurance.
3. Students are also covered by the University of Lethbridge's liability insurance policy and errors and omissions policy.

SMART GOALS

Prepare a minimum of five (5) SMART goals to achieve during your internship experience. Review the five goals with your site/agency supervisor before submitting them. **Due at the end of Week 2.**

Specific – What are the specific things you want to learn or improve at? When? Where? What?

Measurable – Statements need to be specific enough to measure effectively. Consider how you will enable the outcome when preparing the goals.

Action oriented – What’s your plan to make the goal a reality?

Realistic – Realistic objectives are those that are within your potential knowledge, skills/ability, & needs.

Time bound – There must be an end date to your goals.

Professional Smart Goal (needs to directly relate to TR service). Example:

By the end of Week 6, I will have completed 3 TR assessments on 3 different clients/patients with minimal assistance from my site/agency supervisor.

Personal SMART Goal (Directly or indirectly relates to TR, must be related to your growth as a person that will benefit your future career in TR). Example:

By the end of Week 8, I will have developed my organizational skills by spending 30 minutes at the end of each day to update my agenda and organize my daily priorities and to do lists.

1. Professional SMART Goal:

2. Professional SMART Goal:

3. Professional SMART Goal:

EVALUATION OF PROFESSIONAL AND PERSONAL SMART GOALS

Student Name: _____

At the beginning of the internship, five (5) SMART goals were identified – some of these may have been related to specific project assignments, and others were related to personal learning goals to be achieved during the internship. It is best if there is discussion between the agency/site supervisor and student about the progress made regarding these goals before this evaluation form is completed. To be filled out by agency/site supervisor.

Please briefly state each of the basic goals, then assess the student achievement within each established professional and personal goal and objectives based on such factors as:

- Satisfactory progress toward achievement of goals
- Evidence of successful completion or achievement
- Changes made to original targets or projected outcomes
- Achieved targeted dates and outcomes
- Assessment of why targets were not met
- Plans developed for changing or overcoming obstacles to ensure targets were met

GUIDE TO SELF-REFLECTION

Reflective practice is a valuable tool in your growth as a recreation therapist. During your learning experience, it is important to reflect about on the job experiences of your day or week. Writing allows you to think about what you did, how you performed, what you learned from the experience and what you would do in a similar situation.

You are asked to complete ten (10) self-reflection forum posts for weeks 3-12 [one reflection per week]. Additionally, students are required to post a response to at least one of their peers posts each week. Each week, your original reflection post, and your peer response are due Sunday's at 11:59pm MST/MDT. You are also expected to respond to any question or discussion that arise from peers or the academic supervisor. This will enhance the forums and provide a chance to stay connected to your peers. The questions will focus on the internship experience and your reflection on your own experiences. Each week your submissions will be evaluated and given a mark of 0-2%.

Mark	Description	Indicators
0	Non reflective	The original forum post and peer response in the learning discussion is either irrelevant to the question or no entry is written for the question.
1	Minimal insight on thinking and acting	The original forum post and/or peer response states common sense thinking and acting which was derived from habitual or routine action. It is intuitive and pre-reflective. No further reasoning or explanation is given to the entry.
2	Thorough reflection and self-improvement	The original forum post and peer response demonstrates a more self-reflective grasp of the nature of the knowledge, how knowledge functions in action and how it can be applied to various practical applications. It could also show the transformation of the writer's thinking or beliefs.

DOCUMENTATION OF INTERNSHIP

Job Analysis Task Domains: An acceptable internship is defined by the therapeutic recreation process as delineated in the NCTRC Job Analysis Task Areas. The NCTRC Job Analysis Task Domains are:

- | | |
|--|---|
| A. Professional Relationships and Responsibilities | F. Document Intervention Services |
| B. Assessment | G. Treatment Teams and/or Service Providers |
| C. Plan Interventions and/or Programs | H. Develop and Maintain Programs |
| D. Implement Interventions and/or Programs | I. Manage TR/RT Services |
| E. Evaluate Outcomes of the Interventions/Programs | J. Awareness and Advocacy |

Instructions: In the table below, list the weekly dates and daily hours under each day of each week. List total weekly hours in the second to last column and record the Job Analysis Task Domains you worked on that week in the final column. You must submit a copy of your internship time logs if a range of hours per week is provided.

Note: Internship students follow the schedule that the agency CTRS supervisor works. For example, if the agency CTRS supervisor works from 8-4:30 (8 hours), but actually works and gets paid for 7.5 hours due to an unpaid 30 minute lunch break, then the student would also count 7.5 hours (not 8 hours).

EXAMPLE

Therapeutic Recreation Internship Evaluation Form

University of
Lethbridge

Faculty of Health Sciences

INTERNSHIP EVALUATION

A benchmark for any profession is its ability to routinely monitor its own practice through an ongoing process of self-regulation. Paramount to this process is the establishment of a credentialing program that enabled the profession to safeguard consumers by stating who is competent to practice. The establishment of a valid job analysis is essential to the integrity of a credentialing program and an exam program.

In 2014, NCTRC completed its fourth Job Task Analysis study. The list of tasks below is the current tasks performed by the Therapeutic Recreation Specialist. These job tasks represent the therapeutic recreation process and will be the basis of the Internship Evaluation. Certain questions were omitted as they are not applicable for students in the internship experience.

Mid-term assessment (Week 8) Final assessment (Week 15)

Student Intern: _____ **Date:** _____

Agency: _____ **Supervisor:** _____

Performance Evaluation Criteria

Professional Relationships and Responsibilities				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Establish and maintain effective working relationships				
Create and maintain a safe and therapeutic environment				
Participate in in-service training and staff development				
Maintain knowledge of current TR trends (i.e., methods, issues)				
Support the development of evidence-based practices				
Adhere to professional standards of practice and code of ethics				

Assessment				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Request and secure referrals/orders				
Obtain and review pertinent information about clients				

Select/develop assessment methods/setting				
Establish therapeutic relationship				
Conduct assessments				
Analyze/interpret results				
Integrate/record/disseminate results				

Planning Interventions and/or Programs				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Discuss results of assessment with client, team, family, etc.				
Develop/document intervention plan with goals/outcomes				
Develop/select interventions/approaches				
Develop/select protocols for 1:1 or group settings				
Utilize activity/task analysis prior to interventions/programs				
Select adaptations, modifications, or assistive tech.				

Implement Interventions and/or Programs				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Explain purpose/outcomes of the intervention/program				
Implement individual and/or group session(s)/program(s)				
Use leadership, facilitation, and adaptation techniques				
Monitor/address safety concerns throughout intervention/program				
Observe responses to intervention/program of clients				
Monitor effectiveness of intervention/program				

Evaluate Outcomes of the Interventions/Programs				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Evaluate changes in clients functioning				
Determine effectiveness of individual intervention plan				
Revise individualized intervention plan				
Evaluate for additional/alternative/discharge of services				
Determine effectiveness of protocols/programs				

Document Intervention Services				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Document participation and/or adherence to the intervention				
Document behavioural observations				
Document occurrences relating to risk management				
Document protocols and/or modalities				
Document program effectiveness				

Treatment Teams and/or Service Providers				
Job Task	Demonstrated Competency	Developing Competency	Not Yet Demonstrated	Examples/Comments
Identify the treatment team and community partners				
Provide information to team/community partners about TR services/outcomes				
Communicate information to team in a timely manner

Evaluation—Personal and Professional Qualities of Student

Please ensure to be as detailed as possible with describing student strengths and improvements needed.

I -Major strengths observed at the present time:

II -Most important improvements needed at the present time:

FINAL EVALUATION GRADE SHEET

*** Based on the experience to date, is _____ (student's name) capable of undertaking the responsibilities of an entry level professional?**

Yes

No – If no, please comment: _____

Student Intern's Signature _____

Site/Agency Supervisor's Signature _____

Academic Supervisor Signature _____

*** THIS SECTION (FINAL EVALUATION GRADE SHEET) IS INCLUDED ONLY IN THE FINAL EVALUATION**

Consent for Collecting and Disclosing Student Information and Acknowledgment of Procedures for Practicum Placement

This consent form outlines the process for collecting and sharing personal student information within the Faculty of Health Sciences as well as with prospective practicum agencies. Any questions about this form can be directed to the Internship Specialist (403-329-2576).

Last Name	First Name	Middle Initial
University of Lethbridge Student ID Number		

PLEASE READ THE FOLLOWING BEFORE SIGNING BELOW

Regarding collection and disclosure of my personal information, by signing this form:

- I authorize the Faculty of Health Sciences to collect and disclose information about me with administration, faculty, and support staff, practicum site administration, teaching and support staff, and others as appropriate. Types of information may be information about my name, practicum placement requirements, learning needs and goals, and other information, as appropriate, for my success in the program.
- I understand that this consent is valid for the period leading up to practicum placement, and placement process.

Regarding acknowledgement of procedures, by signing this form:

- I acknowledge my receipt and understanding of the terms and conditions of the major as outlined in the Student Handbook, Course Syllabi, and University of Lethbridge Calendar.
- Further, I understand that failure to meet requirements (e.g., health requirements, police information check, current First Aid and CPR, or any additional documentation that is required by program/agency) for practicum placement may result in my practicum placements not being facilitated.

Protection of Privacy - The personal information requested on this form is collected under the authority of Section 33 (c) of the Alberta Freedom of Information and Protection of Privacy Act ("Act") and will be protected under Part 2 of the Act. The information is collected for the purpose of practicum placement processes. If you have any inquiries in regards to the collection of your personal information, please direct those inquiries to: FOIP Coordinator, University of Lethbridge, 4401 University Dr. West, Lethbridge, Alberta T1K 3M4, telephone: 403-332-4620, email: foip@uleth.ca.

TO: THE GOVERNORS OF THE UNIVERSITY OF LETHBRIDGE (THE "UNIVERSITY")
INFORMED CONSENT, RISK ACKNOWLEDGEMENT & INDEMNITY AGREEMENT

WARNING: By signing this document you indicate that **you understand the risks** associated with the Course activities and that you are aware that by registering in the course and attending its off-site activities **you are being exposed to the risks** identified below. **It gives the University authority to secure medical assistance for which you agree to be financially responsible.** You are also agreeing to assume financial responsibility for any damage to other parties to which you are legally liable.

PLEASE READ CAREFULLY!

Participant Name: (Please Print) _____ Student ID#: _____

Address of participant: _____ Semester: _____

THE COURSE:

Enrollment in _____ (course) at the University of Lethbridge involves the opportunity for students to work with individuals, organizations, or community groups to demonstrate and meet the core competencies and/or course requirements of their respective program in a practical work environment. Students are further required to arrange their own transportation to attend the off-campus practicum setting(s), all hereinafter collectively referred to as "the Program".

ASSUMPTION OF RISKS:

Prior to signing this agreement, I understand and agree that there are hazards and risks inherent to my participation with the Program and its off-campus course activities, any of which could cause me bodily injury or permanent disability or loss of life and/or loss or damage to my property: These include but are not limited to:

- a) Travel and transportation by all modes and types and risk of motor vehicle collision, mechanical failure, and human error;
- b) Risks and hazards associated with other premises, their operations and acts or omissions of others;
- c) Potential for theft, vandalism, damage, or loss of personal property; and
- d) Risk of exposure to pathogens including those of Covid-19 and its variants and the contraction, transmission, or lingering effects of disease.

In consideration of the UNIVERSITY accepting my course registration in the Program and permitting me the opportunity to participate in the Program activities, I hereby agree:

1. That the University or the off-campus placement site may summon such medical advice and services as it, in its discretion may deem necessary for my health and safety and I shall be financially responsible for such advice and services. I also appreciate that as a student enrolled in the course that I may have certain benefits under the auspices of Alberta Learning and worker's compensation; and
2. That if I am supplying my own equipment or driving myself for the off-campus course activities, that I am responsible for ensuring that my property is secure, maintained and adequately insured to cover off any liability, loss or damage and appreciate the University of Lethbridge accepts no responsibility for any liability, loss or damage resulting from any use or misuse therein; and
3. **I agree TO HOLD HARMLESS AND INDEMNIFY** The Governors of the University of Lethbridge from all liability for any damage to the property of, or losses or personal injury to any third party resulting from my participation in the off-campus course activities for which I am legally liable and to which the University's insurance program does not extend coverage to.

I CONFIRM THAT I AM 18 YEARS OF AGE OR OLDER, THAT I HAVE HAS SUFFICIENT TIME TO READ AND UNDERSTOOD THIS AGREEMENT AND THAT I AM AWARE BY SIGNING THIS AGREEMENT I AM ACCEPTING FINANCIAL RESPONSIBILITY FOR ANY PERSONAL PROPERTY EXPOSURES, MEDICAL ASSISTANCE THE UNIVERSITY or PLACEMENT SITE MAY DEEM NECESSARY FOR MY HEALTH AND SAFETY AND ALSO FOR ANY DAMAGE TO THIRD PERSONS OR THEIR PROPERTY THAT I MAY CAUSE.
