AMWC Asia 2019 (Taiwan)
is **COMPLIANT** with the **MedTech Europe
Code of Ethical Business Practice**
Event reference: **EMT14390**

Dear Colleagues and Friends,

Following the great success of the 1st AMWC Asia in 2018, the collaboration between EuroMediCom and the Taiwan Dermatological Association Conference (TDAC), & the Taiwan Society for Dermatological and Aesthetic Surgery (TSDAS) has been renewed, with the 2nd edition taking place this year.

It is our great honour to welcome you to the **2nd AMWC Asia taking place alongside the 7th Taiwan Dermatology Aesthetic Conference on 10-11-12 May 2019 in Taipei, Taiwan.**

The organizers of AMWC Asia-TDAC aim to bring the best speakers from Taiwan, Asia and around the world to share their best practices, knowledge and skills.

Moreover, Taipei is a strategic location for AMWC Asia-TDAC, as it is one of Asia's most advanced and modern cities, with a well-developed anti-aging and medical aesthetic market. The geographical location also leverages dynamic growth in both China and Southeast Asia.

AMWC Asia-TDAC will focus on top-notch scientific content, including live demonstrations and practical knowledge sharing, and will bring together doctors and aesthetic practitioners from all over Taiwan and the region. AMWC Asia-TDAC is poised to become one of the best platforms in Asia for medical aesthetics.

We look forward to seeing you in Taipei.

ADVANCED INJECTABLES: CUTTING-EDGE TECHNIQUES BY MAESTROS VS POTENTIAL OF AI

ROOM 201ABC - Level 2

COURSE DIRECTORS

Dr. WANG Chao-Chin

Dr. WANITPHAKDEEDECHA Rungsima

Overview

This full day comprehensive pre-congress course is dedicated to **those who wish to advance both the knowledge and techniques** in the **field of injectables**. The attendees will have the opportunity to learn:

- **The latest updates** of injectables techniques and **the advanced knowledge** of practical anatomy
- **When to go beyond injectables** for difficult cases and what would be **the optimal practice**
- **Unparalleled learning experience** from maestros in holistic **patient assessment, planning of treatment and close observation** of their cutting-edge techniques of treatment

This course will further examine **the future of Artificial Intelligence (AI)** in aesthetic medicine through in-depth discussions:

- **Patient assessment** using commercially available AI technology with a **debate on its impact, benefits until possible aid** in our practice
- **Head-to-head comparison of the assessment and simulated result of treatment** between human maestros and AI

PHLEBOLOGY WORKSHOP

ROOM 201D - Level 2

COURSE INSTRUCTORS

Dr. CHANG Yao-Yu

Prof. YANG Jason Chih-Hsun

Overview

This workshop will provide an overview introduction to the main principles of phlebology and sclerotherapy of varicose veins.

After completing this workshop, participants will be able to describe the anatomy of venous reflux, identify the advantages and disadvantages of various sclerosing agents and foaming technique, and identify leg veins, spider veins, and truncal varicosities.

The ultimate goal is to enable clinicians to determine the appropriate use of sclerotherapy, laser, phlebectomy, or endovenous ablation for each patient. Instructors will perform live demonstrations of patient evaluation, sclerosing foam production, spider vein injection, and ultrasound-guided injection techniques.

Participants will have the opportunity to perform ultrasound exams and practice sclerotherapy on simulation pads.

Moderators: YANG Jason Chih-Hsun

9.00 - 9.20 **LOWER LEG VENOUS ANATOMY & PATHOPHYSIOLOGY** • CHANG Yao-Yu, Taiwan

9.20 - 9.40 **DUPLEX ULTRASOUND EXAMINATION** • CHANG Yao-Yu, Taiwan

9.40 - 10.10 **HANDS-ON: ULTRASOUND EXAMINATION** • All Faculty

10.10 - 10.30 **SCLEROTHERAPY** • CHANG Yao-Yu, Taiwan

11.00 - 11.20 **COMPLICATIONS OF SCLEROTHERAPY** • CHANG Yao-Yu, Taiwan

11.20 - 11.50 **HANDS-ON SCLEROTHERAPY** • All Faculty

11.50 - 12.10 **ENDOVENOUS PROCEDURES OVERVIEW** • YANG Jason Chih-Hsun, Taiwan

12.10 - 12.30 **WHAT'S NEW IN ENDOVENOUS PROCEDURES** • YANG Jason Chih-Hsun, Taiwan

13.30 - 17.30

NAIL BRACE WORKSHOP

ROOM 201D - Level 2

COURSE COORDINATOR

Dr. LEE Yung-Yi

Overview

Nail brace is a non-invasive treatment modality for patients with ingrown nails. The less invasive strategy is a trend in medicine. It provides an option for people who are afraid of nail surgery itself or complication brought by operation.

Why do we consider nail brace for ingrown nails?

Simple nail avulsion is mostly performed by many general surgery physicians. However, it will cause a high recurrence rate. Combination of nail avulsion and adequate matricectomy can achieve a satisfying outcome. However, patients with underlying diseases including diabetes, venous insufficiency, or cardiovascular disease under anti-coagulant medication are worried about poor wound healing. In addition, some patients are nervous about nail surgery, especially among children.

What can I expect from the training course?

You will get the full knowledge about ingrown nails and concept of nail brace. Based on the information, you can explain the nail brace well to your patients. Afterwards, experienced doctors will help you to install the nail brace hand by hand. After the workshop, you can get the certificate of participation.

What type of hands-on material will the course provide?

We will prepare the instruments and provide you one set of free metal wires. Participants will practice installing the nail braces each other.

13.30 - 13.45 **THE CAUSES AND DEVELOPMENT OF INGROWN NAILS** • LEE Yung-Yi, Taiwan

13.45 - 14.00 **SURGICAL TREATMENT OF PARONYCHIA** • WU Jennifer, Taiwan

14.00 - 14.15 **CONSERVATIVE TREATMENT OF PARONYCHIA** • CHANG Chih-Hao, Taiwan

14.15 - 14.30 **THE CONCEPT OF DIFFERENT NAIL BRACES** • CHEN Yi-Chin, Taiwan

14.30 - 15.00 **THE PRACTICAL STEPS AND TIPS OF NAIL BRACE** • TSENG Jonathan Te-Peng, Taiwan

15.00 - 15.15 **COMBINATION THERAPY BETWEEN NAIL BRACE AND OTHER TREATMENTS** • HUANG Ching-Yu, Taiwan

15.15 - 17.30 **HANDS-ON: NAIL BRACE INSTALLATION** • LEE Yung-Yi, WU Jennifer, CHANG Chih-Hao, CHEN Yi-Chin, TSENG Jonathan Te-Peng, HUANG Ching-Yu

- Dr. KO Jenq-Yuh
- Dr. WANG Chao-Chin
- Dr. YANG Ting-Hua

Overview

This full-day hands-on anatomy workshop is dedicated to **medical doctors who wish to master the practical anatomy for minimally invasive aesthetic procedures**, including **injectables and thread lifts**.

The course begins with **lectures covering the vital anatomy structures for aesthetic procedures**. World-class faculties will deliver different perspectives of anatomist and clinicians. Pearls for safe injection by anatomical zones and different thread-lifts system will be discussed.

Attendees will have ultimate, risk-free, hands-on experience in this workshop. They will **perform injection of fillers on 3D simulation model** which automatically identifies the correct plane of injection. They will also **practice fillers injection and thread insertion on cadaver head**, followed by **live dissection to reveal the true result of practice**.

Optimal anatomical plane of treatment remains **the fundament to safe and successful minimally invasive aesthetic procedures**. By taking part in this course, attendees will be able to **practice and refine their technique** in these procedures with **the guidance of experts**.

Why TAIPEI?

Symbol of a free and vibrant democracy, Taipei is a fascinating metropolis with several million inhabitants that invites you into a world of amazing contrasts: a mix of the modern and traditional, with a generous dash of energy and friendly smiles. With a strong tendency to adopt the "LOHAS" (Lifestyle Of Health And Sustainability), Taipei is a wonderful city with more than 10,000 aesthetics practitioners, allying business opportunities and a highly-educated population (half of the population speaks English). Apart from advanced medical technology well-known around the world, the city of Taipei also includes a number of important associations and committees of medical aesthetics professionals working together.

Moreover, Taiwan has the 3rd largest number of hospitals in the top 200 list, with 14 Taiwanese hospitals appearing on the list. In this unique environment, the AWMC, a must-attend event, benefits from special expertise with a quality Asian approach.

Be one of the 2,500 expected attendees for this 2nd AMWC Asia edition, already known as THE event of the year and make your trip to Taipei a most memorable journey.
