ENVIRONMENT PROTECTION BIODEGRADABLE

FOOD GRADE AND SAFE SHAPE

AND COLOR CAN BE CUSTOMIZED

CORE ADVANTAGE

1. Certificates: QS, BRC(A-Grade),BPI,OK-compost,FD,E13432,STM6868.
2. Microwave Sterilization: Comprehensive and in-depth disinfection, more environment friendly products.
3. Metal Detector:No Metal,Safety Usage.
4. ERP Tracking: Products and traceability..

FROM NATURE BETTER THAN NATURE

ABOUT US

We are a professional supplier specializing in the production of environmentally friendly paper pulp packaging and industrial green packaging. The factory is located in China. Our company was established in March 2018 and mainly produces once Environmentally friendly bagasse pulp molding products, the existing production line includes lunch boxes, trays, bowls, dishes, currently has business in many countries in Europe, America, Southeast Asia and South America. Welcome customers from all over the world to visit us and sincerely hope to cooperate with you.

08 CUSTOMIZATION

- A** Take present wheat straw true color straw of wheat material, straw
- B** Does lead and not chromium contain chemical contained additives in other such tableware
- C** Environmentally food grade, can directly friendly contact material, with food
- D** Wheat straw material will degrade on its own

Coating

PLA

Poly lactic acid, is a new type of bio based and renewable biodegradable material

PP

Polypropylene is white, translucent and waxy when uncolored.

It has heat resistance, melting point 165 °C, softened at 155 °C, and used at -30 °C -- 140 °C

PET

Polyethylene terephthalate, very transparent.

Usually be used in mineral water bottles, carbonated beverage bottles, etc. heat-resistant to 65 °C, cold-resistant to -20 °C and

easy to deform when temperature up to 70 °C

Chromophore can be added to form colored film
