College of Engineering

121ST COMMENCEMENT

San Diego State University

121ST COMMENCEMENT

A MESSAGE FROM THE PRESIDENT

May 2020

On behalf of our entire SDSU family, I want to first offer my warmest and heartfelt congratulations on your graduation! We are deeply proud of what you have accomplished, and the steadfast dedication and commitment that got you here.

I would be remiss if I did not acknowledge that this is a bittersweet moment for our SDSU family. We are indeed in unprecedented times, but together we can rise above the challenges we face, finding meaningful ways to honor our most precious moments with those we care and love.

In academic tradition, our graduation ceremony is referred to as commencement. Today, in many ways, marks a new beginning for you. From this day forward, you are part of San Diego State University's proud alumni tradition.

You are joining an exceptional family of alumni who are known for leading and serving our region and our nation. They create and build businesses; serve communities as government officials, teach the next generation of leaders; make scientific discoveries and creative contributions; advance innovations in engineering, medicine, law, and many other fields.

Now, as our society faces important challenges, it is your turn to lead and serve. You have worked hard to develop your abilities. Now is the time to put them to use. We are certain that the hard work, intelligence, and perseverance that helped you succeed at SDSU will give you the confidence to take on the future opportunities that await you.

You now begin a new journey, not without obstacles, but with the skills to navigate and help others reach their potential. With your SDSU diploma, you can walk boldly into places and spaces that still need your curiosity, compassion, and courage to tackle the challenges ahead.

We are exceedingly proud of what you have accomplished, who you are becoming, and even more, who you will continue to become. Know that your SDSU family loves you and wishes you continued success as you embark on your next adventure.

With best regards,

A handwritten signature in black ink, appearing to read 'Adela de la Torre'. The signature is fluid and cursive, written over a white background.

Adela de la Torre
President

A MESSAGE FROM THE DEAN

Dear College of Engineering Graduate,

Many congratulations on your graduation from the College of Engineering!

The completion of your degree has required a great deal of diligence and perseverance, especially during these challenging times while dealing with the coronavirus pandemic. As you might have heard, commencement does not mean an end to your studies, but rather a beginning. The same traits that enabled you to have a successful academic career will be called on throughout your professional life. Thus, you have learned much more than facts and techniques at San Diego State University. You have honed the intellectual and personal qualities that

will sustain your continued success. Please accept my best wishes for professional and personal fulfillment as you commence the next phase of your life.

It is my hope that you will remain in contact with us over the years. I encourage you to become involved in San Diego State University's Alumni Association. In addition, the engineering professional societies are excellent ways to stay in touch with your alma mater and with other engineers in your field.

We truly look forward to hearing of your future success. Once again, congratulations and good luck with your future endeavors!

With best wishes,

A handwritten signature in black ink that reads "E. Olevsky". The signature is written in a cursive, flowing style.

Eugene Olevsky, Ph.D.
Dean, College of Engineering
