0015 White
0630 Buttercup
1730 Persimmon
1753 Strawberries N' Cream
2510 Roseate
2830 Wild Iris

General Freestanding Lace Guidelines

Supplies:

Embroidery Thread:

- Use the same embroidery thread in the bobbin as the needle.

Needles:

- Use an Organ 80/12 Titanium needle for extended needle life.

Stabilizer:

- Use OESD AquaMesh stabilizer.

Handy Hints:

For Stiffer Lace:

- DO NOT rinse away all of the stabilizer for a “stiffer” lace. Note that the thread may appear a shade darker if stabilizer is not removed completely.
- If you happen to wash too much out, easily re-stiffen by diluting some stabilizer scraps in water and dipping the item in the solution.

For Very Soft Lace:

- Cut away excess stabilizer. Remove remaining stabilizer by rinsing under warm running water until all traces of the stabilizer are gone. **NOTE:** If lace should become too limp to work with, dissolve stabilizer scraps in warm water and apply to the lace.

Drying Lace:

- The lace looks best when left to dry completely. Lay lace piece with right side down to dry. This will minimize the tendency for the lace to curl. Be sure to flatten the piece out entirely and allow ample time to dry.

General Instructions

1. Hoop two layers of OESD AquaMesh Stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the design.
4. Remove the hoop from the machine and the design from the hoop. Trim excess stabilizer from the design.
5. Rinse away remaining stabilizer and allow it to dry.

INSTRUCTIONS

1.

- Hoop 2 layers of AquaMesh stabilizer.
- Load machine with White thread.

2.

- Stitch Machine Step 1, Fabric Corner Placement Stitch.

- **Note:** Black thread used for visual guide, but refer to design thread list for actual colors used.

3.

- Place the napkin so that the edges of one corner aligns with the placement line, tape in place. (alternatively you can use AquaMesh plus in this step, in which case you will hoop 1 sheet of Aquamesh Plus with the paper side up. Score and remove the paper from the hoop, stitch machine step 1 and your napkin will stick in place.)

INSTRUCTIONS

4.

- Stitch Machine Step 2, Cut Line and Tackdown.

5.

- Trim the corner of the napkin as closely as possible to the cut line. Be sure to trim on the side that will cut away the corner of the napkin and leave the body of the napkin intact.

6.

- Stitch Machine Step 3, Fabric Detail.

INSTRUCTIONS

7.

- Match bobbin color for Machine Step 4, White Lace Detail.

- Load machine with Yellow thread.

8.

- Match bobbin color for Machine Step 5, Yellow Pineapple Lace.

- Load machine with White thread.

9.

- Using Same color as Yellow Pineapple Lace, stitch Machine Step 6, White Pineapple Outlines.

INSTRUCTIONS

10.

- Remove from hoop and trim the excess AquaMesh to $\frac{1}{4}$ " from the outside of the design.
- Rinse away the remaining AquaMesh. Allow to dry, press and use.
