

APEX INDUSTRIAL

The APEX Difference...

What makes our company different?

It's actually very simple. While many corporate distributors have lost their personal touch, Apex Industrial truly cares about each of our customers' needs and we put that commitment to work every day.

Knowledgeable Staff, and Installation sets APEX apart:

- If knowledge is power, then keep your facility moving in the right direction with customer service you deserve. Let our knowledgeable staff help you Reduce Downtime.
- Our delivery vehicles are always on the road. Day or Night... we'll keep you moving.
- If we sell it, we are qualified to install it!

Tired of "Big Box" Distributor disappointment?

- APEX Industrial is a different type of distributor, our customers are our relationships. We thrive on excellence in customer service, and setting ourselves apart from the competition.

We're much more than order takers.

The team at Apex Industrial invests the time to learn about our customers' business. We enter into relationships.

- We're not just a virtual parts warehouse for businesses. Instead, we proactively look for solutions that we know can help our customers improve their efficiency, while saving time and money wherever possible.
- APEX Industrial's goal is to serve our customers' **24/7/365**. No downtime means it's a win for you, and that's a win for us as well.

Vendor Consolidation:

- APEX Industrial can be your complete MRO Provider. We offer a variety of product lines in Bearings, Power Transmission, Electrical Automation, Hydraulics and Pneumatics, Material Handling, Industrial, Janitorials' and PPE to help you consolidate all your needs to one vendor. Making our customers job easier, and separating us from the competition.

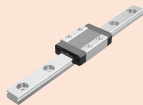

One Call...Consider It Done!
