ABOUT US

At Jet Sense Aviation, LLC we are all about aircraft. That's what we love and that's what we do. Our team at Jet Sense Aviation, LLC has the experience, peer respect and track record to handle your aircraft sale, acquisition or consultancy from start to finish, in a professional manner, while giving you the peace of mind that you have some of the best in the business working on your behalf. Our experience of hundreds of completed transactions, diligent in house market research and market knowledge, an eat-and-sleep-it understanding of the markets and our many developed and trusted relationships throughout the industry, make us the people who you can trust to get the job done.

MARKET INTELLIGENCE

Our Market Intelligence does not come from books, or publications, or stats or averages. It comes from being in the market every day, speaking to people that trust us and will talk more freely than if they didn't know us. It comes from actual aircraft owners, verified sales numbers, from reliable brokers within the market and from institutions that have the capital to make things happen.

WHAT YOU GET FROM US

We know that the processes to buy or sell an aircraft are different for each and every transaction and we adapt based on the circumstances of each deal. With that mind, what will remain in place at all times is what you will get from us:

- Detailed, accurate, real time information.
 - Comprehensive market canvassing, advertising and marketing.
 - Unbiased opinions and objective advice.
 - A complete service: We are with you from the start to the end and our involvement frees up your time.
 - We qualify any and all prospects.
 - We handle everything from the marketing to the delivery.
 - Organize pre-buys, demos, viewings, closings and deliveries.
 - We understand the processes, we anticipate the issues, and identify the risks.
 - We know our competitive aircraft, which aircraft have sold recently, which ones are under contract and why, and what is coming to the market.
 - We surround ourselves with the best in the business, so that when it comes to financing, insurance, tax issues or questions, pilots, maintenance, pre-buys and management we can put you in a position to make confident decisions.
 - We don't assume anything.
 - Proactive marketing: Targeting the people or groups who are most likely to buy your type of aircraft affords you the opportunity to get the best possible price in the shortest period of time.
-
