Performance & Styling

Boosting your driving experience.

Give your Saab a unique spirit of individuality – in terms of both performance and appearance. With the right accessories, you can fine-tune performance and detail appearance. Giving your car the character you want. Inside and out. All so as to make your journey even more enjoyable.

Dynamic spoilers all around.

Spoiler and skirts – boost the dynamic design and driving properties of your car. They give the car a broader, lower and more potent stance. But spoilers are about more than mere looks: they also provide added stability by reducing lift forces. Tested in the wind tunnel to ensure good cooling for the engine, brakes and other key components. To further enhance the car's powerful image we recommend a sports exhaust system, a rear spoiler and 17" light alloy wheels.

Aero body kit – includes front bumper with integrated foglights, side skirts and rear bumper. With the same look as on the new Aero models. ▼ ▲

Front spoiler (Not pictured.) ▼ ▲

Side skirts (Not pictured.) ▼ ▲

Body kit – includes front spoiler, side skirts and a rear bumper skirt. ●

Aero body kit – includes front spoiler, side skirts and rear bumper skirt. With the same look as on the Aero models. Must be complemented with a rear spoiler. ○

Aero body kit – includes front spoiler, side skirts and rear bumper skirt. With the same look as on the Aero version of the Saab 9-3 Sport Sedan. (Not pictured.) ●

Rear spoiler – improves the aerodynamics of the car and gives a sportier appearance. Reduces lift forces at the rear. ●

5-spoke Y – 17 × 7" light alloy wheels (ALU 45). ● ○

Classic wheel cover – made of plastic. For 15" steel wheel. ■ ◆ ▶ ▼ ▲ ● ○

5-spoke Split – 18 × 7 1/2" light alloy wheels. ● ○

5-spoke Twin – 17 × 7" light alloy wheels (ALU 50). ● ○

15-spoke – 17 × 7" light alloy wheels. ● ○

3-spoke Double EVO – 17 × 7" light alloy wheels (ALU 46). ● ○

9-spoke wheel cover – made of plastic. For 16" steel wheel. ● ○

Matched wheel and tyre – tyre specially selected to match the performance of your Saab 9-3 Sport Sedan or Convertible. Dynamic 18" 5-spoke Split light alloy wheel fitted with Pirelli PZero Rosso tyre (225/45 R18 W). ● ○

Saab light alloy wheels – have been tested together with the cars for which they are designed. It is crucial to ensure the performance and safety of the car, as even small changes in wheel size or offset may affect the car's well-matched ride and roadholding properties. When you choose a light alloy wheel from Saab, you can be sure it will meet our stringent requirements. It enhances the car's roadgoing qualities and ensures that the brakes have adequate cooling. With a wheel from Saab, the built-in driving pleasure is also long-lasting, since our durability tests are among the toughest in the industry.

10-spoke Sculpted
 – 16 × 6 1/2" light alloy wheels.

Better performance, more attitude.

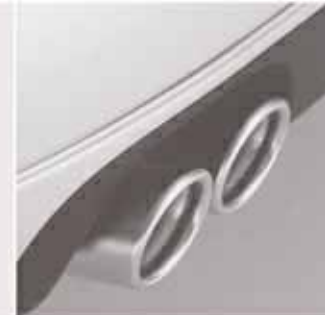

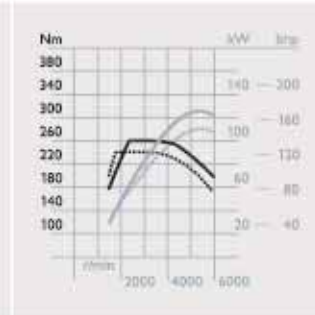

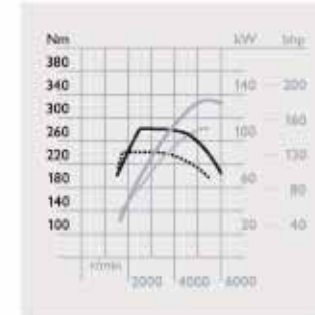

Sports chassis – designed to help improve stability and control. Firmer springs and stiffer shock absorbers mean better body control, cornering and braking. The improved roadholding allows a more active driving style. ■ ◆ ▶ ▼ ▲ ● ○

Saab engine tuning kit 2.0t – is available for the 150 bhp 2.0t Ecopower engine. It boosts torque over a wide engine speed range, thus permitting even faster overtaking. The Saab engine tuning kit must be fitted by an authorised Saab dealer.

Saab 9-5 – torque and power increase (dotted curve = standard). For both manual and automatic transmission. Power rises to 185 bhp and torque to 280 Nm. ▼ ▲

Saab 9-3 – torque and power increase (dotted curve = standard). For manual transmission only. Power rises to 170 bhp and torque to 255 Nm. ■ ◆ ▶

Body-levelling kit – gives a steadier ride when the car is heavily loaded or when towing a trailer. It automatically levels out the rear of the car to maintain a uniform ride height regardless of the weight of the load. ▼ ▲

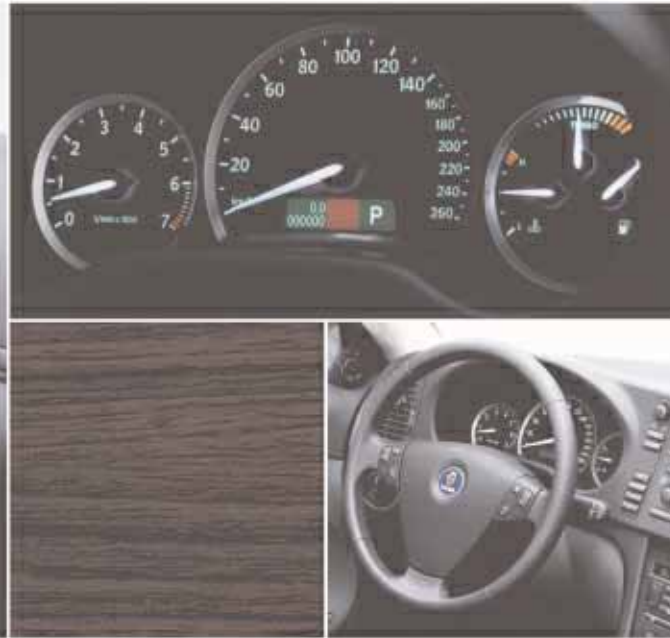

Sports exhaust – replaces the standard exhaust system from the rear silencer onwards. Gives your car a more dynamic appearance and powerful sound. ▼ ▲

With an eye for detail.

Poplar wood veneer door trim – for the front and rear doors. Made of genuine poplar veneer. ● ○

Poplar wood veneer interior trim – for the centre console. Made of genuine poplar veneer. ● ○

Metal-finish instrument bezel – with polished metal rings surrounding the instruments for a sportier look. ● ○

Wood and leather steering wheel – with genuine poplar veneer inserts. Leather-trimmed inserts for safer grip. Integrates airbag module and audio control buttons from the car's existing steering wheel. Must be fitted by an authorised Saab dealer. ● ○

Poplar wood veneer sample ● ○

Leather steering wheel – with leather-clad rim and ergonomic grip. Integrates airbag module and audio control buttons from the car's existing steering wheel. Must be fitted by an authorised Saab dealer to ensure airbag functionality. ● ○

Metallic decor door trim – for the front and rear doors. ●

Sports steering wheel – with thick ergonomic grip in leather. Integrates airbag module and audio control buttons from the car's existing steering wheel. Must be fitted by an authorised Saab dealer to ensure airbag functionality. ● ○

Metallic decor insert steering wheel – designed to match the other metal-finished details of the interior. ● ○

Metallic decor interior trim – for the centre console. Designed to match the other metal-finished details of the interior. ● ○

Carbon-fibre instrument panel ■ ◆ ▶ ▼ ▲

Sports steering wheel – with thick ergonomic rim clothed in perforated leather and featuring accentuated thumb grips. Accepts the airbag module and audio control buttons from the car's existing steering wheel. Must be fitted by an authorised Saab dealer to ensure airbag functionality. ■ ◆ ▶ ▼ ▲

Carbon-fibre gear selector – for automatic transmission. ■ ◆ ▶ ▼ ▲

Metallic decor instrument panel ■ ◆ ▶ ▼ ▲

Dark walnut veneer instrument panel – made of genuine cultivated Californian walnut. ▼ ▲

Hirsch Performance.

Hirsch Performance is Saab's exclusive performance and design enhancement partner, giving our cars even more individuality, performance and driving pleasure. Visit www.hirsch-performance.ch or your Saab dealer for more information. Hirsch Performance products are available on certain markets and the range may vary.

Hirsch Performance parts are guaranteed by Hirsch. Non-modified parts of the car are still covered by the new-vehicle warranty.

Aluminium pedals – ultra-light, drilled pedals are available for both manual and automatic vehicles. Can be specified with a handy aluminium footrest in the Saab 9-5 (left hand drive only). ▼ ▲ ● ○

Hirsch Performance roof bridge spoiler – improves the aerodynamics of the car and gives a sportier appearance. Reduces lift forces at the rear. ▲

Hirsch Performance rear spoiler – improves the aerodynamics of the car and gives a sportier appearance. Reduces lift forces at the rear. ▼

Hirsch Performance – 19 × 8" alloy wheels. Preferably fitted with tyres recommended by Hirsch Performance. ● ○

Lifestyle

Go where you want,
bring what you like.

Recreational activities, work or family trips. Adapt your Saab to suit your own needs as well as the needs of your family. With the right accessories you can enhance comfort, while carrying the gear you want more safely and conveniently. And to make sure you find your destination, we recommend you choose our advanced navigation system.

Equip your car for action.

Roof rack, C-track – an entirely new roof rack system made of aluminium. Quick-release fasteners make it easy to fit and modify with different special holders for skis, bikes, boards, etc. Crash-, corrosion- and UV-tested. ▲ ●

Bike holder with lift – for mounting on the roof rack. The bike is fitted at door height, then lifted with the help of gas springs and secured to the roof rack. Can be adjusted to accommodate a variety of bikes. The bike is secured in an upright position. Unique latching feature makes it easy to secure the bike. Lockable. Made of aluminium. ■ ◆ ▼ ▲ ●

Bike holder – for mounting on the roof rack. Can be adjusted to accommodate a variety of bikes. The bike is secured in an upright position. Unique latching feature makes it easy to secure the bike. Lockable. Made of fibre-glassreinforced polyamide. ■ ◆ ▼ ▲ ●

Bike holder, towbar-mounted – easily fitted, approved for the towbar. Space for two bikes (three with an adapter). Dual lock function – locks both the bike to the holder and the holder to the towbar. The fold-down function makes it easier to access the luggage compartment. Equipped with number plate holder and lighting connected to the towbar's electrical socket. ■ ◆ ▶ ▼ ▲ ● ○

Roof cage – made entirely of aluminium. Large load surface surrounded by protective, gently rounded rim. ■ ◆ ▼ ▲ ●

Load stops – kit containing four easy-to-fit load stops. Help to prevent the load from sliding sideways. Made of galvanised, polyester-coated sheet steel riveted to polyethylene plastic. Not suitable for C-track. ■ ◆ ▼ ▲ ●

Roof rack – patented anti-theft fitting. Can be combined with other accessories for loading and transportation. Crash-, corrosion- and UV-tested. ■ ◆ ▼ ●

Kayak/canoe holder – with adjustable supports of soft rubber that mould to the shape of the hull. The kayak is secured using robust tensioning straps. The kayak holder can also be used for transporting windsurfing boards and small boats. ■ ◆ ▼ ▲ ●

Windsurfing/surfboard holder – features resilient rubber strips. Equipped with a mast holder. The board is held in place by means of a terylene strap. Quick-tensioning with the aid of a crank. For mounting on the roof rack. ■ ◆ ▼ ▲ ●

Roof rack – designed for fitting to the integrated roof rails. Easy to fit and lockable for greater protection against theft. Can be combined with other accessories for loading and transportation. Crash-, corrosion- and UV-tested. ▲

Lockable ski holder/snowboard holder – for six/four pairs of skis or four snowboards. The skis are secured in the holder. Spring-loaded locking arm for simple fitting and removal.

Ski holder – for four pairs of skis mounted horizontally. The skis are secured to the holder by means of rubber straps. For mounting on the roof rack.

Ski box – Saab Crossmax is the ultimate transport for advanced sports equipment. Interior padding on elevated parts, load straps and a built-in lock protect your gear. The low-profile aerodynamic design and smooth finish make this box a natural part of your car. Made of sturdy glass-fibre reinforced polyester. 225 × 90 × 28 cm. Volume 450 litres. (Max roof load 100 kg.)

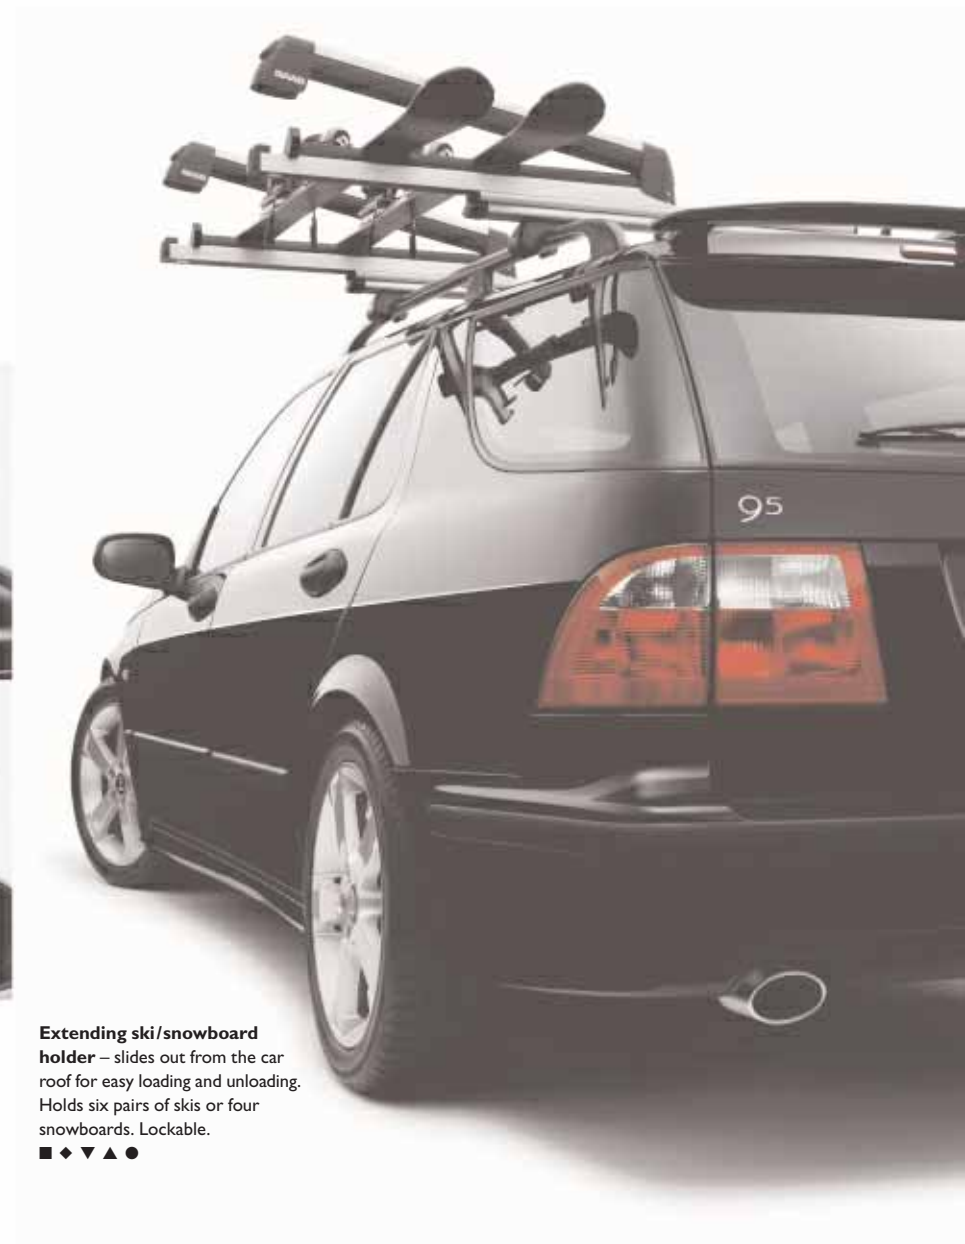

CargoWing – allows you to carry large objects such as skis and boards. When lowered, it serves as a spoiler and when raised, it is used to secure larger loads. (Available during model year.)

Ski box – dual gas springs lift the top. Central locking. Reinforced sides and bottom. Made of ABS plastic. 230 × 82 × 35 cm. Volume 450 litres. (Max roof load 100 kg.)

Ski box – dual gas springs lift the top. Central locking. Reinforced sides and bottom. Made of sturdy glass-fibre reinforced polyester. 220 × 90 × 30 cm. Volume 480 litres. (Max roof load 100 kg.)

Extending ski/snowboard holder – slides out from the car roof for easy loading and unloading. Holds six pairs of skis or four snowboards. Lockable.

Sliding load floor – slides out half a metre. Makes loading easier and can be used as an outdoor seat for two adults when taking a break. Flush-mounted with the standard floor when not in use. Colour-matched to car interior. CargoTracks™ can be used together with the sliding load floor. Very easy to operate. ▲

Convenient and safer touring.

Cargo guard – for mounting in line with the rear seat backrest. Made of metal. Separates the passenger compartment from the luggage compartment. Gives the occupants added protection from shifting load in a collision. Easy to fit and remove. Can be combined with the cargo space divider. ▲

Cargo guard – for mounting in line with the rear seat backrest. Made of metal. Separates the passenger compartment from the luggage compartment. Gives the occupants added protection from shifting load in a collision. Easy to fit and remove. ■ ◆

Cargo space divider – divides the luggage compartment into separate areas. Convenient when travelling with a pet. Easy to fit and remove. Can only be fitted together with the cargo guard. ▲

Cargo net – for mounting in line with the rear seat backrest. Separates the passenger compartment from the luggage compartment. Gives the occupants added protection from shifting load in a collision. When not in use, the net can easily be folded and stored. Can be used with the rear seat backrest folded down. ▲

Side cargo net – for fitting on the right-hand side of the luggage compartment. Elastic, designed for holding light items in place during driving. Can be easily removed. ■ ◆ ▼ ▲ ● ○

Load straps – for securing heavy loads. Help to protect the occupants from shifting load. ■ ◆ ▶ ▼ ▲ ● ○

Caravan mirrors – come in a complete kit consisting of two mirrors that meet EU requirements concerning unobstructed visibility. For mounting on each wing. Easy to fit. ■ ◆ ▶ ▼ ▲ ● ○

Storage box – for the luggage compartment. Held in place by means of Velcro strips on the sides and bottom of the box. ■ ◆ ▶ ▼

Storage box – keeps small items in place in the luggage compartment. Attached on the right side. ●

Floor cargo net – holds light items in place and makes the luggage compartment more practical during driving. Elastic and easy to use. In the Saab 9-5 Wagon, the floor cargo net uses the four anchorage points for fitting to the CargoTracks™ in the compartment floor. ▲ ●

Load anchorage points – for the CargoTracks™ in the compartment floor of the Saab 9-5 Wagon. Easy to adjust. Kit includes four anchorage points. ▲

Cargo mat – made of rubber. Designed for the luggage compartment. Protects the carpeting against dirt, water and wear. Prevents smaller items from sliding around. Easy to keep clean, fit and remove. Can be used together with the sliding load floor. ■ ▼ ▲ ● ○

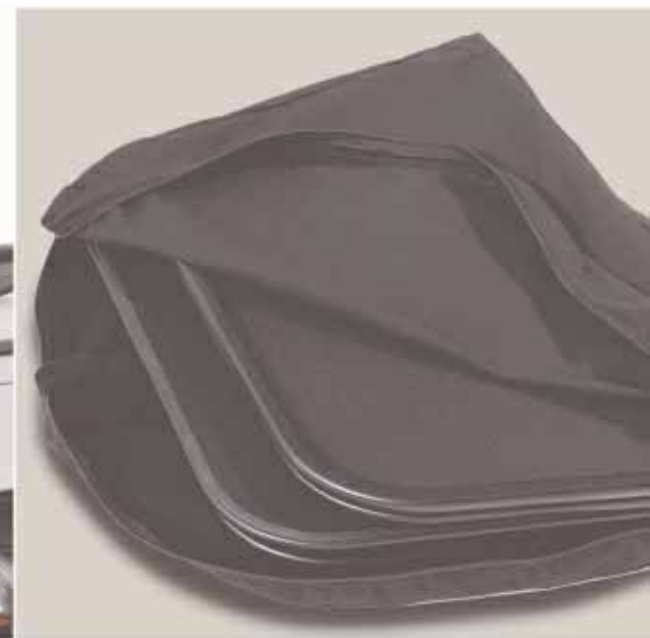

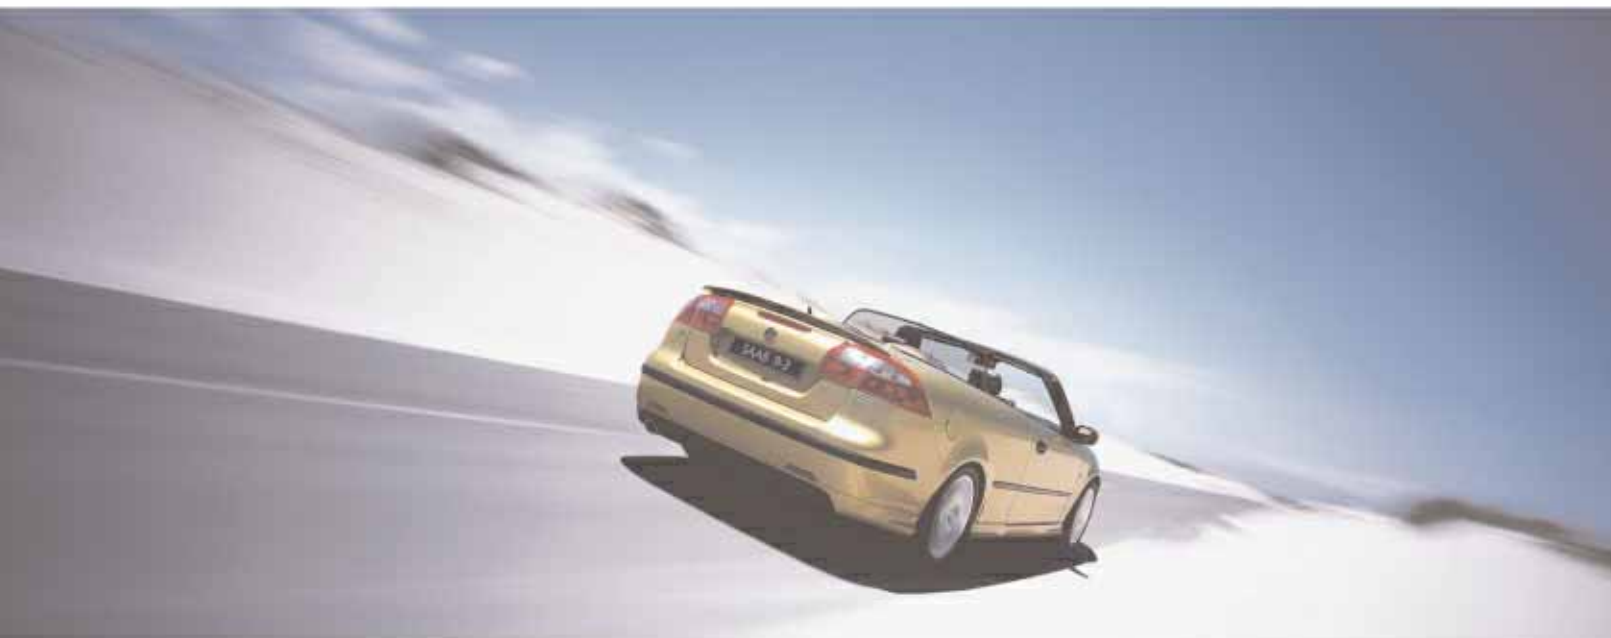

Towbar – choose between a fixed and an easily removed/lockable towbar. For fitting to the mounting points provided. Black polyester powder paint. Crash-tested. A cutout must be made in the bumper. ■ ◆ ▶ ▼ ▲ ● ○

Scratch protection/Seating mat – stored, folded and secured inside the luggage compartment sill. Pulled out to protect the bumper and vulnerable loads. Can be used as a waterproof seating mat on picnics. Storage bag with shoulder strap included. ■ ◆ ▶ ▼ ▲ ● ○

Top down and still calm.

Wind deflector – considerably increases comfort by reducing draught from behind. Can be stored in the luggage compartment in a practical cover. (Saab 9-3 Convertible not pictured.) ► ○

The wind deflector for the new Saab 9-3 Convertible can be folded twice for even more convenient storage. Format folded: 130 × 620 × 650 mm.

Smart solutions for greater comfort.

The Smart Slot system – is a storage system that is neatly integrated in the centre console. It can be customised with a range of exchangeable accessories. ● ○

Ice-scraper – for integrated mounting in the Smart Slot storage system. ● ○

Cup holder – for the Smart Slot system. Holds one cup or can. ●

Cup holder – for fitting in the storage space in the floor console. ■ ◆ ▶

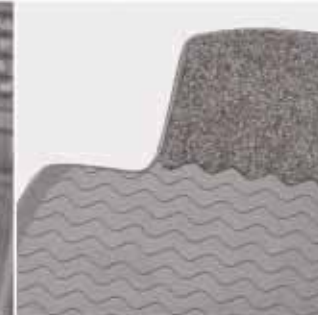

Cup holder – for fitting in the rear armrest. ▼ ▲

Reading lamp – with matt black finish, 20 cm flexible arm. A halogen lamp provides powerful light. Equipped with a universal connector, suitable for cars and caravans. Supplied with an adapter for plugging into the cigarette lighter socket. ■ ◆ ▶ ▼ ▲ ● ○

All-season mats – in a combination of rubber and textile. Complete set of four mats. ● ○

Rubber mats – colour-matched to car interior. Complete set of four mats. ■ ◆ ▶ ▼ ▲ ●

CD storage – neatly integrated in the Smart Slot storage system. Keeps six discs protected and easily accessible. Easy to take with you when you leave the car. ● ○

Cup holder – fitted in the instrument panel. ■ ◆ ▶

Cup holder – for fitting in the storage space in the floor console. ▼ ▲

Waste/storage box – fitted on the passenger side of the centre tunnel. Designed as a holder for two soft-drink cans. Five CD discs can be stored in the middle section; can alternatively be used as a holder for a waste bag. ■ ◆ ▶ ▼ ▲ ● ○

Textile mats – colour-matched to car interior. Complete set of four mats. ■ ◆ ▶ ▼ ▲ ● ○

Saab Parking Assistance (SPA) – makes it easier to judge rear distances when parking in tight spots. SPA automatically detects and adjusts the activation range if the car is equipped with a towbar. SPA is also automatically switched off when a trailer is hooked up. ▼ ▲ ● ○

For those cold and misty days.

Mudflaps – help protect the car body and other road-users from flying gravel and splashing water. Can be fitted in the mountings provided. Delivered in pairs, left-hand side and right-hand side.

Petrol-powered heater – for engine and passenger compartment. Also heats the engine while driving until the temperature reaches 65° C. Reduces fuel consumption and engine wear by eliminating cold starts. Three starting times, set using the SID instrument. (Not pictured.)

Electric engine heater – block heater with the socket located in the front spoiler. Reduces fuel consumption and engine wear by avoiding cold starts. Heater output 550 W. Supply voltage 220 V. Can be supplemented with a timer operated via the SID instrument. (Not pictured.)

Branching cable kit – necessary for connecting the electric engine heater to an electric compartment heater. (Not pictured.)

Timer – enables the electric engine heater to be started via the SID instrument. (Not pictured.)

Front foglights – give a broad low beam of light that improves visibility when driving on curving roads and in foggy conditions. It also gives the car a wider, more imposing look. ■ ◆ ▶ ▼ ▲ ● ○

Winter wheels – specially developed to give a firm grip on wet tarmac and snow-covered roads. With light alloy wheels, your Saab will maintain its dynamic design all year round. Your Saab dealer can tell you which kind of tyre best suits your car and your needs. ■ ◆ ▶ ▼ ▲ ● ○

Navigate and communicate.

Handsfree kit – connects your mobile telephone to the Infotainment System with high audio quality for incoming calls. Volume is regulated via the steering wheel controls. Audio mute function. (Not pictured.) ● ○

Telephone holder – makes it easier to use the mobile phone, especially in combination with the handsfree kit. Universal holder for most makes of mobile phone. Saab design. ■ ◆ ▶ ▼ ▲

Navigation system – upgrade to Saab Infotainment Plus (ES3) including 5.8" colour widescreen monitor and navigation system. In navigation mode you can choose from eight route alternatives, such as the shortest, fastest or most scenic. The selected route is displayed on the colour monitor and directions appear in the Saab Information Display (SID). Voice instructions in eight languages. Operated via the main unit and the steering wheel buttons. Satellite positioning (GPS) unit included. DVD player for map information. DVD disc with information about most of the European road network and over 700,000 points of interest included. ● ○

Map subscription – for updates of DVD map discs. Makes sure you always have the latest edition of maps and other useful information. ● ○

Telephone holder – makes it easy to use your mobile phone, especially in combination with the handsfree kit. Universal holder for most makes of mobile phone. Saab design, colour-matched to the interior – Grey or Parchment. ● ○

Integrated navigation system – 7" colour touchscreen for scrolling the menus and moving around on the map. Most of Europe on one DVD disc. You can store 100 destinations. Search for addresses or point to destinations directly on the screen. Look for hotels, restaurants, workshops, hospitals and so on. Select your road according to the shortest or fastest route, using only major roads or avoiding toll roads. Voice instructions and on-screen directions are available in a choice of eight languages. Only for cars from model year 2002 that are equipped with factory-fitted navigation system wiring. ▼ ▲

Raise the volume and enjoy the music.

CD changer – fitted in the luggage compartment. Six discs. Operated via the steering wheel audio controls or radio main unit. Anti-theft protection, digitally coded to work in your car only. ●

CD changer – mounted in the centre console. Six-disc single-slot. Operated via the steering wheel audio controls or radio main unit. Anti-theft protection, digitally coded to work in your car only. ● ○

CD storage – neatly integrated in the Smart Slot storage system. Keeps six discs protected and easily accessible. Easy to take with you when you leave the car. ● ○

Sound System upgrade kit (SS 2) – upgrades the Premium 70 (SS 1) Sound System to Premium 150 (SS 2). Provides a more natural spread of sound and a fuller bass profile. Includes an additional amplifier that raises the total output from 70 W to 150 W, one centre front loudspeaker and two front door midrange/bass loudspeakers. (Not pictured.) ● ○

CD changer – operated via the main radio unit. Holds six discs and is easily fitted in the luggage compartment. Installation kit needed. (Protective cover shown in picture is available for the 9-5 Sedan.) ■ ◆ ▶ ▼ ▲

CD player – fitted in the centre console. Single disc. Operated via the steering wheel audio controls or radio main unit. Anti-theft protection, digitally coded to work in your car only. ● ○

Auxiliary connector – enables you to hear music from portable audio equipment through the car's audio system. Fitted in the centre console storage compartment. You can plug in any equipment that has a headphone socket, such as a laptop, MP3, minidisc or other players. ● ○

Sound System upgrade kit (SS 3) – upgrades the Premium 150 (SS 2) Sound System to Premium 300 (SS 3). Provides a more natural spread of sound and a full bass profile. Includes an additional amplifier that raises the total output from 150 W to 300 W, two front tweeters, two subwoofers and two tweeters for fitting in the parcel shelf. (Not pictured.) ● ○

Buckle up your treasures.

Rearward-facing child seat – for children aged 9 months–3 years. Installed using the car's three-point seatbelt, an extra belt and a support leg. Upholstery can be removed for cleaning. ■ ◆ ▶ ▼ ▲ ● ○

Forward-facing child seat – for children aged 3–10 years or weighing 15–36 kg. Upholstery can be removed for cleaning. ■ ◆ ▶ ▼ ▲ ● ○

Baby insert – for child seat. For babies aged 0–9 months. Removable and washable. (Not pictured.) ■ ◆ ▶ ▼ ▲ ● ○

Booster cushion – for children aged 3–10 years or weighing 15–36 kg. Ensures the seatbelt fits the child correctly. Easy to remove and clean. ■ ◆ ▶ ▼ ▲ ● ○

Prepare for the unexpected.

Warning triangle

– collapsible. International standard size, supplied in a handy case.

Battery jumper cables

– 10 mm² copper cable with TPR insulation. Length 2.4 m.

First aid kit – Contains dressings, plasters, etc. Held in place by a Velcro strip.

Lockable wheel bolts – set includes four wheel bolts and the necessary special key inserts.

Tow line – easy to fit. Tested strength, made of polypropylene. Up to 2500 kg, 1.5 m long, stretches to 4 m.

Take care of your Saab.

Your Saab deserves to look its finest, and if you use Saab Genuine products you can be sure your Saab always gets the very best treatment. All our products are specially developed or selected for the Saab range. They help you maintain your car's optimum performance, year after year.

Saab Car Batteries – optimised for our various models. They are made using new technology that extends service life by 20–25% and cuts fluid consumption.

Saab oils and fluids – help to keep your engine clean and reduce internal friction and wear. Our semi-synthetic oils are also optimised to give good cold-start properties and lower fuel consumption. And if in addition you are careful to use the various other Saab fluids, you can be sure your car's engine and other systems always get the very best treatment.

Saab Expressions.

Saab has always represented progressive yet simple and unadorned design. We unite form with function and quality in every detail. These high-quality standards also apply to the specially selected products in the Saab Expressions range. Here we present a few tempting examples that will complement your car and lifestyle. On www.saabexpressions.com you find our entire range of inspiring products.

Saab Aluminium bottle – comes with two different caps and a snap-hook. Fits all Saab cup holders.

Saab Walkstool – with telescopic legs and a durable weather-resistant mesh seat. Lightweight – just 620 g. Seat height 45 cm. Made in Sweden.

Saab Salomon jacket – one of many exciting items from our Saab/Salomon clothing range. Saab and Salomon share the same attitude to and passion for dynamic experiences and work closely together with state-of-the-art technology to develop products for people who appreciate an active lifestyle.

Saab golf umbrella – high-quality 30" umbrella made of carbon fibre. Silver coloured with one transparent panel and white Saab logo.
