VICTORINOX

“YOUR COMPANION FOR LIFE”

Victorinox products are conceived, designed and built to accompany us all through life. Purposeful, reliable, their functional esthetic appeals to our rational side. But they also conquer our hearts, in the sense that they seem always to deliver more than we expect of them. Whatever your particular selection – from high-quality Victorinox household and professional cutlery to precision Swiss-made timepieces; from our fashionable, functional apparel and rugged travel gear to our unmistakable fragrances – each Victorinox product embodies the spirit of the legendary Original Swiss Army Knife. Emerging from Karl Elsener’s cutlery workshop in 1891, it remains to this day an icon recognized the world over as a symbol of quality, functionality and continuous success.

WHEREVER YOU ARE, A PIECE OF SWITZERLAND IS WITH YOU

Inherent in every Victorinox Swiss Army Knife, every set of household and professional cutlery, every precision timepiece, item of fashionable clothing, piece of durable travel gear and bottle of distinctive fragrance is an intangible. A certain “Swissness” if you will. And something more. Each of these products is an expression of the Victorinox philosophy: Flawless quality combined with great reliability. Consistent functionality combined with innovation. Refinement combined with absolute perfection and iconic design. These are solid values. The spirit of the Original Swiss Army Knife is alive and well.

Karl Elsener

125
YEARS
YOUR
COMPANION
FOR
LIFE

1884 – 2009

Soldiers' Knife 1891

Officers' Knife 1897

MILESTONES

1909 Following the death of his Mother, Karl Elsener introduces the brand name “Victoria” in her honor.

1909 The characteristic cross and shield emblem is registered as a trademark.

1921 The invention of stainless steel being of central importance for the cutlery industry, Karl Elsener coins the company’s new name, “Victorinox” by melding his Mother’s name with “inox,” an abbreviation of the French word for the characteristic of this new steel, “inoxydable.”

1931 The Brown Boveri Company sets up the world’s first fully electric heat treatment facility for Victorinox.

1945 The “Original Swiss Army Knife” begins its successful progression around the world and is particularly popular in PX stores.

1979 On January 2, the previously solely-owned “Messerfabrik Karl Elsener” is converted to the family-owned stock company “Victorinox AG.”

1989 Victorinox enters the timepiece market in the USA under the “Swiss Army Brands, Inc.” label.

1999 Victorinox enters the travel gear market, issuing a manufacturing license to the American TRG Group in St. Louis.

1999 Expanding its timepiece business, the company establishes Victorinox Watch SA in Bonfol, in Switzerland’s Jura watch-making region.

2008 The company’s first European Flagship Store is opened, on London’s New Bond Street.

THE BLADE IS THE SAME. THE NAME IS EVOLVING.

Although Victorinox is known the world over as the creator of the Original Swiss Army Knife, we started out in 1884 as a cutlery workshop. By the time Karl Elsener delivered his first pocket knife to the Swiss Army, he'd been selling fine cutlery to professionals for years. Victorinox had been a staple in European commercial cutlery for over 50 years when we were approached by New York's R.H. Forschner – known since 1855 as a builder of scales for butchers – to be their sole cutlery supplier.

The two companies joined forces in 1937. The seven decades since have seen R.H. Forschner become North America's dominant professional brand – as ubiquitous in the bustling meatpacking plants of the Midwest as it is in the gleaming, four-star restaurant kitchens of Midtown Manhattan.

Now that brand is evolving. Returning to its roots.

In conjunction with our 125th anniversary, the name on the doors of our factory in Switzerland – from which beautifully balanced, perfectly weighted, razor sharp tools have begun their journey to North America for all these years – is the name that now appears on each blade.

Victorinox.

FIBROX

INTRODUCING WHITE FIBROX® HANDLES

PROFESSIONAL CUTLERY CATALOG

Made from the same material as our ergonomic black Fibrox, our white handles offer a sanitary view that is necessary for hospital and school kitchens, large food services institutions and governmental contracts. White Fibrox and the same reliable blades you have come to expect from Victorinox are designed to minimize wrist tension and are approved by the National Sanitation Foundation (NSF).

MICROBAN

MICROBAN

PROFESSIONAL CUTLERY CATALOG

What is Microban Antibacterial Product Protection?

- Continuous protection against odor and stain causing bacteria, mold and fungus for the life of the product.
- Keeps products cleaner and fresher between cleanings.

How Does it Work?

- Antibacterial protection is built into products during the manufacturing process.
- Upon contact, Microban penetrates the cell wall and destroys its ability to function, grow and reproduce.

Is it Safe?

- Microban has a long history of testing and safe use.
- Registered for all applications in which it is used with the EPA.
- Can also be found in products of leading consumer and industrial brands.

How Do I Clean My Products?

- A thorough cleaning regimen is recommended for all products.
- Microban protection does not protect user from food borne illness.

Microban and the Microban symbol are registered trademarks of the Microban Products company, Huntersville, NC.

How to "Steel" a Knife

- Hold the steel firmly in your left hand with the guard positioned to stop the blade should it slip.
- Hold the knife in your right hand and place on top part of steel as shown.
- Raise back of blade one-eighth inch.
- Now, moving the blade only, draw it across the steel in an arching curve, pivoted at your wrist. The blade tip should leave the steel about two-thirds of the way down.
- Repeat the same action with the blade on the bottom side of the steel. Always maintain the same pressure and angle on both sides of the steel.
- Repeat five or six times.

Knife not included.

EDGE-MAG • Magnetic Blade Protector

- Exclusive to Victorinox
- Functional – easy to use – really works
- Universal design – fits most sizes and shapes
- Comes in four sizes – can be cut to fit most blades
- Hygienic – washable/dishwasher safe (low temp)
- Peggable packing makes merchandising easy

ITEM #	DESCRIPTION	QUANTITY
48310	7" Protector	3 per pack
48311	9" Protector	3 per pack
48312	10 1/2" Protector	3 per pack
48313	12 1/2" Protector	3 per pack
48344	Multi-Pack	1 of each size

Note: Edge-Mag is manufactured with multi-poled magnets that cannot magnetize your knife. Edge-Mag utilizes complex magnetic fields that alternate every 1/8 inch and cannot permanently align the poles in any magnetically receptive object.

HandSHIELD™

HandSHIELD 1 10 Gauge #	HandSHIELD 2 7 Gauge #	SIZE
81811	81611	X-Small
81812	81612	Small
81813	81613	Medium
81814	81614	Large
81815	81615	X-Large

Features

- Now with anti-microbial yarns
- Spiral wrapped steel for the strength of steel, with comfort to match
- Highest Cut resistance by weight of any steel yarn on the market today
- Fully washable and bleachable, FDA approved materials
- Cuff contains durable, non-allergenic neoprene elastic for fit and comfort, and is color coded by size
- The spiral wraps of steel are far more resistant to breakage than conventional yarn
- The steel mono-filaments that make up the spirals are encased in a textured polyester yarn and two covers of industrial strength polyester for better grip and abrasion resistance

HandSHIELD 1

- Medium weight glove (10 gauge) offers heavy weight (Level 5) performance.
- Best combination of comfort, weight and performance for all around us

HandSHIELD 2

- 7 gauge construction offers "high" Level 5 protection, in a seamless knit glove
- Suitable for off-hand wear.
- Offers the highest level of Cut protection and ergonomic benefits of flexibility and lighter weight as compared to other off-hand gloves.

Because the sharpest knives deserve the most protective gloves, ForschShield Cut Resistant Gloves are manufactured with superior materials for unsurpassed protection and slip resistance. Sized to fit every hand, our variety of gloves meets a broad range of hand protection needs.

Caution: These products are cut resistant, but not cut-proof or point puncture resistant. Do not use with wavy or serrated blades.

Available in gray only.
Packaged in individual poly bags.
