

2009 ExtraOrdinary Technology Conference

Albuquerque, NM --\$-- July 30 - Aug 2

CONFERENCE PROGRAM

MEET THE SPEAKERS!

- Joseph Farrell
- Mark Hinds
- Dennis Maness
- Hugh Tining
- Luke Fortune
- Chris Eckman
- David Pantone
- Moray King
- Peter Grandics
- Arthur Larson
- Gary Peterson
- Jeff Hayes
- Warren Williams
- John Milewski, PhD
- Wyatt Cox
- Sterling Allan

New Conference Site!!!
Nativo Lodge, Albuquerque, NM

2009 ExtraOrdinary Technology Conference

Navito Lodge • Albuquerque, NM • July 30 - August 2, 2009

CONFERENCE PROGRAM OVERVIEW

DVDs WILL BE AVAILABLE AFTER CONFERENCE!

TeslaTech, Inc reserves the right to make changes to this schedule without notice.

Thursday • July 30

Session 1 (Evening) • An ExtraOrdinary Revelation

5:00PM: **Joseph Farrell** - The Nazi Bell and Nazi Survival

7:00PM: *Conference Evening Social*

Friday • July 31

Session 2 (Morning) • ExtraOrdinary Health Issues

8:00AM: **Mark Hinds** - HealthWalk... Your Path to Vibrant Health

9:30AM: **Dennis Maness** - Mind/Soul Brain Technologies

11:00AM: **Hugh Tinning** - Natural Long Wave Bio Currents

Session 3 (Afternoon) • ExtraOrdinary Research

1:00PM: **Luke Fortune** - Hydrogen... A Practical Application

2:30PM: **Chris Eckman** - Characterizing Brown's Gas

4:00PM: **David Pantone** - European Progress with GEET Technology

Session 4 (Evening)

6:00PM: *Conference Evening Social / Special Speaker!*

Saturday • August 1

Session 5 (Morning) • Zero Point Energy Technology

8:00AM: **Moray King** - Progress in "Water Fuel" Zero-Point Energy Research

9:30AM: **Peter Grandics** - Pyramidal Electric Transducer

11:00AM: **Arthur Larson** - The True Nature of Gravity and Inertia

Session 6 (Afternoon) • Tesla Technology

1:00PM: **Gary Peterson** - Tesla's Worldwide Wireless Energy Transmission System

2:30PM: **Jeff Hayes** - Tesla Turbines... Detroit's Best Weapon Against Peak Oil Economics

4:00PM: **Warren Williams** - Robotic Vehicles... Descendants of Tesla's Teleautomaton!

Session 7 (Evening)

6:00PM: *Conference Evening Social*

Sunday • August 2

Session 8 (Morning) • ExtraOrdinary Challenges

8:00AM: **John Milewski, PhD** - Room Temp Superconductivity and Magnetic Monopoles

9:30AM: **Wyatt Cox** - Earthlights... A Naturally Occurring Cold Fusion Energy Source

11:00AM: **Sterling Allan** - The Keppe Motor and Other Breakthrough Energy Technologies

Pre Conference Event

Thursday Afternoon

July 30 -- 1PM

Sacred Geometry

Danae Harding

Post Conference Event

Sunday Afternoon

August 2 -- 1PM

GEET Seminar

David Pantone

FRIDAY EVENING

July 31 -- 7PM

Mystery Speaker

**Due to Security Constraints This
Session NOT Be Unrecorded!!!**

Thursday · July 28 · Session 1 (Eve) · An ExtraOrdinary Revelation

The Nazi Bell ... and Nazi Survival

Joseph Farrel, DPhil (Oxon)

The Implied Physics of the Nazi Bell Device and the Implications of Independent Postwar Nazi Research

Die Glocke (German for "The Bell") is the name of a purported top secret and highly sensitive Nazi scientific technological device with antigravitic properties. Polish aerospace defence journalist and military historian Igor Witkowski, claims was to be a secret weapon, or Wunderwaffe.

In this presentation Dr. Farrell outlines the salient features of the Nazi Bell and postulates the various possible physics bases for each. Basing his findings in prewar papers in physics and engineering, he believes the Nazi Bell was intentionally conceived as a hyper-dimensional torsion device de-

signed to investigate local engineering of the vacuum for three purposes:

- 1) to explore the potentials for a new energy source,
- 2) to explore its potential for a new kind of propulsion, and
- 3) to explore its weaponization potential as a "doomsday" weapon of awesome destructive potential.

Dr Farrell also explores the potentialities of Nazi survival and the indications that the Bell project remained in Nazi hands, and that aspects of the project were continued in postwar Nazi enclaves in Latin America.

Conference Lodging Facilities

Limited space... Please register by June 30!

Nativo Lodge

6000 Pan American Fwy NE
Albuquerque, NM 87109
I-25 at San Mateo Boulevard

Hotel Reservations:

(505) 798-4300

www.hhandr.com

Be sure to request our special
TeslaTech
ExtraOrdinary Technology
Conference rates!

Hotel Amenities

For comfort and convenience, hotel amenities include:

- Free Breakfast Buffet
- Free local calls/no surcharge on cards
- Clean, fresh, comfortable rooms standard with a coffee maker, iron and ironing board, free high speed wireless internet access, and free local calls!
- 24-hr FAX and copy services

Conference Evening Social

Meet the Speakers
... and New Friends!

Thu/Fri/Sat 7PM

Every night provides an opportunity to meet the speakers and other attendees in a relaxed social setting. Its a great opportunity to make new friends that share your interests. We even provide some refreshments!

**Need a Ride
from the
Airport?**

(505) 883-4966

The **one-way** rate to/from the Nativo Lodge is **\$22 for first passenger.**

Extra passenger rate of \$7 applies for each additional passenger traveling in the same party as the full-fare passenger and must ride to the same destination on the same shuttle van.

Organize as a group prior to going to shuttle counter. Van holds 10 people!

**For taxicab service in Albuquerque,
Call Albuquerque Cab Company at**

(505) 883-4888

New Energy Movement....

an enthusiastic co-sponsor of the
Extraordinary Technology Conference!

NEM strongly endorses the new book **BREAKTHROUGH POWER** as a timely and powerful education tool for the mainstream public.

Learn more at

www.BreakthroughPower.net

The World We Envision

Clean, safe, abundant, inexpensive energy for all... stabilized climate... clean and healthy water, food, and air for all... beautiful blue skies over our cities... low-impact, sustainable forestry and agriculture... beautiful landscapes unspoiled by wires and smokestacks... recycling of virtually all wastes... rivers running free and natural... thriving sustainable local economies... living standards and education rates increasing... birth rates declining... a global culture of sharing... unleashed human creativity... a new and lasting era of world peace...

With a revolution in energy as the foundation of renewed and loving stewardship of our planet, we can transform our world into a beautiful and healthy home full of promise, opportunity, abundance, and peace for all of humanity.

Our Mission

The New Energy Movement acts to promote the rapid widespread deployment of advanced, clean, and sustainable energy sources across our imperiled planet. This transformation in the way our civilization generates and uses energy provides the best physical means to protect the biosphere, remediate ecological damage, and enhance the health and well-being of the global human family.

The New Energy Movement's major priority is to educate the public, policymakers, and investors about the need to support research, development, and use of zero-point energy, magnetic generators, advanced hydrogen processes, and other little-known powerful energy technologies now emerging from inventors and scientists all over the world...

The Challenges

Critical and unprecedented challenges now face our civilization, inflicting a terrible toll on our people, our companion species, and the planet itself. If not reversed soon, they threaten to end human life on Earth.

Without a revolution in energy, we will not be able to act with the speed and scope demanded by the climate change emergency we face. With this revolution we will be able to create sustainable and just economic development required for world peace.

**Our survival will require a vast and dramatic shift ...
in how human civilization generates and uses energy!**

As a grassroots nonprofit, NEM invites you to join our work of educational outreach to the public, policymakers, and media. We advocate for serious and urgent support for research and development of breakthrough energy technologies.

Please support our vital work with a generous tax-deductible contribution.

**newenergy
movement**

PRE CONFERENCE ACTIVITY

Thursday Afternoon

Thu Jul 30 • 1PM-3PM

Sacred Geometry

Danae Harding

Sacred Geometry is the Technology of Consciousness. The underlying structure of everything is based on geometric shapes. Each shape or structure determines function. Different shapes, purposely put together, create different kinds of experiences and powers. In space, nature's letter of creations are shape... in time, they are rhythms. These connect life activity to cycles in time. Shape in resonant harmony is a passport to travel through time, space and dimensions.

We built a large octahedron and used it to enclose the power of a sphere and two double merkabas. A standing platform based on a mandala was built, and then the whole system was energized. We captured the energy inside of a caduceus coil and wired it into the platform. Inside of that is a crystal heart inside a gyroscope. We put sound to each of the rings of the gyroscope.

This seminar will reveal both construction details and the incredibly extraordinary results we achieved!

POST CONFERENCE ACTIVITY

Sunday Afternoon

Sun Aug 2 • 1PM-3PM

GEET Seminar

David Pantone

The first working prototype was developed long before the technical analysis was attempted. Plasma research is a fairly new field of acceptable science. The technology used in the GEET Fuel Processor is a combination of the most basic scientific principles, most of which falls within the normal rules and of thermodynamics. But some of the 70 simultaneous phenomenon are not found in those books, since it is the combination of events, which is the body of this discovery. Put quite simply, the exhaust heat is transferred to the incoming fuel vapor, which must be maintained in a vacuum, and the overall configuration provides a molecular breakdown within the vacuum of all of the heavier elements. Therefore, intensifying the vacuum, the speed of molecular breakdown or reaction is magnified, and less heat is required.

High gas prices and high pollution levels are a modern plague... and GEET is the solution. Engines running on GEET technology have consistently shown tremendous reductions in emissions. Early efforts for this groundbreaking experimental technology centered on small engines. Now, plans are even available for automobiles.

HealthWalk
Your Path to Vibrant Health

Mark Hinds

Up to this point in history, healthcare has been divided into two camps – the western allopathic model and what was known as the traditional medicine model from a multitude of cultures developed over centuries. HealthWalk is the leading innovator in combining the science of the western symptom based approach with the holistic perspective of traditional medicine while integrating the newest in emerging technologies.

HealthWalk has harnessed the best technologies to gather and analyze consistent, comprehensive information about the body and mind. This data is evaluated by HealthWalk's specially trained healthcare practitioners in consistent and customized protocols to recommend the most effective solutions from all healing disciplines to address the fundamental causes of disease.

HealthWalk also has proprietary products and supplements which are clinically developed and proven to support the body to regain, maintain and enhance health. This session will outline the modalities, the protocols and cases studies of people who have experienced the power of the HealthWalk system of health and wellbeing. One of HealthWalk's key technologies, MindSoul Brain Technologies, a brain mapping and sound and light frequency treatment system, will be discussed in a separate session by the developer and patent holder of the neuro-stimulation patents used in this protocol.

MindSoul Brain Technologies

**Neuro-pathway Mapping and Treatment
for Mental and Physical trauma**

Dr. Dennis Maness

MindSoul™ is the overarching brand name given to the HealthWalk Company's products and services which map, support and enhance the development and repair of the human cognitive processes and responses which may be affected through conditioning, stress, daily living and damaged through physical or emotional trauma or exists from birth.

One of the key technologies in this group is MindSoul Brain Technologies. Dr. Dennis Maness, the developer and patent holder of Neuro-Stimulation therapy will discuss and demonstrate during this conference, the science and efficacy of MindSoul Brain Technologies to ease the range of symptoms of ADHD, anxiety, autism, depression,

memory, mood swings, physical impairment from accidents and disease, PTSD, sleeplessness and more. MindSoul Brain Technologies maps the brain and uses specific customized sound and light frequencies to support the brain to recover missing or damaged neuro pathways to support the mind and body to maintain a higher level of homeostasis.

HealthWalk's results are significant, dramatic and lasting. Our clients include the US Department of Labor, a number of schools, learning clinics, rehabilitation centers and health clinics throughout America and the penal systems of California and Nevada.

Natural Long-Wave BioElectric Currents

**A Neo-Taoist Examination of Earth's and
Moon's Co-orbiting, and the Resulting,
Induced Long-wave Bio-Electric Currents**

Hugh Tirling

Tesla's insights into the dynamics of electric generators, and consideration of celestial-object scales, leads to the identification of a planetary generating system and its effects throughout the biological realm. This new model provides a framework to produce larger, healthier plants by utilizing the periodicity of naturally occurring, growth enhancing bio-electrical fields... and indicates that scheduling strategies can optimize projects. Applied traditional Chinese philosophy introduces whole system dynamics (Tao), and unified complimentary antagonism (polarity) known as Tai Chi, (Yin-Yang). An examination of the solar system as non-symmetrical polarity, with the Sun as

a point-centered pole, and darkness (space) as multi-pole highlights the light/dark dynamic widely recognized in the annual change of seasons with its attendant change in growth and demise in living systems.

A third major light/dark biocycle originating in the binary-planet dynamic of the Earth's and Moon's co-orbiting. This process, within the Sun's great continuous out-flowing of energy, induces on Earth a vast slow alternating current flowing within bio-organisms affecting both their growth, and healing. Plant growth studies, statistical medical records investigations, and bio-current research support this extraordinary premise.

HealthWalk™
Your Path to Vibrant Health™

**A
Holistic
Integrative
Wellness Center**

Leading Edge Technologies,
Advanced Practitioners, Natural Supplements and
Products backed by over 20 years of research.

HealthWalk is dedicated to supporting and empowering you to
achieve and maintain vibrant wellness.

HealthWalk - the leading innovator in combining the science
of the western symptom based approach with the holistic
perspective of traditional medicine.

Vital Hematology - Live Blood Analysis

Parasitology, Microorganisms, Heavy Metal, Liver
and Gall Bladder Detox. Kinesiology

HYDROGEN - A Practical Application

Luke Fortune

It is well known that hydrogen is a clean alternative fuel to petroleum, but most people are unaware how easy it actually can be to convert their gas using automobiles to run on hydrogen. In a recap of the technologies propagated by Stan Meyer, Daniel Dingel, and other inventors, we will cover the simple answer to switching to hydrogen in a safe and cost-efficient manner.

One promising system is a combustion system utilizing hydrogen gas to drive a piston in an automobile device. The system utilizes a hydrogen generator for developing hydrogen gas. The hydrogen gas and other non-volatile gasses are fed to a mixing chamber also having oxygen fed thereto. The mixture is controlled to regulate the burning temperature; that is, to lower the temperature velocity of the hydrogen gas to that of the commercial fuels. The hydrogen gas feed line to the combustion chamber includes a fine linear control gas flow valve. An air intake is the source of oxygen and it also includes a variable valve. The exhaust gasses from the combustion chamber are utilized in a controlled manner as the non-combustible gasses.

The source of volatile gas is water which is split into the two gases (hydrogen and oxygen) by a low power DC arc. The gases are reintroduced in the combustion chamber where they are re-joined, releasing a significantly larger amount of power. The exhaust is water vapor which is recycled for fuel. Specific structure for the controlled mixing of the gases, the fuel flow control, and safety are disclosed.

European Progress with GEET Technology

David Pantone

Try to imagine owning the ultimate home production power plant; it heats your water, generates electricity, takes care of heating and air conditioning, by utilizing the waste heat from refrigeration and applying it to storage/hot water, while the generator produces all the electricity you want. This is all possible with the GEET Fuel Processor.

In simple definition, it could be called a new type of carburetor with a miniature refinery built in. With it, there is no need for catalytic converters, smog pumps and many other costly items on cars, as the GEET Fuel Processor is not just a fuel delivery system it is also a pollution elimination unit! Your mileage will be increased if you are consuming ALL available energy, from whatever fuel you may be using.

Paul Pantone, the inventor, is currently being held illegally in Utah's 'Guantanamo of the West' because he refuses to hand over his patents. Despite this flagrant attempt at suppression and intellectual theft, Paul's son, David, is carrying on Paul's work in Europe.

In addition to covering the basics of the technology, David will provide us with details of the latest initiatives he is taking to promote the expansion of the GEET network in Europe... including a new research center!

Characterizing Brown's Gas

Chris Eckman

Browns Gas has many different properties that are still not understood or fully explained by using any current chemistry or physics data. For example: Browns Gas has a flame that is very cool, but igniting ordinary hydrogen(H₂) and oxygen(O₂) will produce a flame of about 2800 °C, this is too hot to be Browns Gas.

According to newer theories of Brown's Gas, it contains a special structure of water that Yull Brown called a "fluid crystal", George Wiseman calls "Electrically Expanded Water" and Professor Santilli calls "Santilli Magnecules". If a water molecule were to push its existing electrons into lower energy state so it can absorb new electrons, then the water would not split into its components and would have its properties change. If heat were added to the "new electric steam" the electrons will

disperse causing high heat due to the electrical resistance of the target material and to the kinetic energy of those electrons (that is why the temperature will change for every material it hits).

We know that electricity CAN burn, melt or sublimate materials using electric means and that anything (except perhaps superconductors) can and will get hot when used as a resistor for electricity. Browns Gas is truly a dive into the unknown and the great number of theories surrounding it seem to confirm its strangeness. The unexplained nature of Browns Gas has unique and special properties that need to be researched and experiments need to be done. This presentation will explore the Browns Gas mystery and provide some new insights and possibilities that may eventually solve the Browns Gas unexplained nature.

ExtraOrdinary Books for ExtraOrdinary Researchers!

Auto Engine GEET Plans

by Paul Pantone

This retrofitted Suburban has been driven **THREE** times across the US

WARNING: ALL GEET Plans are to be considered experimental! No guarantees are made as to their accuracy or feasibility!

High gas prices and high pollution levels are a modern plague... and GEET is the solution. Engines using GEET technology have consistently shown tremendous reductions in emissions. Early efforts centered on small engines. Now, plans are available for automobiles. Purchase your set of *GEET Fuel Processor* plans and build a GEET for your automobile engine. Replacing a catalytic converter or some expensive air pollution control device? *Now* is an excellent time to consider installing a GEET device. Plans include a license to build and install one device (GEET is a patent-protected technology). These Official GEET Fuel Processor Plans are for **personal use only!**

- 750002- GEET Single Auto Plan .. 250.00

Energy Machine of T. Henry Moray

Zero-Point Energy & Pulsed Plasma Physics

by **Moray B. King**

In the 1920s Moray invented a "free energy" device that produced 50 kW of electricity. Unexplainable by orthodox science, the electricity exhibited a strange "cold current" characteristic where thin wires could conduct appreciable power without heating. Moray suffered ruthless suppression. In 1939, the device was destroyed. Today, modern physics finally recognizes the vacuum contains tremendous energy called *zero-point energy*. Other inventors have discovered it is activated by pulsing plasma, and created novel energy devices, but they too were suppressed. The common pattern of these technologies clarified the fundamental operating principle. Free energy that works! Truly an inspiration for engineers and inventors, this is a **MUST** have book (200pp)

- 450003-Energy Mach of Moray 14.95**

Electric Motor Secrets

by Peter Lindemann

Laying dormant within the modern electric motor is a deep, dark secret. For the last 176 years, that secret has held the electric motor to its present level of performance. But in 1975, a quantum leap in electric motor design was made by an American inventor named Bob Teal. Teal's Magnipulsion Engine produced COPs between 8 and 10. Using lab demonstrations, patents, diagrams, and private documents, Dr. Peter Lindemann takes you on an extraordinary trip through the history of electric motors, resurrecting the secret of Magnipulsion, and revealing the future of efficient electric motor design. **MUST HAVE DVD!** (2hr 26 minutes)

- 330015 -Electric Motor Secrets 29.95**

Basic Electricity

US Bureau of Naval Personnel

Originally a training course, its the best non-technical coverage on electricity. Topics include batteries, circuits, conductors, AC and DC, inductance and capacitance, generators, motors, transformers, amplifiers, etc. Many questions with answers.

- 390001- Basic Electricity 15.95**

Basic Electronics

US Bureau of Naval Personnel

This clear, well-illustrated introduction to electronic equipment covers the safe use of electronic

devices and basic test equipment, plus numerous essential topics: electron tubes, semiconductors, electronic power supplies, tuned circuits, an introduction to amplifiers, receivers, ranging and navigation systems, an introduction to computers, antennas, AM/FM, and much more. 560 illustrations.

- 390002- Basic Electronics 18.95**

Tools and Their Uses

US Bureau of Naval Personnel

Teaches names, general uses, and correct operation of all basic hand and power tools, fasteners, and measuring devices you are likely to need. Also, grinding, metal cutting, soldering and more.

- 390003-Tools and Their Uses...10.95**

Progress in ZPE 'Water Fuel' Research Moray King

Pulsing, water electrolyzer projects are popular throughout the world. Their popularity is rising with many claims of excess energy production either to boost an automobile's efficiency or to completely run a car on water. Most researchers believe their electrolyzers are producing molecular hydrogen or atomic hydrogen gas, known by various names such as Brown's gas, Rhoad's gas, hydroxy, HHO. Moreover, when the gas is used for welding applications it exhibits unusual anomalies, perhaps the most extraordinary is the ability to sublime tungsten despite exhibiting a cool welding flame. There are even claims of radioactive remediation and element transmutation. The excessive energy and extraordinary anomalies of this gas cannot be explained by atomic (or molecular) hydrogen burning.

Here it is proposed that the produced gas is actually "charged water gas clusters," whose excessive energy is sourced from the zero-point energy. Charge water clusters, (hydrated electrons) exist in the gaseous state. Strange energetic anomalies come from Ken Shoulders' studies of plasma charge clusters, akin to microscopic ball lightning, that can disrupt atomic bonds in metals by non-thermal means, and has measured element transmutation in targets struck by them. Similarities in the observed anomalies between Brown's gas and clusters are compelling, which suggest they might be forms of a same underlying ZPE cohering phenomena.

Pyramidal Electric Transducer

A DC to RF Converter for the Capture of Atmospheric Electrostatic Energy

Peter Grandics

We have found that the dimensional ratios of the Great Pyramid of Giza express the key ratios of an AC voltage sine wave as well as ratios of the Fibonacci number. As pyramidal horn antennas are suitable for the detection of short-pulse waveforms, we reasoned that the shape of the Great Pyramid could embody a time domain, wide-band antenna for atmospheric electrostatic discharge (ESD) impulses.

This hypothesis has subsequently been confirmed. We have further found that the pyramidal antenna, modeled on the Great Pyramid, can couple into the atmosphere and transfer the power of ESD impulses into a novel lumped-

Pyramidal Power!

It's Not Science Fiction... But Reality!

element resonant circuit that converts the random impulses into regular series of exponentially decaying sinusoidal wave trains. Thus, ESD impulses can be transformed into an alternating current of predictable frequency.

This system, modeled on the Great Pyramid, could become a source of renewable electric power by utilizing the electrical activity of the atmosphere.

The True Nature of Gravity and Inertia

A Discussion on How/Why They Work as They Do and an Experiment to Prove it

Arthur A. Larson

Newton's Law of Gravity only describes its behavior, not how or why it works as it does. Questioned on how his attractive gravity worked, Newton replied he didn't deal in conjecture.

Einstein said there was no force of gravity or lines of force, only paths or geodesics in space, caused by the presence of mass. Although he tried for years to link his geodesic gravity with the other particleized forces of Nature, Einstein died without achieving his Unified Theory.

Today, scientists agree massless gravitons are carrier particles of the gravity force but still do not know why gravity works as it does or how it is made. The search for quantumized gravity is still the Holy Grail of science.

Inertia has a connection with gravity, but it is not known what this connection is. Newton thought it a fixed attribute of any mass; Einstein thought the equality of gravitational and inertial mass was an 'amazing coincidence.'

A new hypothesis of gravity states that gravity is a self-movement of atoms caused by the exchange of gravitons between any two bodies or atoms to set up the conditions for the atoms to move themselves. This new theory builds on Newton's Law and Standard Theory and continues on to further explain how inertia is made and how it works, using graviton exchange and graviton recoils as the linking motive force for both gravity and inertia. Two of the quantitative predictions can be experimentally tested!

TeslaTech Books By Mail

Home of the Best Kept Secrets of Science

Secrets of Antigravity Propulsion

Tesla, UFOs, and Classified Aerospace Technology

Paul A. LaViolette, PhD

Learn the secret history of antigravity experimentation -- from Nikola Tesla and T. Townsend Brown to the B-2 Bomber. The existence of advanced gravity-control technologies, under secret military development for decades is revealed. Included among the secret highlighted projects is Project Skyvault's attempt to develop an aerospace propulsion system using intense beams of microwave energy similar to that used by the strange crafts seen flying over Area 51.

Using subquantum kinetics (the science behind antigravity technology) -- LaViolette reviews numerous field-propulsion devices and technologies that have thrust-to-power ratios thousands of times greater than that of a jet engine and whose effects are not explained by conventional physics and relativity theory. Controversial evidence about the NASA cover-up in adopting these advanced technologies, Russian research to duplicate Searl's levitating disc and the Podkletnov gravity beam experiment are covered.

300003- Secrets of Antigravity 24.00

Decoding the Human Body-Field

The New Science of Information as Medicine

Peter Fraser, Harry Massey & Joan Parisi Wilcox

This work introduces a revolutionary system that reestablishes the proper flow of information to the body's energetic fields to promote health. After decades of research, Peter Fraser has formulated a system that unites the meridian system of traditional Chinese medicine with quantum wave theory to provide the first comprehensive link between the human body's biochemistry and bioenergetics. He explains that we each have a body-field based on twelve meridian-like channels that process and coordinate information throughout the body and that our health depends on the proper flow and communication of information through these channels.

In *Decoding the Human Body-Field*, Fraser and Massey describe in detail their revolutionary Nutri-Energetics System, which uses Infoceuticals--liquids infused with organic colloidal minerals that are imprinted with corrective quantum electrodynamic information--to remedy distortions and blockages in the information flow of the body-field. The imprinted information acts as a magnetic signpost to engage the body's self-healing ability.

300008-Decoding Human Field 18.95

Forbidden Science From Ancient Technologies to Free Energy

Edited by J. Douglas Kenyon

This extraordinary book reveals how orthodox science disallows inquiry that challenges the status quo-- even when it produces verifiable results. It highlights cutting-edge, heretical, or suppressed scientific research, by researchers including Immanuel Velikovsky, Nikola Tesla, Rupert Sheldrake, and Masaru Emoto. It explores science and technology that has been suppressed by the orthodox scientific community-- from the true function of the Great Pyramid and the megaliths at Nabta Playa to Velikovsky's astronomical insights, free energy from space, cold fusion, and Rupert Sheldrake's research into telepathy and ESP.

There is an organized war going on in science between materialistic theory and anything termed spiritual or metaphysical. The absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box. This mentality is interested in preserving funding for its own project. From Tesla's discovery of alternating current to Schoch's re-dating of the Sphinx, this is a compelling introduction to the true history of alternative original research.

300005- Forbidden Science 18.00

Pyramid Power

This bestseller offers fascinating information on pyramids, and how you can make pyramid power work for you!

Max Toth & Greg Nielsen

The topic of controversy, *Pyramid Power* has captured the imagination of millions all over the world who have used these mysterious energies in research and to create a better life style. Pyramid Power, the secret energy harnessed by the ancients, preserves food stuffs, amplifies thought forms, and increases sexual vitality. Here is the latest fabulous and provocative information on pyramids around the world, instructions on building your own pyramid, and suggested experiments. This bestseller on pyramid energies offers fascinating information on pyramids around the world, and how to make pyramid power work for you.

300004 - Pyramid Power 12.95

Robotic Vehicles Descendants of Tesla's Teleautomaton!

Warren Williams

Tesla's 1897 unveiling of a remote controlled boat ushered in an era that lay dormant for decades. It was an excellent demonstration of the integration of radio, logic circuits, and mechanical interfaces... and far ahead of its times. Robotics would lay dormant until the advent of the American space program and microcircuits.

Today, unmanned aerial vehicles (such as Predator) prowl the skies seeking targets with ground controllers providing real time guidance via radio. Planetary exploration has gotten a boost with the deployment of small Mars rovers which have a limited degree of autonomy. The challenge of the future was summed up in his 1900 essay... "The Problem of Increasing Human Energy" in which he envisions armies of battling robots.

DARPA has set out to perfect Tesla's dream. In their competitions, they require vehicles to find their way and drive a 210-mile trek without a human driver or operator, using solely their own sensors and computers to recognize and navigate through the difficult mountainous and desert terrain. Shown above, Warren's Ladibug robot is a modified Kawasaki ATV fitted with short-range microwave radar, ultrasound sensors, and GPS. His presentation and demonstration will prove Tesla's vision is near at hand!

The 'Tesla Turbine' — Detroit's Best Weapon — Against Peak Oil Economics

Jeffery Hayes
Tesla Engine Builders Association

Nikola Tesla gave us the design for a complete hybrid capable of exceeding 100 mpg. In the early 1990s Volvo proved the concept with their "Environmental Concept Car." Although a revolution for vehicles, the Volvo was not economic for production due to the part of the system that was not Tesla's. This missing component was the engine. Although Volvo used a specially developed bladed turbine to drive a Tesla high frequency alternator, it was not the revolutionary 'Tesla Turbine.'

The Tesla Turbine can operate at red heat while using dirty water for half of its fuel volume and is capable of completing a "combined cycle" in a single stage. It is the cheapest and safest turbine of any type and even self regu-

lates speed. The thermal efficiency can be more than doubled, easily exceeding the 45 mpg of the mid sized Volvo 850 conversion. This is very significant, as all that is required to end U.S. foreign oil dependence is an average fleet efficiency of only 35 mpg.

This is a unique opportunity Detroit to turn the tables using Tesla Technology. Simple in its basic design, with few moving parts, the Tesla engine is relatively inexpensive to manufacture, and requires less maintenance than a typical conventional engine.

Tesla's Worldwide Wireless Energy Transmission System

Gary Peterson

**Practical
Demonstration
of Wireless
Transmission!**

Tesla is well known for his pioneering development of the 3-phase AC electrical power system and the reworking of his predecessor's primitive RF power supplies, ultimately providing mankind with the world's first practical radio communications system. This presentation describes the development of some original electrical apparatus; from an early electric arc lighting system to his advanced system for the wireless transmission of electrical energy. A small-scale Tesla wireless system will be demonstrated, and some alternative theories will be proposed to explain its operation.

At this time of accelerating dangerous circumstances, such as global climate

change and the depletion of petroleum reserves, a set of clearly defined comprehensive solutions is needed to overcome the present impasse of world-opposed thinkers and ideological dogmas. Planners, architects, and engineers must assume responsibility for our future wellbeing. Go to work and, above all, co-operate with one another, not holding back nor seeking personal gain at the expense of others, always heeding the infinitely accommodative synergetic laws of the "intellectual integrity governing universe."

Tesla stood on the shoulders of those who preceded him, improving upon what had been done before and coming up with completely new and original ideas. We too must continually add to the existing accumulation of perpetual knowledge. This is the way to increase human energy.

CONFERENCE DVD SETS AVAILABLE!!!

Global Science Congress

(1987-2002)

The Global Sciences organization was founded in 1983 by Dean Stonier with the intent to promote the understanding and integration of body, mind and spirit as well as the mysteries which surround us in daily life such as UFO's, crop circles, spiritual growth and ascension, alternative healing modalities, suppressed technologies, mind control, shadow government/one-world conspiracies. Eventually this resulted in two national conferences each year, typically Florida in the Winter and Denver in Summer. Dedicated to bringing you the latest information which is crucial during these exciting times here on planet Earth, these congresses were considered the premier events of the alternative world for nearly two decades!

Room Temperature Superconductivity and Magnetic Monopoles

John V. Milewski, PhD

During most of my scientific life I have been looking for room temperature superconductivity for electrical energy or electrons or electric monopoles. Ironically, I have recently uncovered *Room Temperature Superconductivity* in abundance for magnetic monopoles — not electrons

This even more significant since this Room Temperature Superconductivity for magnetic energies is everywhere. In fact, almost everything except metals and metal superconductors provide Room Temperature Superconductivity for magnetic energies, or magnetic monopoles.

In this presentation I will discuss how I discovered Room Temperature Superconductivity of magnetic monopoles and the significant implications it will have in the revolution of the whole (electronic- magnetic monopole) communication and energy transfer scene. Energy transfer of magnetic monopoles can occur through wires with no heating at speeds *10 Billion* times faster than electrons. Radio/TV waves will be able to travel at Superlight speeds 10 billion times faster than light. With this technology we will truly be in the deep space travel age.

EarthLights and Natural Cold Plasma **Naturally Reoccurring Spherical Plasmodial Phenomena Can Be A Potential New Energy Source!**

Wyatt Cox

There is an unusual geological fault line in northern Alabama that produces highly focused electrical currents that flow in series with the fault that routinely and consistently produces 2 meter diameter spheres of cold plasma. Commonly known as *EarthLights* they are sometimes near the surface and from a casual observation appear to yield several kilowatts of electrical energy. They have been observed for several years and recently more detailed information about these naturally occurring cold plasma phenomena have surfaced.

This unique and verified location produces perhaps the best high yield (kilowatts) examples of naturally occurring sphere of cold plasma that can be observed on an almost routine basis. These pulsating spheres of intense,

The Keppe Motor is a highly efficient electric motor that greatly reduces the consumption of electricity -- by as much as 1/5 -- apparently by capturing scalar energy from space. Their motor, powering a fan that usually requires 50 Watts, pulls less than 4 Watts for the same output. The design is based on Dr. Norberto Keppe's book, *The New Physics Derived from A Disinverted Metaphysics*. According to his theory, electricity comes from a primordial form of energy called Essential (or Scalar) Energy with two components, action and complementation. A conventional electric motor works with only one - fed by DC or AC power supply - causing undesirable losses. The Keppe Motor works with

coherent and visible energy are often times in view for up to ten minutes and they always are observed directly above its subterranean power source.

A team of specialists can determine precisely how the cold plasma is formed, how it is propelled and how much energy is employed to create and maintain a 2 meter sphere of cold plasma. By understanding this complex phenomenon a new and cost effective source of electrical energy can be harness from this and other similar geological faults. Understanding the nature of naturally reoccurring cold plasma phenomena could become a significant source of electrical energy, make possible suitable shielding for satellites and a boon for the food industry for killing bacteria.

The Keppe Motor and Other Breakthrough Clean Energy Technologies

Sterling Allan, CEO PES Network

both components of Essential Energy, increasing its efficiency by utilizing bi-directional, resonant energy.

Other free energy technologies are also poised to deliver us from our oil addiction and to launch a new world based on an abundance mentality rather than scarcity. We will explore some of the more exotic technologies such as all-magnet motors, cold fusion, gravity motors, flying cars, water as fuel, over unity electromagnetic motors, vortex, zero point energy, and new fusion approaches; as well as some amazing breakthrough developments in the more conventional fields of solar, wind, geothermal, tide, wave, river, hydrogen, and biofuels.

2009 ExtraOrdinary Technology Conference

Albuquerque, NM • July 30 - Aug 2, 2009

Conference PreRegistration Form

Information so HOT... it NEEDS to be Suppressed!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have **WORKING HARDWARE!** We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

This is a great opportunity to meet others who share your interests! Attending conferences is the best, and most economical, way of developing your network of professional contacts.... *Get the inside technical information you will not find on the internet!!!!* -

Speaker Topics/Categories :

- Tesla Technology
- Tesla Coils
- High Energy Physics
- Scalar Technology
- Alternative Energy
- Fuel Saving Products
- Alternative Medicine
- New Health Products
- Extreme Physics

Conference Notes:

- **Video Recordings.** Professional quality video DVDs will be available during and after the conference. **Private taping is not allowed.** Conference fees do not include DVDs.
- **Family Discounts.** Spouse rates available to immediate family accompanied by *members*.
- **Individual Sessions.** Individual session rates available at the door on a *space available* basis only.
- **Hotel:**

Nativo Lodge
6000 Pan American Fwy NE
Albuquerque, NM 87109

TeslaTech Conference rate is \$85 per night and includes breakfast buffet.

Space is limited so make your reservations early at TeslaTech's special group rate.
- **Refund Policy.** *Nonemergency* refunds are subject to a 10% cancellation processing fee.

Conference PreRegistration Rates

Type Attendee	Rate	# Attend	Cost
Member/Nonmember	\$349.95		
Spouse	\$299.95		
Students	\$249.95		
Thursday PM Workshop	\$49.95		
Sunday PM Workshop	\$49.95		

List spouse/student/additional attendees:

TeslaTech champions and nurtures advanced concepts and products in science and technology. Our publications and conferences provide independent inventors and researchers with a credible platform to introduce new, advanced concepts, inventions and discoveries to the world -- many of these concepts originated with Tesla at the turn of the 20th century. Research materials related to science and technology are available to the general public through our catalogs.
