## Business Practices and Policies

### ORDERING:

Our offices are open Monday through Friday 8:30am to 6:00pm

All first time orders will be sent Credit Card, PayPal, CASH or certified check. Future orders can ship "Company Check Acceptable" provided an approval of a company check application. FAX orders received 24 hours a day.

Any Free Freight Promotions will apply only to supply orders and will be exclusive of heavy items such as equipment, ink jet media, and magnetic products. Such promotions will apply only to orders shipped UPS ground in continental USA and will be subject to a maximum weight limit of 50lbs. Orders in excess of 50lbs will be subject to standard freight charges. All promotions are subject to change without notice.

Orders placed before 4PM Eastern Time where merchandise is in stock usually ship the same day. Most items not in stock are shipped within 3-5 business days. Any items out of stock will be back-ordered automatically (domestic orders only).

For International Orders placed online, you will be e-mailed the amount of your additional shipping charges within 1 business day of your order.

All merchandise is tax-exempt to qualified resellers, subject to our receipt of appropriate ST3/4 forms (See below).

Beacon Graphics is not responsible for any duty, taxes or brokerage fees incurred by the Department of Trade or Customs.

All catalogue prices are subject to change at any time without notice.

### RETURNS:

If we have made a mistake or an item is defective, call 1-800-762-9205 prompt 6 to arrange the return at our expense. You must have a RMA number (return material authorization) before sending any item back to us. When calling for an RMA# please furnish the packing slip, invoice number and date of original purchase.

Returns not due to our error are subject to a 25% restocking fee. Books, videos, design software, graphics and clipart cannot be returned once the package has been opened. Roland Stika model vinyl cutters, Graphtec Craft Robo vinyl cutters, and Heat Presses cannot be returned. All returns must be shipped back in original packaging in "like new" condition, with all accessories, cables, manuals, and warranty cards, etc, included. We suggest using UPS or other traceable methods of insured shipping for your protection.

You must inform us about defects, shortages, and exceptions within 5 days of receipt of order or the order is considered complete. No returns are accepted after 30 days. Original shipping and handling fees, as well as return shipping charges, are non-refundable.

### TERMS:

We accept VISA, MasterCard, Discover and American Express charge cards.

All dishonored checks will be assessed a service charge of \$25.00.

Any unpaid balances over 30 days will accrue a 1.5% service charge: 18% A.P.R.

Certified funds or bank orders required for C.O.D. orders. C.O.D. fee is \$9.00.

### LIMITED LIABILITY:

Except where otherwise specified, products sold by Beacon Graphics, LLC are sold in new condition as received from the manufacturer. Warranties, if any, covering products sold by Beacon Graphics, LLC vary among manufacturers. Inquiries regarding such manufacturers' warranties should be directed to Beacon customer service.

BEACON GRAPHICS, LLC DOES NOT MAKE AND SHALL NOT BE HELD LIABLE FOR ANY EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE AND DISCLAIMS ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. BEACON GRAPHICS, LLC WILL NOT BE RESPONSIBLE OR LIABLE FOR ANY MANUFACTURERS DEFECTS OR OTHER DEFECTS OF ANY KIND. IN NO EVENT SHALL LIABILITY OF BEACON GRAPHICS, LLC BE GREATER IN AMOUNT THAN THE PURCHASE PRICE OF THE PRODUCT IN RESPECT OF WHICH DAMAGES ARE CLAIMED, NOR SHALL BEACON GRAPHICS, LLC BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, SPECIAL, INDIRECT OR PUNITIVE DAMAGES OR LOSS OF PROFITS, EVEN IF IT IS ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSS

### WARRANTY:

All merchandise is brand new with full manufacturer's warranty, unless otherwise noted.

# Cast Vinyl- Premium

## Vector High Performance

The Vector V1000 Series is a premium high performance cast vinyl film engineered for use on irregular surfaces with rivets and corrugations and also where extended outdoor durability is required. It is used for recreational vehicles, fleet, marine, automotive graphics and striping, architectural signage, decals, computerized sign making and service station markings

### Vector

#### Pro V-9 Series (V1)

- 2 mil Cast Vinyl

36"	\$157.30	\$776.30
48"	\$162.35	\$648.95

## When Should I Use Cast Vinyl?

Cast vinyls are extremely durable and will withstand considerable variations in temperature and humidity. Their dimensional stability makes them particularly suited for application to compound curved and uneven surfaces such as corrugations and rivets.

All cast vinyls have a guaranteed minimum outdoor life. They are therefore ideal for virtually all long term applications including vehicle wraps, vehicle lettering, marine, industrial markings and exterior signs. Indoor applications include reverse window graphics where extremes of temperature and humidity require utmost stability.

### Choose the right vinyl for the application!

## Translucent Vinyl

Translucent films are high performance, flexible, cast vinyl films which are especially suited for architectural graphic applications involving flexible and rigid backlit signage and awnings, as well as window graphics. These films maintain consistent color under both transmitted and reflected lighting conditions and adhere to a wide variety of properly prepared substrates. Some of these films may also be used with thermoforming, backlit applications.

# Calendered Vinyl

These films are intermediate length (4-6 years), flexible, high gloss calendared vinyl designed for use on computer sign cutting equipment. This construction provides an attractive appearance and easy cutting, weeding and transfer characteristics for promotional signage applications. For surface preparation, converting and printing, application and removal instructions, please refer to the appropriate manufacturers instructions.

## Vector

## Metal Films

Cutting, weeding and applying SignGold-22K is virtually the same as working with other high performance vinyls. SignGold's durable Tedlar (PVF) film, with its guaranteed 12 year outdoor life, is UV, weather, graffiti, solvent, stain and saltwater resistant. No additional labor is involved. It is NOT more difficult to cut, weed or apply. In fact, the only noticeable differences are the additional value of genuine gold, additional customer satisfaction.

### Sign Gold

- 22 Kt Gold Vinyl
  - 1 Mil Cast Vinyl
  - Up to 10-14 Yr Durability
  - Easy Cutting, Weeding and Application
  - Available in 7 colors

Silver Vinyl

## Metal Films- For Print and Cut Media

SolGold is the world's only genuine gold "Print and Cut" media for use with Eco-Solvent, High Solvent and Lyson Inks. SolGold provides superior ink adhesion qualities and extraordinary visual impact. SolGold is recommended, for use with integrated Print and Cut equipment, such as Roland's SolJet and Versa Camm series printer / cutters.

# Vinyl Accessories Application Fluids

## Rapid TAC

(RAPIDTAC\_size)

*Rapid Tac Application Fluid gives installers more control over their applications than ever before. Using Rapid Tac will allow a large graphic to be installed with one person where two people were previously required for dry installation. Rapid Tac cleans the substrate without leaving residues ensuring a contaminant free installation. It then helps to "float" the vinyl film until it is properly positioned. Rapid Tac effectively breaks the surface tension of the adhesive on the film allowing it to flow and bond to the substrate more effectively than even a dry application. Rapid Tac allows a full bond to be achieved in as little as ninety seconds. Both you and your customers will benefit from faster, higher-quality applications, and fewer failures*

- 4 oz. with sprayer . . . . . \$4.00
- 30 oz. with sprayer . . . \$11.25
- 125 oz. jug . . . . . \$32.00

## Rapid Clear

Film and Polycarbonate Polish

(RAPID\_CLEAR\_size)

*Rapid Clear is the perfect end to a job well done and will make your work look it's best. Easily clean and polish plexiglass, glass, and most polycarbonates, while leaving a luster that is sure to impress. Use Rapid Clear as a final cleaning for your sign work, auto restoration, etc. Rapid Clear is Non-Hazardous Non-Flammable and Bio-Degradable. Perfect for Household Glass, Auto Glass, Aircraft Windows, Marine Windows, TV Screens, Computer Monitors, Tinted Glass, Eye Wear, Safety Shields, Cameras, Optical Equipment, and more...*

- 4 oz. with sprayer . . . . . \$3.00
- 30 oz. with sprayer . . . . \$8.50
- 125 oz. jug . . . . . \$20.50

## Rapid TAC II

(RAPIDTAC\_II\_size)

*For fast, easy, quality applications with no bubbles or wrinkles, even in cold weather. Rapid Tac II is designed to work with a wider variety of films such as the economy calandared, intermediate calandared, high performance calandared, metallic, reflective, polyester, mylar and other specialty films. Rapid Tac II promotes bonding faster than the original Rapid Tac application fluid and is ideal for cold weather and glass application. Rapid Tac II is not a replacement for the Original Rapid Tac, and may bond too fast with "Premium Cast" films in warmer conditions.*

- 4 oz. with sprayer . . . . . \$4.25
- 30 oz. with sprayer . . . \$12.25
- 125 oz. jug . . . . . \$35.25

## Rapid Prep

Wax, Silicone and Grease Remover

(RAPID\_PREP)

*A Non-hazardous, Non-Flammable Pre-Cleaner. Preparation is the key to success. Wax, grease, oil and silicone residues are the number one reason for both paint and film application failures. Rapid Prep easily and safely eliminates these and other contaminants ensuring a successful paint or film bond, and a happy customer. Ideal for pre cleaning almost any surface including automobile paint, bare metals, sign materials and glass, Rapid Prep was formulated by people with hands on experience and a desire to make a safer more effective pre-cleaner.*

- 4 oz. with sprayer . . . . . \$3.75
- 30 oz. with sprayer . . . . \$9.50
- 125 oz. jug . . . . . \$24.75

## Window Juice

(WINDOWJC-QT)

*Designed for wet application on glass, Window Juice gives you time to position your graphics and gets you off the job fast! Take advantage of the money-making jobs everyone used to hate to do. No more long waits to remove transfer tape. Do it now, do it quick, and do it right with Window Juice and windows. Works in hot or cold weather. Fast drying.*

- Quart bottle . . . . . 10.00

## SPLASH

Transfer Solution Concentrate

*Vinyl application fluids are designed to make the application of pressure sensitive vinyls and decals quick and easy by allowing you time to position your graphics and remove air bubbles prior to adhesion. The application fluid wets the surface, allowing you to slide the graphics until you get the exact placement. No need to worry about the adhesive sticking before you are ready. Concentrated Splash is the most cost effective application fluid on the market. Simply mix a bottle of splash with a gallon of water and you're ready to go.*

- 8 oz. bottle . . . . . \$11.75

## Adhesive Remover

**Rapid Remover** 4 oz. with Sprayer . . . . \$5.75  
 Adhesive Remover 32 oz. with Sprayer . . . \$16.75  
 (RAPID-REM\_size) 125 oz. Jug. . . . . \$48.25

*Rapid Remover is a non-toxic, water-soluble adhesive remover that breaks down and removes adhesives in as little as sixty seconds! Spray it on, wait a few minutes and easily wipe away residue adhesive with a plastic squeegee and paper towell. Not only does Rapid Remover work fast, but it works without causing damage to most painted or bare metal surfaces. What may have been a four-hour job (and a messy one at that) can now be cut in half with an easy, clean and non-damaging removal. Gone are the days of using dangerous and risky chemicals that often damaged painted surfaces, and presented numerous health hazards. Rapid Remover works. It's that simple.*

**GrafixGone**  
 Adhesive Remover  
 (GG32)

Quart (GG32) . . . . . \$11.75

*GrafixGone softens adhesive residue for removal within 90 seconds on most surfaces. Spot test on new paint before using. Will not burn most plastics...Will not harm latex paint. Great for removing old paper sheeting from plastics. No extra cleanup after removing adhesive residue. Smells good, works great. For Use on Vinyl Banners, Plexiglas™, Styrofoam™, Lexan™, Styrene, Glass, and Painted Surfaces*

*Use Rapid Remover or GrafixGone to remove the adhesive that is left behind after the vinyl is removed. Use with adequate ventilation. Wear protective gloves.*

**Adhesive-Off** 16 oz. with Sprayer . . . . \$8.25  
 Adhesive Remover Gallon Jug . . . . . \$37.25  
 Vanilla Smash Formula 5 Gallon Bucket. . . . \$174.75  
 (265)

*Are you still stuck in the old days, when the adhesive remover smelled like rancid oranges and made you feel sick? That's because you haven't tried this INCREDIBLE adhesive remover with its vanilla smash formula! This is a ready to use industrial strength blend of biodegradable solvents and surfactants designed to quickly dissolve adhesives. Spray it onto the adhesive, watch the adhesive swell, then wipe off with a paper towel, scrape off, or even pressure wash for big jobs. It's a powerful solvent even if it does smell great! Over 85% active ingredients.*

**Ghost-Off**  
 Oxidation Remover  
 (102)

Quart Spray . . . . . \$8.25  
 Gallon Jug . . . . . \$19.95

*GHOST-OFF is a ready to use, non-toxic, biodegradable commercial strength solvent. This product restores weather exposed surfaces and easily gets rid of ghost sign images from vehicle surfaces. Simply spray onto a dry oxidized surface, wait approximately one minute and then agitate with a soft truck brush. Follow with a rinse from top to bottom with cool water and watch the white oxidation rinse away! Ghost images disappear before your eyes as oxidation is easily cleaned from weathered surfaces.*

### Instructions for Adhesive Remover

- Use heat gun or heat lamp to soften vinyl
- Pull the vinyl from the surface
- Apply adhesive remover with cloth or paper towel
- Let sit for at least 90 seconds until glue softens
- Scrape with squeegee to remove glue residue
- Wipe area with a clean cloth or towel
- Remove any remaining residue from the surface

**Vinyl-OFF** 8 oz. . . . . \$9.95  
 Vinyl Decal Remover 1 Gallon . . . . . 67.00  
 (10-4-size)

*Vinyl-Off is a safe ready to use product designed to assist in removing vinyl graphics from multiple substrates: metal, glass, canvas, FRP, gel coat, fiberglass, etc. Vinyl-Off is a productivity enhancement tool (up to 90% less time!) and its benefits are the most obvious on older, difficult to remove vinyl graphics and decals. Used properly it will remove vinyl and 90-98% of the adhesive at the same time.*

*Use VINYL-OFF to remove vinyl graphics quickly. Apply and let set for 5-15 minutes depending on vinyl thickness. Biodegradable, non-toxic, no carcinogens and non flammable.*

### Vector- Diamond Back

V492-H, V482-S, V460-L: Economical Application Tape, Excellent for transferring letters and decals. Suitable for wet applications  
4075-H, 4050-S: Application Tape with Liner Technology Adhesive. Stays Flat on cut vinyl lettering so tape will not curl up or bubble from the liner paper. This means you can tape your graphics ahead of time, roll them up or stack them, ship them out or store them

V1600 Clear (Standard Tack): Clear tape aids in registration and alignment of graphics. Film will not stick to itself, tears easily, and is suitable for gloss or matte films. not recommended for wet application

Vector System 3: 4760(L), 4782(S), 4792(H): Low tack for banner sized letters and digital graphics. Standard tack for multi-purpose use. High tack for characters less than 2 inches.

### TransferRite Ultra

582U(Standard), 592U(High): For use over ready-to-apply graphics. Benefits include trouble free stacking and storage, improved adhesion liner, reduced wrinkling, tunneling and edge lift. Good for 2-12" lettering

782U (Standard), 792U(High): These premium tapes Use Superior Adhesive Technology, specially designed for use over screen printed decals. This premium paper premask offers more dimensional stability and humidity resistance, trouble-free stacking and storage, reduced tunneling and edge lift and less handwork (no minimal heat or vacuum needed). High tack good for large top-coated decals, 4-color process printed decals, small lettering and intricate logos and fine striping

1310Clear(Standard), 1320 Clear(High): Unique clear film backings with a custom formulated adhesive for decal transfer and pre-spacing. Used where precise registration is required for multiple color overlays. Benefits include superior adhesion to liner, ultra high clarity and increased quick-stick for fast transfer of graphics.

### R-Tape

4075C(High): Standard grade application tape with release liner adhesion technology. Application tape recommended for small and medium sized graphics. Clean transfer with wet application. All purpose transfer and prespace tape.

AT-75(High): Clear embossed application film benefits include hand-tearable for easy dispensing, forgiving adhesive system (transfers difficult to transfer graphics and small lettering) and embossed facestock creates air-egress micro-tunnels in the adhesive for bubble-free lamination of the application tape onto the graphics. Good clarity to aid precise registration of multi-color overlays. Excellent lay flat to resist curling. Static free. Unique adhesive system will not build to vinyl during storage of graphics.

### Main Tape

**PerfectTear Plus**  
GXP750 (Standard Tack)  
GXP775 (High Tack)  
Standard Weight Paper (4 mil) with Lay Flat Adhesive, Resists Wrinkling, Tunneling and edge curling for RTA vinyl graphics. Used in sign making, screen printing and surface protection.  
Typical uses include small and medium-sized computer-cut letters, where adhesion to exposed liner is required. Laminates smoothly to UV inks and clear coated 4-color process graphics. Offers superior conformability to silicone release liners.

**PerfectTear Plus**  
GXP850 (Standard Tack)  
GXP875 (High Tack)  
Premium Weight Paper (5 mil) with Lay Flat Adhesive, Resists Wrinkling, Tunneling and edge curling for RTA vinyl graphics. Used in sign making, screen printing and surface protection.  
Typical uses include small and medium-sized computer-cut letters, where adhesion to exposed liner is required. Laminates smoothly to UV inks and clear coated 4-color process graphics. Offers superior conformability to silicone release liners.

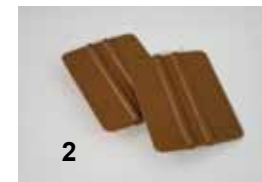

Choose the right tool for your job. These application rollers and squeegees make it easy to apply your vinyl right the first time.

### Application Rollers and Squeegees

Product	Photo #	Product Code	Description	Price
Application Roller	1	Z1006	For smoothing down vinyl graphics	\$23.50
3M Squeegee (Gold)	2	PA-1	Most Rigid	\$4.00
Rigid Squeegee (Gray)	3	907	More Rigid than the Z1008	\$0.85
Rigid Squeegee (White)	4	Z1008		\$0.50
Low Friction Squeegee Sleeves	5	Z1009	Use for specialty films like mirror-metallized polyester films. (pack of 5)	\$4.25
	6	SA-1	(box of 100)	\$45.00
Low-Friction Felt Squeegee Applicator	7	4200	Use this applicator for mounting digital prints or specialty films like mirror-metallized polyester films.	\$7.95
Avery Blue Felt Squeegee Applicator	8	Z1058	Use this applicator for mounting digital prints or specialty films like mirror-metallized polyester films.	\$5.75

### Premask Tips

- Standard Paper Premask is recommended for pre-spaced lettering 2" to 12".
- High tack adhesion is recommended for lettering less than 2".
- Tape should be stored in plastic bags at room temperature & approximately 50% relative humidity.
- Ultra Clear Grade 1310 works particularly well when applying graphics to Coroplast.
- Do not use for wet application methods for Coroplast.
- Store tape in plastic bags to keep moisture out.
- It is best to use Ultra Premium grade for large graphics and customer applied graphics.

## Application Tools

### Big Squeegee

The Big Squeegee is a versatile tabletop manual laminator that comes in a variety of sizes and styles to fit your needs. This laminator can be used anywhere, including store front windows and various job site applications. Unlike most roll laminators the Big Squeegee is faster and more reliable on short run jobs while saving you the expense of excess material waste created during automatic laminator setup/shutdown. There is no need to pre-mask prints or laminate before mounting. The unique mounting procedure strips away the liner as the vinyl is being applied. Watch the videos below to see the Big Squeegee in action.

### Big Squeegee

Product	Size	Product Code	Description	Price
Big Squeegee (series 1) Laminators	26"	1-26	Series 1 is for laminating only. Prints do not need application tape for mounting.	\$91.88
	38"	1-38		\$105.88
	50"	1-50		\$119.88
	56"	1-56		\$126.88
Big Squeegee (series 2) Tape Application Tools	26"	2-26	Cut vinyl applications. For applying transfer tape, laminating and applying cut lettering. Sizes 26" & 32". It isn't recommend to apply application tape wider than 30". Overlapping tape does not leave lines when mounted with the Big Squeegee.	\$103.54
	32"	2-32		\$113.46
Big Squeegee (series 3) Rivet/Dent Tools	18"	3-18	Small jobs. It will apply transfer tape and mount vinyl. It has a special feature of being able to mount vinyl over rivets, grommets, and dents. Must be followed with a rivet brush and heat when using this feature.	\$41.42
	26"	3-26		\$46.08
Big Squeegee (series 4) Yard Sign Tools	14"	4-14	Masking and mounting cut vinyl on signs up to 24" X 36". Will also mount graphics and laminate.	\$33.66
	20"	4-20		\$36.75
	26"	4-26		\$40.25

### Tape Tools

#### Important Reminders (EZ Roll)

- Verify that work surface is smooth and clean before tape application.
- Be sure to keep tape tight during steps 5 and 6.
- Remember not to apply downward pressure during tape application.
- Try not to steer EZ Roll during tape application. Maintain a steady motion, and let it guide itself.

#### EZ Roll- Application Tape Tool

#### Weber Made Application Tape Tool

Once you get your tape tool clamped or bolted to your table or work bench, you simply pull your application tape out, over and just past the end of your vinyl. You can adjust the tension of your tape coming off the roll with a quick turn of the tensioning knob. Once you get your tape out and over your vinyl, you simply fasten the application tape to your table and squeegee it down back towards the roll of application tape. The tension that you set with the clutch keeps your application tape up and off your vinyl until you squeegee it down.

## Finishing Coats and Tools

### Clear Shield- (Solvent-based UV Protective)- Protective Coats

ClearShield is your first choice for all non-water-sensitive applications. Created using state-of-the-art resins and ultraviolet inhibitors that protect the substrate, ink, and the clear coating itself. These non-yellowing clear coatings have excellent exterior durability and are highly flexible. Use it on most substrates, including waterproof canvas, vinyl, banners, fiberglass, wood, metal, plastic, and paper. You can apply it over solvent-based inks and most water-based paint systems

# Vinyl Accessories Removal Tools and Storage Systems

## Vinyl Removal Tools "Lil' Chizler"

Lil' Chizler effectively scrapes any surface you don't want to mar or scratch. It is light, small, inexpensive and almost indestructible. Use in combination with any vinyl remover fluid to make quick work of any job.

**Code**  
lil\_chizler . . . . . \$0.75

## ScrapeRite

Plastic razor blades lift and peel vinyl letters, graphics and other substances from almost any surface. The steep angle tip gets underneath whatever you are removing and lifts it from the surface. Add an appropriate solvent and it removes graphics from almost any surface in a snap.

Quantity	Code	Price

# Banners, Blanks and Accessories

## Banner Accessories

### Banner Installation Tips:

- Use strong ropes, bungee, snap hooks, cables, etc.
- Attach and pull the ropes horizontally, not diagonally (see diagrams).
- Keep tension in all 4 corners with whatever you use to tie your banner.
- If a rope becomes slack go back and tighten it.
- Excess flapping of a banner results in tears, cracking & de-lamination.

### Mini-Pod

The Mini Pod Banner Stand is great for promotional table or counter top displays. Each stand holds one 9 1/2" x 15" graphic banner and sets up in seconds. Based on the same technology as the Ultimate Banner Stand, these miniature displays can be used as a hands-on tool to quickly demonstrate their ease of set up and use. Optional sneakers (MPS03) make the Mini Pod both anti-skid and anti-scratch. Comes with carrying bag.

15" Counter Top Banner Stand	MP2000	\$9.95
Anti-slip Sneakers (3)	MPS03	\$0.99

### Ultimate Banner Stand

The Ultimate Banner Stand is a lightweight portable banner stand that sets up in seconds. Available in 4 different sizes, to fit all your display needs. Assembly consists of setting up the tripod base, and connecting it to the desired-length rails. The banner is attached to the stand at each corner. A nylon carrying bag is included.

22" x 48" Ultimate Banner Stand	TP01	\$79.00
24" x 60" Ultimate Banner Stand	TP02	\$84.00
24" x 70" Ultimate Banner Stand	TP03	\$90.50
40" x 77" Ultimate Banner Stand	TP04	\$109.00

### Coroplast- Fluted Polypropylene- 4mm-color-size (10 sheet minimum)

Coroplast corrugated plastic sheets are high-quality polypropylene twinwall profile sheet formulated specifically for use in the screen printing, display and packaging markets. Coroplast uses a copolymer resin in order to increase impact and low temperature performance.

At regular temperatures most oils, solvents and water have no effect, on these corrugated plastic sheets, allowing them to perform under adverse weather conditions or as a product component exposed to harsh chemicals. Coroplast corrugated plastic products are offered in a wide range of standard, opaque and translucent colors.

24" x 18" (fluting on 24" side)	White	\$1.05

## Sign Blanks- Magnetic

### MSI PowerMAG (AFGPowerMag-size)

As the innovative leader in flexible magnets, MSI introduces its latest product - PowerMAG Magnetic Sheet. The strongest in the industry is now also the lightest in the industry. PowerMAG is available in both rolls. Standard PowerMAG magnetic sheets are magnetized with equally spaced magnetic poles running parallel to the edges of the rolls. PowerMAG may be cut with Steel Rule Die, Knife, Punch & Die, etc.

Size	Color	Price
24 " x 10 ft (20 sq-ft)	White	\$34.50
24" x 25 ft (50 sq-ft)	White	\$65.25
24 " x 50 ft (100 sq-ft)	White	\$112.50

### MSI ProMAG

Thicker film and a higher magnetism than the powerMAG. Apply pressure-sensitive adhesive-backed vinyl graphics directly to magnetic sheeting

#### 15 mil (AFG0152437-SG50)

## Sign Frames- Plastic

### Plasticade

The Plasticade products are durable 100% plastic products that will not ever rust, splinter, or require painting. The molded handle makes them easy to carry. They can be internally weighted down with sand, and/or fitted with flashing lights. Vinyl can be applied directly to the sign frame or a removable sign face can be attached via a variety of methods including: velcro, double stick tape, rivets, or the optional Screw-in hardware.

*Note: Do not apply vinyl graphics directly to the Signicade plastic. Apply a sheet of adhesive backed vinyl measured to cover the rectangular surface then apply graphics to the vinyl background. For best adhesion, clean the sign area with isopropyl alcohol. Sign should be filled with sand for ballasting (5 pounds max).*

### Plasticade

### Plasticade- Quik Sign and Simpo Sign

Change signs quickly. Panels slide-in & out and stay securely in place (Quik Sign & Simpo SignII). Molded handle provides easy portability. All plastic - No rust, No Splinters, No Maintenance. No Clips, No Bolts, No Latches or Additional Parts. Perfect for use with Corrugated Plastic Sign Panels. Built-in stabilizing brace prevents sign closing

### Plasticade- Sidewalk Sign

The Sidewalk Sign has a quick change feature and displays two signs per unit. Small footprint for easy storage. Molded in tie-down hole allows for wiring or chaining of the base to a specific location, deterring theft. Outrigger feet slide into place and "click-lock" into position with no tools required. Feet can be filled with sand or water adding 11 lbs. total for greater stability.

### Plasticade- WindSigns

Displays two signs per unit. Springs connect the frame to the base allowing the sign to resist strong winds and return to an upright position. Sand and water fillable plastic base with factory installed wheels. Molded-in eyelet allow wiring or chaining base to a specific location, deterring theft. WindSign accepts blanks made of coroplast, aluminum, acrylic, Sintra, or any foamboard.

## Roland:

### CAMM-1 Servo Cutter- GX-24

The Roland CAMM-1 Servo GX-24 desktop vinyl cutter is considered one of the best entry-level plotter/cutters available and is a top choice among professionals. In addition to Roland's legendary reliability, the GX-24 offers enhanced productivity and quality. Powered by a digital servomotor, it can achieve cutting speeds up to 20 inches per second with maximum accuracy. This desktop cutter also features a curve-smoothing function that allows precise cutting even at high speeds. The result is faster production and more professional-looking graphics. With the GX-24, vehicle graphics, signs, decals, labels, stencils and even pinstriping always come out looking crisp and clean.

- Usable material cutting width: 2" to 23"
- Letter / graphic cutting size: 1/4" min to 23" max
- Slot for trimming off vinyl
- Dual line LED panel for changing settings Media roll holder attaches to machine
- Cutter/pen force: 20 to 250 grams Dual vinyl alignment guides
- "On the fly" pressure adjustment Interface: USB and Serial Ports
- 4 cut/plot "presets" for easier operation Dimensions: 33.5" x 12.25" x 9.25"
- Speed: 20 inches per second
- Data buffer: 1 MB
- Shipping weight: 50 lbs
- Roland Cut Studio software included
- Re-plot capability 3 year warranty (2 from Roland & 1 FREE additional year from Beacon)
- Cuts vinyl, sandblast resist, twill, reflective, etc.

List Price: \$2,095.00

# Vinyl Cutters and Plotters

## Entry-Level Vinyl Cutters

# Vinyl Cutter and Plotters

## Entry-Level Vinyl Cutters

### Graphtec: CE-5000 Series

The Graphtec CE5000-60 (24") and CE5000-120 (48") professional cutting plotters update the extremely successful CE3000Mk2 series with improved features, as well as a cleaner, "greener" electronic design and manufacturing process to minimize the environmental impact of the equipment throughout its life cycle.

Each CE5000 comes standard with: floor stands, rear media roll rack, ROBO Master software, Cutting Master Plug-in, plus Graphtec's ARMS (Automatic Registration Mark Sensor) system.

On the job, the CE5000 series offers real cost/performance advantages over other brands of cutting plotters. With faster cutting speeds and higher cutting force, you'll have the flexibility to handle a wider range of material. The CE5000 comes with ROBO Master Pro design software (Windows 2000/XP/Vista) and the completely new Cutting Master 2 Production Manager and Plug-in for the latest versions of CorelDRAW including X3, and Illustrator 8 thru CS3.

The CE5000 series delivers a maximum cutting force of 300 grams and a maximum speed of 24 inches per second (in all directions). The built-in front control panel provides complete parameter control including eight preset cutting conditions, as well as advanced features like tangential control mode, down force offset, pen up speed, blade wear monitoring and more.

- Available in 2 sizes:
  - (24") CE-5000-60
  - (48") CE-5000-120
- Contour Cut Pre-Printed Graphics
- Up to 300 grams of force
- Next Generation ARMS (Auto Registration Mark Sensor)
- Three Step Push-Roller Pressure Settings "On the fly" pressure adjustment
- USB 2.0, RS-232 Serial and new Optional Ethernet Interface
- Dual Configuration Function

	<b>List Price:</b>
(24") CE-5000-60	<b>\$1,995.00</b>
(48") CE-5000-120	<b>\$3,295.00</b>

Roland cutters give you the highest quality along with great reliability making them the perfect cutter for all your signmaking needs. Whether you are starting a new business or in need of the latest in cutting technology, a Roland cutter will give you the speed, efficiency and dependability you deserve. Let us inspire your creativity. All Roland Professional Series Cutters have the features you need to do the job right:

- Cutting Speed: 33 inches per second
- Three cutting modes: Normal, Heavy & High
- Over-cut and half-cut modes
- Half-cut function for scoring paper
- 8 programmable presets for cut and pen modes
- Cutter/pen force: 30 to 350 grams down pressure
- "On the fly" pressure adjustment
- Optical sensor for use with print & cut applications
- Floor Stand with Media Unwind System
- Powered by digitally controlled servomotor
- Automatic vinyl/sheet cut-off feature
- Interface: USB and Serial ports
- 3 year manufacturer's warranty

#### Recommended Bundles and Software for use with the GX Cutters

- 24" UltraCal Startup Kit
- Ultra-Flex Deign Software
- 24" Letter Imager System
- 24" Ultra Imager System

#### Roland: GX-300 Vinyl Cutter

- 30" Vinyl Cutter
  - Letter / graphic cutting size: 1/4" to 29"
  - Accepts material from 2" to 36" wide
  - Dimensions (W x D x H): 45"x29"x44"
- \$3,495.00**

#### Roland: GX-400 Vinyl Cutter

- 40" Vinyl Cutter
  - Letter / graphic cutting size: 1/4" to 39"
  - Accepts material from 3-1/2" to 46" wide
  - Dimensions (W x D x H): 56"x29"x44"
- \$4,495.00**

#### Roland: GX-500 Vinyl Cutter

- 50" Vinyl Cutter
  - Letter / graphic cutting size: 1/4" to 39"
  - Accepts material from 3-1/2" to 46" wide
  - Dimensions (W x D x H): 56"x29"x44"

# Vinyl Cutter and Plotters

## Professional Vinyl Cutters

### Graphtec: FC-8000 Series

The all NEW FC8000 series High-Performance cutting plotter is an industry leader for sign makers, graphic artists, auto-aftermarket professionals, countertop installers and other related users.

The newly designed FC8000 has added features such as: 3 inch wide user-friendly LCD control Panel, a Dual configuration function (two-user set and save customized conditions), an optional Ethernet capability (run multiple machines from one location), additional push rollers with 3 tension settings and enhanced ARMS system (automatically detects registration marks with color variants). Graphtec's next generation ARMS system adjusts for several types of potential print distortions, allowing for accurate contour cutting of pre-printed images and decals.

The new FC8000 series is available in five model sizes: FC8000-60 24", FC8000-75 30", the FC8000-100 42", the FC8000-130 54", the FC8000-160. Maximum compatible media widths for each model are 30.3", 36", 48", 60", and 72" respectively.

The FC8000 series features a maximum cutting speed of 58.5 in/sec, 4.0G maximum acceleration, and 20 to 600g selectable cutting forces, allowing users to process diamond grade, high-intensity reflective film, sandblast resist rubber, automotive window & paint protection films, self-adhesive vinyl, among other media types. With the world's fastest throughput performance and superb accuracy, the new FC8000 series accommodates the most demanding cutting and plotting projects and provides users with the versatility needed for a wide variety of applications

#### Recommended Bundles and Software for use with the FC-8000

- 24" UltraCal Startup Kit
- Ultra-Flex Design Software
- 24" Letter Imager System

### Brother: GT-541

The Brother GT-541 uses ink jet technology that prints on many garments in high quality color directly from a computer. This ink jet garment printer is as simple to operate as a desktop printer, which can be networked with multiple units, to deliver great print quality and still remain cost-effective for short-run apparel graphics applications.

The GT-541 is faster and less expensive to operate than traditional screen printing machines because there is minimal set-up, tear-down, clean-up, screens, squeegees, or pallet adhesive. The GT-541 water based ink can be cured by a standard heat press, eliminating the need to purchase a conveyor dryer, and significantly reducing operating space requirements.

- Print-Head: 4 print heads
- Ink-Head Resolution: 600 x 600 (dpi)
- Print Mode: Single, Double
- Ink Type: Water Base Pigment Ink
- Ink Color: 4 colors (CMYK)
- Ink Volume: Approx. 220cc usable ink
- Ink-Head Type: On demand piezo head
- Platen Height Adjust: Manual 12mm (0.48")
- Dimensions (W x D x H): 4' x 3' x 2'

### Brother: GT-541

### Brother: GT-782

The Brother GT-782 will be the perfect inkjet garment printer for high volume shops. Because of its unique ability to print multiple prints simultaneously, your production will increase as a result of reduced cycle times and fast flexible downloading of new images.

Succeeding the heritage of Brother's GT-541 with a brand-new high-performance platform, the new GT-782 garment printer will boast many powerful features!

- Dual platen for increased productivity
- 8 Brother inkjet heads and dual gantry for fast printing
- Print Mode: Single, Double
- CMYK and white ink
- Ink Type: Water Base Pigment Ink
- Economical and easy to operate
- Extra large print area

## Canon: imagePROGRAF

With the imagePROGRAF line of printers, brilliant color, sophisticated print-head technology, and high speed output are brought together into a high-performance large format printing-system. With features designed to help all levels of users achieve extraordinary results, the Image PROGRAF printers are the ideal solution for any color professional looking for striking, full-bleed color output with strength in paper handling and exceptional speed in output. All Image PROGRAF printers are engineered to produce colors, fine details, and subtle expressions required for some of the most challenging color environments such as photography, proofing and professional graphic applications. The 12-color pigment ink system with LUCIA inks offers excellent color fastness and stability with a remarkably wide color gamut. The new ink formulation for Black, Matte Black, Gray and Photo Gray minimizes bronzing, while providing stronger ink adhesion to the print media, resulting in better scratch resistance without any additional protection. The Canon L-COA processor, which is dedicated to the imagePROGRAF, is designed to optimize the best quality output at the highest possible speeds. Vivid breathtaking, long lasting prints are achieved by combining Canon's advanced technological achievements.

# Wide Format Printers

## Roland

### Roland: SOLJET Pro III XJ Series

The SOLJET PRO III XJ series of wide-format inkjet printers is offered in 54", 64", and 74" models, combining high-speed performance and superior image quality for the ultimate in six-color digital printing. Numerous upgrades make the XJ series the industry's most advanced wide-format printers and the ideal production tools for stunning outdoor banners, signs, vehicle graphics and more. In addition to a maximum print speed of 458 sqft/hr for the 74" model, the XJ series offers print resolutions of up to 1440 x 1440 dpi for photorealistic CMYK+LcLm graphics. An integrated tri-heating system, optional dryer/blower unit and advanced media feed and automatic take-up system support the demands of high-volume shops.

- Blazing print speeds up to 458 sqft/hr
- 54", 64", or 74", maximum media widths
- Advanced ECO-SOL MAX INK
  - > Available in 440 or 220 cc cartridges
  - > Bonds to both uncoated and coated media
  - > Vibrant water, scratch and UV resistant graphics
  - > 3-year outdoor durability without lamination
  - > No special ventilation equipment required
- Vibrant 6-color CMYK+LcLm printing
- Photorealistic printing up to 1440x1440 dpi
- Variable Droplet Technology for superb detail
- Roland Intelligent Pass Control Eliminates Banding Even at High Speeds
- New Roland VersaWorks, RIP included
- Automated take-up system included
- 2 Year Trouble-Free Warranty

### Roland: SOLJET Pro III XC-540

The new XC-540 is ideally suited for the production needs of the outdoor durable graphics market. Using Roland Eco-SOL MAX inks in a 6-color CMYK LcLm ink configuration enables the XC-540 to produce stunning, high quality, wide gamut, color graphics with smooth tonal gradations. Created for high speed production, the XC-540s Advanced Media Handling System, Precision Firing Pattern technology, and improved print modes make it possible for the XC-540 to produce quality graphics at even the highest print speeds without a loss of image density. Building upon proven Roland engineering and technology, the XC-540 masters the most complex Print/Cut applications while also handling up to 54" wide media at a maximum print speed of 441 square feet per hour for high volume banner production. This dual functionality makes the XC-540 the most versatile wide format digital printer capable of meeting the demands of a professional, high-volume workflow.

- Six print heads
- 441 sq-ft/hr print speed
- Three head height settings
- 1440 x 1440 true dpi
- 6-color printing / 12 cartridges CMYK LcLm
- 3 year outdoor ECO-SOL INK
- Print & Contour Cut
- Roland Versaworks RIP software included
- Blazing print speed – up to 441 sqft./hr.
- Roland intelligent Pass Control eliminates banding even at high speeds
- Quadraline Optical Registration System
- Prints on uncoated and coated media
- Up to 3 years outdoor durability without lamination
- Advanced media handling system supports rolls up to 66 lbs
- Automated take-up system included
- Two-Year Trouble-Free Warranty
- White Ink Option

**List Price: \$31,495.00**

## Mimaki: CJV-30 Series Printer/ Cutter

### Expand and Shape your Ideas with Ease

Printing with fast drying ink and immediate cutting after printing. Automatic switching after printing and cutting. Mimaki's unique state-of-the-art technology drastically improves productivity and profitability.

- **Automatic Media Clamp Function**-The number of pinch rollers and their clamp pressures can be set from RIP software and pinch roller pressures automatically changed according to media.
- **Continuous Crop Mark Detection**- A photo-sensor on the cutting head automatically reads the registration marks on the print to precisely position the cutter automatically. Even with a laminated print contour cutting is performed with great accuracy.
- **UISS (Uninterrupted Ink Supply System)**- When the ink cartridge runs out, another cartridge automatically begins to supply ink. Ink cartridge can be replaced during printing and overnight continuous printing is possible.
- **High Speed Printing at Maximum 183 ft<sup>2</sup>/h-** (540 x 720 dpi, 4 colors)
- **Mimaki's Unique White Overlay Print Function**- Enables simultaneous printing of colors and white ink. By overlaying the white ink on the substrate, more brilliant color is made possible, especially when printing on transparent media, resulting in even more vivid images

	List Price:

Equipment

### Royal Sovereign: Wide Format 65" Cold/ Heat Roll

Laminates pressure sensitive and thermal film up to 65" wide at a rate of 16.4' per minute.

Quality - Digital controls for temperature

**RSC-1650H \$8,513.00**

\*laminator provided with Auto Grip film hubs not Cast hubs as shown

### Royal Sovereign: 41" Cold Roll

The RSH-1050 laminates pressure sensitive and thermal films up to 41-1/4" wide and mounting boards up to 5/8" thick. Designed for mounting, laminating & encapsulating individual or multiple copies of posters prints, POP signs, training aids, rigid or flexible signage floor graphics, trade show displays and more.

**RSC-1050CL \$5,522.00**

### Royal Sovereign: 55" Cold Roll

Laminates pressure sensitive and thermal film up to 55" wide at a rate of 16.4' per minute.

Quality - Digital controls for temperature

**RSC-1400C \$6,957.00**

### Royal Sovereign: Wide Format 55" Heat Roll

This advanced laminating system allows large format inkjet output to be laminated with superior quality. Heat Assist allows the laminate to be warmed for easier application

**RSC-1400H \$8,182.00**

### Royal Sovereign: Wide Format 65" Cold Roll

Laminates pressure sensitive and thermal film up to 65" wide at a rate of 16.4' per minute.

Quality - Digital controls for temperature

**RSC-1650C \$8,260.00**

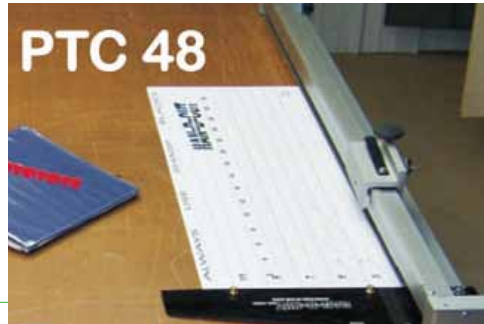

## HAN-D-CUT

This light weight, portable cutter uses breakaway blades for precision cutting and trimming of many materials. It clamps to your work bench or table top to make straight, accurate cuts.

(All models have a 5/16" thickness capacity, and each Han-D-Cut comes with 100 blades.)

## HAN-D-CUT

Item	Description	Code	Price
JR Series Stand Alone Table Top Cutter	JR 44 (41" cut, 44" length, 15#)	JR44	\$325.00
PTC Series Clamp-On Table Top Cutter	PTC 46 (48" cut, 58" length, 14#)	PTC_48	\$399.00
	PTC 62 (62" cut, 72" length, 17#)	PTC_62	\$499.00
	PTC 100 (97" cut, 106" length, 22#)	PTC_100	\$750.00
Accessories	Blades for Model PTC 24, PTC 36 & JR 41	562	\$16.00
	Blades for Model 62 and 100	BA8	\$25.00

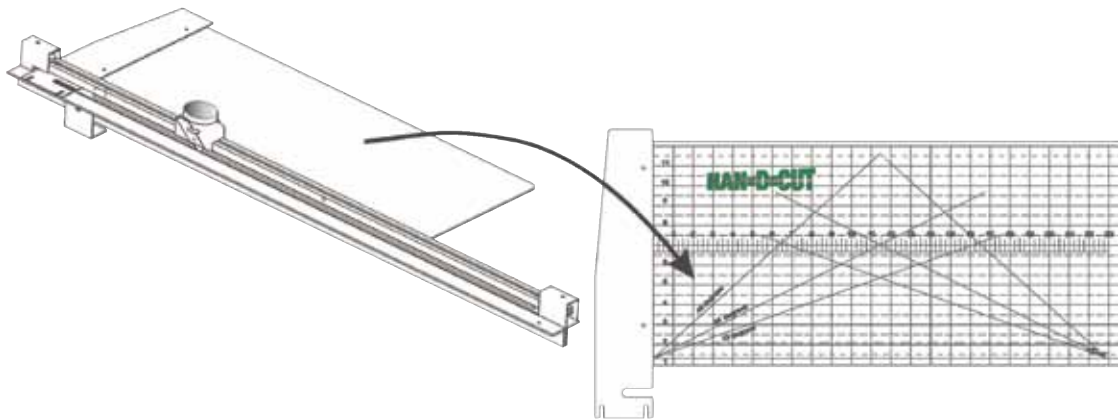

## Online Dryer

When large format printing with solvent, ecosolvent, dye or pigment ink, one has often the need to dry the output from the printer. The printed material is not really dry when it hits the ground, causing two major problems: dust on the print and eventually sticking to each other. The result is the same: a ruined printout.

Thanks to the Online Dryer, the media will be absolute dry when touching the ground or the roller of your automatic take up device.

## Online Dryers

Model	Fits these Printers	Price
OnD077M (32")	Roland SP-300 & SP-300V	\$1,850.00
OnD143 (56")	Roland SP-500, SC-540 & SC-545EX	\$2,050.00
OnD163 (64")	Roland SP-640 series	\$2,099.00
OnD193M (76")	Roland SP-740	\$2,400.00
IR Motion Control	IR Motion Control	\$130.00

# Heat Presses

## Clam Heat Presses

### STAHL's MAXX: Heat Presses

The world's largest manufacturer of heat presses for apparel decoration delivers the industry's MAXXimum value. The MAXX™ Press from Stahls' exceeds every press in its class. Engineered and patented by the heat press experts, this complete digital line has a wide opening for perfectly applying a variety of today's heat applied graphics. Both economical and portable, this press is also equipped with the industry's best warranty and price guarantee.

- Digital Time & Temperature Readout
- Over-the-Center Pressure Adjustment
- Teflon Coated Heat Platen
- HRPO Laser Quality Steel Framework
- Smooth Shock Opening
- Scratch Resistant, Baked on Powder Coat Finish
- UL/ULC/CE/RoHS Compliant
- Interchangeable Lower Platen
- 240 volt Available at No Extra Charge

The MAXX Heat Press: 16"x20".....	\$995
The MAXX Heat Press: 15"x15".....	\$795
The MAXX Heat Press: 11"x15".....	\$595

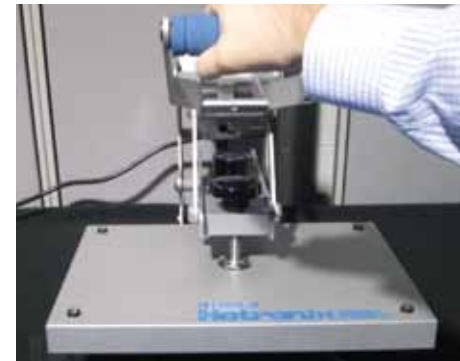

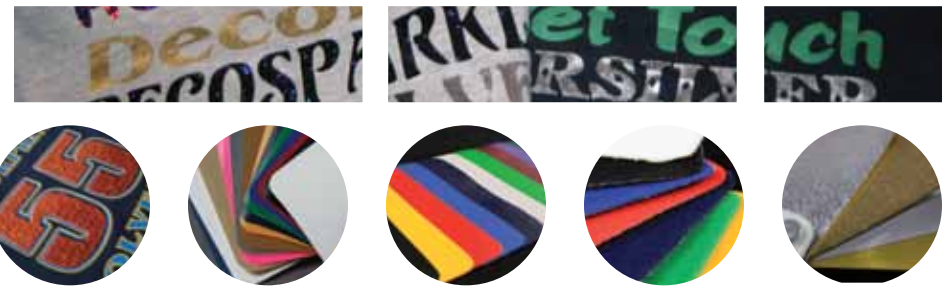

**The MAXX: 15" x 15" Clam Press**

**The MAXX: 11" x 15" Clam Press**

**Mighty Press: 16" x 20" Clam Press**

### STX Hotronix Auto Opening Clam Presses

**Semi-Automatic Hotronix Clam Heat Presses for thermal transferring lettering and graphics to garments**

The new Hotronix Clam features "hands free" magnetic auto-opening and magnetic assist lock down. New technology gives you semi-automatic functionality without the need for an air compressor. An excellent choice for all your heat application needs. LED digital controls for temperature and time w/ auto release

- Magnetic auto-opening
- Magnetic assist lock-down
- 3/4" thick Teflon coated upper heat platen
- LED digital controls for temperature and time w/ auto release
- Space-saving clamshell design
- Wide opening for easy layout
- Quick change lower platen
- Platinum RTD heat probe reads platen temperature within 2 degrees
- 3/8" Silicone rubber bottom pad
- Cast in tubular heating element every 2" to ensure no "cold spots"
- Available in 11"x15", 16"x16" and 16"x20" sizes

STX-20 Heat Press: 16"x20" .....	\$1,375
STX-16 Heat Press: 16"x16" .....	\$1,150
STX-11 Heat Press: 11"x15" .....	\$835

### STX Hotronix Cap Press

The Hotronix Cap Press features a digital time & temperature display so that you can achieve accurate temperature on every heat application.

Features:

- Precise Digital Time & Temperature Display
- Easy to adjust pressure
- Scratch Resistant Baked-On Powder Coat Finish
- Cap hold down device to lock caps in place
- Upward opening for easy cap loading
- Free standing
- Upper floatational non stick heat platen (4" x 8.5")
- Interchangeable lower platens
- Teflon Coated Heat Platen
- Heavy Duty Design
- UL/ULC/CE Approved
- Lifetime Heating Element Warranty
- 1 year warranty on parts and labor

**STX-CAP .....\$725.00**

### The MAXX Cap Press

The MAXX Cap Heat Press.

Features:

- Digital Time & Temperature Readout
- Under Center Pressure Adjustment
- Wide Opening for Easy Layout
- Teflon Coated Heat Platen
- HRPO Laser Quality Steel Framework
- Smooth Shock Opening
- Scratch Resistant, Baked on Powder Coat Finish
- UL/ULC/CE/RoHS Compliant
- Cap Hold Down Device
- Interchangeable Lower Platens
- 240 volt Available at No Extra Charge

**MC-120.....\$595.00**

# Heat Applied Materials Non-Printable

## Stahl's ID direct Cad-CUT:

### ECONOPRINT

Economical & durable material for large designs that require a heavier athletic feel. The extra thickness bridges the mesh openings better than other products.

### ECONOPRINT: 14 Colors (150eco)

15" x	5 yards	10 yards
Colors	\$25.05	\$47.60

*Recommended fabrics:*  
Poly/cotton blends 100% Cotton, 100% Polyester Cotton/Poly Blends, Poly/foam & cotton caps, Fleece, Polyester knits Acrylic blends, Sublimated Polyester, Polyester Mesh

*EconoPrint:*  
Use C-145 or A605 blade to cut  
Pre-heat garment 10 seconds  
Pressure: Light  
Heat Press 6-8 sec. @ 330 deg.  
Peel cold & Seal with Kraft Paper 3-5 seconds

### Thermo-FILM

The world's #1 material for single or multi-color team personalization. It can be applied to a number of fabrics and won't fade, peel, chip, or scratch.

### Thermo-FILM: 19 Colors (150flm)

15" x	5 yards	10 yards
Colors	\$38.00	\$73.00

*Recommended fabrics:*  
Poly/cotton blends, 100% Cotton, 100% Polyester, Fleece, Polyester Mesh, Poly/foam & Cotton Caps, Acrylic blends

*Thermo-FILM:*  
Pre-heat garment 5-10 seconds  
Position printed design on garment  
Cover design with Kraft Paper  
Pressure: Medium  
Heat Press 6-8 sec. @ 330 deg. Peel hot

### Gorilla Grip II

Patented adhesive works on tightly woven nylons, oxfords, satins, crinkle and ripstop. Perfect for equipment bags, jackets and more.

### Gorilla Grip II: 11 Colors (190gg)

19" x	5 yards	10 yards
Colors	\$47.50	\$90.40

*Recommended fabrics:*  
Woven Nylons, Nylon Mesh, Knit Nylons, Spandex blends, Tactel Nylon, Cordura, 100% Cotton, 100% Polyester, Cotton/Poly Blends

*Gorilla Grip:*  
Use ZEC-U1001 or C-145 blade to cut  
Pre-heat garment 5 seconds  
Pressure: Light  
Heat Press 2 sec. @ 320 deg.  
Peel cold. Seal with Kraft Paper 10 seconds

### Neon

Ideal for creating bold, vibrant designs. Available in: Neon Pink, Neon Green, Neon Orange and Neon Yellow!

### Neon: 4 Colors (190nef)

19" x	5 yards	10 yards
Colors	\$47.50	\$90.40

*Recommended fabrics:*  
Poly/cotton blends, 100% Cotton, 100% Polyester, Fleece & Cotton Caps

*Neon:*  
Pre-heat garment 5 seconds  
Pressure: Medium  
Heat Press 10 sec. @ 330 deg. Peel cold

### Thermo-FLOCK

Soft, raised, velvet-like texture that's extremely popular for corporate logos and children's wear. Flock is also the #1 choice in Europe for soccer uniforms

### Thermo-Flock: 7 Colors (170cfl)

19" x	5 yards	10 yards
Colors	\$52.30	\$99.40

*Recommended fabrics:*  
Cotton/Poly Blends, 100% Cotton, 100% Polyester, Sublimated Polyester, Poly/foam & cotton caps, Fleece, Polyester Mesh, Acrylic blends

*Thermo-FLOCK:*  
Use A605 blade with XD-CH2 to cut  
Pre-heat garment 10 seconds  
Pressure: Light  
Heat Press 8-10 sec. @ 330 deg.  
Peel cold

### Cad-CUT Reflective

Reflective properties make it a popular choice for the safety and athletic (bikers, joggers) markets.

### CAD CUT Reflective (190creo64-5)

19" x	5 yards
Silver	\$82.55

*Recommended fabrics:*  
Cotton/Poly Blends, 100% Cotton, 100% Polyester, Nylon meshes, Lycra, Fleece, Polyester Mesh

*Reflective:*  
Heat Press: 3-5 sec @ 275-305 deg. F  
Pressure: Medium. Peel cold.  
Reheat with teflon sheet for 5-7 seconds & peel cold.  
Do not "mirror," cut "positive"

### P.S. Twill

Poly-TWILL™ backed with a "peel and stick" adhesive allows easy positioning of appliqués for sewing without tacking (heat application).

### P.S. Twill (mc160pst)

16" x	5 yards	10 yards	25 yards
Colors	\$24.55	\$46.60	\$109.50

*Recommended fabrics:*  
100% cotton, 100% polyester Poly/cotton blends, Woven nylon Nylon knits, Nylon meshes - micro, tricot, mini, reversible Acrylic blends Satin Cordura® Fleece Wool

*P.S. Twill:*  
Pre-heat garment 10 seconds  
Pressure: Medium  
Heat Press 8-10 sec. @ 330 deg.

## Specialty Materials:

### ThermoFlex Plus

A polyurethane based material that is highly flexible and extremely thin. Soft hand and strong grip. The ease of weeding and applying ThermoFlex Plus the most trusted name in the industry! It can be washed in warm water & dried on high heat without sticking to itself and if properly applied, will last for the life of the garment.

#### ThermoFlex Plus (PLS)

15" x	5 yards	10 yards	25 yards
35 Colors	\$39.25	\$78.50	178.60
Antique Silver and Old Gold	\$41.70	\$82.65	\$189.50
Neon Pink, Yellow, Orange, Green	\$46.20	\$88.50	\$206.25
Metal Flake	\$55.25	\$110.00	

*\*Neon colors and Columbia Blue will NOT layer*

Recommended Fabrics: Cotton, polyester, cotton/poly blends, Spandex, Lycra, wool and linen, will NOT adhere to nylon

ThermoFlex Plus:  
Heat Press 20 sec. @ 330-340 deg.  
Pressure: Hard  
Peel warm or cold

### ThermoFlex Xtra

ThermoFlex® Xtra has incorporated the desirable features of our popular ThermoFlex® Plus including easier handling, cutting and weeding from the addition of its thicker polyester carrier sheet and low-tack carrier adhesive that enables easy weeding without lifting the cut image from its carrier.

#### ThermoFlex Xtra (TFE)

15" x	5 yards	10 yards
14 Colors	\$44.95	\$85.95
Antique Silver and Old Gold	\$49.50	\$97.25

Recommended Fabrics: Nylon, leather, and other heat sensitive fabrics

ThermoFlex Xtra:  
Heat Press 3-5 sec. @ 310 deg.  
Pressure: Medium to firm  
Peel cold  
Cover with Teflon sheet and reheat for 10 sec.

### ThermoFlex Sport

A durable thick film material designed to bridge the gaps in open-mesh athletic jersey. A relatively low temperature and short dwell time minimizes dye migration from colored polyester jersey mesh.

#### ThermoFlex Sport (SP)

13.75" x	5 yards	10 yards
8 Colors	\$32.85	\$65.75

Recommended Fabrics: Will adhere to most fabrics. Use the lower temperature and shorter dwell time when applying to Nylon

ThermoFlex Sport:  
Heat Press 8-10 sec. @ 300-320 deg. Pressure: Firm  
Peel warm or cold

### Deco Film

For the brilliance of gold, silver, and colored metallic foil. Super Gold, Silver, & Copper have a metal foil appearance and a softer hand than Brilliant Silver and Brilliant Gold which offer a smooth mirrored chrome surface. **Wash inside-out, cold water, gentle cycle, dry low heat.**

#### Deco Film (SG,SS,SC & BG,BS)

15" x	1 yard	5 yards
Super Gold, Silver, Copper	\$23.25	\$63.13
Brilliant Gold, Silver	\$29.75	\$74.50

Recommended Fabrics: Will adhere to most fabrics including some temperature sensitive ones, including some nylons.

DecoFilm:  
Heat press 10-15 sec. @ 310-330 deg. Pressure: Firm  
Cool completely. Peel cold.  
Cover with Teflon sheet and reheat if necessary.

# Heat Applied Materials Non-Printable

## Specialty Materials Continued:

### Deco Flock

Provides the 3-dimensional look and feel of soft velvet in an affordable, durable, and wash-safe transfer film. Offers your customers a lower cost alternative to embroidery for the look and feel of distinction.

#### Deco Flock (DF)

15" x	1 yard	5 yards
22 Colors	\$23.75	\$59.75

**Recommended Fabrics:** DecoFlock:  
Will adhere to most fabrics including some temperature sensitive ones, including some nylons.  
Heat Press 10-15 sec. @ 310-330 deg. Pressure: Firm  
Peel cold.

### Deco Sparkle

Holographic films that create dazzling color reflective effects. Wash inside-out, cold water, gentle cycle, dry low heat.

#### Deco Sparkle (DS)

15" x and 19" x	1 yard*	5 yards
9 Colors	\$23.50	\$58.95

\*1 yard comes in 19" only

**Recommended Fabrics:** DecoSparkle:  
Will adhere to most fabric  
Heat Press 10-12 sec. @ 300 deg. Pressure: Firm  
Peel cold.

### GlitterFlex

Manufactured from flexible and durable polyurethane which encapsulates reflective polyester particles for multi-faceted glittering effects.

#### Glitter Flex (GF)

19" x	1 yard	5 yards	10 yards
6 Colors	\$22.25	\$56.10	\$111.30

**Recommended Fabrics:** GlitterFlex:  
Cotton, polyester, and cotton/poly blends. Will NOT adhere to nylon.  
Heat Press 3 sec. @ 285 deg. Pressure: Firm  
Peel cold and carefully Cover with Teflon sheet and reheat for 10 sec.

### Ref-lite Reflective

Films consist of very small glass beads embedded in a layer of polyester film to reflect light. Safety Silver retro-reflective film produces a maximum reflectivity of 675 cd/lux/meter.

#### Ref-lite Reflective (RF-8500)

15" x and 20" x	1 yards*	5 yards
14 Colors	\$44.50	\$119.500

\*1 yard comes in 20" only

**Recommended Fabrics:** Ref-Lite:  
Will adhere to most fabrics. Use the lower temperature and shorter dwell time when applying to Nylon.  
Heat Press 3-5 sec. @ 275-305 deg. Pressure: Firm Peel cold. Cover with Teflon sheet and reheat 5-7 sec.

### Fashion Print

Preprinted transfer materials that you can plotter cut in the shape of lettering, numbers or your custom design.

#### Fashion Print (FP)

19" x	1 yard	5 yards
15 Prints	\$29.95	\$79.95

**Recommended Fabrics:** Fashion Print:  
Cotton, polyester, cotton/poly blends  
Heat Press 12-15 sec. @ 325-340 deg. Pressure: Firm  
Peel cold.

# Heat Applied Materials Non-Printable

## Chemica:

### HotMark

Very thin and soft, superstretchable film with a self-adhesive carrier. Additional colors upon request.

### HotMark (HM)

15" x	5 yards	11 yards
Super Metallics	\$49.50	\$93.20
	5 yards	10 yards
White, Black & Red	\$35.00	\$68.00

Recommended Fabrics: HotMark:  
Cotton, polyester, and similar fibers  
Heat Press 15-20 sec. @ 300-340 deg. Pressure: Firm  
Peel warm or cold.

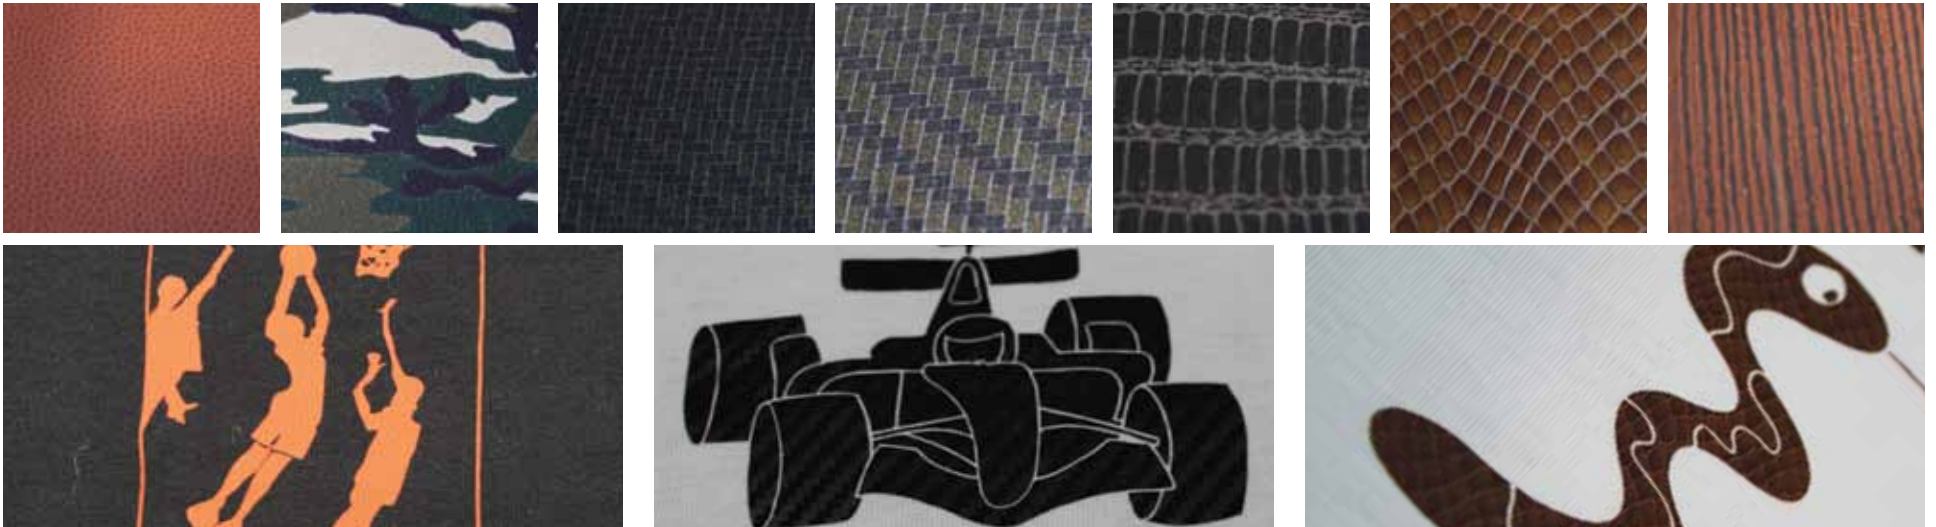

### Fashion and Fashion 3-D

Fashion and Fashion 3-D are matte finish vinyl, in a variety of patterns and textures. These products are sure to add an eye-catching flare to your design. Available in Basketball, Camouflage, Snakeskin, Lizardskin and Woodgrain patterns.

### FashionFlex

15" x	1 yards	7 yards	22 yards
fashion and fashion 3-D	\$23.00	\$81.00	\$243.00

Recommended Fabrics: FashionFlex:  
For use on cotton, polyester, and similar fibres  
Heat Press 15-20 sec. @ 300-360°F (150-180°C).  
Pressure: Firm  
Peel cold.

## ThermaPRINT:

### ThermaCUT

Thermal transfer vinyl material that looks like it was screen-printed. 25" x 38" sheets (usable area is 24" x 37", 6.2 sq-ft).

### ThermaCUT: Colors

25" x	38"
7 Colors	\$11.95
Gold	\$14.45

Recommended Fabrics: ThermaCUT:  
Cotton, polyester, cotton/poly blends  
Heat Press: 7 sec @ 350 deg. F  
Pressure: Medium  
Peel cold or slowly hand iron for 45 seconds at the cotton-wool setting with no steam on a solid surface.

## Color Jet Media

**S** **Color Jet III**  
Transfer prints to light and dark garments with any inkjet printer. Adheres to Nylon & Dazzle Cloth

### Color Jet III: Heat Transfer Material

Size	Code	Price
8-1/2" x 11" (10 pack)	CJ-4600-8X11	\$17.50
11" x 17" (10 pack)	CJ-4600-11X17	\$35.00

ColorJET:  
Peel design from sheet.  
Cover with siliconized release sheet.  
Transfer Seal Tape to transfer cut graphic.  
Press onto garment with hard pressure at 335-340 degrees F for 15-20 seconds.  
Remove cover sheet when cool.

**S** **CJM-2265 Solvent Matte:**  
**TRUE MATTE FINISH!**  
Prints with all solvent/eco-solvent printers.

Size	Code	Price
24" x 5 yards	CJ-2265-24X5	\$65.79
24" x 10 yards	CJ-2265-24x10	\$131.58
24" x 25 yards	CJ-2265-24x25	\$305.73

Recommended fabrics:  
Most cotton and blended fabrics  
Use Transfer Seal Tape to transfer the image  
Heat press 15-20 sec. @ 370 deg  
Pressure: Firm  
Peel cold

**S** **CJM-2275 Multi-Ink Dark:**  
**P** For dark colored materials.  
**D** Printable using Solvent,  
**U** Aqueous and Pigmented inks.

Size	Code	Price
17" x 5 yards	CJM-2275-17X5	\$36.75
17" x 10 yards	CJM-2275-17x10	\$73.50
24" x 5 yards	CJM-2275-24x5	\$51.88
24" x 10 yards	CJM-2275-24x10	\$103.76

Recommended fabrics:  
Most cotton and blended fabrics  
Use Transfer Seal Tape to transfer the image  
Heat press 25 sec. @ 375 deg  
Pressure: Medium - Firm  
Peel cold

**S** **CJM-2285 Multi-Ink Light:**  
**P** For light colored materials.  
**D** Printable using Solvent,  
**U** Aqueous and Pigmented inks..

Size	Code	Price
17" x 5 yards	CJM-2285-17X5	\$24.50
17" x 10 yards	CJM-2285-17x10	\$48.60
24" x 5 yards	CJM-2285-24x5	\$34.00
24" x 10 yards	CJM-2285-24x10	\$68.00

Recommended fabrics:  
Most cotton and blended fabrics  
**PRINT AND CUT THIS MATERIAL REVERSE READING**  
Heat press 30-40 sec. @ 345 deg

Peel cold

## Printable Media for Solvent-based Ink

### S Color Print: Solvent/Eco Solvent

ColorPrint™ Solvent/Eco-solvent films are polyurethane transfer materials designed for printing with solvent or eco-solvent inkjet printers, such as the Mimaki JV3, JV33 and JV5, the Roland HiFi and AJ 1000 and the HP DesignJet 8000, 9000 and 10000 contour cutting plotters, in addition to printing and cutting on the Roland VersaCAMM line of print and cut devices. The ColorPrint™ Solvent/Eco-solvent line consists of six film types: **Colorprint™ Solvent (CPS)**, **Colorprint™ Solvent Frost (CPSF)**, **Colorprint™ Solvent Silver (CPSS)**, **Colorprint™ Solvent Leather (CPLV)**, **Colorprint™ Solvent Clear Matte (CPSC matte)** and **Colorprint™ Solvent Clear Gloss (CPSC Gloss)**

#### Color Print: Solvent/Eco Solvent:

Film Type	Size	Price
Gloss (CPS)	24" x 5 yards	\$77.40
	24" x 10 yards	\$154.80
	24" x 15 yards	\$232.20
Frost(CPSF)	24" x 25 yards	\$387.00
	24" x 5 yards	\$77.40
	24" x 10 yards	\$154.80
Silver (CPSS)	24" x 15 yards	\$232.80
	24" x 25 yards	\$387.00
	24" x 5 yards	\$66.53
Leather (CPLV)	24" x 10 yards	\$133.06
	24" x 5 yards	\$88.78
Clear Matte	24" x 10 yards	\$177.57
	30" x 5 yards	\$54.00
Clear Gloss (CPSC)	30" x 5 yards	\$84.33

Recommended Fabrics: CPS, CPSF, CPSS: Cotton, Blended Fabrics, Polyester, Nylon, and Spandex (test special fabrics prior to production)	ColorPrint EcoSOL/Solvent: CPS, CPSF, CPSS: Use Transfer Seal Tape to transfer image Heat Press: 15 sec @ 325° F Pressure: medium to firm Peel Warm
CPLV: Leather, Vinyl, and other Low Temperature Substrates	CPLV: Use Transfer Seal Tape to transfer image Heat Press: 10-15 sec @ 185-200° F Pressure: medium to firm Peel Warm
CPSC Matte and Gloss: White and Light Colored Cotton, Blended, Polyester	CPSC Matte and Gloss: Use Transfer Seal Tape to transfer image Heat Press: 17 sec @ 330-340° F Pressure: medium to firm Peel Cold. Cover with teflon sheet and reheat for 8 sec.

## Color Print for Thermal Printers

### Color Print:

A smooth surfaced white polyurethane film for thermal transfer printing and plotter contour cutting. ColorPrint™ Standard is designed for transfer to cotton, polyester knits, and cotton-polyester blended fabrics. ColorPrint™ Nylon is a designed for transfer to nylon fabrics. 25" x 38" sheets Usable area is 24" x 36" (6 sq-ft)

#### Color Print: Heat Transfer Media for Thermal Printers

##### Standard (CP-2100)

12" x	5 yards	\$31.25
15" x	5 yards	\$38.25
	5 yards (punched)	\$43.25
20" x	5 yards	\$51.30

##### Nylon (CPN-2150)

12" x	5 yards	\$36.25
15" x	5 yards	\$43.35
	5 yards (punched)	\$44.50
20" x	5 yards	\$57.90

ColorPrint Standard:  
Use Transfer Seal Tape to transfer the image.  
Heat Press 30 sec. @ 300-315 deg.  
Pressure: Firm  
Peel warm

ColorPrint Nylon:  
Use Transfer Seal Tape to transfer the image.  
Heat Press 15 sec. @ 300 deg.  
Pressure: Firm  
Peel warm.

# Heat Applied Materials Printable

## InkJet Printable

**S Roland: HeatSoft**  
Opaque white. Designed to be print and cut. For light or dark material, cotton or cotton blend

**Roland: ESM-HTM2 Heat Transfer Material**

Size	Code	Price
24" x 10 ft	ESM-HTM2-10-24	\$42.99
24" x 50 ft	ESM-HTM2-50-24	\$149.99
50" x 50 ft	ESM-HTM2-50-50	\$297.75

*Opaque Heat Transfer Material :*  
Peel the print-cut graphic off backing paper  
Use Transfer Seal Tape to transfer graphic  
Lay on garment  
Cover with Teflon pad or silica sheet  
Heat Press for 12-15 sec @ 275 degrees  
with medium to firm pressure Peel cold

### Media Compatible with:

- S** Solvent Inks
- D** Dye Inks
- P** Pigment Inks
- U** UltraChrome (Epson) Inks
- A** Archival (Epson) Inks

**S EcoSolPRINT:**  
Printable Thermal transfer vinyl material that looks like it was screen-printed. 25" x 38" sheets. Usable area is 24" x 36" (6 sq-ft)

**EcoSolPRINT: Heat Transfer (ecosolprint)**

25" x 38"	Price (per sheet)
	\$12.00
Mylar Sheets (11" x 12") TP-Mylar	\$1.50

*Recommended Fabrics:*  
Cotton, Polyester, cotton/  
polyester blends

*EcoSolPRINT:*  
Heat Press: 7 sec @ 300 deg. F  
Pressure: Medium  
Peel cold or slowly hand iron for 45 seconds at the cotton-wool setting with no steam on a solid surface. Use Mylar Sheets for easy transfer

**S Chemica: Easyprint**  
White matte vinyl for white and dark garments, high printing quality, for eco and true solvent ink printers, durability and washing resistance

**Easyprint (1702)**

30" x	Code	Price
11 yards	1702-11	\$150.00
22 yards	1702	\$270.00

*Recommended Fabrics:*  
Cotton, polyester, and similar fibers

*EasyPrint:*  
Heat Press 15-20 sec. @ 320 deg.  
Pressure: Firm Use heat-safe transfer tape for even spacing. Can be applied without tape for solid image. Cover with Teflon sheet  
Peel cold.

**S Suitprint**  
White semi matte vinyl for white and dark garments, high printing quality, for eco and true solvent ink printers, durability and washing resistance(thinner than easyprint)

**Suitprint (1701)**

30" x	Code	Price
11 yards	1701-11	\$123.50
22 yards	1701	\$238.50

*Recommended Fabrics:*  
Cotton, Polyester, and Similar Fibers

*EcoSolPRINT:*  
Print in Positive Image  
Heat Press: 15-20 sec @ 300 deg. F  
Peel cold. Use heat safe transfer tape.

# Be Expressive

In today's growing and highly competitive printing industry, quality is critical to success. The ability to provide quality products and quality service is what sets companies apart.

No one understands this concept better than **Avery Dennison**. Our mission is to provide you with the best screen & cut and digital media available today. From POP and vehicle wraps to sports arenas and shopping malls, Avery Graphics films help you produce the most durable and dazzling products. *Our newest offering includes:*

- **MPI 1005 Supercast** series of digital films are the top-of-the-line digital imaging films and overlaminates, featuring **Enhanced Conformability** to reduce tenting and lifting for demanding vehicle, fleet and architectural applications
- **MPI 2601** wall film is a 6.0 mil calendered wall film that provides easy application and removability for consumer and commercial wall applications. It is ideal for wall murals, consumer wall decoration, retail chain wall signage, POP wall signage and wall labeling
- **MPI 6121** street graphics is a unique, matte cast film that adds the look of a smooth, painted finish to a variety of short-term promotions

What's more, we back all of our products with the **Avery Graphics Quality Assurance Program**. It's our promise to you that Avery Graphics products will perform exactly how they should – from production through application and for the life of the graphic.

## Semi Gloss Paper

### Canon

#### Premium Semi-Glossy Paper, 200 gsm

Slightly textured paper available in both heavyweight (280gsm) and lightweight (200gsm) sizes. Both products provide a high whiteness factor through the use of high white pulp which makes the media less susceptible to light. Ideal applications would be economy photos and posters for the 200gsm lightweight paper and high quality photos and fine art reproductions for the 280gsm heavyweight paper.

2944B005AA	17" x 99 feet	\$108.10

# Metal Photo Impact Printers

## Roland

### Metaza

#### Roland: Metaza MPX-80

The MPX-80 is the most advanced impact printer to date, with faster speed, higher resolution and the ability to imprint on curved surfaces. The MPX-80 gives jewelry stores, mall kiosks and photography studios the power of profitable personalization in a compact, easy-to-use device. In addition to flat items like pendants, dog tags, key chains and Zippo lighters, the MPX-80 takes personalization even further by customizing curved objects like pens, cuff links and money clips.

# Pendants and Accessories

## Accessories

### Endless Possibilities

#### Accessories

Use the MPX to mark customers' names on pendants, bracelets, cuff links, watches, knives – even cell phones. Or design accessories imprinted with an image from a scanned photo or taken with a digital camera. The MPX-50 is easy to operate and requires no special training. And it's fast! Photos can be imprinted in minutes on flat surfaces of metal or acrylic objects up to 3/4" thick.

#### Awards and Plaques

Turn special events like weddings, births, anniversaries, graduations, and sports victories into permanent mementos with the MPX. You can combine photos and illustrations with text in any font to produce highly treasured awards and plaques.

#### Identification

Personalize key rings, luggage tags, nameplates, pet and child ID tags, and much more. The MPX's easy-to-use software lets you combine creative designs with names and photographs to match your customers' individuality and style. Add a portrait, car brand, favorite sport, phone number, or blood type to create truly unique I.D. items.

#### Promotional Items and Gifts

Objects marked with brand logos, product photos, or team names and mascots are ideal as promotional items for schools, businesses, and sports teams. The MPX's remarkable capabilities provide unlimited creative freedom to build your business.

## Flexi Bundles

### FlexiSIGN-PRO

FlexiSIGN-PRO is designed and engineered to be the total solution for any signmaking business. It features advanced bitmap filters and editing, and all special effects, along with full vinyl cutting and color printing features including Adobe® PostScript® 3, ICC color profiles, and vinyl color libraries. It includes direct drivers for popular inkjet, thermal transfer and print/cut devices, as well as vinyl cutters.

**\$4,295.00**

### FlexiEXPERT

The package for the professional sign maker who requires advanced vinyl cutting and bitmap editing tools, without color-printing output. FlexiEXPERT includes full design, text serialization and color tracing features, as well as job estimating for accurate project management and design templates for faster production.

**\$2,495.00**

### FlexiPRINT & CUT

A brand-new design, scanning and tracing software package with complete cutting output. FlexiPRINT & CUT has the versatility to RIP and print to two devices simultaneously. Text Styles and Job Statistics are also included for impeccable results.

**\$2,295.00**

### FlexiSIGN

FlexiSIGN offers all of the necessities for any sign business. Included in this complete design and cutting program are such features as import/export files, scanning and grayscale tracing, full text manipulation, vinyl libraries, multiple undos and redos, drag and drop color and stroke support.

**\$1,695.00**

### FlexiLETTER

This program is valued-packed with all the powerful features needed for signmaking and vinyl cutting. It includes numerous features such as shadowing effects, outline & inline lettering & graphics, welding and unlimited distortion effects.

**\$995.00**

### FlexiDESIGNER

A program you can use as a second, design-only station. Get all the design, layout and image editing features of FlexiSIGN-PRO, as well as file preparation for output on another Flexi Family station, without the full price investment.

**\$995.00**

## UltraFlex

### ULTRA-Flex

Our most popular software, it is valued-packed with all the powerful features needed for advanced signmaking and vinyl cutting, including scanning and autotracing of graphics / logos. It includes numerous features such as shadowing effects, outline & inline lettering & graphics, welding and unlimited distortion effects. ULTRA-Flex includes direct drivers for the industry's popular cutting plotters

**\$1,495**

### ULTRA-Flex Express

ULTRA-Flex Express version 8.6 for Windows (Lettering) Entry-level software program that will import designs from your current software design program such as CorelDRAW and Adobe Illustrator.

**\$475.00**
