## THE INTERNATIONAL SOCIETY FOR THE STUDY OF SUBTLE ENERGIES AND ENERGY MEDICINE:

- An interdisciplinary society with a widespread appreciation of the energetic component within many disciplines including quantum physics, therapeutic modalities, healing, psychology, consciousness, psi, and the understanding of our multidimensional existence.
- A connected community, dedicated to 'living subtle energies' as they relate to the experience of consciousness, healing, and human potential.

### MISSION:

Serve as an open forum for scientific and intuitive exploration of integrative healing, applied spirituality, and the subtle realms.

### PURPOSE:

Promote understanding, exploration, research and application of the energies of consciousness.

Individuals drawn to this unique community of healers, teachers, researchers and pioneers at ISSSEEM may come to connect with like-minded professionals, others join questing knowledge that sparks remembrance. **Jacob Liberman** - 8:30 AM Community Session

## **Light, Vision, & Consciousness: My Journey, Observations, and Discoveries**

Dr. Jacob Liberman will share his insights about light and how it interacts with and affects the human energy system. He will speak about the healing of his eyesight, and how that led him to discover what vision is, how it effects our lives, and what it truly means to see. Ultimately, we will uncover why the Bible refers to GOD as Light. Shakespeare said, "the eyes are the windows of the soul", and light and vision are the key to awakening and knowing that our every move is being guided. [www.exerciseyoureyes.com](http://www.exerciseyoureyes.com)

**Alexander Wunsch** - 10:30 AM Community Session

## **Living Photons – How Light Controls Matter**

An exploration of the realm of biophotonics, addressing a number of fundamental mechanisms and hypotheses related to life, light and health. Physician, inventor, researcher and teacher in the field of holistic medicine and photobiology in Heidelberg, Germany, Dr. Wunsch uses the Spectro-Chrome chromotherapy system in combination with electromagnetic fields and body sound application, Cranio-Sacral bodywork, Acupuncture and Lüscher Color Diagnostic. His research

focuses on light effects on cellular level, photoendocrinology and toxic light effects caused by artificial light sources. <http://video.international-light-association.org/tag/alexander-wunsch/>

**Sonia Barrett** - 1:00 PM Community Session

## **Expanding the Boundaries of our Perception**

In a unique, humorous style, Sonia Barret illuminates the nature of reality, ultimately, as a game. Humans seek to establish a comfort zone of ideas about reality, while what is essential is to push the envelope, tap into the possibilities, and continually reengage. Our perceptions of time, the concept of spirituality, and a view of ourselves as information in a data stream – all part of the *virtual* human game. Sonia reveals her insights and experiences about breaking through Level One human experience and going beyond illusionary boundaries. [www.spiritinform.com](http://www.spiritinform.com)

**Karl Ryberg** - 2:30 PM Community Session

## **Monochromatic Colors for Health and Happiness**

The gorgeous colours radiated by raindrops and prisms and peacocks are monochromatic. Entering a world of perfectly pure colours means seeing a realm where beauty equals truth. Plato would call this a glimpse of the Absolute – the flawless world we visit in dreams and meditations. The supreme information value of monochromatic super colours have the capacity to open up the vast cognitive qualities and immense resources of the human brain. Monochromatic light is also highly

efficient for detoxification and physical rejuvenation, including regained youthful appearance. [www.monocrom.se](http://www.monocrom.se)

**Members Choice Forum** - 4:00 PM

Members deliver concurrent short talks for rotating attendee audiences – lively exchange of ideas – "fair" setting.

**Peter Kater & Bruce Lipton\*** 7:00 PM Community Session

Known for the emotional and spiritual depth of his music and live performances, Peter Kater, award-winning pianist and composer, performs in celebration of Light, Vision and Consciousness.

## **Vitalism by Dr. Bruce Lipton, cell biologist and author**

**Part I. The Fall.** After 1828, the existence of a mysterious, life-generating

"vital" force or principle distinct from the purely chemical or physical forces of science was rejected because it no longer offered explanatory principles needed by science. **Part II. The Resurrection.** Bruce H. Lipton, PhD, proposes a "new" biology based on revolutionary discoveries in stem cell research, epigenetics and quantum physics. These mechanisms underscore a fundamental role for entanglement, complexity, and emergence – scientific principles that collectively provide a foundation for a new vitalism.

# Sunday June 26<sup>th</sup>

## **Amit Goswami, Ph.D.** - 11:00 AM Community Session **The Self-Aware Universe**

Consciousness, not matter, is the ground of all existence. Dr. Goswami's theory called "monistic idealism" holds that consciousness creates the physical world, and that the universe is self-aware. Not only is this "the basis of all religions worldwide" but also the correct philosophy for modern post-materialist dogma-free science. Once people give up the assumption that there is an objective reality independent of consciousness, the paradoxes of quantum physics are explainable, contends Goswami. He also applies his hypothesis to the so-called mind-body reason-feeling schisms, which he attempts to heal. Sketching a model of the self, this lecture uses the new science to throw light on choice, free will, creativity, the unconscious, and paths to healing and spiritual growth. [www.amitgoswami.org](http://www.amitgoswami.org)

## **Awards- 1:30 PM**

The Alyce and Elmer Green Award recognizes excellence, innovation, and career achievement in new paradigm science. <http://www.issseem.org/greenaward.cfm>

## **Panel:**

### **Spirito-Psycho-Neuro-Immunology *Merging Spirit and Science* - 1:45 PM**

Our understanding of health and wellness has dramatically evolved during our lifetime. Initially, allopathic medicine primarily focused on the use of drugs and surgeries. However, with the emergence of psychoneuroimmunology, we now recognize the inseparable bond between mind and body. More than 2,000 year ago Marcus Aurelius said, "The entire cosmos is organized by an ordering force. . . The human being also contains such an organizing or guiding element. . ." Is spirit that guiding element? This panel will discuss the role of spirit in guiding and animating the human energy system.

**Moderator: Scott Anderson**

**Panel: Amit Goswami, Sonia Barrett, Bruce Lipton, Jacob Liberman**

## **Closing Ceremony - 3:30 PM**

Anadi Martel, inventor of Sensora, creates a multi-sensorial phenomenon that's been called "A soft voyage into the heart of light." This fully integrated light, sound & vibration system creates an environment that unifies science, art and consciousness – merging the senses into a harmonious whole. ## FREE Workshops

- Mikio Sankey, Ph.D., O.M.D., L.Ac. – Esoteric Acupuncture**  
The existing acupuncture systems that originally came out of Asia, even those that have been modified in Europe and the United States, mainly focus and emphasize treating the dense physical body, with some attention to the astral (emotional) and mental planes. Esoteric Acupuncture was developed to harmonize and align the subtle levels of consciousness in the astral realms so to access and align the casual plane and the higher hyperspatial dimensions for our personal inner spiritual growth.
  
- Kathy Forti, PhD. – The NDE and New Quantum Technology for Global Change**  
We are being gifted by dimensional beings of light with healing technology to help man evolve and transition during these changing times. Learn how mathematical algorithms, which speak to the consciousness of our cells, were brought back from a near-death experience by Dr. Kathy Forti. Discover how the science of fractals, sacred geometry, and solfeggio tones are being used as a tool for rejuvenation and spiritual change. The presentation shares experiences from health practitioners around the world. A group experience using the Trifinity8 technology will be included. [www.trifinity8.com](http://www.trifinity8.com)

## Postconference Workshops -(separate fee)

### 8:30 AM - 12:00 PM Half Day Workshops

---

- Amit Goswami – Vital Energy - The New Frontier**  
Quantum physics has brought about a new worldview in which consciousness, not matter, is the ground of all being. In this ground; matter, mind, vital energies of life, and archetypal values of our intuition—all exist as quantum possibilities for consciousness to choose from and create experience. In the context of a new paradigm for medicine, we will discuss chakras and energy medicine, Ayurveda, TCM, homeopathy, energy psychology, and vital energy economics.
- Sonia Barrett – Reprogramming Your Hologram Of Reality**  
The word *Reality* conjures up the idea of that which is real. “REAL” is simply one’s realm of focus. In this thought provoking workshop, we will examine our unique models of reality and those we share collectively. From the standpoint of experience as holographic, we will 1) examine the technology and levels by which we exist and function, 2) explore activating an inner technology by which we can recreate and reprogram beliefs, and 3) investigate the phenomenon of time which plays a significant role in our progression. [www.spiritinform.com](http://www.spiritinform.com)

### 8:30 AM - 5:00 PM Full Day (Includes Lunch)

---

- MichelAngelo – Planetary Vibrational Medicine: Harmonizing the Body Human with the Music of the Spheres**  
An exciting introduction to a creative synergy of ancient healing traditions – Oriental medicine and Western medical astrology. Explore innovative astrological chart interpretation from a medical perspective as well as the efficacy of healing with sound. An exploration of a vibrational treatment protocol employing planetary tuning forks upon acupuncture points and meridians and the body landscape. [www.planetaryvibrationalmedicine.com](http://www.planetaryvibrationalmedicine.com)
- Jeff Levin, D.N.M. B. Arch. – Heal your Life, Heal your World with Life Alignment**  
Through demonstration and group participation, this workshop will provide a healing context for the many facets of our being – health, environment, home, workplace and even our businesses. We can bring them all into a harmonious and integrated whole by discovering our true purpose, thus releasing the stresses inherent in these times.
