

2011 ExtraOrdinary Technology Conference

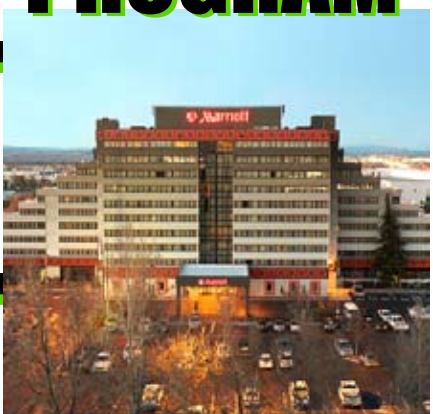

Albuquerque, NM --\$-- July 28 - July 31

CONFERENCE PROGRAM

- MEET THE SPEAKERS!**
- Michael Leas
 - Warren Starnes
 - David Schmidt
 - Robyn Benson
 - Paul Pantone
 - John Rohner
 - Clayton Nolte
 - Leah Davis
 - Dale Pond
 - Thorsten Ludwig
 - James Schmidt
 - Vendor Showcase
 - Bruce Perreault
 - Reginald Miller
 - Marko Rodin
 - John V. Milewski
 - David Garroway
 - David Talbott
 - Vern Roth
 - Jeff Hayes

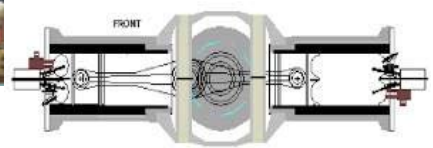

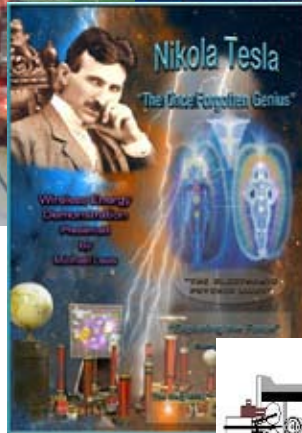

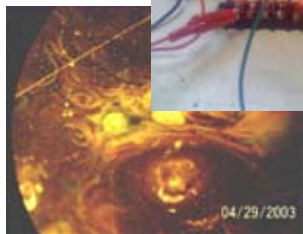

Great Conference Site!!!

Marriott Pyramid North

2011 ExtraOrdinary Technology Conference

Marriott Pyramid North • Albuquerque, NM • July 28 - July 31, 2011

CONFERENCE PROGRAM OVERVIEW

DVDs WILL BE AVAILABLE AFTER CONFERENCE!

TeslaTech, Inc reserves the right to make changes to this schedule without notice.

Thursday • July 28

Session 1 (Evening) • An ExtraOrdinary Revelation

5:00PM: **Michael Leas** - Nikola Tesla: The Once Forgotten Genius

7:00PM: *Conference Evening Social*

Friday • July 29

Session 2 (Morning) • ExtraOrdinary Health Issues

8:00AM: **Warren Starnes** - Photon Genius Revolution

9:30AM: **David Schmidt** - Aeon: Radical New Approach To Anti-Aging

11:00AM: **Dr. Robyn Benson** - Magnetic Resonance Stimulation

Session 3 (Afternoon) • Plasma and Other Technology

1:00PM: **Paul Pantone** - Low Temp Plasma... Basis of GEET Tech

2:30PM: **John Rohner** - Understanding *Plasmic Transition Process*™

4:00PM: **Clayton Nolte** - Make Your Own Structured Water

Session 4 (Evening)

6:00PM: **Leah Davis** - Holodynamics: The Science of Consciousness

8:00PM: *Conference Evening Social & Dance*

Saturday • July 30

Session 5 (Morning) • Zero Point Technology

8:00AM: **Dale Pond** - Mind Force: the Hidden Scalar Potential

9:30AM: **Thorsten Ludwig** - Coler Magnetic Current Apparatus and ZPE

11:00AM: **James Schmidt** - The Bedini Motor and a Future with Aetheric Science

Session 6 (Afternoon) • Real Alternatives in Energy Technology

1:00PM: **Vendor Showcase**

2:30PM: **Bruce Perreault** - Radiant Energy Technology

4:00PM: **Reginald Miller** - Dielectric Mass Motor

Session 7 (Evening)

6:00PM: **Marko Rodin** - Update of the Rodin Solution

8:00PM: *Conference Evening Social & Dance*

Sunday • July 31

Session 8 (Morning) • ExtraOrdinary Challenges

8:00AM: **Dr John V. Milewski** - Growing Gold/Microwave Extraction of Precious Metals

9:30AM: **David Garroway** - Implosion Vortex Dynamics

11:00AM: **David Talbott** - The Cosmic Thunderbolt

Pre Conference Workshop

Thursday Afternoon

July 28 -- 1PM

Practical Uses for HHO

Vernon Roth

Post Conference Workshop

Sunday Afternoon

July 31 -- 1PM

Tesla Primer

Jeff Hayes

Post Conference Special

Sunday Afternoon

July 31 -- 3PM

GEET Seminar/Class

Paul Pantone

Thursday · July 28 · Session 1 (Eve) · An ExtraOrdinary Revelation

Michael Leas

Nikola Tesla: The Once Forgotten Genius

The most exciting place to be in Colorado Springs during 1899 was Tesla's laboratory. There, Tesla demonstrated the wireless transmission of power in 1899. Over the next fifty years, Tesla failed in his attempts to bring power to the people. However, in articles and letters to various editors Tesla formed a clear, coherent, and articulate visualization of his concept of power, and how he could move immense amounts of currents through the earth with his Magnifying Transmitter.

In this demo and energy presentation, Michael Leas will explain his research into Nikola Tesla's work. Helping to form a basic understanding of these

energy concepts, Michael will demonstrate his wireless energy arrangement. His wireless energy system will show the type of power used by Nikola Tesla in his dramatic energy displays, only on a much smaller scale. This will help explain the importance of these energy principles in our modern society.

It is imperative that we, like Tesla did over 100 years ago, begin the process of laying out a foundation for future development of our society. This presentation shows that Tesla technology is relevant to resolving many of today's problems (pollution, energy shortages, cancer, etc) but will assist our psychic and spiritual growth as well.

Conference Lodging Facilities

Limited space... Please register by June 30!

Marriott
ALBUQUERQUE
PYRAMID NORTH

Marriott Pyramid North

5151 San Francisco Road NE
Albuquerque, NM 87109

(505) 821-3333

www.albuquerque.marriottnorth.com

Hotel Reservations:

(800) 262-2043

Be sure to request our special
TeslaTech

**ExtraOrdinary Technology
Conference rates!**

\$79⁰⁰ per night!!

(Conference Code: TeslaTech)

Conference Evening Social

Meet the Speakers
... and New Friends!

Thu/Fri/Sat ~7PM

Every night provides an opportunity to meet the speakers and other attendees in a relaxed social setting. It's a great opportunity to make new friends that share your interests. We even provide some refreshments!

Hotel Amenities

Special hotel amenities for conference attendees include:

- Free Breakfast
- Free high speed internet (both cable or wireless available)
- Free local calls
- Business Center open 24/7
- Clean, fresh, comfortable rooms standard with a coffee maker, iron and ironing board.

For taxicab service in Albuquerque:

Albuquerque Cab - (505) 883-4888

Yellow Cab - (505) 247-8888

**Need an Airport Shuttle?
(505) 883-4966**

PRE CONFERENCE ACTIVITY

Thursday Afternoon
Thu Jul 28 • 1PM-3PM

Practical Uses for HHO Generators

Towards a more self sufficient technology...

Vernon Roth

While new ways to accentuate HHO production and quality will be presented, this workshop explores new and powerful uses for off-the-shelf Hydrogen/Oxygen generators. Any good Brown's Gas or HHO generator can be used for these exciting and innovative applications: Health and beauty, home heating and cooking, waste remediation and trash processing. We will look at all the components needed for each of these applications: ground straps, safety bubblers, back-flow preventers, "plumbing" for heaters, plastic recyclers and more.

The focus in the workshop will be on self-sufficiency and community building. This country has become very centralized, with power generation, water sanitation and trash processing. The latter part of the workshop will teach the basics of Hydrogen communities: How do we build up and support each other as we explore and develop the technology of true self-reliance.

POST CONFERENCE ACTIVITY

Sunday Afternoon

Sun Jul 31 • 1PM-3PM

A Tesla Primer

Jeffrey Hayes

Famous in 1900 for inventing the alternating current system, some of Tesla's later inventions (1890- 1921), have never been used. These inventions hold the greatest potential to alter the field of alternative energy! The suppressed inventions include the disk-turbine rotary engine, electromedicine, high-frequency lighting systems, the magnifying transmitter, wireless power, and the free-energy receiver. However, Tesla still remains an enigma to most people. Here you will discover:

- Who was Nikola Tesla...
- What was mission
- What was his hardware
- What are Tesla Waves
- What is the Tesla Car

These questions and more will be explored with new insight for all. Cheap and simple answers continue to wait for the problems which confound the absolute thinking of many today. Tesla has gifted a comprehensive solution not only for today's ongoing environmental and energy debacle, but he also gave us the amazing gift of personal health.

Conference AfterHours ...

Friday Jul 29 - 6PM

Holodynamics: The Science of Consciousness

Leah Davis

Energy=information

Information is conscious. All energy is conscious.

All information is part of a universal conscious covenant, operating within one whole dynamic (holodynamic) field. All matter, including planets, galaxies, and life on earth functions within this field of dynamic interacting spinners of information systems (*holodynes*) emanating from hyperspace. Holodynes are even in the microtubules of the human biological system.

The conscious logical, reasoning and decision making part of the mind is only 5-12% of the mental awareness. It is the subconscious mind that is actually controlling 88 – 95% of our actions. Immature Holodynes are playing games in the subconscious mind and are controlling one's life (body-mind-spirit) with destructive thoughts, emotions and behaviors

Activating and integrating your Higher Self and communicating with the holodynes allow you to transform and evolve them to their most mature state of their fullest potential, so that their highest intentions are working for you and not against you.

Extraordinary results are found by "tracking" the holodynes in order to maintain more harmonious relationships, overcoming drug abuse, mental illnesses, and other health related issues.

Saturday Jul 30 - 6PM

Update of the Rodin Solution

Marko Rodin

I have discovered the source of the non-decaying spin of the electron. - Mark Rodin

Prime Number Symmetry Generation in Rodin Coil Design

Marko Rodin was originally selected in 1988 by *Defense Science Magazine* to present his findings at *Air Space America* under the scientific topic of Space Power Propulsion Systems on behalf of the United States government and will be sharing the most recently made advances in Rodin Coil model design and Vortex Based Mathematics technologically for antennae, portable power generation, computer artificial intelligence, 3D speakers, electric cars, and an in depth explanation into how to end all diseases and produce unlimited food crops by harnessing the heretofore undetectable Morphogenetic Field Bio-Aetheric Template contained within DNA and is responsible for all gene expression.

There will also be a live demonstration of the newly released Rodin Coil four conductor and six conductor model design.

Photon Genius Revolution!

Warren Starnes

Only the genius of Ed Skilling and the Skilling Institute could develop the ultimate power tool for the human body... *the Photon-Genius*. The Photon-Genius utilizes the sophisticated, proprietary Skilling electronics to generate the dynamics of photon-genetic energy, life force energy transmission, harmonic frequency noble gas technology, harmonic targeted infrared energy transmission to communicate with all the cells of the body to balance and enliven all systems and organs of the body. The Photon-Genius transmits, imprints, and reminds the human body at the cellular level of the essential creative process of harmonic living energy that results in natural and empowered regenerative processes throughout the body.

It is gaining widespread approval from health care providers based upon the results they are observing firsthand. The Photon-Genius enhances immune system activity and relaxes the muscles and the nervous system while toning and conditioning the entire body by relieving blood stagnation and improving circulation while providing oxygen and nutrition to tissues and organs of the body. The Photon-Genius is a "power tool" to assist in making the body the best it can be.

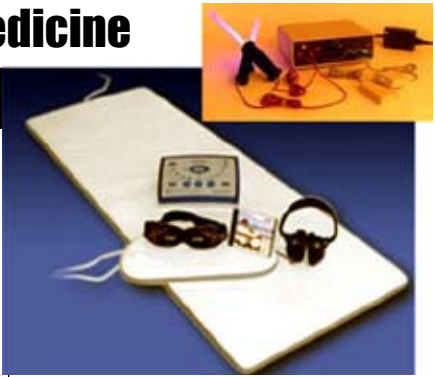

Don't take our word for it... test drive the Photon Genius yourself at the conference... and you will be amazed!

Applied ElectroMedicine

Robyn Benson DOM

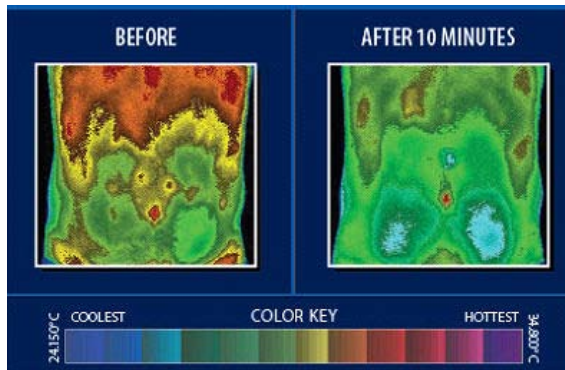

ElectroMedicine IS the cutting edge of modern health and healing. Modern electromedical devices have been used in Europe for more than twenty years. As these devices and techniques are proven to be effective, they are beginning to proliferate throughout the world. After Dr. Benson incorporated electro-medicine into her daily treatments with patients she observed first hand, that her patients suffering from a variety of maladies, experienced positive results – oftentimes quickly - using electro-medical devices.

The potential of non-invasive, easy to administer, non-toxic, safe and effective electro-medicine is breathtaking. In this presentation, Dr. Benson will contrast the health dangers we face daily due to the (high) electromagnetic frequencies we are bathed in 24/7 in our modern world, to the benefits we

can receive from the (low) electromagnetic frequencies generated by modern electromedical devices, which mimic the Earth's life-giving frequencies upon which all living things depend.

This presentation will include research data as well as anecdotal evidence collected from patients being treated with different electromedical devices, including the MRS2000 (pulsed electromagnetic frequencies), the Photon Genius and Genie, and other new frequency devices used in conjunction with the more traditional branches of Oriental medicine.

AEON A RADICAL NEW APPROACH TO ANTI-AGING

**Onsite Validation
By Thermal Imagery**

David Schmidt

Are you aware that the leading cause of aging is stress? Whether it is produced from physical or emotional causes, stress creates oxidative and inflammatory chemicals in the body that damage your cells, organs and even your DNA. Even worse, scientists around the world have proven that elevated levels of inflammatory markers can weaken your immune system and cause a number of diseases such as cancer and diabetes.

Fortunately, a new technology is available to solve this problem. Non-transdermal patches using human infrared body heat as the power source

can be placed on the surface of the skin to establish communication links with the human body providing the ability to safely trigger biological functions.

The latest patch – *Aeon*, effectively reduces age-related effects of stress, is safe, convenient to use and inexpensive. *Aeon* produces benefits such as improvement in energy, reduction in pain, reduction in inflammation and even improvements in the appearance of your skin. LifeWave will be conducting free demonstrations of the *Aeon* patch utilizing a state-of-the-art Infrared Thermal Imaging Camera that shows effects within minutes.

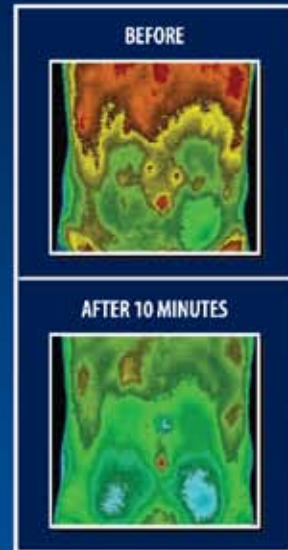

LIFEWAVE[®]

A E O N[®]

A revolutionary new anti-aging product from LifeWave

California Company Uncovers Previously Unknown Anti-Aging Mechanism

Human beings have been searching for the fountain of youth for as long as they have been faced with the inevitable facts of life – we're born, we age and we die. This search has led scientists around the world to seek the major causes of aging. The answer they have come up with is "stress." It's the leading cause of aging and, whether it's produced from physical or emotional causes, it wreaks havoc on cells, organs and even DNA.

Now, a San Diego-based technology company called LifeWave has used this knowledge to develop what is perhaps one of the most powerful weapons in the battle against aging. It comes in the form of a non-transdermal patch called Aeon.

Lifewave CEO, David Schmidt explains, *"This patch produces an anti-aging effect which has never before been available. It's effective at reducing the age-related effects of stress, and has been proven to improve energy, reduce pain and inflammation, and even improve the appearance of the skin."*

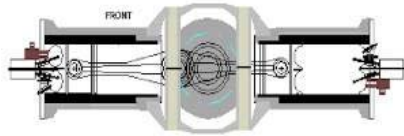

Curious to see just how this remarkable product works? LifeWave will be conducting free demonstrations of the Aeon patch at this year's ExtraOrdinary Technology Conference in July utilizing a state-of-the-art Infrared Thermal Imaging Camera that shows effects within minutes. See it for yourself!

"Aeon is an absolutely new technology that dramatically improves quality of life for anti-aging benefits that you can start seeing now."

Suzanne Somers
Author, Actress, Health Advocate
& LifeWave Ambassador

Understanding the Plasmic Transition Process™

John Rohner

The original Papp engine was not, a *Pulsed Plasma motor*. Plasma is not retained and pulsed as many others have stated. The plasma is recreated with each power stroke and returns to a steady state gas on each return stroke. This phenomena is properly termed as the *Plasmic Transition Process™*.

The initial power event and creation of plasma, for expansion, is derived from a actuation event within the cylinder at about Top Dead Center which creates a Plasmic Transition, expansion, which is contained in a sealed cylinder, 2-cycle piston and rotating crankshaft system which has only three moving parts. This new system crosses the previous borders of physics... it is composed of fusion, fission and plasma working together... each process utilizing elements of each to the advantage of the other resulting in **torque** that is steady throughout the range of engine speed. (The HP is a straight rising line.)

There are two parallels to explain *Plasmic Transition Process™* and power production of this motor in our world. First is *natural lightning*, which uses an almost identical or similar process as does the *Plasmic Transition Process™*. The second is *live steam* which provides the same torque over rotational speed event characteristics we see in our engine. There is nothing comparable in our current internal combustion motors operation.

Make Your Own Structured Water

Clayton Nolte

Structured water is water that is organized into small clusters of five to twenty molecules creating an isohe-dral structure. Drinking this water is the most fundamental way to help the body function and remain disease free.

Structuring water energetically erases the toxic memory that has accumulated from everything that the water, has passed through or by (chemical, pollution, pharmaceuticals, negative energies, etc). Even if the physical contaminants have been removed, their vibrational imprint is still carried in the water's memory bank. These imprints carry restorative or destructive energies. Reverse osmosis and distillation technologies do not remove the negative vibrational imprints. Only structuring through motion (balanced

vortical energies) erases the negative vibrational imprint.

Many technologies utilize single vortex methods, magnets, crystals or electricity to structure water. However, emulating nature's perfect balance, utilizing both right and left spin simultaneously creates a perfect natural, balanced, structured water (*natural action structured water*). *Natural action structured water* creates coherence and a lower surface tension, therefore water is absorbed effortlessly into all cells of your body. The water and you, in turn, expand to your highest coherent energy potential.

Low Temperature Plasma... Basis of GEET Technology

Paul Pantone

GEET began as a quest for better engine fuel delivery with less pollution. However, this same technology can teach students:

- how to control tornadoes;
- get three times more usable energy from a cubic foot of natural gas;
- reduce engine emissions by 95%
- align your body's electrical field ... and much more.

Over thirty years of research thru difficult times have been dedicated to introduce GEET to mankind. Since orthodox science refused to acknowledge even the possibility of low temperature plasma, there were no reference books for Inventor to find any real or logical explanations. This is has led to over 180 new fundamental discoveries that should be incorporated into educational curriculums of universities throughout the world.

The GEET Fuel Processor is compact on-board plasma fuel refinery that renders just about any liquid into usable and highly volatile fuel by cultivating electromagnetic and other energy fields. This process has revealed some extraordinary and perplexing phenomena. Understanding the phenomena driving the efficient transformation of hydrocarbons in this system may result in a significant revision to modern physics as we know it.

Photon-Genius

WHEN IT COMES TO YOUR HEALTH, YOU DON'T HAVE TO BE A GENIUS...YOU JUST HAVE TO BUY ONE!

Ed Skilling and the Photon-Genius take your health to the next level! The Photon-Genius transmits, imprints, and reminds the human body at the cellular level of the essential creative process of harmonic living energy that results in natural and empowered regenerative processes throughout the body.

Photon-Genius Uses:

- Skin Problems
- Stomach Problems
- Earache
- Colds, etc.
- Excess Acid
- Heartburn
- Hemorrhoids
- Diabetes
- Indigestion
- Asthma
- Inflammation & Swelling
- Gout
- Rheumatism
- Ulcers – Gastric & Duodenal
- Abnormal Nerve Function
- Bronchitis
- Arthritis
- High Blood Pressure
- Insomnia
- Neuralgia
- Your general condition and health
- AND many other truly miraculous results

"In my 20 years as a catastrophic illness practitioner, the Photon-Genius is the best investment I have ever made. We now use it on every patient we treat. Now they get more noticeable results from our other treatments and leave our office feeling invigorated."

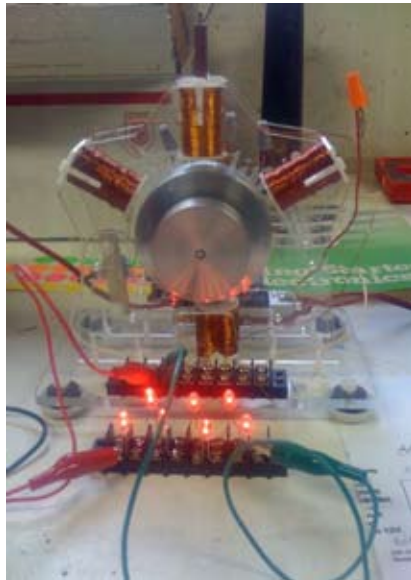

- Dr. Tom W.

This information is for informational and educational purposes only and is not intended to replace or substitute the advice and/or services of a physician or other health care professional. It is not our intention to prescribe or make specific health claims for any of our technologies or products. Any attempt to diagnose and treat illness should come under the direction and supervision of your health care practitioner.

SKILLING INSTITUTE

www.edskilling.com • 877.777.4788 • 602.369.3393

The Bedini Motor and a Future Using Aetheric Science

James Schmidt

John Bedini has been researching motor generators for over thirty years. In the 1980s, he demonstrated his Krom-Ray device that used a motor to run a generator which charged a battery to successfully run the motor. His recent experiments have been with the monopole motors where he uses rotating magnets and a primary battery to charge an auxiliary battery.

He is selling three and ten monopole motor kits. The Bedini motor kits can help provide a basic understanding of the principles for extracting ZPE from space and turn it into practical applications. An output coil, not part of running the motor, can be used for charging capacitors and batteries, and for performing other experiments.

I am also experimenting with earth magnetic currents and batteries. It may be possible to use the Bedini monopole principle to pump magnetic energy from the earth. There are so many areas of successful research into ZPE currently going on, involving earth energies, magnetic energy, or space energy that I believe it is time we begin to develop, fund and deploy practical devices into the world.

Mind Force: the Hidden Scalar Potential

Dale Pond

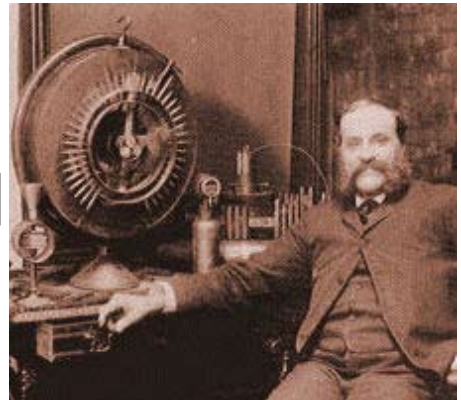

The work and discoveries of John Worrell Keely are an intriguing mystery. John Keely made machines that only he could operate. What was it about his being that allowed this? What forces did he understand and how did he harness them to his amazing machines? This paper explores those forces.

All forces in nature are mind forces: magnetic, electric, galvanic, acoustic, solar, are all governed by the triune streams of celestial infinity. Keely

What then are these "mind forces" that participate in electric, magnetic and acoustic phenomena? What is "celestial infinity"? Is there a passive or neutral condition of energy or force that can be modified into an active and useable force? There would certainly appear to be such a force or condition or state of force.

Hans Coler magnetic apparatus generated electric output with no electric input power in the 1920s. The original was successfully tested by Prof Kross in 1925 at the Technical University of Berlin and Prof Schumann in Munich, who is famous till today for the Schumann resonances. This presentation's experiments were done with a replica of the famous Coler "Magnetstromapparat" which was built at the same institute in Berlin where the original apparatus was tested in 1925. The details of the setup of the Coler generator will be discussed. The results of the measurements will be presented. Did Coler convert vacuum fluctuations via magnetic and acoustic resonance into electricity?

All motion is thought, and all force is mind force. Keely

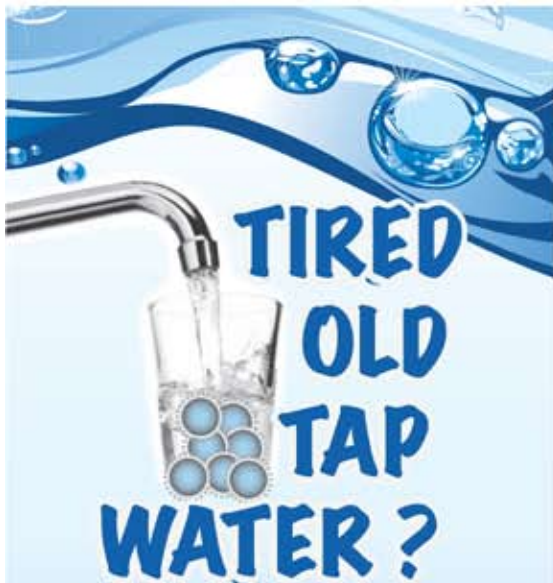

How is it this great discoverer would claim "all motion is thought"? Perhaps we should look to modern science for some answers. A few years ago an announcement was made by the Engineering Department of Princeton University. This announcement was not made lightly for it represented 30 years of careful research in an effort to ascertain whether or not Mind could influence matter. Their answer was an unequivocal ...

Yes, mind can influence matter!

Coler Magnetic Current Apparatus and ZPE

Dr Thorsten Ludwig

There is a strong connection between magnetism and quantum field zero point energy (ZPE). Dr. Ludwig will explain how in modern physics the magnetic moment of the electron and Ferro-magnetism originates from zero point energy quantum fluctuations... an important perspective for magnetic systems to convert vacuum fluctuations into usable electricity. The energy output of the Coler apparatus is measured with state of the art measuring equipment. In addition the presented work focuses on discovering the famous 180 kHz resonance frequency that Coler talked about in the report of the British Intelligence. To find the resonant frequency, the nano-physics methods of magnetic force microscopy and a zero point energy detector based on the Casimir effect were used.

TIRED OLD TAP WATER?

- ⊕ Low Energy
- ⊕ Clustered and Entangled
- ⊕ Hard Water
- ⊕ Unbalanced PH

When water is structured with our Natural Action unit, all its negative memories are erased. This allows the water to return to its natural state.

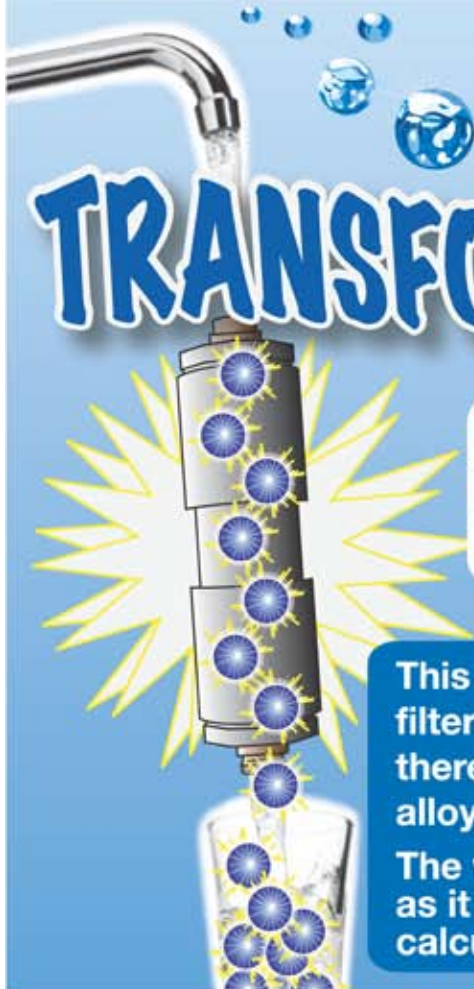

Natural Action Water energetically inhibits the bio-availability of toxins and increases the bio-availability of nutrients creating...

Perfect Natural Balance!

Natural Action Water creates coherence and a lower surface tension, therefore water is absorbed effortlessly into all your cells!

The water and you, in turn, expand to your highest coherent energy potential!

And that's just the beginning....
Once you experience the water you will never want to be without it. Your body will feel incredibly energized.

TRANSFORMED!

- ⊕ Wetter
- ⊕ Softer
- ⊕ Balanced PH
- ⊕ Energized!

- Portable Unit - \$249.00
- Shower Unit - \$249.00
- ⊕ Under the Sink Unit - \$349.00
- Garden Unit - \$349.00
- Large RV Unit - \$999.00
- House Unit - \$999.00
- Commercial Unit - \$1,499.00

This innovative Device works without chemicals, filters, salts, electricity, or magnets. Best of all, there are no moving parts or complex metal alloys.

The water itself is the machine, structuring itself as it tumbles across an array of mathematically calculated geometries inside the unit.

www.naturalactionwater.com

phone: 970-946-5804

Vendor Showcase

Not all of the new and exciting technologies make it on stage. Often, some of the best technologies are out in the expo area. As a new feature, we are allowing the vendors an opportunity to give a 5-10 minute presentation on the products that they have brought to the conference. Since time is limited, this activity will be restricted to the vendors who are not speaking at the conference.

POST CONFERENCE ACTIVITY

Sun Afternoon

Jul 31 • 3PM

GEET Seminar

Paul Pantone

The first working prototype was developed long before the technical analysis was attempted. Plasma research is a fairly new field of acceptable science. The technology used in the GEET Fuel Processor is a combination of the most basic scientific principles, most of which falls within the normal rules and of thermodynamics. But some of the 70 simultaneous phenomenon are not found in those books, since it is the combination of events, which is the body of this discovery.

High gas prices and high pollution levels are a modern plague... and GEET is the solution. Engines running on GEET technology have consistently shown tremendous reductions in emissions.

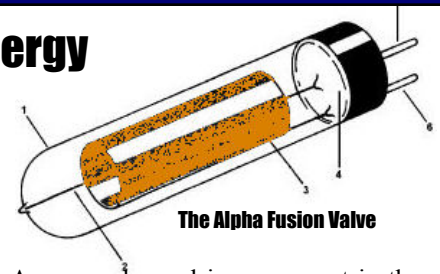

After the conference an official GEET class may be offered to those attending if enough are interested.

Harnessing Cosmic Energy with Alpha Fusion

Bruce Perreault

This presentation will focus on the direct conversion of an atomic fusion process discovered by Bruce Perreault. It is based upon his **US Patent No. 7,800,286 - Alpha Fusion Electrical Energy Generator** that was granted on September 21, 2010. It will be realized that this technology is unique to all other "atomic batteries."

Bruce's alpha fusion process generates useful amounts of electric power where all other patented direct atomic conversion methods generate only feeble currents. Perreault's direction of research has lead him to conclude, as Nikola Tesla believed, that the decay rate of radioactive substances that generate "radiant energy," is due to the "Cosmic Energy" our Sun emits continually that bombards planet earth.

A new and novel improvement in the art of the direct conversion of nuclear energy generates electrons that are the result of atomic reactions that are efficiently converted to electrical current. Converted atomic energy is directly available for driving motors, lighting, production of heat, and can be used in electrochemistry, etc....

This simple, compact device generates electrical current resulting from a self-generating electron source. To achieve this, a method of generating delta rays, or secondary electrons through a fusion reaction is provided. This method and device gives improved performance over prior art that utilizes the direct conversion of atomic reactions to obtain electrical power.

When Nikola Tesla patented the Dynamo Electric Machine (US Patent 359,748) he noted that the iron core tended to heat up and cause losses due to hysteresis. Advances in material technology and the demand for higher efficiency electric motors have led to dielectric motor research.

Dielectric motors with high winding coils promise high efficiency because the force generated by the electro-magnet is based on many turns at low amperage rather than a few turns at high amperage. Inventors in recent years have produced remarkable ef-

New High Efficiency Dielectric Motors

Reginald T Miller

ficiencies using the technique, but the motors are still plagued by low RPM and low energy density.

An evolution of design has shown that the interaction between the permanent magnets of the rotor and the electro-magnet improves when paying close attention to six factors:

- Use as many windings as practical
- Eliminate all iron
- Design permanent magnet w/care
- Match the timing to the speed
- Employ solid state switching
- Add recovery circuits

The prototype achieves 600% at 200 RPM and exceeds the power density of the Joseph Newman 145 pound prototype, but the efficiency drops at high RPM due to hysteresis. A new design solves this problem and may prove to be the ideal motor for many small motor applications.

The POLLUTION SOLUTION (FUEL SAVING) REVOLUTION!

GEET, which stands for "Global Environmental Energy Technology" is a perfect immediate solution to pollution and fuel shortage problems, because GEET can be retrofitted to any existing fuel-burning device

Paul Pantone invented GEET in 1983. Since then Paul has attempted to cooperate with big businesses, but they have all wanted full ownership of the GEET patent so they could shelve the technology and continue to profit at the planet's expense.

Paul took his GEET demo engine and GEET-retrofit Chevy Suburban on the road to 45 states. Conferences like the ExtraOrdinary Technology conference (ETC) and local Media coverage (mostly FOX) let Paul show his accomplishment and discoveries to thousands of people across the U.S.

Paul opened GEET International Institute to teach the plasma/vacuum-involved technology of GEET. Hundreds of students attended from the U.S., Europe, and many other countries. Many students held PhDs. Research and discoveries continued with cooperation from university science labs.

In 1998 Paul Pantone donated, via the internet, the free GEET plans for personal use to humankind. Today thousands of successful GEET retrofits have been built and documented. GEET is being used in city vehicles, farm equipment, generators, boats, jet airplanes...If it burns fuel, GEET can retrofit it, and it has probably already been done.

	GAZOIL	+ SYSTEME PANTONE
CO ₂	8,6%	0,1%
Nox	348 ppm	168 ppm
HC	3 ppm	1 ppm
CONSUMPTION	11,7/100	9,8/100

As we become more aware of the reality and availability of our fueling options, we become empowered to plan for and participate in changes necessary to wean ourselves and our economy off of fossil fuels.

Thank you all for participating with GEET in so many positive and productive ways. This Pollution Solution (fuel saving) Revolution is driven by human power and mind power! With your help, GEET International Institute has been making strides toward Global integration.

A vast network of Licensed GEET Dealerships has been built across The U.S.

Learn how to become a
Licensed GEET Dealer!
Email paul.pantone@yahoo.com

Though the Free GEET Plans, found at www.geetinternational.com, are helpful for achieving great results in fuel savings and pollution reduction, the science behind the GEET reaction must be understood to yield maximum potential. If you would like to become a GEET Dealer and/or GEET Trainer, Paul Pantone is currently offering training and licensing. Explanation of the fundamental relationship of plasma and vacuum which facilitates

the GEET reaction, but isn't mentioned in mainstream science books, will be taught during your training.

We must not let this solution sit idle. GEET is growing in popularity only because regular people are becoming more aware and ambitious to make a positive difference for the world. It is up to each of us to do what we can.

Visit geetinternational.com
Join the **GEET Club** today!
Attend a local demo meeting.

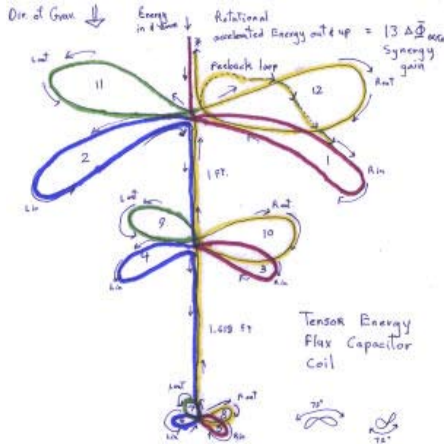

The GEET Club is taking form. Hundreds of people have signed up for up-coming showings/meetings. Wherever you are in the world, go to the "GEET Club" page at www.geetinternational.com and sign up for the GEET Club. We will contact you as soon as a GEET Club Chapter is scheduled to meet in your area. Also, connect with us on Facebook, Twitter, and share our Youtube videos. Keep up to date with our progress and let others know they can be a part of this solution too!

Keep checking back as we frequently update and make additions to www.geetinternational.com.

If you would like to support the GEET International lab by making donation, there is a donation button on our home page. Equipment for retrofitting is also useful and appreciated. Contact paul.pantone@yahoo.com.

Paul Pantone will host a GEET workshop on the last day of the ETC 2011. A GEET demonstration engine will be taken apart, rebuilt, and run.

Implosion Vortex Dynamics

Dave Garway

The fractal implosion of our universe and its implications with regards to the “Big Crunch” version of the universal field theory will be discussed. It proposes that we expanded once, but matter has come into existence only recently. Currently we are on the contraction phase of our universe.

Anomalies of anti-gravity at mystery spots around the world imply the “unified field” theory. Gravity should be treated as an effect, not a force. There are four different types of spiraling waves responsible and three different kinds of each. These twelve entities makeup our ether... and all obey the ratio of the “Golden Mean”.

What could be a dry discussion will be amplified by demonstration of some very unique hardware. The *photon energy attractors* attract light... when used during the day, sunlight becomes more intense, reflections spike more, and have an added gold tinge. At night, street lights brighten and obtain a halo around them. There is also a “treated” cymbal that is spun on the ground, when it stops, it appears to move backwards. Finally, a “tensor coil” interferes with the ether waves. When dangled and held near any material (wood, plastic or other non-ferrous material), you can see and feel it move away from the material... a great “field effect” demonstration.

THE COSMIC THUNDERBOLT

Scientific Evidence Validates the Electric Universe Cosmology

David Talbott

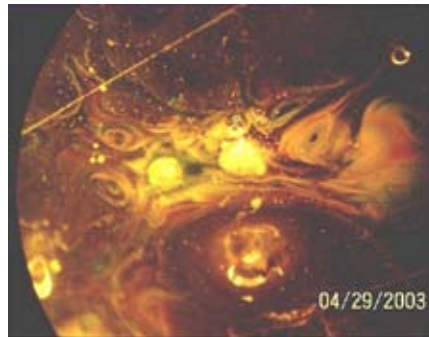

The discovery of the *Electric Universe* does not just change our picture of the heavens today. It also changes what we see and hear in messages from antiquity. In fact, every aspect of the ancient sky bore the signature of Nikola Tesla. The sky was electric, filled with luminous columns, threads of light, and undulating rivers of fire.

In plasma (an environment of charged particles), high-energy electric discharge evolves through visible forms that appear to be alive. One phase transforms violently into another, exhibiting structures that are now eerily familiar to the student of the early cultures. By direct comparison of electric discharge formations to anciently-drawn images of the sky, we come closer to answering an age old question -- who were the archaic gods?

But so long as humankind believes the ancient sky looked like our sky today, nothing preserved by the early cultures will make sense. The yearning to recapture a “Golden Age,” the celebration of cosmic mountains, great cities, and turning wheels in the heavens, the nightmares and prophecies foretelling the recurrence of Doomsday -- all arose from the human experience of celestial beauty and terror.

The most pervasive theme of the early cultures, the cosmic serpent or dragon can be precisely explained by plasma discharge formations. Systematic investigation by collaborating researchers can demonstrate that the causes of such events lay in an unstable planetary system, a system fundamentally altered in earthshaking electrical events... profoundly affecting human events.

This report will reveal new extraordinary technology to extract various Precious metal such as Gold, Silver Rhodium and Iridium from various materials not consider to be sources of them. One process is growing gold out of the air and the other processes all use kitchen type microwaves to extract Gold, Rhodium and Iridium out of glass and black sand magnetite.

David Hudson says that almost every thing you breath, drink, or walk on contains some precious metals in *Ormus* form. In the 80s and 90s, Hud-

Growing Gold and Microwave Extraction of Precious Metals

John V. Milewski

son coined the acronym *ORMEs*... a name for what he defined as a new state of matter. *ORMEs* is an acronym for “Orbitally Rearranged Monatomic Elements”. He demonstrated, through very detailed experiments and testing, that at least 13 of the transition elements (Co, Ni, Cu, Ru, Rh, Pd Ag, Re, Os, Ir, Pt, Au, Hg.) in the center of the periodic table, can exist in a heretofore unidentified state of matter.

He claimed that this occurs when they are in a monatomic state. This presentation will report on these processes in sufficient detail for conversion of these ormus elements into their metallic structure.

Global Sciences — Congress —

The Global Sciences organization was founded in 1983 by Dean Stonier to promote the understanding and integration of body, mind and spirit as well as the mysteries surrounding us... UFO's, crop circles, spiritual growth, ascension, alternative healing modalities, suppressed technologies, mind control, shadow government/one-world conspiracies. Eventually this resulted in two national conferences each year, typically Florida in the Winter and Denver in Summer. Dedicated to bringing you the latest information which is crucial during these exciting times here on planet Earth, these congresses were considered the premier events of the alternative world for nearly two decades!

2011 ExtraOrdinary Technology Conference

Albuquerque, NM • July 28 - July 31, 2011

Conference Early PreRegistration Form

Information so HOT... it NEEDS to be Suppressed!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have WORKING HARDWARE! We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

This is a great opportunity to meet others who share your interests! Attending conferences is the best, and most economical, way of developing your network of professional contacts.... *Get the inside technical information you will not find on the internet!!!!* -

Suggested Speaker Topics/Categories :

- Tesla Technology
- Tesla Coils
- High Energy Physics
- Scalar Technology
- Alternative Energy
- Fuel Saving Products
- Alternative Medicine
- New Health Products
- Extreme Physics

Conference Notes:

- **Video Recordings.** Professional quality video DVDs will be available during and after the conference. **Private taping is not allowed.** Conference fees **do not include** DVDs.
- **Family Discounts.** Spouse rates available to immediate family accompanied by *members*.
- **Individual Sessions.** Individual session rates available at the door on a *space available* basis only.
- **Hotel.** The conference will be at the **Albuquerque Marriott North Pyramid...** There is a special group rate of \$79 which includes breakfast. To make reservations call:

(505) 821-3333

Rooms are limited and the rate is good until June 30. Be sure to ask for TeslaTech's special group rate.

- **Refund Policy.** Exchange only.. **no cash refunds.** Refund credit to be used on goods/services produced by TeslaTech only.

Send in with check or money order in United States funds to:

TeslaTech, Inc
296 E Donna Drive
Queen Valley, AZ 85218

Conference PreRegistration Rates

Type Attendee	Rate	# Attend	Cost
Member/Nonmember	\$ 349.95		
Spouse	\$ 299.95		
Students	\$ 249.95		
Thurs Workshop	\$ 49.95		
Sun Tesla Workshop	\$ 49.95		
Sun GEET Workshop	\$ 49.95		

List spouse/student/additional attendees:

TeslaTech Members Registration Discount Rates
25% - members registered before Apr 30
20% - members registered before May 31
15% - members registered before Jun 30
10% - members registered before Jul 10
Door registration subject to space availability!

TeslaTech champions and nurtures advanced concepts and products in science and technology. Our publications and conferences provide independent inventors and researchers with a credible platform to introduce new, advanced concepts, inventions and discoveries to the world -- many of these concepts originated with Tesla at the turn of the 20th century. Research materials related to science and technology are available to the general public through our catalogs.
