Endless Possibilities...

HOW TO CHOOSE A WALK-BEHIND MOWER

Small Yard

Push Mowers

If your yard is 1/4 of an acre or less with flat land, push mowers are a good choice.

Medium Yard

Self-Propelled Mowers

If you have a larger yard (up to 1/2 of an acre) or have hilly terrain, consider a self-propelled, walk-behind mower.

Here are three easy steps to help you select the right mower.

STEP 1: Determine your mowing and equipment needs.

Choosing the right lawn mower has a lot to do with how you will use it. Although lawns come in all shapes and sizes, there are basically three different applications for a lawn mower.

1. Simple mowing and trimming – usually for small yards that are mown frequently where no mulching or bagging is needed; may also apply to larger lawns where the majority of more extensive cutting is handled by a riding mower.

Equipment – Typically push mowers, side-discharge, limited functionality.

2. Small, manicured lawns – Well-tended lawns that are mown frequently, where bagging and mulching are important.

Equipment – push or self-propelled mowers, with full functionality, ease of use and convenient features.

3. Difficult mowing conditions – Areas with hills, obstacles, large spaces, wet, thick or tall grass.

Equipment – Rear-drive, self-propelled, fully functional, wide cut.

STEP 2: Determine your cutting power needs.

The more cutting power a lawn mower has, the more easily it will maintain the speed of the blade delivering a consistent, quality cut. Lower cutting power offers basic mowing on a budget. Once you decide how you will use your mower, buy the mower with the greatest cutting power you can afford with the features you need. Cutting power is a combination of three things – engine size, engine configuration, and mower configuration.

Engine size – in combination with the engine configuration, the size of the engine is the most important factor in how the mower handles demanding jobs. Engine size is measured in ccs (or cubic centimeters). The more ccs, the more cutting power the engine provides.

Engine configuration – lawn mowers equipped with engines designed with overhead valves offer more power than those without OHV engines regardless of size or configuration. OHV engines run more smoothly and efficiently, and are quieter and better for the environment.

Mower configuration – the deck is the area of the lawn mower that houses the blade. The larger the deck, the longer the blade and the more area you can cover with each pass. A larger deck can reduce cutting time but may require more power to be effective, so look for a larger OHV engine on a larger deck.

Bagging – a rear bag is easier to empty and makes the mower easier to maneuver around obstacles. Both bagging and mulching require a mower with more power, so if you are planning to do either, look for a larger OHV engine.

STEP 3: Determine what type of mower is right for you.

Gas-Powered Mower

- Great for tall, thick grass and rough terrain.
- Combines yardwork with moderate exercise.

Self-Propelled Mower

- Assisted by a drive train that propels the mower.
- Reduces physical effort.

Electric/Cordless Mower

- Lightweight, quiet, and nearly effortless to start and maintain.
- Does not use gasoline or oil, which eliminates harmful exhaust.

Front Wheel Drive (FWD)

- Offers satisfactory traction on flat terrain with shorter grasses. Allows the operator to turn the mower without releasing the transmission.

Rear Wheel Drive (RWD)

- Offers superior traction on all terrains and thick grass, even as the bag fills or the operator guides the mower up an incline.

High Wheel or Low Wheel

- If your lawn is relatively flat and smooth, a low-wheel mower should be adequate to meet your needs. If you'll be mowing over rough/uneven terrain, consider a high-wheel mower. The larger wheels will provide easier maneuverability and make bumps easier to manage.

Walk-Behind Mower Features:

2-in-1 (Mulch/Bag)

Converts easily from mulching to bagging without tools.

2-in-1 (Mulch/Discharge)

Converts easily from mulching to side discharging without tools.

3-in-1 (Mulch/Bag/Discharge)

Converts easily from mulching to bagging to side discharging without tools.

Self-Propelled

Reduces mowing time and effort, especially when cutting large areas or steep terrain.

Height Adjusters

Adjust cutting height for each wheel from 1" to 3.5".

High Wheels

Provide stability and make mowing on uneven terrain easier.

Not all features available on all models.

IT MATTERS WHAT'S INSIDE

BETTER ENGINES MEAN BETTER RESULTS.

STARTING WITH A PROMISE

You help us keep

BUILT IN AMERICA*

With good old American know-how and can-do spirit†

★ of US and global parts

† Nearly 90% of all Briggs & Stratton engines are built in America of US and global parts.

GOOD OLD AMERICAN KNOW-HOW AND THE CAN-DO SPIRIT.

Whether you're talking about a person or their power equipment, the engine inside is what gets the job done. Briggs & Stratton believes in empowering the human can-do spirit and supports self-initiative and putting one's know-how to good use.

Supporting the power within each of us is our brand promise. And it's the reason why consumers look for the Briggs & Stratton brand when they shop for power equipment.

ENGINES MATTER.

Lawn mowers that can cut through long, thick grass. Pressure washers that can clean better. Generators that can provide more wattage under full load. These are the results consumers are looking for from their power equipment.

Regardless of the application, Briggs & Stratton engines are designed with torque, durability and low maintenance in mind to provide peak performance in power equipment.

SMALL VERTICAL ENGINES

When shopping for a new lawn mower, the single most critical element in gasoline-powered equipment is the engine that produces the power to get the job done.

ENGINES MATTER.

STARTING EASE

After brand and power, starting ease is the feature most sought after when purchasing a push mower. Briggs & Stratton offers the widest selection of easy-starting options of any other small engine manufacturer.

STARTING PROMISE™

Briggs & Stratton Corporation warrants to the original owner that select 675 Series™ engines, 700 Series™ engines, 700 Series™ DOV® engines equipped with ReadyStart® and Professional Series™ engines* will always start on the first or second pull or we will fix it for free.

*SEE THE OPERATOR MANUAL OR VISIT BRIGGSANDSTRATTON.COM FOR COMPLETE WARRANTY DETAILS.

MADE IN THE USA.★

Over 3,000 Briggs & Stratton employees help keep America strong by building more than 9 million engines in U.S. factories annually. Our engines are on more equipment nationwide than any other engine.†

★ OF U.S. AND GLOBAL PARTS

† NEARLY 90% OF ALL BRIGGS & STRATTON ENGINES ARE BUILT IN AMERICA OF US AND GLOBAL PARTS.

PROFESSIONAL SERIES™

8.75 ft-lbs gross torque* (190cc)

7.75 ft-lbs gross torque* (175cc)

All the same features as the 675-700 Series™ plus:

- OHV design runs cooler and cleaner – delivering more power, longer engine life and improved fuel economy.
- Air management system includes dual-sealing commercial-grade air cleaner for less debris intake and longer life.
- Meets EPA and CARB Tier III exhaust emissions standards, our lowest emissions engine for push mowers and pressure washers.

675-700 SERIES™

6.75, 7.00 ft-lbs gross torque* (190cc)

Additional power for demanding applications.

All the same features as the 625 Series™ plus:

- ReadyStart® starting system with no prime, no choke, no worries. Just pull for power.

625 SERIES™

6.25 gross torque* (190cc)

Larger displacement for improved performance.

- Large diameter rewind starter requires less pull force during starting.
- Float-feed carburetor for consistent one-pull starts.
- Lo-Tone™ muffler for quieter operation.

500-550 SERIES™

5.00, 5.50 ft-lbs gross torque* (158cc)

All the same features as the 300-450 Series™ plus:

- Larger displacement for additional power and torque.

300-450 SERIES™

4.50 ft-lbs gross torque* (148cc)

Exceptional value and dependable power.

- Compact and lightweight making maneuvering push mowers easier.
- Prime 'N Pull™ E-Z starting system for quick easy starting.
- Aluminized muffler for corrosion protection.

* All power levels are stated gross torque per SAE J1940 as rated by Briggs & Stratton

LARGE VERTICAL ENGINES

When shopping for a new lawn tractor, the single most critical element in gasoline-powered equipment is the engine that produces the power to get the job done.

ENGINES MATTER.

V-TWIN TECHNOLOGY

Briggs & Stratton® 90° V-Twin engines feature a natural counter-balancing system that results in more power and less vibration for increased operator comfort and less wear and tear on your engine, your equipment, and you!

AVS® ANTI-VIBRATION

Anti-Vibration System (AVS®) engines feature a patented Linear Balancing System that eliminates side-to-side motion of traditional counter and rotating balance designs to provide a smooth ride and extend equipment life. This means up to an 80% reduction in engine vibration! AVS® is standard on single cylinder engines with gross HPs higher than 14.50.

MADE IN THE USA★

Over 3,000 Briggs & Stratton employees help keep America strong by building more than 9 million engines in U.S. factories annually. Our engines are on more equipment nationwide than any other engine.*

* OF U.S. AND GLOBAL PARTS

★ NEARLY 90% OF ALL BRIGGS & STRATTON ENGINES ARE BUILT IN AMERICA OF US AND GLOBAL PARTS.

PROFESSIONAL SERIES™

24.00, 26.00 gross HP*
(724cc)

Qualified to provide longer life for the most demanding consumer lawn tractors.

- Full pressure lubrication system provides cooler operation and longer life.
- Advanced debris management system with a dual seal, cartridge-style air filter provides maximum protection and extends engine life.
- Premium high capacity oil filter and fuel filter provides longer maintenance intervals.
- Chrome plated exhaust valves provide less valve wear.
- Superfinished crank pin bearing provides greater protection and longer life.

V-TWIN

INTEK™ WITH XRD SERIES

23.00, 24.00 gross HP*
(724cc)

22.00 gross HP*
(656cc)

20.00 gross HP*
(540cc)

18.50, 19.50 gross HP*
(500cc)

All the same features as the Powerbuilt™ plus:

- New for 2011: Advanced Debris Management System with cartridge-style air filter extends maintenance intervals and provides longer life.
- XRD includes numerous improved components to provide the engine with extra reliability and durability.
- Pressure lubrication system with spin-on oil filter for less wear and longer life.

V-TWIN

POWERBUILT™ SERIES

14.50, 15.50, 16.50, 17.50,
18.50 gross HP*
(500cc)

11.50, 12.50 gross HP*
(344cc)

- New for 2011: Advanced Debris Management System with cartridge-style air filter extends maintenance intervals and provides longer life.
- Overhead valve (OHV) design runs cooler and cleaner delivering more power, longer engine life, and improved fuel economy.
- Dura-Bore™ cast iron cylinder sleeve withstands wear and abuse while providing improved oil control.
- Splash lubrication system bathes all internal engine parts with oil.

* All power levels are stated gross horsepower per SAE J1940 as rated by Briggs & Stratton.

MAINTENANCE USING GENUINE PARTS

Consumers want assurance that they'll be able to find genuine replacement parts at their preferred store. To maintain your engine follow the hourly or calendar intervals, whichever occurs first. Service more often under dusty, heavy load operating conditions.

	Every 5 hours or daily	25 hours or every season	50 hours or every season	100 hours or every season	200 hours or every season
 Check oil level	✓				
 Change oil, also replace oil filter if equipped <small>*Change oil after first 5 hours, then after every 50 hours or every season</small>	*		✓		
 Replace foam air cleaner or optional foam pre-cleaner		✓			
 Replace paper air cleaner or optional foam pre-cleaner		✓ ¹			✓ ¹
 Replace spark plug				✓	
 Replace in-line fuel filter if equipped				✓	

¹ Professional Series™ engines have a premium, dual-deal filter that is good up to 200 hours or every season.

FUEL RECOMMENDATION

IMPORTANT! Fuel recommendation for Briggs & Stratton® 4-Cycle engines:

- Always use clean, fresh, unleaded gasoline
- Briggs & Stratton recommends fuel that is a minimum of 87 octane
- Fuel containing up to 10% ethanol is acceptable
- **NEVER** use fuel with MORE THAN 10% ethanol
- **NEVER** use E15 or E85 fuel.

We also recommend using Briggs & Stratton Fresh Start® Fuel Stabilizer, which keeps gasoline fresh for up to 24 months, promotes quick starting and cleans the fuel system.

Please refer to the operator's manual for additional recommendations and warranty information specific to your engine.

Gasoline begins to degrade in as few as 30 days...

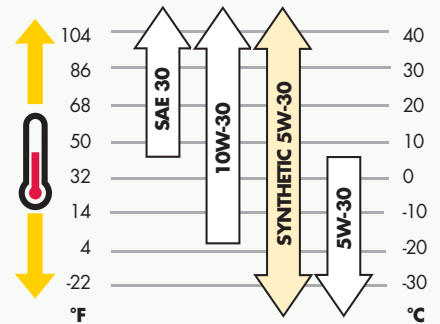

Debris clogging carburetor...

OIL RECOMMENDATION

To optimize engine performance, use **Warranty Certified Briggs & Stratton® Small Engine Oil**. Synthetic 5W-30 provides the best protection at all temperatures as well as improved starting with less oil consumption. See below for more oil information.

SAE 30: 40°F and higher (5°C and higher) is good for all purpose use above 40°F, use below 40°F will cause hard starting.

10W-30: 0°F to 100°F (-18°C to 38°C) is better for varying temperature conditions. This grade of oil improves cold weather starting, but may increase oil consumption at 80°F (27°C) or higher. Check oil level frequently at higher temperatures.

Synthetic 5W-30: -20°F to 120°F (-30°C to 48°C) provides the best protection at all temperatures as well as improved starting with less oil consumption.

5W-30: 40°F and below (5°C and below) is recommended for winter use, and works best in cold conditions.

Please refer to your engine's operator manual for specific engine maintenance or for more information, call (800) 274-4485 or visit BRIGGSandSTRATTON.COM.

America's Number-One Selling Lawn Mower Brand!

• 14" x 42", quick
attach, base required

1 platform, 4 easy attachments, and a compact storage design – SmartLINK™ starts with a master platform (base) in which a plug aerator, spike aerator, tine dethatcher, and lawn roller can be quickly swapped in and out depending on the task at hand. This system allows convenient storage design and uses considerably less space than having the tools as separate attachments. The SmartLINK™ system by Agri-Fab® is truly changing the way the world changes attachments.

ACE

**POLY WHEELBARROW
RP6ACE25**

Ace no. 7265804

- 6 cubic feet
- Poly tub, wood handles

Agri-Fab
Rough Tools - Season After Season

**SPIKE AERATOR
45-03654**

Ace no. 7174865

- Walk-behind
- 16" wide, 5 spikes, 2.5" depth

Cultivators/Tillers

CULTIVATOR 21A-121R900

Ace no. 7101496

- 31cc, 2-cycle engine
- Adj. 6" to 10.25" tilling width
- 8" diam. heat treated tine diameter
- Adjustable to 5" tilling depth
- 5" wheels
- Folding handles for easy storage
- Centrifugal clutch
- Sealed heavy duty gearbox
- 2 year limited warranty

CULTIVATOR 7250-00-02

Ace no. 7215643

- 540 watt electric motor
- 9" tilling width
- 9" tine diameter
- 10" tilling depth
- Optional wheels
- Fold-down handle
- Electric
- 5 year consumer warranty, includes engine warranty

CULTIVATOR 7225-00-02

Ace no. 7165525

- 2-cycle commercial engine
- 9" tilling width
- 9" tine diameter
- 10" tilling depth
- Optional wheels
- Fold-down handle
- Tines are reversible
- 5 year consumer warranty, includes engine warranty

CULTIVATOR 7262-00-02

Ace no. 7265747

- 25cc, 4-cycle commercial Honda engine
- 9" tilling width
- 9" tine diameter
- 10" tilling depth
- Fold down handle
- Tines are reversible
- 5 year consumer warranty, includes engine warranty

REAR-TINE TILLER WITH COUNTER-ROTATION BRONCO 21D-64M1066

Ace no. 7197114

Ace no. CA 7122765

- 208cc Troy-Bilt OHV engine
- 14" tilling width
- 10" hi-quality steel Bolo tines
- Up to 6" tilling depth
- 10" AG tires
- One hand operation
- Cast-iron & bronze gear-driven transmission
- Limited lifetime warranty

REAR-TINE TILLER WITH COUNTER-ROTATION 21AA40M1000

Ace no. 7197098

Ace no. CA N/A

- 208cc MTD OHV engine
- 18" tilling width
- 12" diam. heat treated, self-sharpening tines
- Up to 6" tilling depth
- Lg. 13" x 4.5" AG tires
- Adj. handle with mounted controls
- Steel frame & steel serrated trailing shield
- 2 year limited warranty

REAR-TINE TILLER WITH COUNTER-ROTATION SUPER BRONCO 21D-65M1066

Ace no. 7197130

Ace no. CA 7103203

- 208cc Troy-Bilt OHV engine
- 14" tilling width
- 10" diam. hi-quality steel Bolo tines
- Up to 6" tilling depth
- 13" x 5" AG tires
- One hand operation
- Cast-iron & bronze gear-driven transmission
- Limited lifetime warranty

REAR-TINE TILLER WITH STANDARD-ROTATION PONY 21A-662G766

Ace no. 7197155

Ace no. CA N/A

- 250cc Briggs OHV 1150 Series engine
- 16" tilling width
- 12" diam. hi-quality steel Bolo tines
- Up to 8" tilling depth
- 13" AG tires
- One hand operation
- Cast-iron & bronze gear-driven transmission
- Bumper incl.
- Limited lifetime warranty

MAXIM
FRONT-TINE TILLER
MS-50B

Ace no. 72936

- 205cc Briggs OHV engine
- Adjustable 14" to 26" tilling width
- 13" diam. heat treated, steel, self-sharpening tines
- Up to 7" tilling depth
- 10" x 1.75" steel wheels
- 1", 14-gauge reinforced handle
- Multi attachment accessories available
- 2 year limited warranty

YARD MACHINES
FRONT-TINE TILLER WITH
FORWARD ROTATION
21A-240P000

Ace no. 7197072

Ace no. CA 7198732

- 158cc Briggs 500 Series engine
- Adjustable 13" to 24" tilling width
- 12" tine diameter
- Up to 6" tilling depth
- 5" x 1.75" wheels
- Loop and bail adjustable handle
- 2 year limited warranty

Husqvarna
REAR-TINE TILLER WITH
COUNTER-ROTATION
900DRT

Ace no. 7227945

Ace no. CA N/A

- 208cc LCT OHV engine
- 17" tilling width
- 12" diam. heat treated tines
- Dual rotating tines
- Up to 7" tilling depth
- 13" AG lug wheels
- Adj. handle mounted controls
- Forward and reverse transmission
- 2 year limited warranty

Standby Generators

- Automatic, hands-free backup power supply for home or business
- Kicks in within ten seconds of determining power loss
- True Power™ technology provides clean, smooth operation of sensitive electronics and appliances
- Quiet-Test™ mode for a weekly self-test that's quieter than other brands
- Simple field conversion from LP to natural gas
- 17kW offers optional aluminum enclosure and includes external GFCI outlet
- System status LED light and main circuit breaker

20kW – One of the most powerful air-cooled generators on the market today, this unit provides whole house power protection for many homes. Pre-packaged with a 200 Amp service entrance rated transfer switch for whole house coverage.

In addition to the features listed above, this unit includes:

- Aluminum enclosure, recommended for coastal climates
- Base fascia for added protection against debris and rodents
- External GFCI outlet

GENERAC

STANDBY GENERATOR 5872

Ace no. Direct

- 992cc Generac OHVI engine
- 14,000 watts (LPG)/13,000 watts (NG) rate power
- Air-cooled/14 circuits
- 120/240 voltage, 58.3 LPG/54.2 NG amps

Electric/Gas Pressure Washers

ELECTRIC PRESSURE WASHER AR112

Ace no. 1408269

- 1.2 HP
- 1600 PSI maximum
- 1.58 gallons per minute
- Auto start/stop feature
- AR Axial plunger pump
- Adjustable spray 0 to 45 degrees
- Detergent spray bottle attachment
- 1 year warranty

ELECTRIC PRESSURE WASHER AR240

Ace no. 1408418

- 1.3 HP
- 1750 PSI maximum
- 1.58 gallons per minute
- Auto start/stop feature
- AR Axial plunger pump
- Adjustable spray 0 to 45 degrees
- Turbo nozzle extension
- 5.5" wheels
- Polypropylene wand
- Detergent spray bottle attachment
- 1 year warranty

ELECTRIC PRESSURE WASHER AR383

Ace no. 1408426

- 1.5 HP
- 1900 PSI maximum
- 1.51 gallons per minute
- Auto start/stop feature
- AR Axial plunger pump
- Adjustable spray 0 to 45 degrees
- Turbo nozzle extension
- Hose reel storage
- 5.5" wheels
- Polypropylene wand
- Detergent spray bottle attachment
- 1 year warranty

GAS PRESSURE WASHER CV-2400-4MBC

Ace no. 1023258

- 190cc Briggs Quantum
- 2400 PSI
- 2.0 gallons per minute
- AR triplex pump
- Three quick connect tips (15 degrees, 25 degrees and detergent)
- 12" semi pneumatic wheels
- 1/4" steel wand, 30' hose
- 1 year warranty

GAS PRESSURE WASHER CV-2600-OMHC

Ace no. 1409564

- 160cc Honda GCV
- 2600 PSI
- 2.2 gallons per minute
- AR triplex pump
- Three quick connect tips (15 degrees, 25 degrees and detergent)
- 12" semi pneumatic wheels
- 3/8" steel wand, 30' hose
- 1 year warranty

GAS PRESSURE WASHER CV-3000-OMHC

Ace no. 1409572

- 190cc Honda GCV
- 3000 PSI
- 2.4 gallons per minute
- AR triplex pump
- Three quick connect tips (15 degrees, 25 degrees and detergent)
- 12" semi pneumatic wheels
- 3/8" steel wand, 30' hose
- 1 year warranty

GAS PRESSURE WASHER CM-3000-OMLB

Ace no. 1409580

- 208cc MiTM OHV
- 3000 PSI
- 2.4 gallons per minute
- AR crankshaft pump
- Three quick connect spray tips (15 degrees, 25 degrees, and detergent)
- 10" pneumatic wheels
- 3/8" steel wand, 25' steel braided hose
- 1 year warranty

GAS PRESSURE WASHER WP-3000-4MHB

Ace no. 1409606

- 196cc Honda GX OHV
- 3000 PSI
- 2.4 gallons per minute
- AR crankshaft pump
- Three quick connect spray tips (15 degrees, 25 degrees, and detergent)
- 10" pneumatic wheels
- 3/8" steel wand, 25' steel braided hose
- 1 year warranty
