

2013 SUPPLIER LINECARD

Interconnect, passive and electromechanical components.

Our Suppliers

Pridmore Corporation is an ECIA authorized distributor for all of the manufacturers we supply. This means that all of the products we sell are purchased directly from the manufacturer, and are never second-hand sourced or "B" stock.

Capacitors

	Aluminum Electrolytic	Aluminum Polymer	Automotive Grade	Ceramic / MLCC	Custom Solutions	DC Link Capacitors	EDLC / Supercaps	EDLC Modules	EMI/RFI Suppression	Medical Grade / COTS	Military / Aero Grade	Motor Run Capacitors	Poly & Paper Film	Power Factor Correction	Mica Capacitors	Snubber Capacitors	Tantalum, Polymer	Tantalum, Solid

Pridmore Corporation is an ECIA Authorized Distributor.

Product Legend

- ◆ RoHS Compliant Only
- Both RoHS and Non-RoHS Available
- Non-RoHS Compliant Only

Discover the Pridmore advantage...

- In-house stocking facilities.
- Fast and on-time delivery.
- First class customer service.
- EDI and managed inventory services.
- AS9120A and ISO 9001 certified.
- Next day delivery to FL addresses.
- World class suppliers.

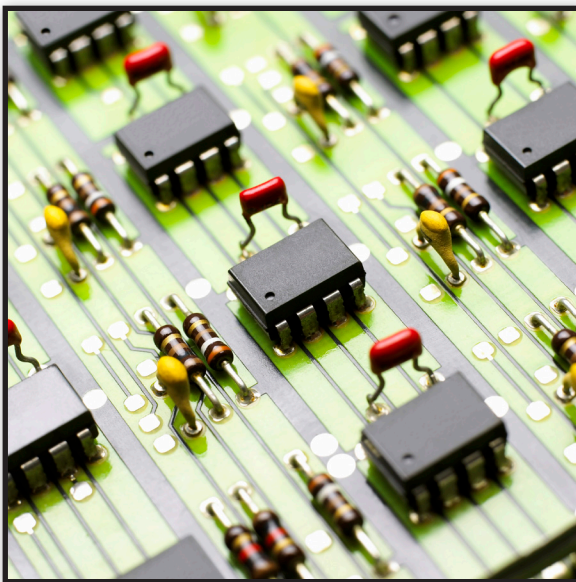

Product Legend

- ◆ RoHS Compliant Only
- Both RoHS and Non-RoHS Available
- Non-RoHS Compliant Only

Terminal Blocks

Military Products

Pridmore Corporation offers a broad range of **MIL** qualified passive components from some of the industry's leading manufacturers. Our location in the state of Florida has offered us a great deal of experience in dealing with the handling and management of military contracts and requirements.

Along with our experience in the military market we have also attained some of the industry's most stringent quality management requirements, both **ISO 9001** and **AS9120A**. In addition to our QMS certifications we are also a **woman-owned small business**, so we can help your business meet its minority owned business requirements.

One of the biggest issues facing military purchasing managers today is the ever growing problem of counterfeit products. **Pridmore Corporation** is a long standing member of **ECIA**, this ensures that any product we sell is purchased directly from the manufacturer through a verified distributor agreement, effectively removing any threat of purchasing counterfeit products.

Military Suppliers

Gowanda manufactures a broad range of MIL qualified magnetic inductors, right here in the USA. Gowanda offers RF, power and specialty magnetics with full military qualifications for any and all applications.

Ohmite has been in the resistor business since 1925 making some of the most reliable and most used resistive products in the military today, offering MIL qual wirewound resistors and highly reliable rheostats.

KEMET offers a broad range of MIL qualified components. Including tantalum capacitors, ceramic capacitors, and a newly qualified polymer based tantalum electrode designed to replace the aged wet tantalum. KEMET also offers custom stacked ceramic and tantalum SMT capacitors for military markets.

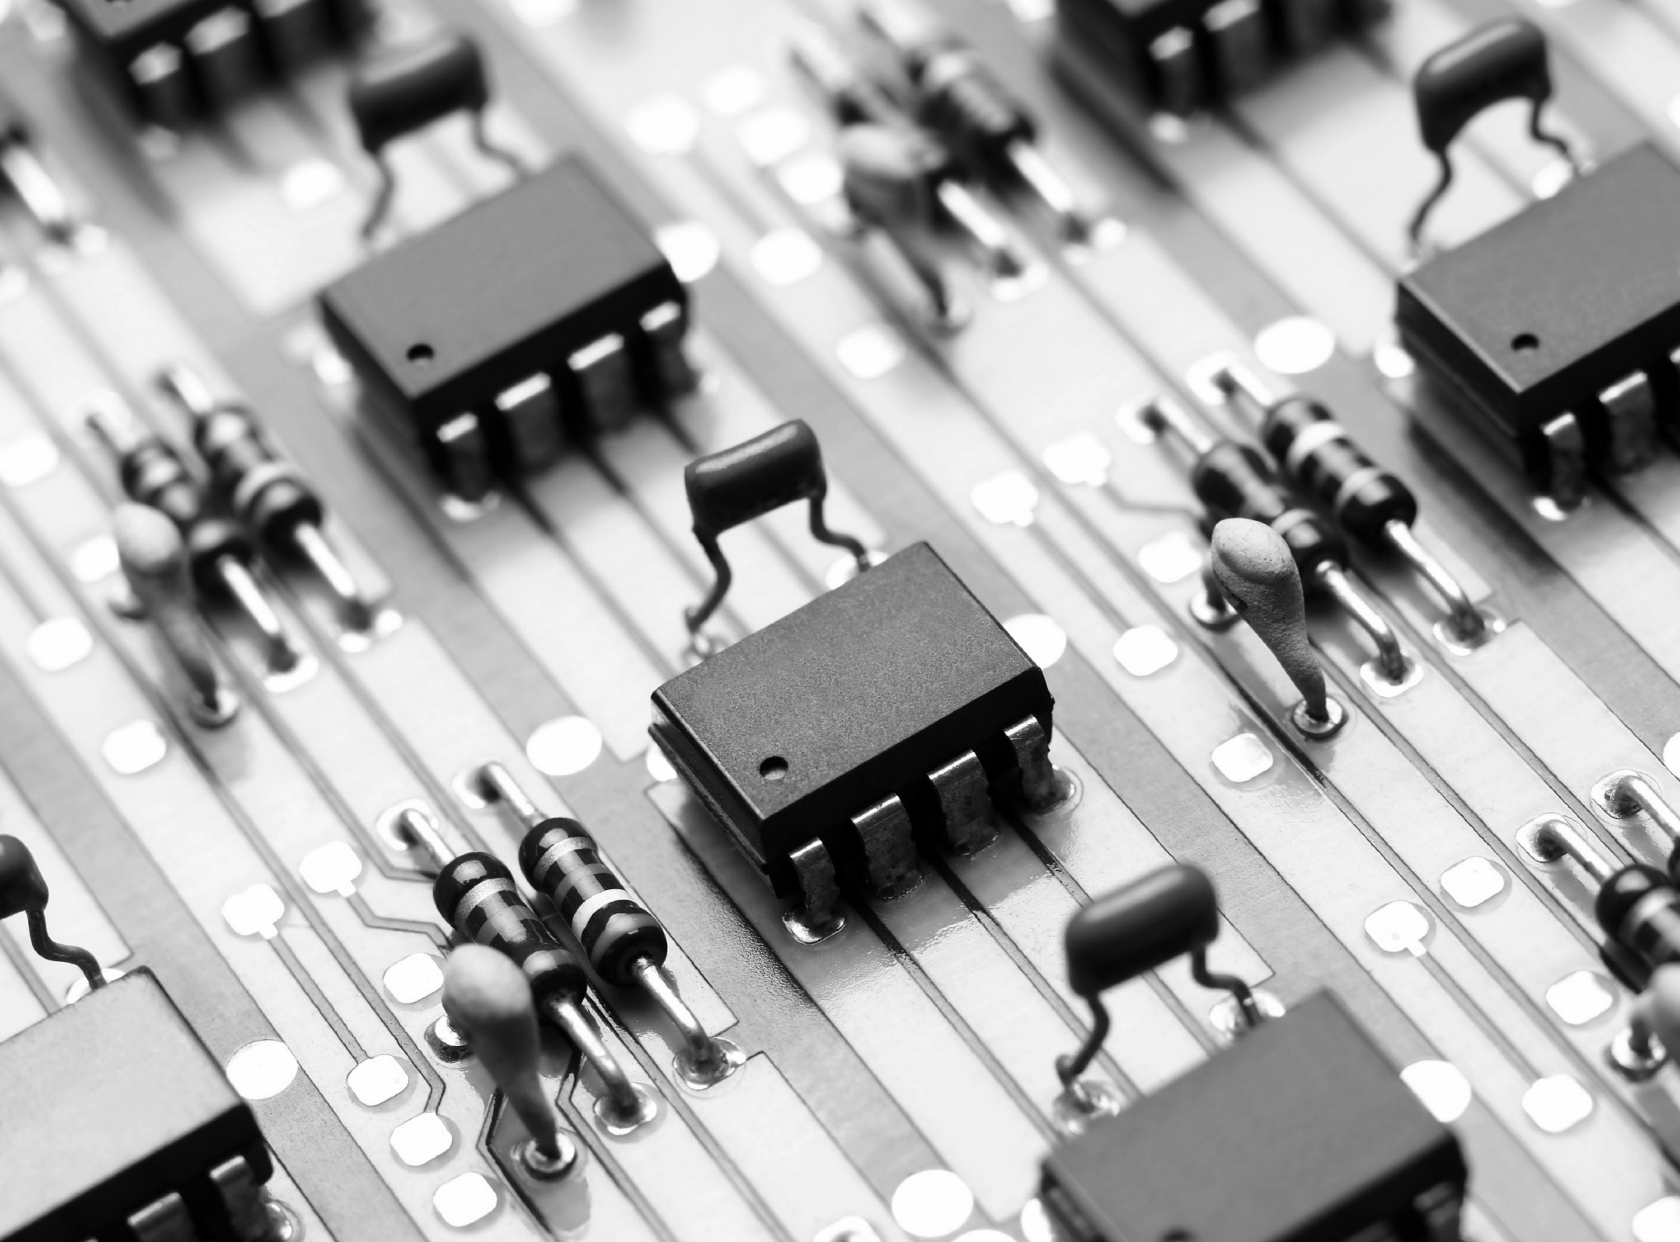

RCD manufactures a full range of ruggedized resistors and inductors suitable for used in military applications. RCD also offers a full line of MIL-C-15305 inductors for military use.

Novacap offers a full line of multilayer ceramic capacitors that meet many demanding military applications. Novacap offers full testing along with customized designs for very specific and ruggedized applications.

Wall Industries manufactures ruggedized and economical DC/DC converters, AC/DC power supplies and a wide range of military power supplies.

Pridmore Corporation has been dedicated to quality and customer satisfaction since its inception in 1965, so it is only natural that we show this dedication to quality by obtaining certification in the industry's most stringent quality management systems. We are proud to announce that as of 2013 we are ISO 9001:2008 and AS9120A certified, these certifications ensure that, no matter what, we are dedicated to quality and ultimate customer satisfaction.

Aside from our recent QMS certifications, we are still a long standing, and valued member of ECIA. ECIA has been dedicated to reducing the threat of counterfeit components in the electronics industry through the advocacy of utilizing factory authorized distributors. Pridmore Corporation only markets and sells products for manufacturers that we have an authorized distribution agreement with. This ensures that the products purchased from us are always going to be first quality, factory purchased items. In short, **you will never have to worry about counterfeit products when purchasing from us.**
