Legal Pitching Positions

The windup is one of two legal pitching positions. For the windup, the pitcher's non-pivot foot shall be in any position on or behind a line extending through the front edge of the pitcher's plate.

POINT OF EMPHASIS

REFEREE

Legal Pitching Positions

The set is the other legal pitching position. For the set position, a pitcher's entire non-pivot foot must be in front of a line extending through the front edge of the pitcher's plate and the entire pivot foot must be in contact with or in front of the pitching plate.

POINT OF EMPHASIS

REFEREE

Illegal Pitching Position

A number of pitchers are starting a pitch from this hybrid position. This position is illegal since it does not meet the criteria of either the windup or set position.

POINT OF EMPHASIS

REFEREE

Illegal Pitching Motion

Going to the mouth while in contact with the pitcher's plate is an illegal pitch with no one on base or a balk with runners on base, not because the pitcher goes to his mouth, but because the action simulates the start of the pitching motion.

POINT OF EMPHASIS

REFEREE

Pace of Play

A pitcher has 20 seconds to pitch or make or attempt a play (including a legal feint) after receiving the ball. By enforcing this and other pace of play rules, the game will be played at the proper speed without either team gaining an unfair advantage.

REFEREE

Pace of Play

A returning pitcher has 60 seconds to complete his five warmup throws (timed from the third out of the previous inning). Teams should hustle on and off the field once the third out is made.

Pace of Play

The batter must remain in the box during his time at bat unless one of the eight exceptions in Rule 7-3-1 is met. Keeping the batter in the box dramatically increases the game's pace of play.

Pace of Game Play

- The committee identified these areas in need of improvements that detract from what otherwise is an exciting and enjoyable game:
 - Handling offensive and defensive charged conferences in a timely manner.
 - Speeding up the time between innings and during pitching changes.
 - Umpires diligently counting the number of warm-up pitches.
 - The batter's box rule (the batter must generally keep one foot in the box during an at-bat). Unless it meets one of the eight exceptions:

Pace of Game Play (Batter's box rule exceptions)

- The batter swings at the pitch.
- The batter is forced out of the box by the pitch.
- The batter attempts a "drag bunt."
- The pitcher or catcher feints or attempts a play at any base.
- The pitcher leaves the dirt area of the pitching mound or takes a position more than five feet from the pitcher's plate after receiving the ball.
- A member of either team requests and is granted "Time."
- The catcher leaves the catcher's box to adjust his equipment or give defensive signals.
- The catcher does not catch the pitched ball.

Compliant Bats

The head coach of each team is required to verify to the umpire-in-chief that his team's equipment is properly equipped in accordance with NFHS rules, prior to the start of each game.

POINT OF EMPHASIS

REFEREE

Compliant Bats

There are several ways bats can be altered illegally, including through the use of bat warming devices. Even though a bat meets the rules, once it has been altered, it is an illegal bat.

POINT OF EMPHASIS

REFEREE

Compliant Bats

Removing the end cap off a bat makes it an illegal altered bat, with or without doing anything to the inside of the bat, such as inserting tennis balls or shaving the inside wall of the bat.

Risk Minimization

Loose equipment on the field is a safety issue. Umpires and coaches must be diligent to ensure that there is no loose equipment in live-ball territory during a game.

Risk Minimization

Umpires must be aware when inclement weather is in the area. Play must be stopped at the first sound of thunder or the first sight of lightning for a minimum of 30 minutes.

Risk Minimization

When the bullpen is on the playing field, teams will use a player to “protect” the players warming up from batted balls. The protector is required to have a glove. A NOCSAE-approved helmet is recommended, but not required.

Good Sporting Behavior

Each game is an opportunity for coaches, umpires and players to model respectful behavior. The positive values that are learned will serve players long after their baseball experience has concluded.

Good Sporting Behavior

Coaches and Umpires must work together.

Each contest is another opportunity for coaches and umpires to teach not only baseball skills, but also model respectful behavior as well as professional relationships.

Game situations typically provide a coach the opportunity to identify a “teachable moment” to reinforce good sporting behavior.
