ROSEN

Welcome to Rosen and our 2015-16 Fall/Winter catalog, featuring a host of new products and product enhancements all with a Matching Factory Warranty. Since our 1997 introduction of the world's first Overhead Rear Seat Entertainment System, Rosen has furthered its reputation as a forward-thinking innovator of advanced automotive electronics. Today we continue that heritage with advanced smartphone connectivity and streaming capabilities. This commitment to innovation, as an AAMP Global Brand, is a key area we will continue to invest in for years to come. We thank you for your continued support. - TEAM ROSEN

INTERFACE SOLUTIONS

The Rosen FIT line of INTERFACE SOLUTIONS provide for seamless navigation and back-up camera integration into

OEM LCD display audio systems. In our latest GM Series models (GMSERIES4 and GMSERIES5) we added an HDMI input for Smartphones to allow content to be displayed on the screen. FIT products are designed as Plug & Play LCD replacements, in-line component modules or a combination of in-line module plus a circuit board component. FIT products are User-Friendly, easy-to-install and engineered to provide years of trouble-free performance.

Navigation
