An uncompromised drive

Every angle of Avalon evokes elegance

The 2015 Toyota Avalon stands out no matter where you go. Its sculpted lines and curves create a distinguished profile, while a lightweight body and athletic stance give it a performance edge. Avalon was developed by a U.S. led design and engineering team, and is assembled in Kentucky as the purest expression of everything we love about driving. It all results in one thing: a feeling of excitement with every drive. Let's go places.

Limited shown in Magnetic Gray Metallic.

The science of luxury

A place where art and technology converge

XLE Touring interior shown in Almond. 2014 model shown.

Joy. Excitement. Desire. One touch can communicate so many things. This was the idea behind the technology that surrounds you in the 2015 Avalon. We created sleek Intelligent Touch controls that are simple to adjust, an available Entune® App Suite¹ that gives you access to more information than ever before, and a standard backup camera² that helps guide you into, or out of, the tight spots. Avalon has the technology and luxury to ensure you get the most out of every drive.

entune®
App Suite

With a compatible smartphone, Avalon's available Entune® App Suite and multimedia system help keep you informed and give you easy access to your information so you can better focus on driving. Stream music with Pandora,^{®3} locate restaurants with Bing™ and get movie tickets with MovieTickets.com. So much went into this car so you can get even more out of it.

A tailored environment

Beauty is in the details

Imagine an environment that feels as if it were created just for you. A space with controls that invite interaction, seats that cradle and lights that welcome. Technology would simplify, not complicate, and also adapt to your needs. You would be surrounded by beautifully stitched leather that feels handcrafted and luxurious to the touch. We put all of this in the Avalon's spacious interior and designed it to fit together seamlessly.

Limited interior shown in Black. 2013 model shown.

Limited interior shown in Black.

Second row Luxury should not be for the driver only. Avalon's spacious rear seats allow passengers in the second row to feel like they're in first class. With standard three-zone climate control and heated rear seats on Avalon Limited, riding in an Avalon is just as rewarding as driving one.

Premium leather Avalon Limited continues a heritage of ergonomic excellence with standard power-adjustable, premium perforated leather-trimmed heated and ventilated front seats, and leather-trimmed steering wheel and shift lever—like they're tailored to the driver.

eBin™ Technology simplified. Avalon Limited and Hybrid Limited offer the world's first in-console wireless charging^{*, 1} surface integrated into the eBin.™ Just place your Qi compatible device on the nonslip surface and it charges.

*Available with Technology Package.

Limited shown in Attitude Black Metallic.

Passion that performs

A bold way of looking at performance

The Avalon redefines the driving experience – no detail was overlooked. Every panel was sculpted for the open road. A drag coefficient of just .28 helps to improve efficiency and performance while a rigid chassis aids in better handling and a crisper response. Avalon has combined art and engineering to make sure your every moment behind the wheel is better than the last. This is a commitment to performance, and we broke every rule to bring you the purest expression of driving.

Independent suspension with Sport Mode Avalon has fully independent suspension that adapts to the road to help give you more control. Sport Mode increases throttle response and quickens the electric power steering for livelier handling when desired.

Aerodynamic efficiency Racing technology. Underneath the chassis, specially shaped diffuser panels reduce turbulence, resulting in enhanced control and reduced wind noise.

XLE Premium shown in Blizzard Pearl.

Performance that inspires

The art of driving has returned

It all started with a desire for a more connected driving experience. We designed available paddle shifters that allow a driver to change gears with the touch of a finger. We built an engine as powerful as it is efficient, with a 3.5-liter V6 that produces 268 horsepower and offers an EPA-estimated 31 mpg highway¹. Avalon is an absolute breakthrough in high-end driving and a bold direction for the road ahead.

A true driver's car Inspired by racing, available steering wheel-mounted paddle shifters provide for a more hands-on driving experience by letting you control when you shift and matching each rev for seamless downshifts. Combined with a 6-speed Electronically Controlled automatic Transmission with intelligence (ECT-i) that learns your driving style, Avalon makes sure that driving a Toyota will never be the same again.

1. See footnote 33 in Disclosures section.

XLE Touring shown in Ooh La La Rouge Mica.

A radical drive

Avalon Hybrid

Avalon Hybrid was designed to offer an uncompromising level of performance. A driving experience that was more than refined — it was revolutionary. We used our proven Hybrid Synergy Drive® system that delivers a spirited ride while at the same time offering up to an EPA-estimated 40 combined mpg¹ and a Super Ultra Low Emission Vehicle (SULEV)² emission rating. The world is accelerating, and we're leading the charge.

Multi-Information Display (MID)

Avalon's MID shows you everything you need to know. See how much fuel you have left, check your current mpg and, on Avalon Limited, get turn-by-turn directions³ to your favorite spot – all on one display, to help you keep your eyes on the road.

40/39
est. city est. hwy

Efficiency that excites. Our Hybrid Synergy Drive® system and Electronically controlled Continuously Variable Transmission (ECVT) combine for fuel economy efficiency and the performance you love.

Hybrid Limited shown in Parisian Night Pearl.

Safety

Inspired by the unexpected

It would be great to drive in a world with no surprises, a world where everyone paid attention while they were driving. That world does not exist. The moments when things don't go as planned inspired the six advanced features in the Star Safety System.™ **STAR**™ SAFETY SYSTEM An available Blind Spot Monitor (BSM)¹ can signal the unseen, and a backup camera² helps you with the unknown. Add ten standard airbags³ and you have a system working together with one purpose in mind: a more confident drive.

Ten airbags

Avalon comes standard with ten airbags, including driver and front passenger Advanced Airbag System (A, B), driver and front passenger seat-mounted side airbags (C, D), driver and front passenger knee airbags (E, F), rear seat-mounted side airbags (G, H) and front and rear side curtain airbags (I, J).

Blind Spot Monitor (BSM) with Rear Cross-Traffic Alert (RCTA)⁴

The available Blind Spot Monitor (BSM) with Rear Cross-Traffic Alert (RCTA) uses radar technology to help you identify vehicles that may not be visible when changing lanes or when backing out of the driveway. When a vehicle is detected, the system illuminates a warning indicator on the appropriate sideview mirror, and RCTA also makes an audible warning so you know to proceed with care.

Photo not intended to replicate actual inflated airbags.

TOYOTA FINANCIAL SERVICES

Toyota Rewards VisaSM

Toyota helps you get more out of every dollar you spend. By rewarding you for every purchase you make, the Toyota Rewards VisaSM adds even more value to doing the things you love.

Turn everything you buy into points to redeem toward parts, accessories or an eligible vehicle purchase or lease at your Toyota dealer. Earn 5 points for every \$1 spent at participating Toyota dealers and 1 point for every \$1 spent everywhere else Visa is accepted.*

Visit www.toyotarewardsvisa.com for complete details.

Toyota Financial Services (TFS)[†] is a leading provider of automotive financial services, offering an extensive line of financing plans along with a variety of vehicle and payment protection products to Toyota customers and dealers in the U.S. For more information on TFS products and services, visit www.toyotafinancial.com

*On approved credit. You must have a valid permanent home address in the 50 United States or the District of Columbia. Terms, conditions and restrictions apply and are fully described in the Toyota Rewards Visa Cardmember Agreement and the Toyota Rewards Program Terms and Conditions received with your card. Points earned are based on net purchases. Points-earning maximums apply and points will expire as described in the Rewards Terms and Conditions. Redemption only available at participating Toyota dealerships in the continental U.S. and Alaska. Points cannot be redeemed for cash. Please contact your participating Toyota dealer for information regarding restrictions your dealer may impose on the use of credit cards related to vehicle purchases or leases. The creditor and issuer of the Toyota Rewards Visa is Toyota Financial Savings Bank. Toyota Financial Services is a service mark used by Toyota Financial Savings Bank.

[†]Toyota Financial Services is a service mark for Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc.

WARRANTIES

Every Toyota Car, Truck and SUV is built to exceptional standards. And that's not idle boasting. We back it up with these Limited Warranty Coverages: **Basic:** 36 months/36,000 miles (all components other than normal wear and maintenance items). **Hybrid-Related Component Coverage:** Hybrid-related components, including the HV battery, battery control module, hybrid control module and inverter with converter, are covered for 8 years/100,000 miles. The HV battery may have longer coverage under emissions warranty. Refer to applicable *Warranty and Maintenance Guide* for details. **Powertrain:** 60 months/60,000 miles (engine, transmission/transaxle, drive system, seatbelts and airbags). **Rust-Through:** 60 months/unlimited miles (corrosion perforation of sheet metal). **Emissions:** Coverages vary under Federal and California regulations. Refer to applicable *Warranty and Maintenance Guide* for details. **Accessories:** For Genuine Toyota Accessories purchased at the time of the new vehicle purchase, the Toyota Accessory Warranty coverage is in effect for 36 months/36,000 miles from the vehicle's in-service date, which is the same coverage as the Toyota New Vehicle Limited Warranty. For Genuine Toyota Accessories purchased after the new vehicle purchase the coverage is 12 months, regardless of mileage, from the date the accessory was installed on the vehicle, or the remainder of any applicable new vehicle warranty, whichever provides greater coverage, with the exception of car covers. Car covers are warranted for 12 months from the date of purchase and do not assume any coverage under the Toyota New Vehicle Limited Warranty. You may be eligible for transportation assistance if it's necessary that your vehicle be kept overnight for repairs covered under warranty. Please see your authorized Toyota dealership for further details. For complete details about Toyota's warranties, please visit www.toyota.com, refer to the applicable *Warranty and Maintenance Guide* or see your Toyota dealer.

Some vehicles are shown with available equipment. Seatbelts should be worn at all times. For details on vehicle specifications, standard features and available equipment in your area, contact your Toyota dealer. A vehicle with particular equipment may not be available at the dealership. Ask your Toyota dealer to help locate a specifically equipped vehicle. All information presented herein is based on data available at the time of printing, is subject to change without notice and pertains specifically to mainland U.S.A. vehicles only. Prototypes shown. Actual production vehicles may vary.

CARS BUILT FOR THE WAY YOU LIVE

At Toyota, we build cars for how you live. From building advanced safety features designed to help prevent crashes to driving cross-country to understand how we can make your driving experience better, our work starts with understanding your needs. Building cars for how you live also means thinking about tomorrow—from fuel efficiency and environmental innovations, to things beyond cars, like a bicycle that you can control with your mind. And because what we learn building cars can help improve lives in other places, we do things like help communities rebuild their homes quickly after a disaster and work with soup kitchens to help them serve more people faster. Toyota. Built for how you live. Together we are going places.

DISCLOSURES

1. Toyota strives to build vehicles to match customer interest and thus they typically are built with popular options and option packages. Not all options/packages are available separately and some may not be available in all regions of the country. If you would prefer a vehicle with no or different options, contact your dealer to check for current availability or the possibility of placing a special order. 2. The automatic high beam system operates at speeds above 21 mph. Situations such as a dirty windshield, variable weather, lighting conditions and hilly terrain will limit effectiveness, requiring the driver to manually turn off. See *Owner's Manual* for details. 3. Entune™ is a trademark of Toyota Motor Corporation. Always drive safely, obey traffic laws and focus on the road while driving. Services vary by phone/carrier. Functionality depends on many factors. Services subject to change. For enrollment and more details, see toyota.com/entune. 4. May not be compatible with all mobile phones, MP3/WMA players and like models. 5. iPod® and iPhone® are registered trademarks of Apple Inc. All rights reserved. 6. Advanced voice recognition capabilities vary by head unit. 7. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details. 8. Concentrating on the road should always be your first priority while driving. Do not use the hands-free phone system if it will distract you. The *Bluetooth*® word mark and logos are registered trademarks owned by *Bluetooth SIG, Inc.* and any use of such marks by Toyota is under license. A compatible *Bluetooth*®-enabled phone must first be paired. Phone performance depends on software, coverage and carrier. 9. SiriusXM services require a subscription after 3-month trial period. **Subscriptions governed by SiriusXM Customer Agreement available at www.siriusxm.com. If you decide to continue your SiriusXM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates until you call 1-866-635-2349 to cancel.** Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 10. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. HD Radio™ Technology manufactured under license from iBiquity Digital Corporation U.S. and Foreign Patents. HD Radio™ and the HD, HD Radio, and "Arc" logos are proprietary trademarks of iBiquity Digital Corp. 11. The backup camera does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. Cold weather will limit effectiveness and view may become cloudy. 12. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Availability and accuracy of the information provided by the navigation system is dependent upon many factors. Use common sense when relying on information provided. Services and programming subject to change. Services not available in every city or roadway; updates may be available at an additional cost from your dealer. See your *Navigation System Owner's Manual* for details. 13. Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. Apps/services vary by phone/carrier; functionality depends on many factors. Select apps use large amounts of data; you are responsible for charges. Apps and services subject to change. See toyota.com/entune for details. 14. PANDORA®, the PANDORA® logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc., used with permission. 15. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your *Owner's Manual* for important instructions and cautions. 16. EV Mode works under certain conditions at low speeds for up to a mile. Please see your Toyota vehicle *Owner's Manual* for further details. 17. The Smart Key System may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 18. HomeLink® is a registered trademark of Johnson Controls, Inc. 19. To avoid potential interference with pedal operation, do not install a floor mat on top of an existing floor mat. Each mat must be secured with either quarter-turn fasteners or retention hooks (clips). This floor mat was designed specifically for use in this model year vehicle and SHOULD NOT be used in any other vehicle. 20. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. They are not collision-avoidance systems and are not substitutes for safe and attentive driving. System effectiveness depends on many factors such as speed, driver input and road conditions. See your *Owner's Manual* for further information. 21. Qi wireless charging may not be compatible with all mobile phones, MP3/WMA players and like models. 22. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. 23. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 24. Smart Stop Technology® operates only in the event of certain simultaneous brake and accelerator pedal applications. When engaged, the system will reduce power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology® is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your *Owner's Manual* for further details. 25. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your *Owner's Manual* for further information/warnings. 26. Whiplash-Injury-Lessening front seats can help reduce the severity of whiplash injury in certain rear-end collisions. 27. The Toyota Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. See your *Owner's Manual* for details. 28. Contact with the Safety Connect® response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency service support. Enrollment and Telematics Subscription Service Agreement required. A variety of subscription terms is available; charges vary by subscription term selected. 29. Do not rely exclusively on the Blind Spot Monitor. Always look over your shoulder and use your turn signal. There are several limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor, please see the *Owner's Manual*. 30. Do not rely exclusively on the Rear Cross-Traffic Alert system. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. To learn more, see your *Owner's Manual*. 31. The engine immobilizer is a state-of-the-art anti-theft system. When you insert your key into the ignition switch or bring a Smart Key fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key/fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key/fob, it can be costly to replace. If you lose a key or fob, your Toyota dealer can help, or you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 32. Meets Tier 2/Bin 3 Federal emissions standard. 33. 2015 EPA-estimated mileage. Actual mileage will vary. 34. The Toyota Genuine Accessory Warranty will only apply when the installation is performed by a trained Toyota-approved installer. Please see dealer for details. 35. Cargo and load capacity limited by weight and distribution.
