12. PLANNING MEETING FOR THE MG 2015 MEET: - Mark your calendars!!

Jim Werner posting: - I encourage the local club members to come out!

In a message, MGOHIO@AOL.COM writes the North American MGB Register's Annual General Meeting (AGM) will be held at the Crowne Plaza the weekend of October 23-24. 2015

The normally schedule is as follows: -

- Friday night (usually about 6:00pm) we meet at the hotel for drinks then dinner (at the hotel due to varying arrivals).
- Saturday morning is a tour of the hotel and the show grounds for the following year's show (then lunch)
- Saturday afternoon (1:00 to 5:00pm) is the AGM (this meeting is open to NAMGBR members and non-members alike)
- Saturday evening is dinner (at a nearby restaurant)
- Sunday morning, everyone heads home

A SUBJECT FOR BSCC MEETING DISCUSSION: -

This year we're doing something a little different for dinner – we're doing a dinner cruise on the river. I have seats blocked and your Club members are welcome to join us, if you like. The tickets are \$42.50 / person which includes the cruise and dinner.

Please RSVP if you would like to join us (so I can save your seat(s)), then send your check for \$42.50 / person to hold your spot. (About ½ of the tickets are gone already).

Thanks. Tony Burgess, 318 Hampton Park, Westerville, OH 43081

2016 CALENDAR NOTES: -

13. CLASSIFIED ADVERTISING: -

SPRITE / MIDGET RADIATOR FOR SALE: -

Reproduction sprite/midget downflow radiator. Good condition. Used for 4 years, but not many miles. It just wouldn't keep my supercharged engine cooled so I had to switch back to a thicker radiator. \$30 -Trevor. Posted by: Trevor Jessie <trevor.jessie@gmail.com>

TOM UNDERWOOD: - was a member years ago and "mothballed" his Triumphs. He had three and is now down to two that he is trying to find homes for.

Tom reports his 1973 TR6 Just spent \$3800 on getting her up to speed. New tires, rotors, calipers, brakes all around, tuned, much more. She has been rewired, has fresh walnut dash and seats have been "re-foamed." Interior in great shape. She has a few little bubbles, but by and large a very presentable driver. Asking \$8,999 for that one.

Tom reports his 1980 TR8 All paint and body work done. Interior has black leather high back buckets with power lumbar. Painted 75/76 Triumph Java Green which looks fantastic on that body. (white spot in photo is light reflection) Holley four barrel conversion. Around 50k miles. Been in storage for several years. Vintage set of TR bolt pattern American Racing wheels set it off. Starter bad. Asking \$7,000

If you know of anybody that wants to skip over a huge part of restoration, please contact Tom Underwood. Partner, The Rotunda Group, LLC. Business Development, Cel: 502-545-2597 www.therotundagroup.com

MGB GT FOR SALE: - BSCC member Joseph Brent would like to sell his MGB GT. Joseph E. Brent, 129 Walnut Street, Versailles, KY 40383, Tel: 859-492-7877 e-mail: "Joseph E Brent" <jbrent1@windstream.net>

For the record it is a 1969 MGB GT. It is British Racing Green and it has wire wheels, they are not chrome. I am asking \$7,500 or best offer.

I have owned the car for six years. Before that the guy I bought it from owned it for 20 years. He was pretty fanatical about maintaining it and I have tried to follow in his foot steps. Each year that I have owned it I have greased all of the fittings and changed the oil. I put a new fuel pump on it and tuned it up a couple of times.

MGB GT FOR SALE: - BSCC member Joseph Brent would like to sell his MGB

Continued

The car has been kept in a garage. I have three pound brass hammer, for the knock off wheels.

I have driven the car less than 1,000 miles since I have had it. The odometer shows 73,957 miles plus. That's 173,957 actual miles. It does not burn oil, though of course it leaks it.

The only problem the car has is that the synchronizer in third gear is worn. It had that problem when I bought it and I just never got around to fixing it.

The guy that owned it before me installed an anti-theft system that I would have to demonstrate.

I have a bunch of extra parts – body parts: tail light assemblies, exterior light covers, door handles, mirrors etc. I also have most of an old wiring harness and other engine parts. I also have an extra wire wheel and a set of knock offs. I have a repair manual and I'll throw all of that in.

FOR SALE: Two fully restored TR6 Zenith Stromberg carburetors,

And gaskets, shaft seals, o-rings, float valves, deceleration valve and piston diaphragms. \$375 for the pair. We can discuss your existing carburetors' core value.

I have rebuilt many Stromberg and SU carburetors over the years and now that I'm retired I would enjoy employing these skills in a small scale endeavor. Joe at <http://joecurto.com/> supplies my parts and I recommend contacting him if you want to work on your carburetors yourself. His price for two restored TR6 carburetors is \$475. (Save \$100 buying Gary's) Gary Rumrill, (502)239-6366 e-mail g.rumrill@twc.com

Gary Rumrill also Reports: - One of the fellas he have lunch with every week will be moving from Middletown to Madison Indiana in the next few months and he really needs to get rid of his collection of car parts. I asked him for a list (below and attached) so we could list them in our newsletter. As you see, the prices are quite low which shows he seriously needs to move them.

14. Jaguar and Team Sky Celebrate Historic Third Tour de France Victory

Jaguar designed a special livery for its Team Sky F-PACE prototype to celebrate Team Sky's third Tour de France victory in four years in Paris today. The prototype version of the Jaguar F-PACE, which was used as Team Sky's support vehicle on Stage 1 in Utrecht, returned to the race in a celebratory light camouflage

15. THE NEW EV3 IS UNDER DEVELOPMENT AT MORGAN

Looking for a cleaner three-wheeler to commute with but not up to pedaling your own way? Around the same time we were translating Russian to bring you the story of the [Ekomobil](#), Morgan was revealing its second all-electric roadster at the [2015 Goodwood Festival of Speed](#). Morgan re-powers its classically styled 3 Wheeler with a battery pack and electric drive to create the EV3. The new prototype utilizes the 3 Wheeler platform's lightweight construction for a peppy all-electric ride and range of 150 miles (241 km).

SORRY, not for this Morgan owner, I have to drive with the sound of the exhaust. Get a Harley Davidson owner to give up the sound of his exhaust not likely too. I just need to drive a few miles with the sound – please?

THE OFFICIAL BRITISH LEYLAND INSPECTION SHEET

1. Place this sheet under your MG's engine

Leave overnight.

2. Remove and inspect your sheet for oil

before starting your MG.

3. If the MG logo above is covered with oil, check the oil level

and top up to drive.

4. If the MG logo above is clean do not start your engine.

The oil sump is empty.

5. Extra copies of this sheet can be used with your rear differential

or anywhere fluid flows
