Hamilton Hosted Solutions works in conjunction with the Data Access Network (D.A.N.) to provide secure, cloud-based data storage with real-time reporting for individual or multiple locations.

BUSINESS DASHBOARD

The customizable business dashboard in *Hosted Solutions* provides real-time transaction data from your location(s) to help you gauge site activity.

You determine which reports and information are most important to you, creating a dashboard relevant to your business model.

Information such as total revenue, equipment status, daily item counts, sales by hour, and today's sales by item is available.

Customized reporting allows you to track activity from individual Gold Line's®, HTK's, D.A.N. Transaction Terminal's (DTT's), vacuums, and change machines.

DATA STORAGE

Hosted Solutions gives you peace of mind by providing cloud-based storage for your Data Access Network(s).

In the event of a catastrophic error when a D.A.N. requires complete replacement, all of your historical data is still accessible through *Hosted Solutions*.

HOSTED SOLUTIONS	PRICE
