PROPERTY MANAGEMENT
AND MULTIFAMILY

YOUR PARTNER IN FLOORING

THE ARMSTRONG® ADVANTAGE

A floor is only as sound as the company behind it.

How many floor companies can claim over 150 years of experience, quality and innovation with a world-class brand as its foundation?

Only one. Only Armstrong.

As the leader in resilient and hardwood flooring solutions, Armstrong is THE choice for busy property managers:

- Reliable availability with RSL (Recommended Style Lists) in every category
- Durability of products, which means more turns, longer life cycle and overall less cost to you
- Superb quality and realistic, beautiful designs means your floors are desirable to your residents and will help you rent units faster
- Strong product technology that allows for quick and easy repairs when needed for better damage control
- Large selection of products means a price point for every budget

This catalog represents only a portion of the Armstrong product portfolio. Please contact your local sales representative or go to www.armstrong.com/flooring for additional product selections.

SUSTAINABILITY AND COMMUNITY INVOLVEMENT

Armstrong has a total of 14 manufacturing facilities here in the US. Armstrong Corporate Headquarters is the first building in Pennsylvania, and among only 17 buildings globally, to achieve recertification at the highest level possible under USGBC's LEED rating system.

For more information, go to www.armstrong.com/flooring/sustainability.

Vinyl Sheet and Vinyl Tile

Armstrong vinyl sheet and tile are all FloorScore® Certified as Low VOC. Products with FloorScore certification are guaranteed to meet or exceed low emission standards, will not adversely affect indoor air quality and have passed a third party certification process.

Hardwood

Armstrong hardwood is CARB II and Lacey Act compliant from well-managed replenished North American forests. FSC Certified hardwood available from Somerset, KY and Beverly, WV manufacturing facilities.

Laminate

Our Laminate products meet the CARB Phase II requirements for low emitting materials and the CDPH Standard Method for the Testing and Evaluation of Volatile Organic Chemical Emissions, 2004. Plus, low-emitting adhesives that are compliant with SCAQMD Rule #1168 are available. The majority of our products are manufactured in ISO 14001 certified facilities.

Care and Maintenance54

PREMIUM GROUTABLE, VINYL AND LUXURY VINYL TILE SELECTIONS

When you explore the benefits of vinyl tile, you'll discover a floor that's easy to maintain and performs beautifully in high-traffic and high-moisture areas. This durable flooring choice comes in a variety of visuals which mimic the beauty and texture found in natural stone, ceramic, and hardwood. Installation options range from full-spread adhesive and basic peel and stick to proven floating systems. Since individual tiles or planks can easily be replaced without ruining the integrity of the floor, repairs are quick and inexpensive – ultimately saving you time and money.

ALTERNA™ RESERVE

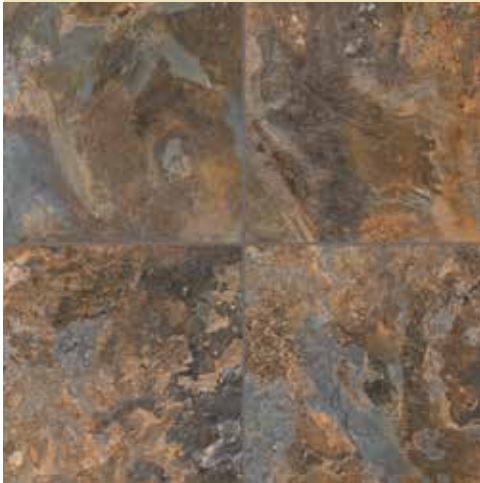

- Perfect alternative to stone and ceramic – beautiful and durable like stone, yet warmer to the touch, kinder to your feet and easier to care for
- High-end collection featuring up to 32 unique tiles in each design – achieving greater tile-to-tile variation and minimizing pattern repetition
- Select designs offer multiple shapes and sizes to create unique flooring pattern installations
- Glue-down installation with or without grout – acrylic grout never requires sealing and resists stains (see pg. 54 for adhesive options)
- Lifetime residential / 5-year light commercial warranty
- See www.armstrong.com/alterna for full selection of designs and colors

LUXE PLANK® with FasTak™ Installation

VISUALLY STUNNING, HIGHLY WATER RESISTANT & INCREDIBLY DURABLE –
THE IDEAL FLOORING CHOICE FOR ANY PROPERTY OR BUSINESS

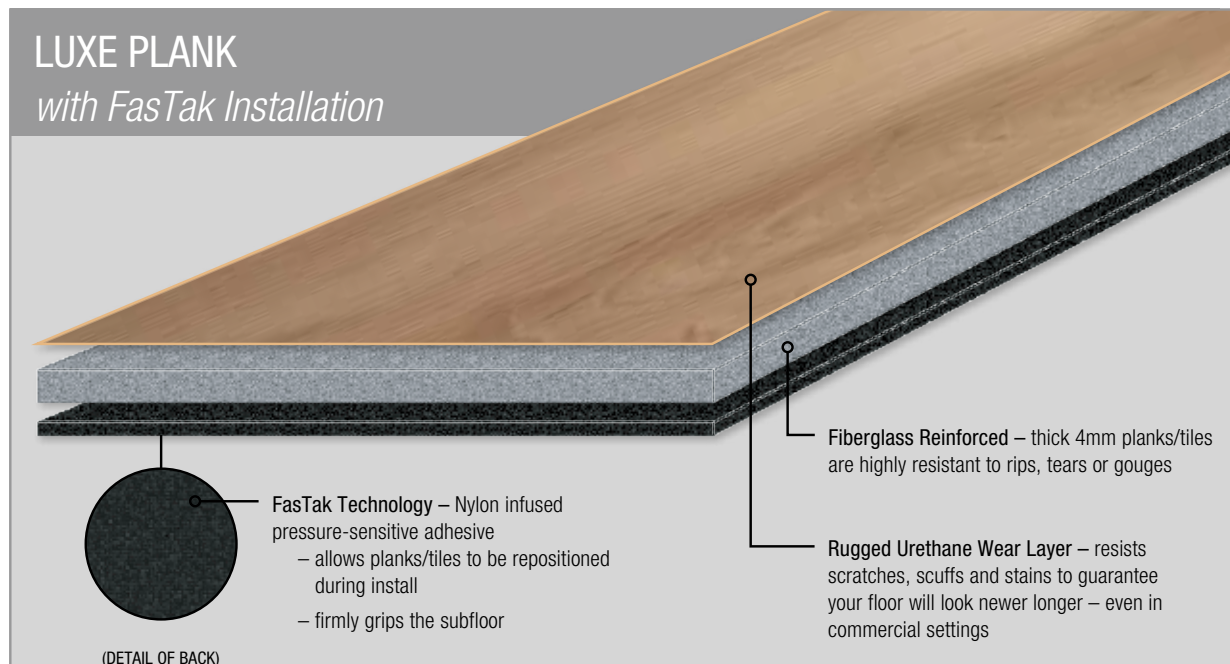

Sturdy fiberglass reinforced planks/tiles backed with an innovative pressure-sensitive adhesive to create a beautiful and long-lasting floor

- Incredible designs perfectly replicate the gorgeous color, texture and fine detail found in natural hardwood and stone
- Fiberglass construction provides dimensional stability to resist gapping and is highly resistant to rips, tears or gouges
- Highly water-resistant and ideal for high-moisture areas including: kitchens, bathrooms and basements
- Superior protection against scratches, scuffs and stains to guarantee your floor will look newer longer – even in commercial settings

The Quickest & Easiest Installation Available – Simply position and press into place

No Glue, No Pads, No Special Tools

- Easily repositioned during installation, then tightly bonds to the subfloor
- Installs smoothly over most existing subfloors, including those with imperfections
- Repairs easily – individual planks/tiles can be quickly replaced without affecting the rest of the floor

LUXE PLANK® with FasTak™ Installation

- Striking designs in a thick 4.06 mm gauge, perfectly replicate the gorgeous color, texture and detail found in authentic hardwood and natural stone
- Fiberglass construction provides dimensional stability to resist gapping and is highly resistant to rips, tears or gouges, while urethane wear layer resists scratches, scuffs and stains
- Planks/tiles backed with an innovative pressure-sensitive adhesive for the quickest and easiest installation available
- 48" planks are available in 6" and 7.2" widths and tiles are available in 12" x 24" and 18" x 18"
- 30-year residential / 7-year commercial warranty

LUXE PLANK® with Lynx™ Technology Installation

INSTALLATION IS AS EASY AS 1-2-3

STEP 1: Peel off the paper liner to expose the adhesive strip

STEP 2: Position the next plank over the exposed adhesive strip – pull up plank and reposition until perfect

STEP 3: Press down on the edges to secure

To trim, simply score a plank with a utility knife and straight edge and snap it apart. If you make a mistake, simply pull up the flexible Luxe Plank and reposition it within the set time without affecting the rest of the floor.

Peel

Position... and reposition

And Press

LUXE PLANK® is waterproof, and installs over most subfloor imperfections.

- No glue
- No special tools – just a utility knife and straight edge
- No floor preparation
- No room restrictions – waterproof and ideal for any room
- No waiting – walk on floors immediately

LUXE PLANK® with Lynx™ Technology Installation

- Incredibly realistic wood plank visuals in our most substantial 4.06 mm thickness are featured in a variety of traditional, exotic and distressed designs
- Advanced Urethane Plus coating resists water and wear – ideal for high-traffic and high-moisture areas
- Floating planks with Lynx™ Technology makes for an extremely quick and easy install
- Long 48" planks with beveled edges and ends are available in 6" or 4-1/2" widths for a more true-to-life hardwood look
- Lifetime residential / 10-year commercial warranty

VINYL SHEET SELECTIONS

Whether you need reliable performance and value, comfort and style, or heavy-duty wear and stain resistance for your properties, Armstrong has a vinyl sheet solution for you. Unmatched durability, unsurpassed realism and unparalleled stain, scuff and scratch protection – benefits you can depend on to give you more turns and rent units more quickly. Choose from full glue and modified loose-lay installation options.

PROUD TO SUPPORT AMERICAN JOBS

Armstrong resilient floors are manufactured in Stillwater, OK and Lancaster, PA and feature 55% domestic content.

STRATAMAX® BY ARMSTRONG

It's the smart, money-saving choice that delivers durability, efficiency and maximum value

- **Differentiated product!** Limestone ToughGuard II base layer means more resistant to rips, tears and gouges than fiberglass or felt
- **2x more stain resistant than fiberglass or felt**, including protection from asphalt driveway sealer and rubber-backed mats

Cut your costs in half!

- **Double your turns per installation.** Better performance=less floors to replace=higher savings for you.
- **Maximum efficiency.** Modified loose lay, releasable adhesive (S-289) or permanent adhesive (S-288) installation

Testimonials

"Ever since we switched our builders and property management customers over to Stratamax we have had almost zero call backs for tears or gouges. It has substantially increased our productivity because we are not busy having to service installations."

Kevin Carnes, VP Builder/PM
McSwain Carpets & Floors, Cincinnati, OH

*Base grade product tested at 135 psi

Damage caused by abuse such as moving appliances and heavy furniture across the floor, without adequate protection, is not covered under the RTG warranty.

Scan to see a short and informative video of how STRATAMAX will save you money.

STRATAMAX® BEST

BEST

- 6' or 12' roll width
- Gauge: 85 mils
- Wear layer: 16 mils

- Maximum durability from a limestone composite base layer and ToughGuard® II construction
- Layered construction resists buckling due to seasonal climatic changes
- CleanSweep® Plus layer offers best-in-class stain protection with added protection against scratching and scuffing
- Full glue or modified loose-lay installation (see pg. 54 for adhesive options)
- 25-year limited residential / 5-year limited light commercial warranty*
- See www.armstrong.com for full selection of designs and colors

HARDWOOD TRIM & MOLDING

Add the perfect finishing touch by complementing the look of your new floor with coordinating trim and molding available in a wide selection of matching colors and profiles.

Threshold – Finishes the space where hardwood flooring ends (such as sliding glass doors, along wall bases, door thresholds and carpet).

T-Molding – Fills the gap at doorways, and finishes spaces between the two areas of hardwood flooring.

Reducer – Provides a smooth transition from your hardwood floor to another type of flooring of a lower height. Also, finishes the space where hardwood flooring ends against a vertical surface and where quarter round cannot be used (such as sliding glass doors, against cabinet toe kicks, or carpet).

Quarter Round – The classic finish to your hardwood floor, used where wall and flooring meet.

Stair Nose – The durability of hardwood flooring makes a great choice for staircases.

ENGINEERED FLOORING UNDERLAYMENT

The use of quality underlayment is critical to a successful installation of engineered hardwood floors, and should be installed prior to laying planks. Use the pre-applied tape for a seamless moisture barrier, especially over concrete. These underlayments can also be used with floating engineered hardwood floor installations.
