Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes houses built for rent (not shown separately).

RSE/SE	2	5	17	(NA)	4	4

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Presence of Air-Conditioning in New Single-Family Houses Completed: Contractor-Built¹

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

RSE/SE	4	34	16	11	13	(NA)	(Z)	3	4	5

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Number of Bathrooms in New Single-Family Houses Completed: Contractor-Built¹

(Components may not add to total due to rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes 2 1/2 bathrooms or more for years 1986 and earlier.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

2016	164	161	1	2	100	98	(Z)	1
RSE/SE	2	3	41	58	(NA)	1	(Z)	1

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes panelized and precut units.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Type of Construction Method of New Single-Family Houses Completed: Built For Sale¹

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes panelized and precut units.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes concrete block, stone, aluminum siding, and other types.
 Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Primary Type of Exterior Wall Material of New Single-Family Houses Completed: Built for Sale¹

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Primary Type of Exterior Wall Material of New Single-Family Houses Completed: Contractor-Built¹

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes concrete block, stone, aluminum siding, and other types.
Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Primary Type of Exterior Wall Material of New Single-Family Houses Completed: Owner-Built¹

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

² Includes concrete block, stone, aluminum siding, and other types.
Data prior to 2005 include fiber cement.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

² Includes concrete block, stone, aluminum siding, and other types.
Data prior to 2005 include fiber cement.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types.
Data prior to 2005 include fiber cement.

**Secondary Type of Exterior Wall Material of New Single-Family Houses Completed¹
With Primary Exterior Wall Material of Brick**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes concrete block, stone, aluminum siding, and other types.

²"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

³Includes concrete block, stone, aluminum siding, and other types that are different from the primary type of "other" material.

Secondary Type of Exterior Wall Material of New Single-Family Houses Completed¹
With Primary Exterior Wall Material of Stucco

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement.

**Secondary Type of Exterior Wall Material of New Single-Family Houses Completed¹
With Primary Exterior Wall Material of Vinyl Siding**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

² Includes concrete block, stone, aluminum siding, and other types. Data prior to 2005 include fiber cement.

**Secondary Type of Exterior Wall Material of New Single-Family Houses Completed¹
With Primary Exterior Wall Material of Wood**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

¹Includes houses built for rent (not shown separately until 2013).

²Includes other types of financing (not shown separately).

Note: Beginning in 2008 for units For Rent, and in 1999 for units For Sale Not Yet Sold, type of financing was not collected, but was assumed to be in proportion to that of completed homes for which financing was collected. Beginning in 2013, units For Rent and units For Sale Not Yet Sold are shown separately, not by Type of Financing.

For 1999-2007 for units For Rent, type of financing was collected and the units are included in Type of Financing.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes other types of financing (not shown separately).

Note: Beginning in 2008 for units For Rent, and in 1999 for units For Sale Not Yet Sold, type of financing was not collected, but was assumed to be in proportion to that of completed homes for which financing was collected. Beginning in 2013, units For Rent and units For Sale Not Yet Sold are shown separately, not by Type of Financing.

For 1999-2007 for units For Rent, type of financing was collected and the units are included in Type of Financing.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes other types of financing (not shown separately).

Note: Beginning in 2008 for units For Rent, and in 1999 for units For Sale Not Yet Sold, type of financing was not collected, but was assumed to be in proportion to that of completed homes for which financing was collected. Beginning in 2013, units For Rent and units For Sale Not Yet Sold are shown separately, not by Type of Financing.

For 1999-2007 for units For Rent, type of financing was collected and the units are included in Type of Financing.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes raised supports such as pilings and piers, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes raised supports such as pilings and piers, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes raised supports such as pilings and piers, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes raised supports such as pilings and piers, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Type of Heating Fuel Used in New Single-Family Houses Completed: Built For Sale¹

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Type of Heating System Used in New Single-Family Houses Completed: Built For Sale¹

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Type of Heating System Used in New Single-Family Houses Completed: Contractor-Built¹

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Type of Heating System Used in New Single-Family Houses Completed: Owner-Built¹

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes both air source and geothermal (ground source) versions.

³Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

⁵Includes both air source and geothermal (ground source) versions.

⁶Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

⁴Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

⁵Includes both air source and geothermal (ground source) versions.

⁶Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes houses built for rent (not shown separately).

²Data prior to 1992 include garages for 3 cars or more.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Type of Parking Facility of New Single-Family Houses Completed: Built For Sale¹

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Data prior to 1992 include garages for 3 cars or more.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Data prior to 1992 include garages for 3 cars or more.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Data prior to 1992 include garages for 3 cars or more.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Contractor-Built" houses are built for owner occupancy on the owner's land under the supervision of a general contractor.

²Includes houses with other sewer systems or no sewer system.

³Includes houses with other water systems or no water system.

Type of Sewage System by Water Supply Source in New Single-Family Houses Completed: Owner-Built¹

Footnotes:
 RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
 NA - Not available
 A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
 Z - Less than 500 units or less than 0.5 percent
 S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes houses built for rent (not shown separately).

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

Note: Prior to 1999, estimates of square feet are rounded to the nearest 5.

¹Includes houses built for rent (not shown separately until 2013).

²Includes other types of financing (not shown separately).

Note: Prior to 1999, estimates of square feet are rounded to the nearest 5.

Prior to 2008 for units For Rent, type of financing was collected and the units are included in Type of Financing.

Beginning in 2008 for units For Rent, and in 1978 for units For Sale Not Yet Sold, type of financing was not collected, but was assumed to be in proportion to that of completed homes for which financing was collected. Beginning in 2013, units For Rent and units For Sale Not Yet Sold are shown separately, not by Type of Financing.

RSE	3	(NA)	3	3	8	5	3	2	(NA)	3	2	4	5	3

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Built for Sale" are houses built with the intention of being sold with the sale of the land included in the transaction.

²Includes other types of financing (not shown separately).

Note: Prior to 1999, estimates of square feet are rounded to the nearest 5.

Prior to 2008 for units For Rent, type of financing was collected and the units are included in Type of Financing.

Beginning in 2008 for units For Rent, and in 1978 for units For Sale Not Yet Sold, type of financing was not collected, but was assumed to be in proportion to that of completed homes for which financing was collected. Beginning in 2013, units For Rent and units For Sale Not Yet Sold are shown separately, not by Type of Financing.

Median and Average Square Feet of Floor Area in New Single-Family Houses Completed by Type of Financing: Contractor-Built¹
(Medians and averages computed from unrounded figures)

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹"Owner-Built" houses are built for owner occupancy on the owner's land with the owner acting as the general contractor.

²Includes other types of financing (not shown separately).

Note: Prior to 1999, estimates of square feet are rounded to the nearest 5.

Number of Stories in New Single-Family Houses Completed¹

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Number of Multifamily Units Completed With Air-Conditioning

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Number of Multifamily Units Completed by Number of Bedrooms per Unit

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Year	Number of units (in thousands)					Percent distribution				
	Total	Efficiencies	1 bedroom	2 bedrooms	3 or more bedrooms	Total	Efficiencies	1 bedroom	2 bedrooms	3 or more bedrooms

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

² Data prior to 2013 include 3 floors.

RSE/SE	8	17	16	81	(NA)	7	7	(Z)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes wood, coal, solar, and other types.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ All units in building are included in one size category based on average number of square feet per housing unit.

The average was calculated using total square feet of all floors based on exterior dimensions divided by number of housing units in the building.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

² All units in building are included in one size category based on average number of square feet per housing unit. The average was calculated using total square feet of all floors based on exterior dimensions divided by number of housing units in the building.

RSE	2	2	7	2	2	8

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ The average was calculated using total square feet of all floors based on exterior dimensions divided by the number of housing units in the building.

² Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Number of Multifamily Units Completed by Number of Units Per Building

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Data prior to 1999 include 3 to 4 units.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Data prior to 2013 include 3 floors.

Number of Multifamily Buildings Completed by Number of Floors: Built for Rent

RSE/SE	28	51	41	16	(NA)	14	11	8

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes units for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

² Data prior to 2013 include 3 floors.

Number of Multifamily Buildings Completed by Framing

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes wood, coal, solar, and other types.

²Includes natural gas and bottled or liquified petroleum gas (including propane).

³Includes heating oil and kerosene.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes buildings where units are for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

² Includes wood, coal, solar, and other types.

³ Includes natural gas and bottled or liquified petroleum gas (including propane).

⁴ Includes heating oil and kerosene.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Data prior to 1999 include buildings with 3 to 4 units.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes buildings where units are for sale as condominiums or cooperatives; may also include units where ownership of the entire property is acquired, both land and improvements.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.
 Data prior to 2005 include fiber cement. Data prior to 1992 include vinyl siding.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:
RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
NA - Not available
A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
Z - Less than 500 units or less than 0.5 percent
S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.
Data prior to 2005 include fiber cement.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.
Data prior to 2005 include fiber cement.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Primary Type of Exterior Wall Material of New Single-Family Houses Sold by Sales Price

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement.

Secondary Type of Exterior Wall Material of New Single-Family Houses Sold

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement.

Secondary Type of Exterior Wall Material of New Single-Family Houses Sold by Sales Price

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.
Data prior to 2005 include fiber cement.

**Secondary Type of Exterior Wall Material of New Single-Family Houses Sold
With Primary Exterior Wall Material of Brick**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹ Includes concrete block, stone, aluminum siding, and other types.

Data prior to 2005 include fiber cement.

**Secondary Type of Exterior Wall Material of New Single-Family Houses Sold
With Primary Exterior Wall Material of Fiber Cement**
(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes other types of financing (not shown separately).

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes other types of financing (not shown separately).

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Prior to 1999, includes 1 or more fireplaces.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes raised supports such as pilings and piers, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes raised supports such as pilings and piers, and other types.

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes natural gas and bottled or liquified petroleum gas (including propane).

²Includes heating oil and kerosene.

³Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes natural gas and bottled or liquified petroleum gas (including propane).

²Includes heating oil and kerosene.

³Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes both air source and geothermal (ground source) versions.

²Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

RSE/SE	5	5	23	75	44	(NA)	3	3	(Z)	(Z)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹Includes both air source and geothermal (ground source) versions.

²Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

RSE/SE	12	12	29	52	46	(NA)	4	4	1	1

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes both air source and geothermal (ground source) versions.

²Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes natural gas and bottled or liquified petroleum gas (including propane).

²Includes heating oil and kerosene.

³Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

⁴Includes both air source and geothermal (ground source) versions.

⁵Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

**Type of Heating Fuel Used in Attached New Single-Family Houses Sold
By Type of Heating System**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes natural gas and bottled or liquified petroleum gas (including propane).

²Includes heating oil and kerosene.

³Includes wood, coal, solar, and other types. Beginning in 2014, also includes heating oil and kerosene.

⁴Includes both air source and geothermal (ground source) versions.

⁵Includes electric baseboard, panel, radiant heat, space heater, floor or wall furnace, solar, and other types.

**Type of Heating Fuel Used in Detached New Single-Family Houses Sold
By Type of Heating System**

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Beginning in 1992, lot sizes greater than 25 acres are tabulated as 25 acres. Prior to 1992, lot sizes greater than 2.5 acres were tabulated as 2.5 acres. Prior to 1999, data included condominiums, but totals included only those houses reporting size of lot.

**Lot Size of New Attached Single-Family Houses Sold
Excluding Condominiums**

(Components may not add to totals because of rounding. Percents computed from unrounded figures.)

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Lot sizes greater than 25 acres were tabulated as 25 acres.

RSE	2	22	6	5	3	8	21	10	13	9

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Lot sizes greater than 25 acres were tabulated as 25 acres.

Prior to 1999, data included condominiums.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹ Prior to 1992, data included 2 cars or more.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹ Prior to 1992, data included 2 cars or more.

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Note: Single-family estimates prior to 1999 include an upward adjustment of 3.3 percent made to account for structures built in permit-issuing areas without permit authorization.

¹ Prior to 1992, data included 2 cars or more.

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

- RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)
- NA - Not available
- A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed
- Z - Less than 500 units or less than 0.5 percent
- S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

Footnotes:

RSE/SE - Relative Standard Error (percent), Standard Error (percentage points)

NA - Not available

A - Represents an RSE or SE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review

¹Includes other types of financing (not shown separately).

Number of New Single-Family Contractor-Built Houses Started by Contract Price per Square Foot

(Contract price excludes value of improved lot. Components may not add to totals because of rounding.)

RSE	4	13	3	4	11	3	9	3	4	8

Footnotes:

RSE - Relative Standard Error (percent)

NA - Not available

A - Represents an RSE that is greater or equal to 100 percent or could not be computed

Z - Less than 500 units or less than 0.5 percent

S - Withheld because estimate did not meet publication standards on the basis of response rate or a consistency review
