American Coach

The heart of luxury. The soul of freedom.

American Dream

1927 - 1941 President Franklin D. Roosevelt once said, "There is nothing so American as our national parks." Perhaps, the most American is Mount Rushmore, and not because four presidents are depicted in stone. Rather, it's a colossal achievement of nearly 400 American workers, some scaling 700 stairs to carve one of the world's greatest memorials.

THE FREEDOM TO DREAM

The horizon line has long called to America's pioneering spirit, each sunset begging to be touched. So at American Coach, we built a luxury motor coach that would redefine your dream journey. Riding on a custom Liberty Chassis and offering

the most intuitive cab features, the all-new American Dream makes getaways especially enviable. Plus with an attention to detail that only American Coach delivers, this dream coach exceeds every expectation.

Combining the finest appliances, like a Whirlpool French-door refrigerator, with elegant touches, like satin-finish or high-gloss cabinetry, the American Dream is a statement in luxury.

LUXURY BEYOND IMAGINE.

For those who dream of living in American luxury, we built the American Dream, a motorhome that takes comfort and style beyond the imaginable. Luxury is found in every corner. With an attention to detail that only American Coach delivers, the American Dream exceeds every expectation.

AMERICAN MADE

AMERICA HAS NEVER ONCE IMPORTED LUXURY IN THE FORM OF A MOTOR COACH...

Here at American Coach, we're especially proud of that distinction because no one understands the pursuit of progress like the men and women of America. Innovation runs in our blood, craftsmanship streams from our pores and patriotism drives our All-American designs.

CUSTOM PAINT We take pride in every detail of our coaches, right down to the gleam of each paint package, which is why American Coach features its very own custom paint facility at our manufacturing location in Decatur, Indiana. Every coach makes its way through the 125,000-square-foot facility, visiting six different down-draft paint booth stations to achieve American Coach's pristine look.

RIDING ON CONFIDENCE

An exceptionally built motor coach should ride on an equally exceptional foundation. The Liberty Chassis features a Freightliner V-Ride™ rear/drive axle for increased sway control and better coach handling. The heavy-duty e-coated steel bridge, along with the Freightliner UltraSteer® B-Series tag axle, provides added strength, increased maneuverability and better handling for confident command of the road ahead.

1. THE INDUSTRY'S LARGEST STORAGE — The Liberty Chassis design creates extreme pass-through basement storage space for taller compartments, easier access and loads of room. The American Dream also features a one-key system for all storage and power door locks with key fob on select doors.

2. ZF DOUBLE WISHBONE INDEPENDENT FRONT SUSPENSION AND PREMIUM SACHS® SHOCKS — The front suspension features a 60-degree wheel cut for unmatched handling backed by the dependability of the ZF name, while custom-tuned Sachs shocks heighten comfort and increase safety.

3. FREIGHTLINER ULTRASTEER B-SERIES — The UltraSteer B-Series straight-beam axle and wide-track suspension arms provide increased lateral stiffness, offering complete control and precise maneuvering in all conditions.

4. V-RIDE™ SUSPENSION — The V-Ride drive axle suspension features increased towing capacity, allowing you to carry more gear while providing a durable, comfortable ride.

5. BENDIX® DISC BRAKES — Bendix front wheel air disc brakes deliver uniform stopping power and better steering control, while reducing brake fade and stopping noise.

IMPORTANT — PLEASE READ: Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.AmericanCoach.com or contact your local American Coach dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. American Coach has designed its recreational vehicles to provide a variety of uses for its customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e., occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle's capacities are not exceeded.

DISCLAIMERS

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this fully loaded motor home. The GVWR is equal to or greater than the sum of the (UVW) unloaded vehicle weight plus the (OCCC) occupant cargo-carrying capacity*.
 2. GAWR (Gross Axle Weight Rating) is the maximum permissible loaded weight a specific axle is designed to carry.
 3. GCWR (Gross Combined Weight Rating) is the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may be different. Refer to American Coach and chassis manufacturer's manuals for complete information.
 4. Length measured from front bumper to rear bumper (excludes accessories).
 5. Excludes safety equipment and awnings.
 6. Motor homes feature a body width over 96" which will restrict your access to certain roads. Before purchasing, you should research any state and/or province road laws which may affect your usage.
N/A = Not Applicable
- † The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing. Hitch receiver ratings expressed are maximum for the hitch receiver installed and may require the purchase of additional equipment that is dependant on the weight of the towed load. Consult with hitch receiver manufacturer for further information.
- †† The Minimum Towable Load of this vehicle is the available weight capacity, up to GCWR, when the coach is fully loaded to maximum GVWR. However, if the coach is loaded to something less than maximum GVWR, that extra available weight capacity can be added to your Towable Load. For example, if your coach is loaded to 1,000 lbs less than maximum GVWR, your Towable Load increases accordingly. Do not exceed the hitch rating weight, GVWR or GCWR.
- * UVW and OCCC are found on the label containing the federal certification tag in each RV.
- ** All 2017 REV Recreation Group motorhomes include a limited one-year/15,000-mile coach warranty and three-year/45,000-mile structural warranty, whichever occurs first, and is fully transferable for the first 12 months.
