FOREWORD

The American Public Transportation Association is proud to present the APTA International Bus Roadeo Handbook. The International Bus Roadeo includes competition events for both bus operators and bus technicians. Awards are given in each practice area, and there is an overall grand prize for the transit system with the highest combined score for the bus operator and bus maintenance team.

The International Bus Roadeo Competition takes place the Sunday prior to APTA's Mobility Conference. Roadeo activities begin on the Friday before the conference with an orientation and culminate on Tuesday night at the Roadeo Awards Ceremony and Dinner.

The International Bus Roadeo Committee's goals are to provide the most equitable competition possible, encourage the highest degree of professionalism in bus operators and technicians, and build camaraderie among all those who compete. Through sportsmanship and pride of work, the APTA International Bus Roadeo stands as a symbol of the important role bus operators and technicians play in providing transit customers with safe, reliable service. We look forward to your support and participation in this year's International Bus Roadeo competition. This handbook contains rules and guidelines for Roadeo participants.

PLEASE NOTE: Roadeo courses, problems, and distances are depicted here as guidelines, with distances and measurements of approximate value. They should be used as a general resource in helping the participant prepare for the competition but may not reflect the specific measurements on the day of the Roadeo.

Thank you for your interest and participation. Good luck!

Schedule for the 2020 International Bus Roadeo

Thursday, May 14

Roadeo Committee Course Setup
Mechanics teams and operators register

Friday, May 15

Mechanics teams and operator's orientation

Saturday, May 16

Mechanics teams written test
Mechanics teams training sessions
Operators driving course practice, Pre-Trip Competition and
Customer Service Challenge Interviews

Sunday, May 17

International Bus Roadeo Competition
Swap Meet

Monday, May 18

Operator Workshops:
Transit Safety Practices & Procedures Part I
Customer Service Challenge
(All operators are encouraged to attend)

Monday, May 18 *continued*

Maintenance Workshops:
Vapor CLASS Sensing System for Door System
HVAC IntelligAIRE III
TST Diagnostics for Electric Bus HVAC

Bus Display & Lunch

Tuesday, May 19

Operator Workshop:
Transit Safety Practices & Procedures Part II

Maintenance Workshop:

Preventive Maintenance Inspection (PMI)

Product Showcase & Lunch

International Bus Roadeo Awards Ceremony
International Bus Roadeo Awards Dinner

Wednesday, May 20

Roadeo Committee Debrief

APTA's Purpose Statement

The American Public Transportation Association (APTA) is a nonprofit international association of more than 1,500 public and private sector member organizations. Benefits to our members include advocacy for federal funding and policies, research, technical expertise and consulting services, workforce development programs, educational conferences and seminars, and 135 subject-matter working committees.

APTA is the only association in North America that represents all modes of public transportation, including bus, paratransit, light rail, commuter rail, subways, waterborne services, and intercity and high-speed passenger rail. More than 90 percent of the people using public transportation in the United States and Canada ride APTA member systems.

Our membership is engaged in every aspect of the industry – from planning, designing, financing, constructing and operating transit systems to the research, development, manufacturing and maintenance of vehicles, equipment and transit-related products and services. Additionally, academic institutions, transportation network companies, transit associations and state departments of transportation are APTA members.

APTA's Policy on Diversity

APTA promotes an inclusive culture that supports and celebrates the unique attributes and perspectives of its individual members, allowing each and every person to make their fullest contribution to the industry. APTA defines diversity as the inclusion of differences and similarities from all categories of members and covers such areas as disability, gender, gender identity and sexual orientation, age, ethnicity, race and geographic origin, size of transit property or business member organization, all of which contribute to the fulfillment of APTA's mission.

GENERAL INFORMATION

NOTE: Each APTA member transit system is entitled to send one (1) operator in the 40+ foot category and/or one (1) maintenance team (maximum of 3 contestants) to the International Bus Rodeo Competition. APTA reserves the right to interpret this rule according to the transit system's membership status.

1. Contestant qualifications

To compete in the APTA International Bus Rodeo, contestants are required to meet certain qualifications. Local transit systems are expected to enforce the following eligibility requirements. Contestants must:

1. Be employees of an APTA member transit system or represent a Community Transportation Association of America (CTAA) member organization
2. Have worked, full-time or part-time, in the field in which they are competing (operator or technician) for not less than one year prior to the date of the Rodeo and must have a job description that matches that position
3. Meet their local transit system's guidelines on sickness and absenteeism
4. Possess a Commercial Driver's License (CDL)

2. Ineligibility

Any of the following conditions during the span of (one) 1 year prior to the Rodeo competition date make an employee ineligible to compete:

1. A preventable or chargeable accident
2. A suspension as a result of punitive action
3. Compensation for and/or functioning as an instructor/trainer for 60 days or more in the previous year

NOTE: Contestants are not permitted to receive compensation for practice time during the time between their local Rodeo and the APTA International competition. For purposes of the Rodeo, compensation is considered to be paid time.

3. Team registration

International Bus Rodeo badges, program, and meal tickets will be available at the APTA Rodeo team registration area.

4. Schedule

The general Rodeo schedule is listed below. A more detailed schedule with times and locations is located in Appendix 8 and at registration.

- **Friday:** Orientation
- **Saturday:** Operator Pre-Trip Inspection Competition, Operator Practice, Customer Service Challenge preliminary interview and maintenance training sessions
- **Sunday:** Competition, Swap Meet
- **Monday:** Training Workshops
- **Tuesday:** Training Workshops, International Bus Rodeo Awards Ceremony and Dinner

5. Spectators

Spectators are welcome in the operator spectator area but are not allowed on the operator obstacle course. The availability of the spectator area for the maintenance events varies from year to year based on space. Due to the nature of the maintenance events, a common spectator area is not available. However, family and transit agency members may observe their team compete in each of the events. Still photos are allowed during the competition. Absolutely no video cameras or videotaping is allowed in the maintenance competition area.

AWARDS/SCORING

1. General

Each International Bus Roadeo contestant will receive a Participant's Award.

Award winners will be announced at the International Bus Roadeo Awards Ceremony on Tuesday evening.

Final scores and order of finish for all contestants will be available immediately following the Awards Ceremony from the Roadeo Committee members.

Plaque plates will be mailed to the winners following the Roadeo.

2. Grand Champion and combined competition awards

1. Only those transit agencies with participants in both the Operators' and Technician's events are eligible to compete for the Grand Champion Award.
2. The Grand Champion will be determined by the averaged percentage of scored points for both events. The percentage is determined by dividing the points scored by the points possible. For example:

Total possible points:	Operator: 700	Maintenance: 2,575
Team A	Operator: 675	Maintenance: 2,225
Team B	Operator: 625	Maintenance: 2,375

Team A's score would be calculated as follows:

Operator Score: 96.43% ($675/700$)
Maintenance Score: 86.41% ($2225/2575$)
Add the percentages together: $96.43\% + 86.41\% = 182.84\%$
Divide by 2: $182.84 \div 2 = 91.42$

Team B's score would be calculated as follows:

Operator Score: 89.29% ($625/700$)
Maintenance Score: 92.23% ($2375/2575$)
Add the percentages together: $89.29\% + 92.23\% = 181.52\%$
Divide by 2: $181.52\% \div 2 = 90.76$

Team A would win the Grand Champion Award.

1. The Grand Champion team members will each receive \$1,500 in U.S. currency and an award. The transit system of the Grand Champion winners will also receive a plaque/trophy.
2. Ties for the Grand Champion will have the following tiebreaker formula: the lowest total combination of the elapsed time for the designated bus operator plus the total elapsed times for the Allison Power Train, Cummins/Voith Power Train, and Custom Training Aid Brake Board events.
3. Teams placing second and third in the combined competition will receive plaques/trophies.

3. Operator/maintenance awards

1. The first-place winners in each of the competitions, Operator and Maintenance, will each receive \$1,000 in U.S. currency, a plaque/trophy and a Champion's ring. The transit systems of the first-place winners will also receive a plaque/trophy.
2. The second-place winners in each of the competitions, Operator and Maintenance, will each receive \$500 in U.S. currency and a plaque/trophy. The transit system of the second-place winners will also receive a plaque/trophy.
3. The third-place winners in each of the competitions, Operator and Maintenance, will each receive \$250 in U.S. currency and a plaque/trophy. The transit system of the third-place winners will also receive a plaque/trophy.
4. A separate award will recognize the highest scores for the Operators.

5. A separate award will recognize the highest scores in each of the maintenance events.
6. Sponsors of the Maintenance events and the Operator Pre-Trip also provide prizes.

4. Customer Service Challenge Award

1. The first-place winner in the Customer Service Challenge will receive a plaque/trophy. The winner's transit system will also receive a plaque/trophy.
2. The Customer Service Challenge is not included in the scoring for the Grand Championship.

OPERATORS' ROADEO

1. Scheduled activities

Please refer to Appendix 8 for a more detailed schedule of events, times, and places.

1.1 Friday

Orientation

1. The final course layout will be distributed.
2. Official starting time schedules and course diagrams will be distributed.
3. On Course Rodeo Officials will be identified.
4. Customer Service Challenge interview times will be confirmed.
5. Question and Answer Session regarding the published rules.
6. Display buses will be available for the contestants to preview immediately following orientation.

1.2 Saturday

Driving practice

1. Visual inspection of the rodeo obstacles is only allowed while outside of the designated course perimeter on practice day and competition day.
2. Operator contestants will be allowed to inspect the course visually (from the course periphery only) on practice day only.
3. On practice day, contestants are required to check-in at the on-site registration area at least 60 minutes before their scheduled start time. Operator contestants who report late on practice day will not be allowed to make their practice run.
4. Each operator contestant will be allowed one practice run and are not allowed to ride with other contestants.
5. While the practice run is not mandatory, operator contestants are strongly encouraged to participate.
6. Uniforms are optional for practice, but proper footwear must be worn.

Pre-trip inspection

1. Operators contestants will perform a Pre-Trip Inspection that will be scored.
2. There is no practice for this event. Operators contestants will be assigned a time to report for the Pre-Trip Inspection Competition.
3. Operators contestants should report 15 minutes prior to their assigned time to the Pre-Trip Inspection report area.
4. The Pre-Trip Inspection Competition is mandatory for all competing operator contestants and is included in the final scoring.

Customer service preliminary round (to qualify for customer service challenge on Monday)

1. This is an optional event. It is scored separately from the Rodeo. It is not part of the Rodeo, and the results will not be included in the Rodeo competition score.
2. Operator contestants interested in competing in the Customer Service Challenge must participate in a face-to-face interview with the judging panel on Saturday.
3. Operator contestants can sign up on Friday at Orientation.
4. The Customer Service Challenge judges will be located at the Rodeo site and will interview interested operator contestants starting at 9 a.m.
5. Interviews will normally take no more than 10 minutes.

1.3 Sunday

Competition

1. Operators are required to report to the Registration area at the Rodeo site at least 60 minutes before their scheduled competition start time. Operators who report late on competition day may be disqualified from competition.
2. On competition day, operators will be judged on appearance and driving skills only.
3. On competition day, operators will not be tested with a safety quiz or defective bus test.
4. Operators must be in the full regulation uniform of their transit system for competition inspection. Upon completion of the inspection, operators will be allowed to remove coats and ties, if desired.
5. Each course is uniquely engineered for every Rodeo. Therefore, the order of events (obstacles) may be laid out differently than shown in this handbook. However, the construction of each obstacle will be in accordance with the provisions stated in this handbook.
6. Rodeo Officials will attempt to utilize the measurements outlined in this handbook; however, Rodeo Officials reserve the right to make changes based on the space available at the Rodeo site and equipment variations. The course will be verified by the On-course Officials to ensure that all obstacles are negotiable with the equipment provided.

2. Equipment

1. Operator contestants will compete using a 40+ foot bus.
2. The buses will be equipped with bike racks if used by the host property.
3. Competition vehicle specification sheets can be found in the Host Information section of this handbook.

3. TrackIT

This device will *objectively* measure braking and cornering forces and produce an automatic-‘smoothness of operation score’, to determine the driver’s ability to navigate the obstacles smoothly. TrackIt will also be used for automatic timekeeping and data collection to assist on-board judges in scoring the event.

4. Competition events

4.1 Pre-trip inspection

4.2 Competition – Saturday

The Pre-Trip Inspection competition is mandatory and an important part of your overall score. This can sometimes be the difference between being the champion or not. In order to identify the planted defects, it is important to have a systematic approach to the pre-trip inspection to ensure complete coverage of the bus. It is highly recommended you prepare for this competition event and you spend time on the display bus to familiarize yourself with the model and series of the bus.

4.2.1 Defects

1. Eight (8) equipment-related defects and one (1) security hazard are planted on or in a bus. These defects would make a bus operationally unready or unsafe.
2. Defects are of a type that an operator would find when performing a pre-trip inspection.
3. Identification of defects does not require starting the bus or crawling under the bus.
4. Operator contestants will not be allowed to have a checklist of defects to refer to during the competition.
5. Eligible defects might include broken, loose, bad, missing, or incorrect:
 - seats
 - any type of lights
 - windows
 - stanchions
 - flooring
 - fire extinguisher
 - windshield
 - wipers
 - mirrors
 - number
 - doors
 - license plate
 - bell cord

And a security hazard such as an abandoned package or briefcase.

6. Ineligible defects include:
 - defects under the bus
 - exterior body damage
 - paint problems
 - wheelchair operations
 - kneeling functions
 - radios
 - fare boxes
 - destination signs
 - battery compartment
7. Equipment, where multiple defects are possible will be counted only once, i.e., seats, windows, lights.
8. Front and rear windows, headlights, taillights, brake lights, mirrors, and turn signals each count as separate defects.

4.2.2 Time

1. Each operator contestant will be allotted eight (8) minutes to inspect, locate, identify, and legibly record any defects found.
2. Time warnings will be given to the operator contestant at the two (2) minute, one (1) minute, and 30 second time marks.
3. Recording defects, returning bus to original condition, and securing doors will not be allowed after time has elapsed.

4.2.3 Scoring

1. Five (5) points will be awarded for each of the eight (8) planted defects found, and ten (10) points will be awarded for one (1) planted security challenge for a maximum of fifty (50) points.
2. Points will be awarded only for those recorded defects that were planted by the judges. No points will be awarded for the identification of defects that were not planted.
3. The operator will notify the judge when finished. Once notice is given, the operator may not list additional defects.
4. The judge will review the list of defects with each operator contestant for clarification.
5. A penalty of one (1) point will be assessed for each instance where the bus is not returned to its original condition; for example, one (1) point assessed for lights left on, wipers left running, master switch on, windows open, and escape hatches open, etc.

Starting the bus constitutes a safety violation and will result in the operator contestant being disqualified from this event. The inspection bus will be supplied with necessary electrical power and air pressure

4.3 Operators' Obstacle Course

The eleven driving obstacles are worth 50 points each. See Appendix 4 for operators obstacle descriptions. **Reckless use of the equipment and flagrant disregard for the safety of others may result in immediate disqualification.**

4.3.1 Serpentine

1. This obstacle tests the operator contestant's ability to negotiate tight turns. The contestant enters the course through a 'gate' and steers in and out through three (3) cones and exits the course through a 'gate.'
2. Points will be deducted for:
 - touching cones
 - shifting into reverse
 - not completing the course as designed

4.3.2 Offset Street

1. This obstacle requires the operator contestant to drive through two separate narrow lanes that are offset to the right one full lane's width from each other.
2. Points will be deducted for:
 - touching cones
 - shifting into reverse
 - not completing the course as designed

4.3.3 Rear Duals Clearance

1. This is an obstacle where the operator contestant must drive through a lane with the right dual tires. The lane is only slightly wider than the total outside width of a pair of rear duals and is marked with large flat washers and tennis balls. The lane diminishes in width from the entrance to the exit.
2. Points will be deducted for:
 - touching balls
 - shifting in reverse
 - not completing the course as designed

4.3.4 Right-Hand Turn

1. This obstacle tests the operator contestant's ability to negotiate a tight 90° turn. The corner is marked with cones, and the right rear tire of the bus is to pass within six (6) inches of the corner cone.
2. Points will be deducted for:
 - touching cones
 - shifting into reverse
 - excessive right rear tire clearance
 - not completing the course as designed

4.3.5 First Customer Stop

1. This event simulates a customer stop. The operator contestant should stop the vehicle with the front right tires within six (6) inches of the simulated curb. Rear tires must be within 15 inches of the simulated curb. After stopping the vehicle, the operator contestant is required to open the door to complete the test. An ADA stop announcement must be made before exiting the passenger stop.
2. Points will be deducted for:
 - touching cones
 - touching 'curb'
 - front tire measurement over six (6) inches
 - rear tire measurement over 15 inches
 - shifting into reverse
 - not completing the course as designed

4.3.6 Left-Hand Reverse

1. This obstacle tests the operator contestant's ability to back the vehicle between two obstacles which requires the vehicle to back up to the left.
2. Points will be deducted for:
 - touching cones
 - shifting into reverse after the initial reverse
 - rear clearance beyond 36 inches
 - not completing the course as designed

4.3.7 Left-Hand Turn

1. This obstacle tests the operator contestant's ability to make a tight left turn in a close situation. The operator contestant is required to steer the vehicle into a 90° turn without touching any of the cones.
2. Points will be deducted for:
 - touching cones
 - shifting into reverse
 - not completing the course as designed

4.3.8 Second Customer Stop

1. This event simulates another customer stop. The operator contestant should stop the vehicle with the front right tires within (six) 6 inches of the simulated curb. Rear tires must be within 15 inches of the simulated curb. After stopping the vehicle, the operator contestant is required to open the door to complete the test. An ADA stop announcement must be made before exiting the passenger stop.
2. Points will be deducted for:
 - touching cones
 - touching 'curb'
 - front tire measurement over six (6) inches
 - rear tire measurement over 15 inches
 - shifting into reverse
 - not completing the course as designed

4.3.9 Right-Hand Reverse

1. This obstacle tests the operator contestant's ability to back up the vehicle between two obstacles which requires the vehicle to back up to the right.
2. Points will be deducted for:
 - touching cones
 - shifting into reverse after the initial reverse
 - rear clearance beyond 36 inches
 - not completing the course as designed

4.3.10 Diminishing Clearance

1. This obstacle tests the operator contestant's ability to judge the position and speed of the vehicle. The operator contestant is required to drive through a narrowing, V-shaped channel outlined with barrels. The bus must obtain a minimum speed of 20 miles per hour within the obstacle.
2. Points will be deducted for:
 - touching barrels
 - speed below 20 miles per hour
 - not completing the course as designed

4.3.11 Judgment Stop

1. This event tests the operator contestant's ability to judge stopping distances between the bus and a small object directly ahead. A small cone is placed on the final stop. The operator contestant must stop with the front bumper or bike rack within six (6) inches of the cone.
2. Points will be deducted for:
 - touching cone
 - excessive total stops
 - excessive clearance beyond six (6) inch limit
 - not completing the course as designed

4.4 Other scored events

4.4.1 Safety Habits

1. The operator contestant's safety habits will be reviewed while operating the vehicle.
2. This event category is worth 25 points.
3. Points will be deducted for:
 - failure to use proper turn signals
 - failure to sound the horn before backing up
 - failure to use flashers while backing up
 - moving vehicle with door open
 - poor posture
 - poor use of mirrors
 - poor use of hands
 - poor use of feet

4.4.2 Smoothness of Operation

1. The operator contestants' ability to deliver a smooth ride will be evaluated during the driving events.
2. This event category is worth 25 points.
3. Points will be deducted for:
 - failure to make ADA announcements
 - sudden stops
 - sudden starts
 - abrupt turns

4.4.3 Personal Appearance

1. The operator contestant's appearance will be evaluated for neatness, cleanliness and professionalism. The operator contestant must report wearing the uniform appropriate for their transit system.
2. This event category is worth 50 points.
3. Points will be deducted for:
 - wrinkled, dirty, incomplete uniform
 - unpolished or dirty shoes
 - unkempt personal appearance
4. Operators contestant who report wearing shoes with heels that exceed 1½ inches will not be allowed to compete unless the shoes are changed before competing. Shoe heels built up for medical/corrective purposes will be allowed based on approval by the course judge (chairman or vice-chairman).

4.4.4 Total course time

1. Operators contestant are timed for each driving course event. Timing begins when the operator contestant begins the course and ends with the completion of the judgment stop.
2. Time is stopped for mechanical trouble, any type of course blockage that would impede the operator contestant progress and where measurements are required for event scoring.
3. One point is deducted for each second over the seven (7) minutes allotted to complete the course. The maximum deduction is 180 points.
4. A maximum of 10 minutes will be allowed to complete the course. Operator contestants will be required to vacate the course after 10 minutes.

5. Operator contestant scoring

Operator contestant Score Sheets can be found in Appendix 5.

5.1 Driving Competition

1. There will be a first, second and third place award.
2. There are 700 maximum points for the driving portion of the competition.
3. Fifty (50) points will be deducted for obstacles attempted in the wrong order.
4. Ten (10) points will be deducted for any course marker touched not associated with an event (obstacle).
5. The full value of the event (obstacle) will be deducted for any event not attempted or completed as designed.
6. In case of a tie, the tie breakers will be as follows
 - Lowest time on the course
 - Closest measurement to the Judgment Stop cone.
7. The judgment of events (obstacles) will be the responsibility of the Event Judges. All decisions made by Event Judges are final.
8. Procedural questions must be directed to appropriate On-course Rodeo Officials (Chairman or Vice-Chairman).
9. Operator Contestants are only allowed on the course when competing.
10. Operator Contestants are not permitted to talk to Event Judges at any time during the competition.
11. Rodeo Officials will enforce all Rodeo 'Rules and Regulations', supervise event judges, and provide on-the-spot procedural decisions. The Chair of the International Bus Rodeo Committee is the Chief Rodeo Official.

5.2 Pre-Trip Inspection

1. There is a maximum of 50 points for the Pre-Trip Inspection.
2. The highest score for the Pre-Trip Inspection will be recognized by a separate award. The sponsor USSC will provide an award to the winner of this event.

TECHNICIANS' ROADEO

1. General information

1. Maintenance teams normally consist of three (3) maintenance employees. Two-member maintenance teams may compete but must compete without concessions.
2. All members of the maintenance team may participate in all events.
3. Contestant teams must arrive at the on-site check in 60 minutes prior to competition time and must arrive at the maintenance holding area at least 30 minutes prior to their scheduled competition time. Teams arriving late may be disqualified from the competition.
4. Each team member will be supplied with a clipboard, paper, pencil, flashlight, necessary rags, and compartment door T-key. Each team will be supplied with team numbers and team stickers for each event.
5. Each team member will be issued safety glasses when they report to on-site check in on competition day. Safety glasses must be worn when required by an event. Maintenance team members may bring their own safety glasses which will be subject to examination at on-site check in to ensure they meet safety requirements.
6. Hearing protection will be provided at both engine modules. Mechanic team members may bring their own hearing protection which will be subject to an examination at on-site check in to ensure they meet safety requirements.
7. Abbreviations used in the shop or industry are allowed as long as they are understandable to the judges.
8. A general location must be given when identifying multiple equipment defects, i.e., window RR.
9. Teams will incur penalties whenever they use tools/test equipment improperly and/or violate safety rules.
10. When listing defects, write legibly.
11. For events that only allow a limited number of defect listings, team members may cross out unwanted listings during the allotted time or they will be counted in the order they are listed.
12. Any Maintenance team member seen at the Roadeo site on Saturday (practice day) may cause their team to be immediately disqualified.
13. On competition day, contestants may not watch or be in any of the competition areas either before or after competing.
14. Still photos are allowed during the competition. There will be absolutely no video cameras and/or videotaping in the maintenance competition area.
15. Maintenance teams must wear proper clothing including closed toe footwear and long pants (no shorts) for the competition.

2. Competition events

Technicians are required to diagnose and repair complaints of low power, excessive smoke, harsh shifting and/or other performance related problems. Proper diagnostic and troubleshooting techniques then become essential in insuring that buses meet the required levels of performance for daily revenue service. This, then, becomes another means of testing and measuring a team of technicians' knowledge, skills and abilities.

The Technicians Competition Events include the following:

1. Written Test
2. USSC Vehicle Inspection
3. Allison Transmission/Cummins/EMP Power Train Event
4. Cummins/Voith Power Train Event
5. Custom Training Aid/Bendix Air Brake Board Event
6. Thermo King HVAC IntelligAIRE Event
7. MCI Multiplex Module
8. Vapor Door Event

2.1 Written Test

1. Description:

- Each maintenance team will jointly take a written test of 50 questions.
- The test will use the ASE format with questions split between general knowledge, engine, HVAC, brakes, electrical and transmission.

2. Time:

- Team members are allotted 30 minutes to answer all test questions
- Time warnings will be given to the team at two (2) minutes, one (1) minute, and 30 second time marks:

3. Scoring:

- Each question is worth 2.5 points.
- There is a maximum of one hundred twenty-five (125) points.

4. Tie breakers on the written test will be as follows:

- First tie breaker: least amount of time to complete the test
- Second tie breaker: correct answers for four (4) identified questions

2.2 USSC Vehicle Inspection

2.2.1 Defects

1. Fourteen (14) equipment-related defects are planted on or in a bus. These defects would make a bus operationally unready. Defects are of a type that a technician should find during a minor mechanic inspection.
2. Each team member may list unlimited defects.
3. Identification of defects does not require starting the bus or crawling under the bus.
4. Teams will not be allowed to have a checklist of defects to refer to during the competition.
5. Eligible defects might include broken, loose, bad, missing, or incorrect:
 - seats
 - all type of lights
 - windows
 - stanchions
 - flooring
 - fire extinguisher
 - door engines
 - wipers
 - windshield
 - number
 - mirrors
 - license plate
 - doors
 - dipsticks
 - bell cord
 - a security hazard
6. Ineligible defects include:
 - defects under the bus
 - exterior body damage
 - paint problems
 - wheelchair operations
 - kneeling functions
 - radios
 - fareboxes
 - destination signs
 - battery compartment
7. Equipment where multiple defects are possible will be counted only once, i.e., seats, windows, lights.
8. Front and rear windows, headlights, tail lights, brake lights, mirrors, and turn signals will each count as separate defects.

2.2.2 Time

1. All members of a team are allotted seven (7) minutes to inspect, locate, identify, and legibly record any defects found.
2. Time warnings will be given to the team at the two (2) minute, one (1) minute, and 30 second time marks.
3. Recording defects and securing doors will not be allowed after time has elapsed.

2.2.3 Scoring

1. Twenty-five (25) points are awarded for each planted defect found, with a maximum of three hundred and fifty (350) points.
2. Points will be awarded only for those recorded defects that were planted by the judges. No points will be awarded for identification of defects which were not planted.
3. The team will notify the judges when they are finished. Once notice is given, the team may not list additional defects.

4. The judges will review the list of defects with each team for clarification.
5. A penalty of ten (10) points will be assessed for each instance where the bus is not returned to its original condition; for example, ten (10) points assessed for each compartment door not secured including the entrance door, lights left on, wipers left running, master switch on, windows open, and escape hatches open, etc.
6. A penalty of ten (10) points will be assessed for each incident of unsafe practice during the vehicle inspection.
7. Starting the bus constitutes a safety violation and will result in the team being disqualified from this event. The inspection bus will be supplied with necessary electrical power and air pressure.

2.3 Allison Transmission / Cummins / EMP Power Train Event

2.3.1 Description

The Allison Transmission / Cummins / EMP Power Train Module is composed of a Cummins EPA 2010 ISL9 engine combined with an Allison B400R transmission and EMP's Mini-Hybrid® system mounted on a portable frame. Laptops will be supplied to interface with the Allison DOC® for PC, Cummins INSITE™ and EMPower Connect™ diagnostic software programs. The Power Train Modules feature simulations of typical transit bus vehicle interfaces.

1. Cummins engine specifications are:

- Cummins EPA 2010 ISL9
 - 540 cubic inch displacement
 - 280 hp (209 kW)
 - 900 lb-ft (1220 N-m) @ 1300 RPM
 - 2200 RPM governed speed
- Cummins XPI Fuel System
 - CM2250 control module
 - J1939 CAN interface
 - High pressure common rail system
- VGT™ Turbocharger
 - HE431VE variable geometry turbocharger
- Fuel Pro Fuel Filter
 - Primary & secondary assembly
 - Integrated water separator
- EcoFit™ Ultra-Low Emission System
 - SCR technology & DEF injection

2. Allison transmission specifications are:

- Allison B400R Bus Series
- 300 hp (224 kW) 925 lb-ft (1254 N-m) rating
 - TC418 Torque converter (1.98 stall torque ratio)
 - Integral output retarder
 - Low setting
 - 1100 lb-ft (1490 N-m) 400 hp (298 kW)
 - Air-actuated retarder accumulator
 - Integral sump cooling
 - Allison TransSynd TES295™ synthetic oil
- Allison Optimized Smart Controls
 - Allison 5th Generation controls
 - Load-Based Shift Scheduling (LBSS)
 - Allison Prognostics
 - Reduced Engine Load at Stop (RELS)
 - Vehicle Acceleration Control (VAC)
 - Increased lockup availability
 - Retarder enable
 - Multi-level retarder apply system
 - Secondary shift schedule
 - Auxiliary function range inhibit

3. EMP cooling & charging system specifications are:

- EMP Mini-Hybrid®
- Radiator and Charge Air Cooler
 - Brazed aluminum bar/plate construction
- Diagnostic capability
- 4 EMP FIL-15 24 VDC Pusher fans
- Integrated fan controllers + system controller
- J1939 CAN Interface for system to vehicle
- Fan reversal & diagnostic LED panel
- Amperage – 55-amp max @ 24 VDC each fan
- Power 450 brushless alternator
 - 450 Amp 28 VDC
 - Air cooled
 - Turn-on speed – 1250 RPM
 - Maximum speed – 6500 RPM
 - Maximum ripple voltage – 300 mV
 - Weight – 100 lbs. (45.4 kg)

2.3.2 Defects

1. Seven (7) defects or problems related to transmission, engine, and cooling system malfunctions are planted. One defect will render the engine inoperable. For purposes of the Roadeo, inoperable means that the engine will not start or when started will not maintain an idle RPM that meets engine manufacturer's specification. This is the only defect that must be repaired.
2. A battery disconnect switch is located next to the batteries. It is to be returned to the OFF position at the end of the event.
3. A team may attempt to start the engine at any time to check for defects.
4. Types of defects could include:
 - Improper activation of components
 - Malfunctioning fuel system
 - Obstruction with the flow of air, water, exhaust, fuel or oil
 - Improper fluid levels
 - Defective sensors, wires and/or connectors
 - Missing assemblies or parts thereof
 - Loose or missing caps or covers
5. Defects do NOT include fluid leaks such as oil, water, fuel, etc.
6. The judges will review the list of defects with each team upon completion of time to clarify their list of defects. The team does not have to replant the one (1) repaired defect.
7. Defect determination which normally would require a running engine will not be scored if the engine is not started.

2.3.3 Time

1. Team members will be allotted ten (10) minutes to inspect, trouble shoot, diagnose, correct, and legibly record the planted defects.
2. The team is only required to correct that defect which prevents the power train from starting and/or maintaining an idle RPM that meets engine manufacturer's specification.
3. Time warnings will be given to the team at the two (2) minute, one (1) minute, and 30 second time marks.

2.3.4 Safety

1. Wear PPE always
 - Safety Glasses
 - Hearing Protection
2. Stay Clear of rotating components
 - Belts
 - Output Shaft
3. Do not touch hot components
4. Confirm "ALL CLEAR" before starting engine

2.3.5 Scoring

1. Fifty (50) points are awarded for each planted defect found, with a maximum of 350 points.
2. Points will be awarded for each defect correctly identified, recorded, and, in the case of that defect which renders the power train inoperable, corrected. Only those defects planted by the judges will be considered for scoring purposes.
3. Only seven defects are to be listed. If more than seven are listed, only the first seven listed will count for scoring purposes. If more than seven were initially listed, unwanted listings may be crossed out to leave the top choices but must be completed prior to time expiration.
4. The team will notify the judges when they are finished. Once notice is given, the team may not list additional defects.
5. The judges will review the list of defects with each team for clarification.
6. A team will be penalized fifty (50) points for not having the power train in operational condition before an engine start is attempted, i.e., air cleaner removed, fuel lines disconnected etc.
7. The team will be penalized ten (10) points for misuse of any diagnostic/test equipment.
8. The team will be penalized ten (10) points for each safety violation incident.
9. In the event of a tie, the fastest time to correct the defect and start the engine which renders the engine inoperable will determine the winner.

2.4 Cummins/Voith Power Train Event

The Cummins/Voith engine transmission module is composed of a Cummins ISL 280 engine combined with a Voith 864.5 transmission and EMP's Mini-Hybrid® system mounted on a moveable frame. The engine, transmission and Mini-Hybrid® utilize the latest diagnostic software, ALADIN for Voith, INSITE™ for Cummins and EMPOWER Connect™ for EMP. The engine is outfitted with a non - functional air compressor.

The Cummins engine specifications are:

- The engine is a 2010 EPA Certified Cummins ISL 280 engine, six cylinders displacing 540 cubic inches. The engine is governed to 2200 rpm and produces 900 ft-lb of torque at 1300 RPM.
- It incorporates a CM 2250 Cummins ECM engine control using a J1939 signal for communication to the transmission.
- The fuel injection system is the XPI high pressure common rail system incorporated with a primary and secondary fuel filter assembly with an integrated water separator.
- The engine also utilizes a Variable Geometry HE431VE turbocharger which feeds into the Cummins After treatment System that utilizes the latest SCR technology and DEF injection.

The Voith transmission specifications are:

- The transmission is an 864.5
- There is a 6-button pushbutton selector and switches to simulate brake stage 1, 2 and 3 to activate the retarder.
- Transmission shifting functions are controlled by the latest version of the E300 controller which has had the latest version of Voith's performance and fuel savings software (SensoTop) installed.
- There are two gauges mounted on a panel which show main operating pressure and converter pressure.
- The retarder is internal to the transmission and uses Voith technology to accelerate and decelerate the unit.
- The transmission design features an integrated heat exchanger which eliminates lines to the cooler for easier installation.
- The transmission is filled with the highest quality ATF and meets the specifications listed in our most recent Service Bulletin SB118.

The EMP Mini-Hybrid® cooling system specifications are:

- There are 4 EMP FIL-15 24VDC pusher fans with integrated controllers which are commanded by the TMC system controller via EMP-link and are reversible.
- The cooling is achieved through the use of a Brazed aluminum bar/plate radiator and charge air cooler.
- Cooling system diagnostics utilize the J1939 CAN interface for system to vehicle diagnostics. Diagnostic capabilities are available either through the service tool, EMPOWER Connect™, or the LED lamp located near the system itself.

The EMP alternator specifications are:

- A P450 is an air cooled brushless alternator providing up to 450 amps at 28VDC.
- It has a turn on RPM of 1250 RPM with a Maximum speed of 6500 RPM.
- Alternator and fans are fully guarded to prevent injury.

2.4.1 Defects

1. Seven (7) defects or problems related to engine and transmission malfunctions are planted. One defect will render the engine inoperable. For purposes of the Rodeo, inoperable means that the engine will not start or when started will not maintain an idle of 700 rpm.
2. A team may attempt to start the engine at any time to check for defects.
3. Types of defects could include:
 - Improper activation of components

- Malfunctioning fuel injector
 - Obstruction with the flow of air, water, exhaust, fuel or oil
 - Improper fluid levels
 - Defective sensors, wires and/or connectors
 - Missing assemblies or parts thereof
4. Defects do NOT include fluid leaks such as oil, water, fuel, etc.
 5. The judges will review the list of defects with each team upon completion of time to clarify their list of defects. The team does not have to replant the one (1) repaired defect.
 6. Defect determination which normally would require a running engine will not be scored if the engine is not started.

2.4.2 Time

1. Team members will be allotted ten (10) minutes to inspect, trouble shoot, diagnose, correct, and legibly record the planted defects.
2. The team is only required to correct that defect which prevents the power train from starting and/or maintaining an idle speed of 700 rpm.
3. Time warnings will be given to the team at the two (2) minute, one (1) minute, and 30 second time marks.

2.4.3 Safety

1. Wear PPE always
 - Safety Glasses
 - Hearing Protection
2. Stay Clear of rotating components
 - Belts
 - Output Shaft
3. Do not touch hot components
4. Confirm “ALL CLEAR” before starting engine

2.4.4 Scoring

1. Fifty (50) points are awarded for each planted defect found, with a maximum of 350 points.
2. Points will be awarded for each defect correctly identified, recorded, and, in the case of that defect which renders the power train inoperable, corrected. Only those defects planted by the judges will be considered for scoring purposes.
3. Only seven defects are to be listed. If more than seven are listed, only the first seven listed will count for scoring purposes. If more than seven were initially listed, unwanted listings may be crossed out to leave the top choices but must be completed prior to time expiration.
4. The team will notify the judges when they are finished. Once notice is given, the team may not list additional defects.
5. The judges will review the list of defects with each team for clarification.
6. A team will be penalized fifty (50) points for not having the power train in operational condition before an engine start is attempted, i.e., air cleaner removed, fuel lines disconnected etc.
7. The team will be penalized ten (10) points for misuse of any diagnostic/test equipment.
8. The team will be penalized ten (10) points for each safety violation incident.
9. In the event of a tie, the fastest time to correct the defect and start the engine which renders the engine inoperable will determine the winner.

2.5 Custom Training Aids/Bendix Air Brake System (ABS) Event

The competition will be conducted using a fully functional air brake system with Antilock Brake System (ABS) components. The components of the system will be functional with the exception of the air compressor.

2.5.1 Description

NOTE: The description, drawing and component list contains the most current information and is subject to change.

The air brake demonstration board represents a current model year 40'-2 axle transit bus equipped with an antilock brake system. The board is manufactured to current Federal Motor Vehicle Safety Standard 121. Air reservoirs and brake chambers are reduced in size to limit air consumption while maintaining precise control and operation of system components. The foundation brake system represents an 'S' Cam spring braked vehicle. Anti-lock brake system is a Wabco 'D' version 4S/4M 12 volt system controlled by a cab mount electronic control module with transmission retarder control relay. Brake valves are manufactured by Bendix and are common to most current transit buses meeting FMVSS 121. All air system components are fully functional with exception of the air compressor. The air compressor is a cut-away demonstration unit with fully functional unloader valves.

2.5.2 System components

- Tu-Flo 700 Air compressor
- D-2 Air Governor, cutout set to 120 PSI
- AD-9 Air Dryer with 175 psi ST-3 safety valve
- Puraguard oil separator mounted after the air dryer
- E-6 Brake application valve
- R-12DC Service brake relay valve with a crack pressure of 5.5 PSI
- R-14 Spring brake relay valve with a crack pressure of 4.0 PSI
- QR-1 Front service brake valve with a crack pressure of 0 psi
- SR-1 Spring brake modulation valve
- SL-5 Stop light switches which light the 2 LED stop lights at 5 PSI
- LP-3 Low-pressure switches rated at 70 PSI
- RV-1 Interlock pressure regulator adjusted to 45 PSI
- PR-3 Pressure protection valve mounted on accessory reservoir opens at 92-98 PSI
- PP-1 Control valve with an application pressure of 40 PSI
- RD-3 Spring brake emergency release valve
- Duplex instrument panel air pressure gauge with green and red needles representing Primary and Secondary air brake systems.
- ST-3 Safety valve, 150 PSI

- SC-3 single check valves
- DC-4 double check valves
- Wabco open style modulator valves
- SAB automatic slack adjusters
- Type-20 front service brake chambers
- Type-24 Service/Spring brake chambers

Air Lines are color coded to represent:

- **Supply air system:** Black
- **Primary brake system:** Green
- **Secondary brake system:** Red
- **Emergency system:** Brown
- **Governor control:** Yellow

2.5.3 Defects

Part I – Air Brake System Electrical/Pneumatics Diagnostics

1. The team will be required to use a Digital Volt Ohm Meter (DVOM) to diagnose an electrical component. The electrical component may include, but is not limited to: electrical relays, sensors, wiring harness, etc.
2. Part I will be timed and will be used as a tie breaker for the event.

Part II – Air Brake System Trouble Shooting

3. The team will be required to inspect, locate, identify, and legibly record, including location, the six (6) planted defects.
4. Defects will be mechanical in nature but will not be air line or connection leaks.
5. Identification of defects will not require the system to be repaired, taken apart, or disconnected.

2.5.4 Time

6. Seven (7) minutes will be allotted for this event.
7. Time warnings will be given to the team at the remaining time of two (2) minutes, one (1) minute, and 30 seconds.

2.5.5 Scoring

8. Total Possible Points for this event is 350.
9. Fifty (50) points will be awarded for the successful diagnosis of Part I, Air Brake System Electrical/Pneumatics Diagnostics.
10. Part II, Air Brake System Trouble Shooting, will be worth 300 points. Fifty (50) points will be awarded for each of the six (6) planted defects found in the Air Brake System.
11. Points will be given only for those recorded defects that were planted by the judges. No consideration will be given for listed defects not planted.
12. Only six defects are to be listed. If more than six are listed, only the first six listed will count for scoring purposes. If more than six were initially listed, unwanted listings may be crossed out to leave the top choices but must be done prior to time expiration.
13. The team will be penalized ten (10) points for misuse of any diagnostic/test equipment.
14. The team will be penalized ten (10) points for safety violation incident.
15. The team will be penalized ten (10) points if the ABS board is not returned to its original status, i.e. Air: on/off, Power: on/off and tools not returned to their original location.
16. The team will notify the judges when they are finished. Once notice is given, the team may not list additional defects.
17. The judges will review the list of defects with each team for clarification.

In the event of a tie, the fastest time to correctly diagnose and record the defects in Part I Air Brake System Electrical/Pneumatics Diagnostics will determine the winner

2.6 Thermo King HVAC IntelligAIRE Event

2.6.1 Description

The competition will be conducted on a fully operational bus air conditioning maintenance training simulator.

2.6.2 Components

- Thermo King Model T Series rear mount bus air conditioning unit
- IntelligAIRE III controls
- Thermo King brushless motors
- QS391 compressor and clutch assembly
- Belt driven 150 amp, 27 VDC Battery-less alternator
- 460VAC/3 phase, 20 horsepower electric motor and batteries

2.6.3 Equipment

The following equipment will be provided for this event:

1. Laptop computer with interface cable
2. Thermo King IntelligAIRE III CANDiag software to provide diagnostic capabilities
3. Digital Multi-meter with test leads

No other hand tools will be needed for the competition.

2.6.4 Defects

1. One defect will render the air conditioning system inoperable. For purposes of the Rodeo, inoperable will mean that the 20-horsepower electric motor, which is belt driving the compressor/alternator, is running; however, the air conditioning unit does not operate.
2. The team will only have to correct the defect that prevents the air conditioning unit from starting.
3. Defects will be mechanical or electrical in nature, but leakage of refrigerant or oil will not be considered a defect.
4. Defects will be such that they do not require the A/C system to be repaired or taken apart.

2.6.5 Time

1. The team will be allotted ten (10) minutes to inspect, troubleshoot, diagnose, and legibly record the planted defects.
2. Time warnings will be given to the team at the two (2) minute, one (1) minute and 30 second time marks.

2.6.6 Scoring

1. Points for this event total 350.
2. Fifty (50) points are awarded for each of six (6) planted defects found and recorded including one (1) defect that must be recorded and corrected to enable the air conditioning unit to function.
3. Fifty (50) points will be awarded for recording all active logged codes.
4. Points will be given only for those six (6) defects and one logged code that are planted by the judges. No consideration will be given for listed defects or codes not planted.
5. Only six defects are to be listed. If more than six are listed, only the first six listed will count for scoring purposes. If more than six were initially listed, unwanted listings may be crossed out to leave the top choices but must be completed during the competition allowed time.
6. When finished all team members are to return behind the start/finish line and notify judges. The clock will then be stopped.
7. Once notice is given, the team may not list additional defects or make additional corrections to the air-conditioning system.
8. The team will be penalized ten (10) points for not returning the A/C unit simulator to original status when they are finished.
9. The team will be penalized ten (10) points for misuse of any diagnostic/test equipment or tools.
10. The team will be penalized ten (10) points for each safety violation incident.
11. In the event of a tie, the fastest time to get the compressor running will determine the winner.

2.7 MCI I/O Controls Module

2.7.1 Description

The competition will be conducted on a operational board using the Dinex I/O T2 Control electrical system. The board will have multiple electrically related defects.

2.7.2 Components

Two (2) Motor Coach Industries I/O boards similarly equipped with I/O T2 Controls Multiplex Electrical System will be used for this competition.

2.7.3 Equipment

The following equipment will be provided for this event:

1. Digital Multi-meter with test leads
2. I/O Control ladder logic
3. Hand tools as required

2.7.4 Defects

1. Defects will be electrical in nature.
2. A total of seven (7) defects will be inserted into the I/O electrical board.

2.7.5 Time

1. The team will be allotted seven (7) minutes to inspect, troubleshoot, diagnose, and legibly record the planted defects.
2. Time warnings will be given to the team at the two (2) minute, one (1) minute and 30 second time marks.

2.7.6 Safety

1. Teams will be expected to work in a safe manner during competition
2. Teams may choose to wear PPE at their own decision.

2.7.7 Scoring

1. Possible points for this event total 350.
2. Fifty (50) points are awarded for each of the seven (7) planted defects found including recording and defining the cause and symptom of the defect.
3. Points will be given only for those seven (7) defects that were planted by the judges. No consideration will be given for listed defects not planted.

4. Only seven defects are to be listed. If more than seven are listed, only the first seven listed will count for scoring purposes. If more than seven are initially listed, unwanted listings may be crossed out, but must be completed prior to time expiration.
5. Points will be awarded for each defect correctly identified, and recorded
6. The team will notify the judges when they are finished. Once notice is given, the team may not list additional defects.
7. The team will be penalized ten (10) points for misuse of any diagnostic/test equipment or tools.
8. The team will be penalized ten (10) points for each safety violation incident.
9. In the event of a tie, the fastest time to complete the event will determine the winner.

2.8 Vapor Door Event

2.8.1 Description

The competition will be conducted on a fully operational, half-height bus door system mockup.

2.8.2 Components

Vapor rear-door, slide-glide door system. Pneumatic actuator baseplate assembly includes a Vapor Activair® door engine, connecting rods, door shaft levers, pressure wave switches, wiring and air hoses. Also included: two (2), half-height Vapor Ameriview® door panels equipped with Vapor mechanical touch bars and sensitive leading edges, roller brackets, brushes and door seals; vertical shafts and arms; emergency release mechanism; and a driver's door controller handle. An air compressor will provide 90-120psi air supply to the door system.

2.8.3 Equipment

All necessary tools and equipment required to compete in this event will be provided.

2.8.4 Time

1. The team will be allotted seven (7) minutes to inspect, locate, identify and legibly record the planted defects.
2. Time warnings will be given to the team at the remaining time of two (2) minutes, one (1) minute, and thirty (30) seconds.

2.8.5 Defects

The competition will consist of seven (7) planted defects.

1. The defects will be mechanical or electrical in nature. The team will not be required to repair the defect. Leakage of air will not be considered a defect.
2. The team may attempt to open and close the doors to check for defects.

2.8.6 Safety

Each team will designate a team member as the “Door Opener”.

1. Door Opener to yell “CLEAR” prior to moving the door control handle. Must hear verbal acknowledgment “CLEAR” from each of the other team members before moving the door control handle.
2. A 10-point Safety Violation will be assessed for each instance this procedure is not followed.
3. A team member is allowed to stand on the inboard side (inside) of the mockup.

2.8.7 Scoring

1. Fifty (50) points are awarded for each planted defect found, with a maximum of three hundred and fifty (350) points.
2. Only those defects planted by the judges will be considered for scoring purposes. No consideration will be given for listed defects not planted.
3. Only seven (7) defects are to be listed. If more than seven are listed, only the first seven will count for scoring purposes. If more than seven were initially listed, unwanted listings may be crossed out to leave the top choices but must be completed prior to the time expiration.
4. The team will notify the judges when they are finished. Once notice is given, the team may not delete or add additional defects.
5. The judges will review the list of defects with each team for clarification.
6. The team will be penalized ten (10) points for each safety violation incident.
7. In the event of a tie, the fastest time to identify and record the most planted defects will determine the winner.

3. Maintenance scoring

Maintenance Score Sheets can be found in Appendix 6

Overall maintenance awards

1. There will be a first, second and third place award for the overall maintenance competition. The awards will be determined by highest point values.
2. In case of a tie for any place, the tie will be settled in the order as follows:
 - The highest combined score from the Cummins/Allison and Cummins/Voith Power Train Event Problems
 - The highest vehicle inspection score
 - The lowest combined time required on the Cummins/Allison and Cummins/Voith Power Train Event Problems
3. All decisions of the event judges are final.

Individual maintenance events:

1. The highest scores in each of the maintenance events will be recognized by a separate award.
2. Sponsors of the Maintenance events also provide prizes.

CUSTOMER SERVICE CHALLENGE

4. Qualifications

1. Qualifying contestants must be bus operators who meet all the qualifying criteria of an operator competing in the International Bus Roadeo. (See General Information, A & B)
2. Qualified operators need not be competing in the International Bus Roadeo to be eligible to compete in the Customer Service Challenge. However, those contestants not competing in the driving portion of the roadeo must inform APTA that they will compete in the preliminary portion of the Customer Service Challenge.

NOTE: Operators are not guaranteed a competition position in the final portion of the Customer Service Challenge. Only a maximum of seven competitors will advance to the final round on Monday. Operators selected for the final round will be notified via phone call, no later than 2:00 pm Sunday.

5. General information

5.1.1 Preliminary judging – Saturday

1. Interested contestants must participate in a preliminary judging event during the Saturday practice of the International Bus Roadeo. The preliminary judging will be based on a brief face-to-face interview with a judging panel.
2. Competing operators may not watch or be in the competition area before or after completing the preliminary interview.
3. After interviewing all interested contestants, the judging panel will select up to seven contestants from the preliminary interview process to advance to the Customer Service Challenge finals.

5.1.2 Final judging

1. Operators selected as finalists from the preliminary judging round will participate in the finals of the Customer Service Challenge on Monday afternoon.
2. Operators must arrive at the Customer Service Challenge check-in at least 60 minutes prior to the event. Operators arriving late may be disqualified from the competition.
3. Operators are encouraged to wear their uniform.
4. Operators may not watch or be in the competition area before competing.

6. Competition event

6.1 Preliminary judging

1. Operators will meet face-to-face with a panel of judges.
2. A brief interview will be the basis for the preliminary round.
3. Operators will be asked to respond to a series of questions related to customer service.

6.1.1 Final judging

1. All operators will be presented with three customer service challenges presented by a ‘passenger(s).’
 - All operators will be asked to greet at least one ‘passenger’ as the ‘passenger(s)’ board the vehicle.
 - The second challenge will be a scenario to which all operators will respond.*
 - The last challenge will be a unique customer service challenge.

* Additional scenario elements may be randomly assigned to add reality to the challenge. These scenario conditions could be complicating factors such as: adverse weather conditions, road construction, etc. These conditions or elements will be communicated to the audience.

7. Time

7.1 Preliminary judging

1. All interviews will last no longer than ten minutes.
2. Operators will be signaled when time has elapsed.

7.2 Final judging

1. All operators will have an equal amount of time to complete each challenge. This time will be no more than 3 minutes.
2. Operators will be signaled when time has elapsed.

8. Scoring

1. Operators will be evaluated on a 1-5 scale, with 1 signifying poor customer service and 5 signifying outstanding customer service.
2. There will be three judges.
3. The maximum points for this event are 45.
4. Each judge can award a maximum of 15 points, five for each of the three challenges that are presented to the contestant.
5. The following desirable attributes will be considered by the judges in assigning scores:
 - Professionalism
 - Eye contact
 - Persuasion/Negotiation skills
 - Incident management
 - Problem solving creativity
 - Non-confrontational behaviour
6. **Scores from the Customer Service Challenge will NOT be included in the overall scoring for the International Bus Rodeo Operator or International Grand Champion scoring.**

QUESTIONS

Additional information regarding the Rodeo may be found at www.apta.com under the link to the International Bus Rodeo.

Questions about the International Bus Rodeo should be directed to Saahir Brewington, Staff Advisor to the APTA International Bus Rodeo Committee, at (202) 496-4834, or e-mail at sbrewington@apta.com

Questions concerning the Customer Service Challenge should be directed to Jack Gonzalez at (202) 496-4824 or e-mail at jgonzalez@apta.com

Registration questions for the Rodeo should be directed to Anitha Atkins at (202) 496-4839 or email at aatkins@apta.com

The Rodeo course and problems which are attached as appendices in this Handbook may provide helpful information and assistance in the organization of your Rodeo.

2020 APTA INTERNATIONAL ROADEO HOST LETTER

VIA METROPOLITAN TRANSIT

WELCOMES YOU TO *San Antonio!*

PRESIDENT/CEO - JEFFREY C. ARNDT

On behalf of the VIA Metropolitan Transit Board of Trustees and the entire VIA family, we'd like to welcome the 2020 APTA International Bus Rodeo to San Antonio, the true heart of Texas.

While you're here, we hope you'll take some time to explore the Alamo City—from our historic sites and iconic landmarks, to our world-class food and entertainment spots, and our many family-friendly museums and parks.

You're in one of the most unique cities in America. San Antonio is a UNESCO World Heritage Site that's also home to five-time NBA Champions, the San Antonio Spurs, the cradle of Texas Liberty, and the birthplace of the puffy taco. Here, you can walk in the footsteps of Davy Crockett and hero defenders of The Alamo, travel down Broadway Street and visit one of our award-winning museums, see Brackenridge Park, or have a Zoo adventure. Later, you can take in the nightlife of the San Antonio River Walk, Blue Star Arts Complex or Pearl Brewery, for your fill of great music, food and cocktails.

Best of all, you can get there fast and free with VIA. Our VIVA lines can connect you to all these places and more. Use your complimentary 7-Day Pass to ride VIA anywhere you'd like to go! Be sure to download the free VIA goMobile app to plan your trip and find places of interest in and around the Downtown area.

VIA is proud to host this year's APTA Rodeo. Wishing competitors from across our great country a safe and successful competition and a memorable stay in San Antonio!

A handwritten signature in black ink, which appears to be "Jeff Arndt".

APPENDICES

APPENDIX 1: SWAP MEET

All Roadeo participants, managers, supervisors, vendors, family, and friends are welcome to attend the APTA Bus Roadeo Swap Meet. The Swap Meet is a place where Roadeo memorabilia, transit related pins, hats, shirts, patches, and other items are traded, exchanged, or distributed.

Attendees are encouraged to bring items for exchange and join the group for a memorable, gala social evening. However, trading or exchanging memorabilia and other items is not a requirement to participate in the Swap Meet.

Mailing instructions will be included in the informational packet and posted on the APTA International Bus Roadeo webpage.

The Swap Meet is held on Sunday night after the Roadeo unless there is a joint Welcome Reception. See Appendix 8, Schedule for Competitors, for location and time.

Notes:

- There may be a charge from the hotel to receive/store boxes shipped for the swap meet.
- The selling of Roadeo material or swap items is prohibited.

APPENDIX 2: FREQUENTLY ASKED QUESTIONS AND ANSWERS

NOTE: Questions and answers are provided to assist Roadeo contestants with familiarization of the Roadeo competition. On-course officials are responsible for interpretations and decisions during competition.

OPERATOR:

1. Can I ride with another contestant?

A: No. Each contestant is only allowed to ride/drive the course once.

2. Can someone ride with me?

A: Yes. On course orientation day, as long as they are not disruptive. On competition day, no

3. Are you going to guide me through the course?

A: No. You will be provided with a diagram of the course and it is your responsibility to negotiate the obstacles in proper order.

4. Do I have to use the horn and turn signals?

A: Yes. If you fail to use your horn and/or signals, you will lose points from the on-board safety judge.

5. Am I allowed to go outside the line of perimeter cones?

A: No. You must stay within the course lines. Each course marker or perimeter cone touched will count as a penalty.

6. May I take off my jacket when I compete?

A: Yes. Make yourself comfortable after the personal appearance inspection.

7. Can I use the mirrors that I am used to?

A: No. You must use the mirrors provided on the host property buses.

8. Will I be driving the same type of bus that I drive in my system?

A: You will be driving the vehicle provided by the host property a 2017 40+' NOVA low floor bus. Vehicle information is provided in the Host property information appendix.

9. On practice day do I have to wear my uniform?

A: No, However, proper footwear is required.

10. Can I go through the course more than once on practice day?

A: No. Time permits only one trip on practice day (10-minute max. time limit).

11. Do I have to be on time for practice and competition?

A: Yes. Everyone is scheduled for a certain time and the schedule must be maintained. You must report to **on-site registration** at least 60 minutes before competition time and to the starter no later than 30 minutes before the competition time listed in the official schedule.

12. Will there be transportation from the Hotel to the Rodeo site?

A: Yes. Refer to Appendix 8, Rodeo Schedule, or APTA website for additional information.

13. Do I have to take a safety quiz?

A: No.

14. Do I go through the defect bus?

A: Yes. The Operator competition includes a scored pre-trip inspection. The Pre-Trip Inspection takes place on Saturday.

15. Do I get a personal appearance inspection?

A: Yes.

16. May I adjust my mirrors?

A: Yes. You are responsible for adjusting your mirrors.

17. Do I lose points if I back up?

A: Yes. In all course events, except for the first backup in the left and right reverses, you will lose points each time you reverse.

18. If I hit the same cone twice, do I lose double points?

A: No. Once you are charged with hitting a cone you are not charged for it the second time.

19. If I touch the base of a cone, does it count against me?

A: Yes. Hitting or even touching any portion of the cone counts as a hit.

20. Is my manager allowed to walk behind my bus when I am competing?

A: No. Only Rodeo Officials and judges are allowed on the course while competition (or practice) is in progress. Spectators may watch from the spectator areas.

21. Will I be allowed to walk through the course?

A: No. Familiarize yourself with the course through the materials provided and your practice trip. You may observe the course from the perimeter on practice day.

22. Does time on the course count?

A: Yes. The course time limit is seven (7) minutes. Points will be deducted for every second over seven (7) minutes.

23. Does smoothness of operation count?

A: Yes. You will be observed by the On-Board Judge and recorded by the Trackit System.

24. Does speed count?

A: Your speed within the diminishing clearance obstacle must be at least 20 mph (32 kph).

25. Do you award dual prizes for a tie score?

A: No. The contestant with the lowest time through the course wins.

26. How many prizes are awarded?

A: First, Second, and Third prizes in the operator and maintenance competition

27. Do I have to wear my badge or name-plate?

A: Only if it's part of your uniform.

28. Can I wear sneakers?

A: Wear the same kind of shoes you wear when you are operating in passenger service at your transit system.

29. Will there be refreshments/lunch?

A: Refreshments will be available on competition day.

30. Can I bring my family?

A: Yes. Come and enjoy the festivities and competition. Spectator areas are available for the Operator course.

31. Do I have to come to orientation?

A: No. However, you are strongly encouraged to come to orientation.

32. Do I have to use a seat belt?

A: Yes. 5 Points will be deducted for failure to use your seat belt.

33. Is the course set up as shown in the APTA handbook?

A: Obstacle configurations are the same, but dimensions and sequence may be different. The course will be set up on practice day in competition sequence.

34. Is the rear cone in the backups fixed or does it vary?

A: The rear cone is fixed.

35. Will there be a bus available for familiarization purposes?

A: Yes. On practice day a bus will be available.

36. Do I only have to call ADA announcements at the passenger stops?

A: Yes. You must call the stop before you start forward movement out of the bus stop.

37. Can I get out of the bus during practice?

A: No.

38. Do I need to use the P.A. (Public Announcement) System to announce ADA Stops?

A: No.

39. On the Right and Left reverses do I start at a 45 degree angle?

A: You can start at whatever angle you prefer.

40. Do the buses have bike racks?

A: Yes, if provided by the host property, the bike racks will remain on the buses.

41. Can I palm the steering wheels on Turns?

A: No.

42. When do I have to turn on the flashers?

A: Before you back your bus at the left and right reverses and any time you back your bus while on the course.

43. Do hazard light have to be on in the passenger stop?

A: No. Only the proper turn signals have to be used.

44. Do I practice in the same bus I compete in?

A: Yes. Unless a bus becomes disabled, then all the remaining buses will be mixed up.

45. Do I apply the passenger/parking/emergency brake on passenger stops or reverses?

A: No.

46. Can I shift the bus from drive to reverse without going into neutral?

A: It depends on the bus type used.

47. Do I open the doors at passenger stops?

A: Yes.

48. On the Right and Left Reverses, does the clock stop when I open the doors?

A: You do not open the doors. You will honk your horn when you have completed your backing. The clock will stop until you start a forward movement.

49. Will the time for practice be the same time on competition day?

A: Yes

50. Whenever the bus is disabled, does my time stop?

A: Yes.

51. If the doors are open when you drive off, will points be deducted?

A: Yes. It is a safety issue. Most buses will not let the bus move when the doors are open.

52. On the right and left reverses, do I need to turn on my flashers and honk my horn before backing?

A: Yes. You must use the flashers and horn anytime you back on the course.

53. Do I need to use my turn signals on free turns?

A: Yes. Any time you move right or left on the course, you must use your turn signals.

54. On my practice day, may my rider open the emergency window to see how close I am?

A: No. The emergency windows are never to be opened while practicing on the course.

55. Will there be judges on board the bus on practice day?

A: No.

56. Will someone ride with me on the practice day to show me the course?

A: No. A course map will be given to you at orientation the night before.

57. Can my support person get out of the bus on practice day?

A: No. They must remain on the bus.

58. When I back into the reverses and stop and then continue backing into the reverses, will I be penalized?

A: No. You will only be penalized if you pull forward and back in a second time.

59. How will the judges know when I have completed my backing into the reverses?

A: You will honk your horn.

60. On practice day will I be told how far I am from the curb?

A: Yes.

61. How long may I be on the course on practice day?

A: *10 minutes. After 10 minutes, you will be asked to exit the course.*

62. Do I have to compete in my uniform?

A: Yes. If applicable, you may remove your tie and coat to become more comfortable.

63. Do I have to wear my uniform on practice day?

A: No.

Pre-trip Inspection

64. Was 2008 the first year that the Pre-Trip event counted towards our score?

A: Yes

65. How early should we check-in before our scheduled pre-trip time?

A: A Check-in at the pre-trip inspection no less than 15 minutes before your assigned time.

66. At the Pre-Trip Inspection, will we get a count down on our time left?

A: Yes. 2 minutes, 1 minute, and 30-second warnings will be given.

67. At the Pre-Trip Inspection, can we walk around the bus and then record the defects?

A: Yes. Any way you want to do it is acceptable.

68. Will a judge be writing down the defects for us as we find them?

A: No. You must write them down yourself in as legible a manner as possible.

69. Wheels are under the bus aren't they? Then we don't have to check them?

A: Just don't crawl under the bus.

70. Will there be a similar bus to check out ahead of time?

A: Yes. There will be a display bus for you to become familiar with.

71. Will the Pre-Trip Inspection be performed on a 35-' or 40+' bus?

A: Whichever is available.

72. Does checking the bus windows mean opening the windows?

A: No. Keep the windows closed.

73. Why don't we have the Pre-Trip on Rodeo competition day before the contestant drive?

A: This has been discussed. There are concerns that scheduling the Pre-Trip prior to driving on competition day might impact the timing of the driving competition. As we have more experience with the Pre-Trip the Rodeo committee may decide to change it, but at this time it remains on the practice day.

TECHNICIAN

1. Can my team's competition be videotaped?

A: No. There will be absolutely no video cameras or video recording in the competition area.

2. Can photos be taken of the events?

A: Yes. Still photos may be taken, but anyone taking photos must not interfere or distract the contestants.

3. What type of ABS system is used in the Rodeo?

A: Wabco 'D' 45/4M

4. How many members can a Maintenance team have?

A: The standard maintenance team is made up of three technicians. Two-person teams may compete, but no special compensation will be made for them.

5. Can all team members participate in each of the Maintenance problems?

A: All members can work on all problems. Each team must decide the best use of team members and not create a safety issue due to space constraints.

6. Are the Saturday maintenance training sessions mandatory?

A: No. They are not mandatory but strongly encouraged. Teams that attend are brought up to date on the latest information regarding the maintenance tasks and are provided important information about the competition modules.

7. Do I have to come to orientation?

A: No. You are encouraged to come to orientation, but it is not mandatory.

8. Why was driving removed from the Maintenance Rodeo?

A: The Rodeo Committee determined that the amount of time to complete the Rodeo was creating a safety and fairness issue. They also wanted to keep the focus of the Maintenance competition on primary maintenance skills.

9. Will the defects be revealed after the event is completed?

A: No.

10. Will there be transportation from the Hotel to the Rodeo site?

A: Yes: www.apta.com website for additional information.

11. Do I get a personal appearance inspection?

A: No. You must wear safe clothing, including proper shoes, ear, and eye protection.

12. Can I bring my family?

A: Yes. Come and enjoy the festivities and competition.

13. Are my family, manager, friends allowed with the team while we compete?

A: Maybe. Some years there isn't room for spectators in the Maintenance events. Your team manager(s) will be allowed in the area. Note: We cannot hold up the competition waiting for anyone to arrive.

14. Will there be refreshments/lunch?

A: Refreshments will be available on competition day.

15. Will there be a bus available for familiarization purposes?

A: Yes. A competition bus will be available.

16. What time should I arrive to compete?

A: Contestant teams must arrive at the on-site check-in 60 minutes before competition time and must arrive at the maintenance holding area at least 30 minutes before their scheduled competition time. Teams arriving late may be disqualified from the competition.

17. What if I am late to the competition?

A: Teams who report late to the Maintenance check-in may be disqualified from the competition. You must allow yourself enough time to arrive at the Rodeo site early.

18. Can I go to the Rodeo site before the Sunday competition?

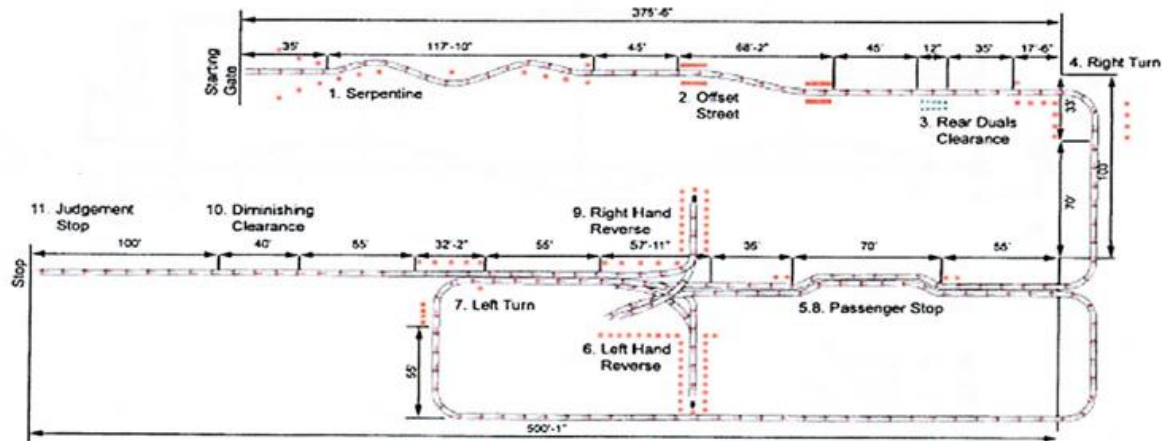

A: No. Maintenance team members are not allowed at the Rodeo site before the day of the competition. Any violation of this policy may cause your team to be disqualified from competition.

APPENDIX 3: OPERATORS' COURSE DESCRIPTIONS

**** The 2020 International Bus Rodeo will only use the 40+ foot bus. ****

Both course layouts are typical. The order of the obstacles may vary in the International Bus Rodeo competition.

APPENDIX 4: OPERATOR'S OBSTACLE DESCRIPTIONS

Serpentine

This obstacle tests a driver's ability to negotiate tight turns. The driver is required to enter a gate, steer in and out through three cones, and exit the obstacle through another gate. The bus is not permitted to touch any portion of any cone.

40' x 102' BUS;

A = 9'-6"

B = 36'-0"

C = 32'-0"

X = 136'-0"

35' x 96' BUS;

A = 9'-0"

B = 32'-0"

C = 25'-7"

X = 115'-0"

LEGEND

" 28" CONE

NOT TO SCALE

Rear Duals Clearance

This is a judgment obstacle in which the driver must drive through a line with their right dual tires. The lane is only slightly wider than the total outside width of a pair of rear duals and is marked out with large flat washers and tennis balls. It is wider at the entrance and narrower at the exit.

ALL BUSES:

$A = \text{WIDTH OF RIGHT REAR DUAL TIRES} + 6''$

$B = \text{WIDTH OF RIGHT REAR DUAL TIRES} + 3''$

40' x 102' BUS:

$E = 10'-9''$

35' x 96' BUS:

$E = 10'-2''$

X SURVEY BASELINE

NOT TO SCALE

Right Hand Turn

This obstacle tests a driver's ability to negotiate a right 90 degree turn. The corner is marked with cones and the rear tire of the bus is to pass within 6 inches of the corner pivot cone.

To measure this, a line should be marked out of 45 degrees from the corner and divided into six-inch segments. The judge has only to see which segment the outside of the tire passes over to judge the driver.

First & Second Customer Stop

In this obstacle, the operator is required to stop the bus with the front wheels within 6 inches of the curb and the rear wheels within 15 inches of the curb.

Allison	3:30 – 4:15 pm

Sunday, May 17

Bus Rodeo Committee & Judges Onsite	7 am – Until
International Bus Rodeo Competition	8 am – Until

International Bus Roadeo Swap Meet

6:30 pm – 8 pm

Join your colleagues' and rival contestants alike for our annual IBR Swap Meet. Enjoy light hors d'oeuvres, and drinks in a reception style setting surrounded by rows and rows of tables with swappable goods. You will have the opportunity to arrange your wares on a six-foot table along-side other competing agencies and swap your agency goods for other agency goods. There are no price tags as nothing is for sale, but everything is for swap. If you chose not to set up a table, simply browse what is available and swap as you go.

Monday, May 18

APTA Mobility Conference & International Bus Roadeo Workshops are Designed for Bus Roadeo Contestants:

**** Roadeo committee, competitors and supervisors are welcome at all conference activities. These highlighted sessions are formatted for Roadeo participants. More information can be found in the Mobility conference program/App.**

Operator Workshop:

8:30 – 10:30 am

Transit Safety Practices & Procedures Part I

We will first consider vehicle inspections during the operator workday to heighten safety awareness. Followed by defensive and distracted driving consideration with emphasis on stopping distances, and human aspects of safety and security. Then open the floor for discussion on topics or concerns operators are encountering across the country.

Presenter Information:

Theo Bakomihalis, Superintendent Safety, Security and Training
A J Ortiz, Safety, Security and Training Supervisor

Technician Workshop:

8:30 – 10:30 am

Vapor CLASS Sensing System for Door Systems

Vapor CLASS is an intelligent ultra-sonic system that increases passenger protection and optimizes door operation. Learn how the contact-less acoustic sensing system (CLASS) can reduce dwell time, minimize passenger contact with the doors, and reduce maintenance expenses. Multi-functional system functions as a touch bar, can detect a stream of passengers and hold the doors open, and can detect passengers standing too close to the doors when the bus is in motion. CLASS eliminates the expenses and maintenance of tape switches, push buttons, mat switches and light beams. Three sensors mounted in the doorway exit area monitor defined spaces and send open/close signals to the door controller. Learn functional operation and troubleshooting tips. Q&A at end of session.

Presenter Information:

Vinnie Ryman, District Sales & Services Manager – East Region
Vapor Bus International - Wabtec Corporation

Bus Display & Lunch

11 am – 2 pm

Technician Workshop:

2 – 4 pm

IntelligAIRE III & TST Diagnostics for Electric Bus HVAC

This workshop will cover operation and diagnostic review of IntelligAIRE III. Training will also be provided to highlight TST Diagnostics for Electric Bus HVAC.

Presenter Information:

Steve Morris, Product Services Manager, Bus
Thermo King Corporation

*In lieu of an afternoon Operators workshop Operators are encouraged
to attend the Customer Service Challenge*

Customer Service Challenge**2:30 – 4 pm****Tuesday, May 19****Operator Workshop:****8:30 – 10:30 am**

Transit Safety Practices & Procedures Part II

The objectives are to have operators review best practices to prevent or limit damage and to increase on board passenger safety awareness. This is an interactive training experience for transit operators using video footage as a part of the interactive discussions showing mishaps with motor vehicles, pedestrians, bicyclists and on-board passengers to promote safe transit operation.

Presenter Information:

Mark Kitzerow, Manager of Bus System Safety
Tim Bowman, System Safety Specialist
Pinellas Suncoast Transit Authority (PSTA)

Technician Workshop:**8:30 – 10:30 am**

Title: Preventive Maintenance Inspection (PMI)
Workshop for Electric Bus Maintenance

This workshop is designed to highlight the benefits of electric buses (E-buses) as they generate environmental and potential economic benefits. For the case of the Clemson Area Transit system (CATbus), it will be shown that E-buses are a better choice for the environment than the current diesel fleet and that maintaining and operating E-buses will provide the City of Clemson (SC) with substantial savings.

Topics of discussion include (subject to change):

- Example for how an E-bus PMI is performed at CATbus
- Comparison of the PMI for Diesel vs Electric
- Older vs. newer PMI procedures
- “What you never have to do again”
- Do’s and Don’ts
- Basic tools & Safety equipment to work on E-buses
- Economic and environmental benefits

A group discussion with questions and answers will follow the presentation

Presenter Information:

Michael, Kaiser, Sr. Sales Manager
John Mast, Quality Manager
Pinellas Suncoast Transit Authority (PSTA)

Product Showcase & Lunch	10:30 am – 2 pm
International Bus Roadeo Grand Awards Ceremony <i>Doors open at 6pm</i>	6:00 – 7:00 pm
International Bus Roadeo Grand Awards Dinner <i>Ticketed Event</i>	7:00 – 8:30 pm

Wednesday, May 20

International Bus Roadeo Committee Meeting – Debrief	7 am – 8 am
-------------------------------------------------------------	--------------------
