Project C.O.P.E.

Project COPE is an exciting outdoor activity that can attract and keep older boys in Scouting. IT is designed to meet the needs of today's youth who are seeking greater physical and mental challenges. The underlying goals of a Project COPE course are consistent with the methods of Scouting. Group activities are ideal for emphasizing the patrol method and developing leadership. Individual activities help promote personal growth. Participation is entirely voluntary.

Minimum Age: 13

Stand Up Paddleboarding

Requirements

- 1) Review the BSA Safety Afloat policy. Explain to your instructor how this applies to stand up paddleboarding.
- 2) Before fulfilling other requirements, successfully complete the BSA swimmer test: Jump feetfirst into water over the head in depth, level off, and begin swimming. Swim 75 yards in a strong manner using one or more of the following strokes: sidestroke, breaststroke, trudgen or crawl; then swim 25 yards using an easy, resting backstroke. The 100 yards must be completed in one swim without stops and must include one sharp turn. After completing the swim, rest by floating.
- 3) Explain safety considerations for stand up paddleboarding in the following environments: lake, moving water, whitewater, open ocean, ocean surf.
- 4) Review the characteristics of life jackets most appropriate for stand up paddleboarding and understand why one must always be worn while paddling. Then demonstrate how to select and fit a life jacket for stand up paddleboarding.
- 5) Describe the correct type of leash to wear in the appropriate water venues.
- 6) Name and point out:
 - 1) The major parts of a stand up paddleboard
 - 2) The parts of a paddle for stand up paddleboarding
- 7) Discuss:
 - 1) The different types of stand up paddleboards
 - 2) How to correctly size and hold a paddle for stand up paddleboarding
 - 3) Using a properly outfitted stand up paddleboard, demonstrate the following:
 - 4) How to safely carry a stand up paddleboard
 - 5) How to safely paddle away from a dock or shoreline (on knees)
 - 6) How to stand and balance on a board in the neutral position
 - 7) How to appropriately fall off a board
 - 8) How to remount the board
 - 9) Forward stroke
 - 10) Back stroke
 - 11) Forward sweep
 - 12) Reverse sweep
 - 13) Draw stroke
 - 14) One self-rescue technique-lay on your stomach and paddle with your hands
- 8) With supervision from your instructor, paddle a course that involves:
 - 1) A straight line for 25 yards and stop within one board length
 - 2) A figure 8
 - 3) Moving abeam to the right 10 feet and to the left 10 feet

Archery

Archery is a fun way for Scouts to exercise minds as well as bodies, developing a steady hand, a good eye, and a disciplined mind. This merit badge can provide a thorough introduction to those who are new to the bow and arrow - but even for the experienced archer, earning the badge can help to increase the understanding and appreciation of archery.

Additional Fee: \$10.00

2018 Summer Camp - Camp Joy: Week 1 June 10-16 at Camp Joy

MB253 9-10:30 AM

Basketry, Fingerprinting, Leatherwork, Wood Carving

Basketry is a handy skill for a Scout. A basket can be a sturdy companion on campouts, carrying clothes snugly and efficiently, holding potatoes and corn for roasting over a campfire, or carrying the day's fishing catch back to camp for dinner. Baskets and basket-weaving projects also make great gifts for family and friends.

In earning the Fingerprinting merit badge, Scouts will learn about and use an important technique that is used by law enforcement officers, along with other materials like matching dental records and DNA sampling, to help identify amnesia victims, missing persons, abducted children, and others.

Scouts who complete the requirements to earn the Leatherwork merit badge will explore leather's history and its endless uses. They will learn to make a useful leather item using the same types of raw materials that our ancestors used; be challenged to master skills like hand-stitching, lacing, and braiding.; and learn how to preserve and protect leather items so they will last a lifetime and beyond.

As with any art, wood carving involves learning the basics of design, along with material selection and tools and techniques, as well as wood-carving safety. The requirements of the Wood Carving merit badge introduce Scouts to an enjoyable hobby and that can become a lifetime activity.

Additional Fee: \$20.00

Camping

Camping is one of the best-known methods of the Scouting movement. When he founded the Scouting movement in the early 1900s, Robert Baden-Powell encouraged every Scout to learn the art of living out-of-doors. He believed a young person able to take care of himself while camping would have the confidence to meet life's other challenges, too.

Prerequisites: 9a: Bring proof of your total camping experiences, in the form of reports of each trip. Have the reports signed by your Scoutmaster.

NOTE: Pre-Req's: Complete 4, 8d, 9a, 9b

MB252 9-10:30 AM

Chemistry, Nuclear Science

Chemistry explores how substances react with each other, how they change, how certain forces connect molecules, and how molecules are made are all parts of chemistry. Stretch your imagination to envision molecules that cannot be seen - but can be proven to exist - and you become a chemist.

Nuclear science gives us a simple explanation of the natural world. The ultimate goal of nuclear science is to find out if there is one fundamental rule that explains how matter and forces interact. Earning the Nuclear Science merit badge is a chance for Scouts to learn about this exciting field at the cutting edge of science today.

Additional Fee: \$5.00

Days: Mo Tu We Th Fr

MB227 10:30-12 PM

Chess

Chess builds critical thinking, forward thinking, and proper sportsmanship in young people.

Prerequisites: Bring a chess set

Days: Mo Tu We Th Fr

MB124 9-10:30 AM

Citizenship in the World

Scouts who earn the Citizenship in the World merit badge will discover that they are already citizens of the world. How good a world citizen each person is depends on his willingness to understand and appreciate the values, traditions, and concerns of people in other countries.

Prerequisites: Prerequisites 7

NOTE: Must be 12 years of age or third year camper.

Days: Mo Tu We Th Fr

MB125 10:30-12 PM

Climbing

Climbing is not a sport that requires tremendous muscular strength; it demands mental toughness and the willingness to practice hard to master a set of skills. The adventure of climbing can also provide a new way to enjoy the outdoors.

NOTE: Must be at least age 12 or third year camper due to physical requirements.

Communication, Public Speaking

This clear and concise definition comes from the U.S. Department of Education: "Communication focuses on how people use messages to generate meanings within and across various contexts, cultures, channels, and media. The field of communication promotes the effective and ethical practice of human communication."

A lot happens during the course of every person's life and your ability to communicate your feelings and ideas is the best way to connect to the larger world. Even if you haven't stood at a podium on the stage and find the whole idea scary, sooner or later, someone is going to ask you to get up and say a few words. If you are prepared, it won't be scary. It can even be fun.

2018 Summer Camp - Camp Joy: Week 1 June 10-16 at Camp Joy

MB249 2-3:30 PM

Composite Materials, Metalwork

Composites can be found just about everywhere: in airplanes and sports cars, golf clubs and guitars, boats and baseball bats, bathtubs and circuit boards, and even bridges. Composites make bicycles and skis lighter, kayaks and canoes stronger, houses warmer, and helmets tougher.

Scouts will begin their work on this merit badge by learning about the properties of metal, how to use simple metalworking tools, and the basic metalworking techniques. Then they will practice using these tools and techniques before concentrating on the more intricate skills of one of four metalworking options.

Additional Fee: \$15.00

Days: Mo Tu We Th Fr

MB251 10:30-12 PM

Electricity, Electronics, Inventing

Electricity is a powerful and fascinating force of nature. As early as 600 b.c., observers of the physical world suspected that electricity existed but did not have a name for it. In fact, real progress in unraveling the mystery of electricity has come only within the last 250 years.

Electronics is the science that controls the behavior of electrons so that some type of useful function is performed. Today, electronics is a fast-changing and exciting field.

Inventing involves finding technological solutions to real-world problems. Inventors understand the importance of inventing to society because they creatively think of ways to improve the lives of others. Explore the world of inventing through this new merit badge, and discover your inner inventiveness.

Days: Mo Tu We Th Fr

MB140 2-3:30 PM

Emergency Preparedness

Scouts are often called upon to help because they know first aid and they know about the discipline and planning needed to react to an emergency situation. Earning this merit badge helps a Scout to be prepared by learning the actions that can be helpful and needed before, during, and after an emergency.

Prerequisites: 1, 2C, 7, 8

Days: Mo Tu We Th Fr

MB247 2-3:30 PM

Energy, Radio, Signs-Signals and Codes

Saving, producing, and using energy wisely will be critical to America's future. If we are to leave future generations with a world in which they can live as well or better than we have, Scouts and other potential leaders of tomorrow must begin the hard work of understanding energy and the vital role it will play in the future.

Radio is a way to send information, or communications, from one place to another. Broadcasting includes both one-way radio (a person hears the information but can't reply) as well as two-way radio (where the same person can both receive and send messages).

American Sign Language (ASL) is the third most used language in the United States. The Signs, Signals, and Codes merit badge will cover Morse code, ASL, Braille, signaling, trail markings, and other nonverbal communications. Did you know that some of these have even saved people's lives?

Days: Mo Tu We Th Fr

MB144 9-10:30 AM

Environmental Science

While earning the Environmental Science merit badge, Scouts will get a taste of what it is like to be an environmental scientist, making observations and carrying out experiments to investigate the natural world.

Prerequisites: 3D3, 3E1, 3F1 or 3F2, Prep for Requirement 6

NOTE: Must be 12 years of age or third year camper.

First Aid

First aid - caring for injured or ill persons until they can receive professional medical care - is an important skill for every Scout. With some knowledge of first aid, a Scout can provide immediate care and help to someone who is hurt or who becomes ill. First aid can help prevent infection and serious loss of blood. It could even save a limb or a life.

Prerequisites: Prerequisites 1, 2D, 3C, 7

NOTE: Must be 11 years of age or second year camper. Pre-Req's: 1

MB151 9-10:30 AM

Days: Mo Tu We Fr

Fishing

In Scouting for Boys, Baden-Powell offers this advice: "Every Scout ought to be able to fish in order to get food for himself. A tenderfoot [beginner] who starved on the bank of a river full of fish would look very silly, yet it might happen to one who had never learned to catch fish."

Prerequisites: Must catch a fish to complete this merit badge

Bring your own fishing pole and bait

MB152 10:30-12 PM

Days: Mo Tu We Fr

Fly-Fishing

Fly-fishing is a specialized form of fishing that combines skill and artistry. Because it is so rich with tradition, it is a passion for millions of people. The beauty of the water, the solitude, and the skills that the sport requires have made fly-fishing very important in the lives of many notable people.

Prerequisites: Bring your own Fly - Fishing Rod.

You must catch a fish to complete this badge.

MB153 9-10:30 AM

Days: Mo Tu We Fr

Forestry

In working through the Forestry merit badge requirements, Scouts will explore the remarkable complexity of a forest and identify many species of trees and plants and the roles they play in a forest's life cycle. They will also discover some of the resources forests provide to humans and come to understand that people have a very large part to play in sustaining the health of forests.

Prerequisites: 5, 7

MB156 10:30-12 PM

Days: Mo Tu We Fr

Geology

Geology is the study of Earth. It includes the study of materials that make up Earth, the processes that change it, and the history of how things happened, including human civilization, which depends on natural materials for existence.

Prerequisites: 4B

NOTE: Pre-Req's: 4

MB245 10:30-12 PM

Days: Mo Tu We Th Fr

Insect Study, Mammal Study, Reptile and Amphibian Study

In earning the Insect Study merit badge, Scouts will glance into the strange and fascinating world of the insect. There, they will meet tiny creatures with tremendous strength and speed, see insects that undergo startling changes in habits and form as they grow, and learn how insects see, hear, taste, smell, and feel the world around them.

A mammal may weigh as little as 1/12 ounce, as do some shrews, or as much as 150

tons, like the blue whale. It may spring, waddle, swim, or even fly. But if it has milk for its young, has hair of some kind, is relatively intelligent, and has warm blood, then it is a mammal.

Boys always have been interested in snakes, turtles, lizards, and alligators, as well as frogs and salamanders. Developing knowledge about these captivating creatures leads to an appreciation for all native wildlife; understanding the life cycle of a reptile or amphibian and keeping one as a pet can be a good introduction to natural history; and knowing about venomous species can help Scouts to be prepared to help in case of an emergency.

Days: Mo Tu We Fr

MB121 10:30-12 PM

Moviemaking

Moviemaking includes the fundamentals of producing motion pictures, including the use of effective light, accurate focus, careful composition (or arrangement), and appropriate camera movement to tell stories. In earning the badge, Scouts will also learn to develop a story and describe other pre- and post-production processes necessary for making a quality motion picture.
