MAPLE VALLEY

Ice Cream Hadley Massachusetts

Maple Valley Creamery was established by farmers who believe that quality dairy products should be made using fresh milk from local cows.

By purchasing our products you are helping to sustain open spaces, local farms and a time honored way of life. We milk our own small herd of beautiful Brown Swiss cows every day in Hadley, MA. Our cows are part of our family and they are pampered and loved.

Our ice cream is created using fresh local rbST free cream and milk. The heavy cream is delivered fresh, never frozen. We produce the mix fresh for each small batch of ice cream. The base mix is 16.59% butter fat, making it a super-premium ice cream base. Our cream and milk is perfectly balanced with pure cane sugar and natural stabilizers, making it all natural and gluten Free. Our mix is egg and egg emulsifier free.

Our ice cream is super smooth due to its high cream content. Because our ice cream is cream based rather than egg and milk based, it is naturally less dense making it freeze at a lower temperature. The result is a rich, creamy texture with none of the greasy residue found in other super premium ice creams.

***If they say
it's local,
ask to see
their cows!***
