

2020-2021 MEMBERSHIP DIRECTORY

CSDA MISSION

The CSDA mission is to promote the use of professional cutting, polishing, imaging and selective demolition contractors and their methods. In support of this goal, the CSDA Code of Ethics demands that members pursue the highest standards of safety, quality and integrity. A second objective is to provide a forum in which members can share their ideas, needs and concerns in a constructive framework to further enhance technologies, education and training.

TRAINING SCHEDULE, 2021

Please refer to www.csda.org under the training tabs for hands-on and classroom course dates and locations.

101 Classes

- Slab Sawing & Core Drilling 101
- Wall Sawing & Hand Sawing 101
- Wire Sawing 101
- GPR Certification

Certification Classes

- Slab Sawing, & Core Drilling 201 Certification
- Wall Sawing & Hand Sawing 201 Certification
- Wire Sawing 201 Certification

*Some prerequisites apply.

June 7–10, 2021 WOC21

- Estimating
- Concrete Polishing
- GPR Methods & Theory

For more details, visit www.csda.org or call 727-577-5004.

CERTIFICATIONS

OPERATOR CERTIFICATION

CSDA's Operator Certification is a comprehensive five-day program that combines detailed classroom instruction with on-slab demonstration and evaluation of advanced concrete cutting techniques. Safety, proper equipment use and efficiency are emphasized.

CSDA certified operators are recognized industry-wide for their proficiency in the full range of sawing and drilling applications.

Minimum Requirements:

- Successful completion of a CSDA 101-level hands-on class, the Diamond Cutting: Sharpen Your Skills class or the online Cutting Edge class
- Three years field experience (4,500 hours)
- Successful completion of 10-hour OSHA Construction Safety course
- No more than one lost-time injury within the last three years
- Unrestricted driver's license
- Negative drug test within 30 days of taking the course

Companies in this directory who have invested time and money to send their operators through the CSDA Operator Certification course are designated with the Certified Operator logo.

COMPANY CERTIFICATION

The CSDA Company Certification Program is the first of its kind in the industry. This program is designed for cutting contractors to provide owners, architects, engineers, general contractors and government officials with a valuable pre-qualification tool that acknowledges sound business practices. It is available to all sawing and drilling contractors.

A company must meet the following criteria to achieve certification:

- Meet the basic safety, and insurance requirements of the industry
- Undertake sound operational and financial best practices
- Provide evidence it has participated in basic training or certification programs to better its employees and the company as a whole
- Successfully pass a written application review

Companies in this directory who have invested time and money to meet the requirements of this program and have successfully completed the application process are designated with the Company Certification logo.

GPR CERTIFICATION

GPR Certification is for experienced GPR technicians who have expanded their knowledge of the methods, theory and practical application of GPR imaging.

Certified technicians receive classroom and hands-on time with experienced instructors and representatives from leading GPR manufacturers.

A GPR CERTIFIED OPERATOR:

- Has shown proficiency in performing scans and reading and interpreting results
- Can select the appropriate GPR scanner for the job
- Passed a written and practical test
- Was issued a certification card upon completion of the class

CSDA COMPANY CERTIFICATION

JOIN TODAY!

Getting certified through CSDA means serious business. Give your clients the comfort of knowing you are a trustworthy brand -- Plus enjoy the benefits of joining CSDA's professional network.

727- 577-5004
www.CSDA.org
info@CSDA.org

CSDA's Company Certification Program is a company audit program specifically for sawing and drilling contractors.

Developed by CSDA's Certification Committee, the program provides owners, architects, engineers, general contractors and government officials with a valuable prequalification tool, improves the knowledge and skills of cutting contractors and enhances their public image.

Who is eligible for Certification?

A company must meet the following criteria to achieve certification:

- Meet the basic safety and insurance requirements of the industry
- Undertake sound operational and financial best practices
- Provide evidence it has took part in basic training or certification programs to better its employees and the company as a whole
- Successfully pass a written application review

How long does it take to complete the application?

If you have existing policies and procedures in place, the application will take approximately 2-6 hours to complete. If not, it will take longer.

Who decides if my application is accepted?

CSDA uses an independent third-party law firm to conduct reviews and audits of submitted application. The information provided on your application is confidential and is not shared with CSDA or any of its members. CSDA only receives notification when an application has been approved.

What are the benefits of becoming a Certified Company?

CSDA Certified Companies are marketed and promoted to specifiers in the concrete renovation industry, including architects, engineers, general contractors and government agencies. Your Certification is a valuable pre-qualification tool that sets you apart from the competition and in many cases, also fulfills other job certification requirements.

What is the cost and how long does my Certification last?

The application fee is \$300 and your Certification is good for a period of one year. The annual renewal fee is \$100, with an application update every 3 years.

*Also available in Spanish.

Find a Member Online

In addition to this comprehensive Membership Directory, the CSDA website includes a "Find" search tool on its home page, where specifiers of concrete cutting, selective demo, polishing and imaging can locate a professional CSDA contractor serving their area through an interactive map.

Members can be found by state, zip code and/or services offered. Visit www.csd.org/find-a-product-service/

Download the entire Resource Guide today!

SEPTEMBER 2-3, 2021
FALL BOARD & COMMITTEE MEETINGS,
SEATTLE, WASHINGTON

DECEMBER 1-2, 2021
WINTER BOARD & COMMITTEE MEETINGS, LOCATION TBD

The Concrete Sawing & Drilling Association is a nonprofit trade association of contractors, manufacturers and affiliated members from the construction and renovation industry. Diamond tools for projects requiring sawing, drilling, selective demolition, GPR imaging and polishing offers the construction industry many benefits including lower total project costs, precision cutting, maintenance of structural integrity, reduced downtime, reduced noise, dust and debris, limited access cutting and the ability to cut heavily-reinforced concrete. Founded in 1972, CSDA has 500 member companies worldwide.
