The Company

LPS Production is a full service audio and visual service provider based in Miami, FL.

We offer a full list of production services, professional grade equipment rentals, the latest in event technologies and a dedicated team of professionals with decades of experience in some of the most demanding production environments.

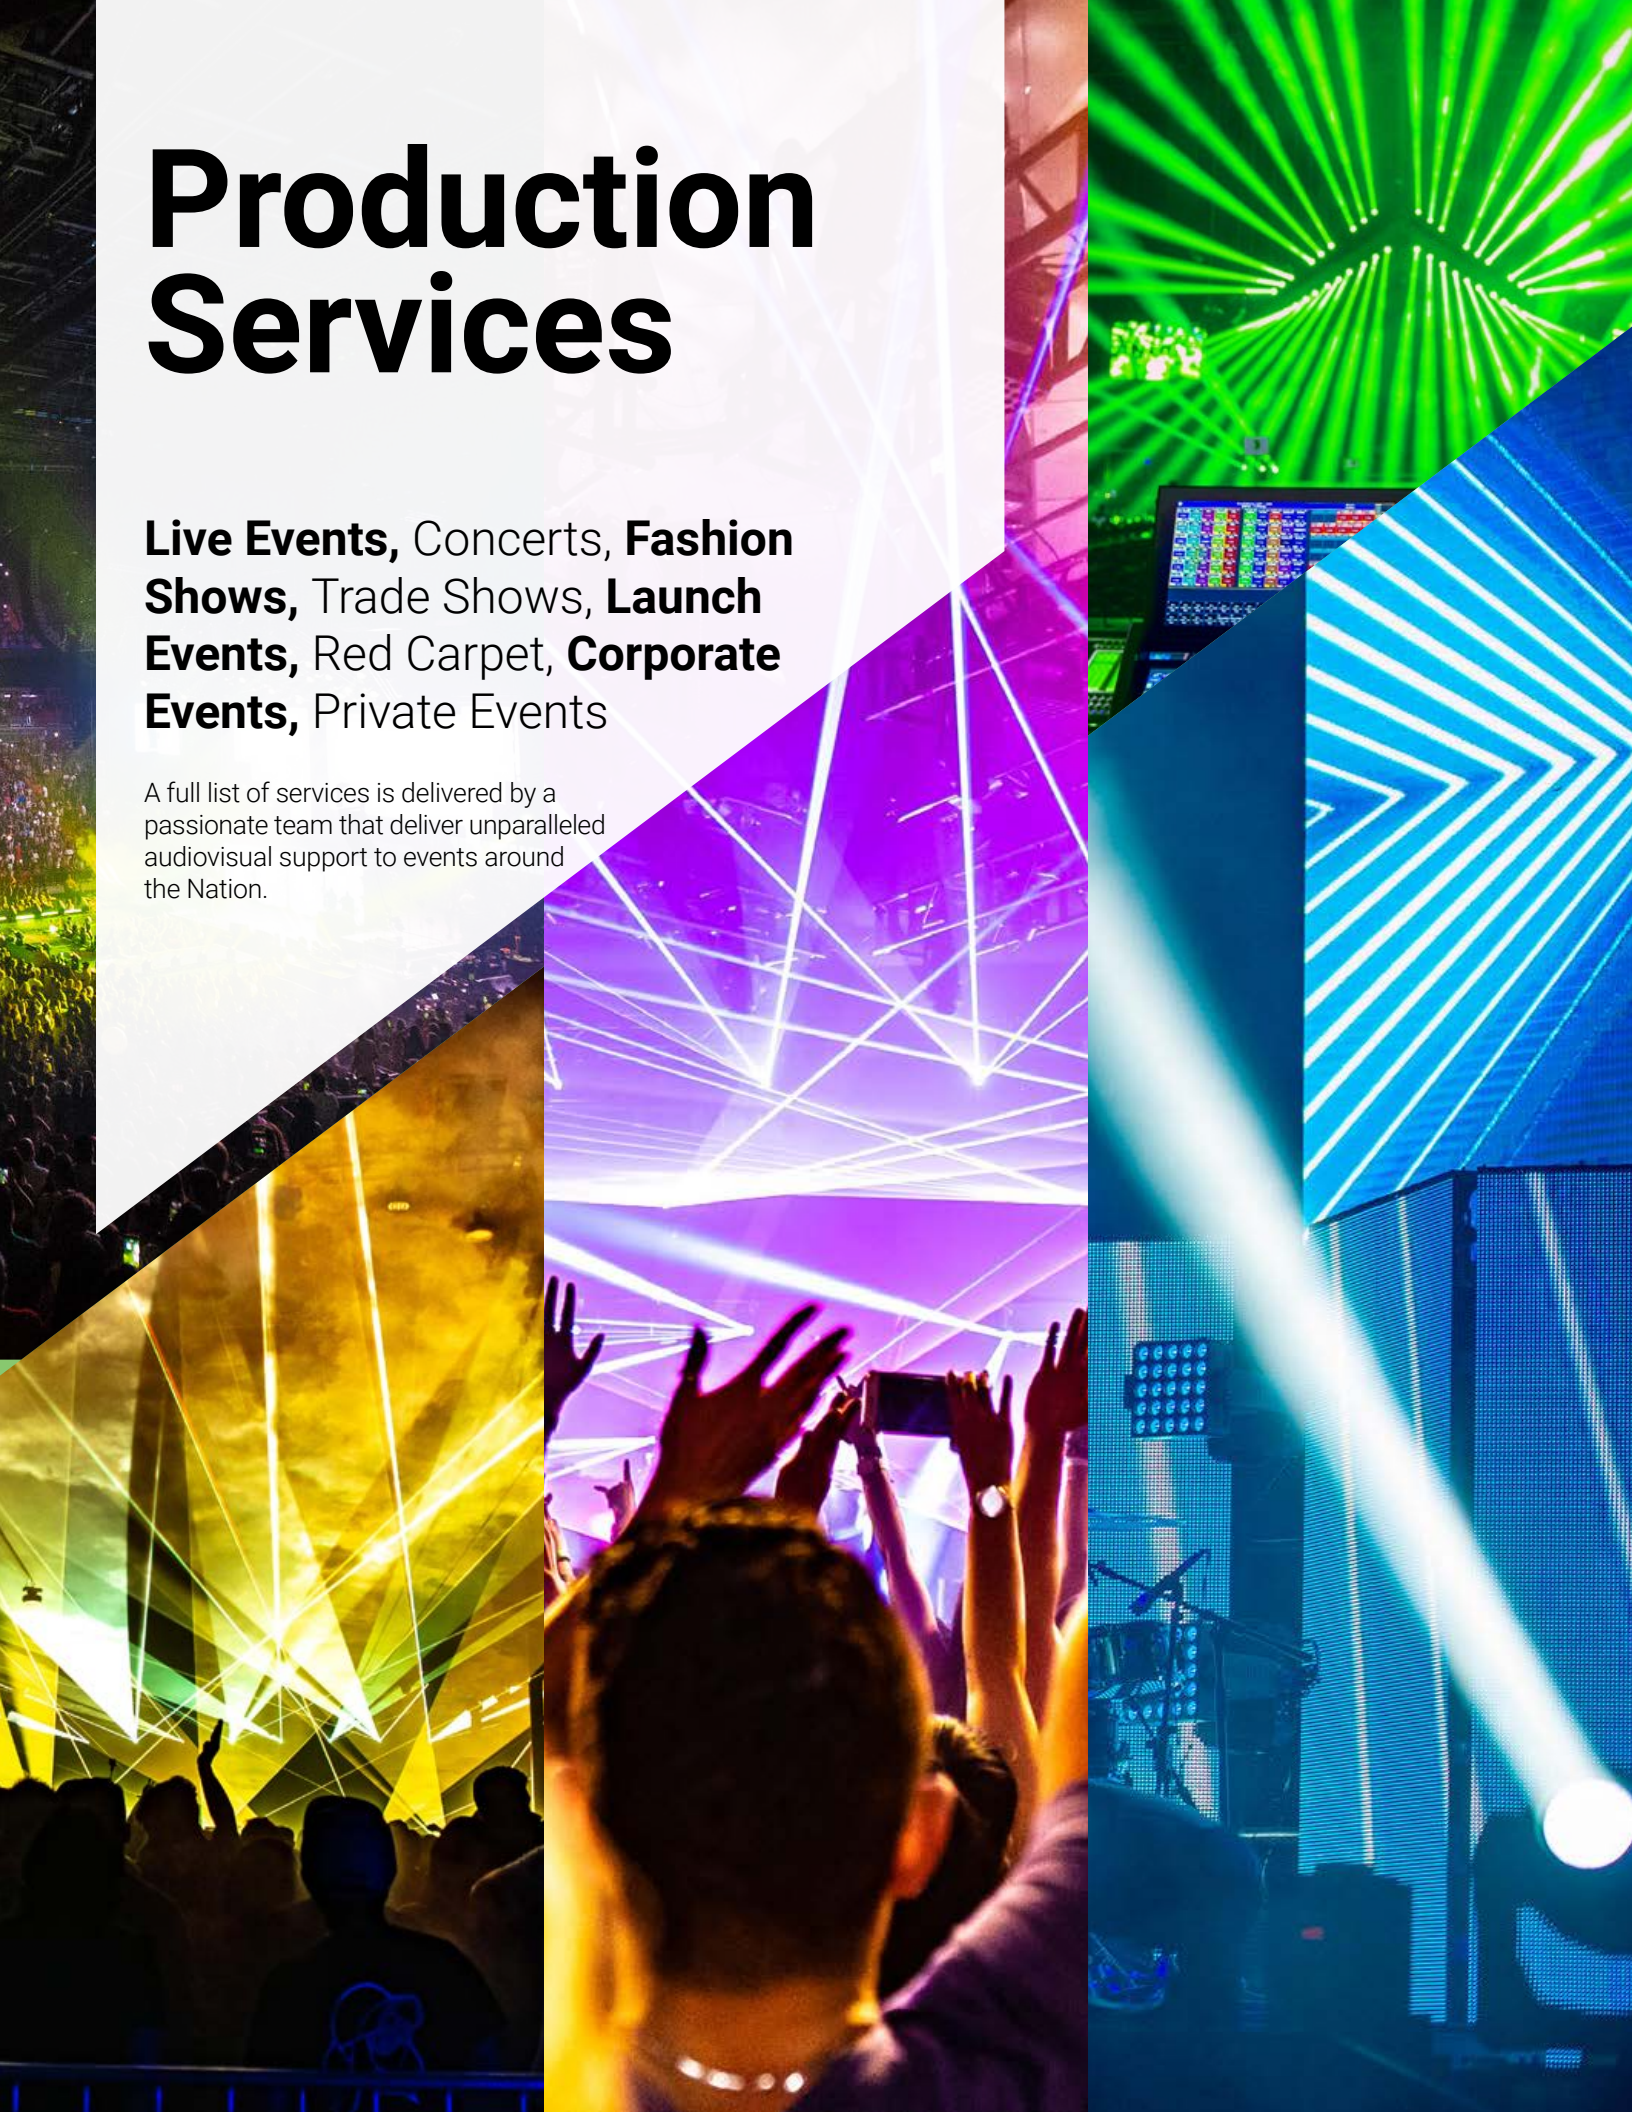

We're committed to service and we take our role seriously. You can count on us to be responsive, reliable and creative in our approach to finding the right solutions to any production challenge.

Production Services

Live Events, Concerts, Fashion Shows, Trade Shows, Launch Events, Red Carpet, Corporate Events, Private Events

A full list of services is delivered by a passionate team that deliver unparalleled audiovisual support to events around the Nation.

Production Services

Pro Audio & Live Sound

A state-of-the-art audio experience regardless of scope or environment. We offer full scale audio production services including live, onsite management of live concerts, festivals, corporate events, trade shows and more.

Video & LED Display Systems

The new standard in event production. We offer full video display services including high definition displays and LED panels, IMAG, projection mapping and live video services to create a truly immersive experience.

Lighting Design & Production

Event lighting solutions, from visual design to live production, including an extensive inventory of the latest in pro-lighting technologies and an all-star team of highly skilled technicians and engineers to deliver stimulating, audience engaging environments.

Design & Engineering

Our design team will plan all aspects of your production to address any engineering challenges and design requirements.

We work with you throughout the conceptualization process to build CAD schematics, generate 3D renderings and compile detailed set lists to ensure smooth execution from load-in to break down.

Rigging & Staging

Professional rigging and staging for indoor and outdoor concerts, shows and events. Our production staff has experience across a variety of venues to deliver stage and structure design, planning, and installation.

Equipment Rentals

The logo for LPS Production, featuring the letters "LPS" in a large, bold, italicized sans-serif font, with the word "PRODUCTION" in a smaller, spaced-out sans-serif font below it. Above the letters is a stylized graphic of overlapping colored squares (green, blue, orange).

LPS
PRODUCTION

A close-up photograph of professional audio equipment, showing several XLR cables with orange, green, and blue connectors plugged into a rack of equipment. A black metal bar with screws is visible above the cables. A large green diagonal shape overlays the bottom right portion of the image.

Professional Sound, Rigging, Staging,
Power, Advanced Lighting, Video Displays

LPS Production offers an extensive catalog of professional grade event production equipment rental for both indoor and outdoor productions. Our equipment is meticulously maintained by our staff to ensure optimal performance and reliability. Your rental is backed by service and support so you can be sure that you're getting the right equipment from the right place.

Pro Audio & Live Sound

Speaker Systems

RCF HDL 50-A

by RCF

Active Three-Way Line Array Module

The HDL 50-A is a true active high power speaker system ready to use touring system for large events, indoors and outdoors.

RCF SUB 9007-A

by RCF

Active High Power Subwoofer

Featuring two, high power, hyper-vented 21" neodymium woofers with 4.0" inside/outside voice coils, this cabinet deliver a serious amount of low frequencies.

TTL33-A II

by RCF

Active Three-Active Three-Way Line Array Module

The TTL33-A is a compact, wide dispersion, 3 way active line array module that offers the highest performance from a small size line array.

NX 12-SMA

by RCF

Active Coaxial Stage Monitor

The NX 12-SMA is equipped to guarantee outstanding audio quality and definition as well as an extremely lightweight system.

TT25

by RCF

High Output Two-Way Passive Speaker

TT25 is a full range, extremely versatile two-way passive loudspeaker system offering substantial power and efficiency for a variety of professional applications.

SUB 8004-AS

by RCF

Active High Power Subwoofer

One of the most powerful 18" subwoofers in the pro-sound category with a high power, hyperventated 18" woofer and a 4" inside/outside voice coils.

EVOX 12

by RCF

Active Two-Way Array

The most powerful line-source in its class offering a particularly profound and dynamic reproduction at high levels.

Evox J8 & Mix 8

by RCF

Active Two Way Array w/ Internal 8CH Mixer

Taking the EVOX J Series one step further, RCF has added an 8-input Digital Mixer to the system. The EVOX iOS/Android-compatible app allows to manage the JMIX8. Adding Bluetooth audio and Hi-Z instrument input, the EVOX JMIX8 combines the quality and reliability of RCF transducers and amplification with a powerful remote controllable 8-channel digital mixer.

Evox 8

by RCF

Active Two Way Array

Evox 8 is a portable compact size sound reinforcement system. Evox 8 combines the quality and reliability of RCF transducers with a very high amplification power.

ART735

by RCF

Active 2 Way speaker

The ART 735-A is a unique product in its category. The titanium dome, 3.0" voice coil, neo compression driver offers a unique vocal clarity and sound projection. The 15" woofer offers a linear response and a precise, deep low frequency control.

ART732-A

by RCF

Active Two Way Speaker

The ART 732-A is a unique product in its category. The titanium dome, 3.0" voice coil, neo compression driver offers a unique vocal clarity and sound projection. The 12" woofer guarantees a linear response and a precise, deep low frequency control.

Microphones & Monitor Systems

UHF-R

by SHURE

Premier Wireless Microphone System

UHF-R® Wireless systems master the intense pressure and extreme conditions of any touring, installation or broadcast environment, while delivering unmatched Shure sound.

PSM-1000

by SHURE

Personal Monitor System

Dual-channel PSM®1000 offers premium features for touring-grade wireless monitoring applications.

P9HW

by SHURE

Wired Bodypack Personal Monitor

P9HW is ideal for drummers and keyboard players who want the audio clarity and reduced feedback of in-ear monitors but don't need wireless mobility.

Axient

by Shure

Digital Wireless Microphone Systems

Incorporating the most innovative wireless audio technology in the world, Axient Digital was engineered from the ground up for professional productions that demand flawless execution. With an unprecedented level of signal stability and audio clarity, advanced connectivity, and comprehensive control, it's a wireless system built to take on the challenges of today—and tomorrow.

EW 500-965 G3 (B Range/US)

by Sennheiser

Vocal Set

Top-notch vocal set: Outstanding large-diaphragm true condenser cardioid/super-cardioid SKM 500-965 G3 handheld mic for impressive vocal pick-up, EM 500 G3 true diversity receiver for highest reception quality.

EW 300-2 IEM G3

(G Band, 556-608 MHz)

by Sennheiser

In-Ear Monitor System

Complete Evolution Wireless In-ear Monitoring Solution. Also available in "B Band".

Not sure what microphone you need?

Contact us and we'll help you select the right equipment for the job.

Mixing Consoles

VENUE | S6L-32

by Avid

Live Digital Audio Console

Avid VENUE | S6L delivers the unprecedented processing power, exceptional performance, and renowned sound quality artists and engineers rely on to put on the best show possible. From direct AAX plug-in support, 128 tracks of Pro Tools recording, and intelligent touchscreen workflows, to its 300+ processing channels, S6L gives you the mixing efficiency, creativity, and flexibility you need to meet the demands of any gig. Available in 64 inputs / 32 outputs configuration.

CL5 Series

by Yamaha

Digital Audio Mixing Console

Yamaha CL series digital mixing consoles represent a new level of refinement. They offer an evolved experience in accessible mixing, plus sonic purity with sound shaping capabilities that will give the most imaginative engineer unprecedented creative freedom. Available with RIO3224 + RIO1608 Stagebox (48 inputs / 32 outputs)

SD Ten

by DigiCo

Live Digital Console with Stealth Digital Processing™

The SD Ten includes Stealth Digital Processing and floating-point Super FPGA technology, and provides a fully-loaded feature set that will cater to any front-of-house or monitor engineer's needs. Available in 56 Input / 56 Output configuration.

VENUE Profile System

by Avid

Digital Mixing Console with 56 x 24 Stage

The most requested live system for major tours, the Profile System offers the same studio-quality sound, powerful performance, and scalable I/O of the D-Show System in a smaller footprint. The system is based around the Profile console and employs the FOH Rack and Stage Rack components for processing and I/O.

M32 (B Range/US)

by Midas

Digital Console for Live & Studio with 40 Input Channels, 32 MIDAS Microphone Preamplifiers and 25 Mix Buses

A close look at M32 reveals that the styling is completely new in every sense of the word. Rajesh Kutty's automotive-inspired design elements mesh perfectly with a recognizable MIDAS signature, setting the M32 apart from any other console.

L-PAD 12CX

by RCF

12 Channel Mixing Console with Effects

With six transparent sound mic inputs, four stereo line inputs and the 2tk in/out L-PAD12CX is the ideal tool for small band gigs, complex conference, corporate events and all situations where it is necessary to handle several sign

QL1

by Yamaha

MidSize Digital Console

Packed with many of the core features of their acclaimed CL Series, the Yamaha QL1 32-channel digital mixer is your ideal compact all-in-one solution for mixing, processing, and routing audio.

ProFX12 v2

by Mackie

Small Portable Console

ProFXv2 mixers feature all-new Vita™ preamps for unmatched sound quality and a no-compromise live mixing toolkit including the all-new, immensely powerful ReadyFX™ effects engine.

SD12

by DiGiCo

Flagship Audio Console

Compact in size but big on features, the SD12 raises the bar as a multi-application digital console at an exceptionally affordable price point. Not only is the SD12 a true sonic powerhouse, it is the first in the SD-Range to feature an integrated recording interface which makes virtual sound checking a snap.

Designed to provide optimum performance in live touring, corporate, install, house of worship, theatre and broadcast environments, the SD12 incorporates the latest generation Super FPGA technology and Core 2 software to deliver unrivalled power and connectivity in a compact frame.

SD-RackI/O Modules

- SD 32-BIT MIC PRE-AMP
- SD 32-BIT DAC
- 192KHZ ANALOGUE OUTPUT CARD
- 192KHZ MIC/LINE INPUT CARD
- ADAT INPUT/OUTPUT CARD WITH OPTICAL CONNECTIONS
- AES-42 INPUT CARD FOR DIGITAL MICROPHONES
- AES/EBU INPUT /OUTPUT CARD (BNC)
- AES/EBU INPUT CARD (XLR)
- AES/EBU OUTPUT CARD
- AVIOM D-16C A-NET CARD
- DANTE INPUT/OUTPUT CARD
- HD-SDI CARD
- AVIOM D-16C D-RACK MODULE
- AES/EBU INPUT/OUTPUT CARD WITH BI-DIRECTIONAL SAMPLE RATE CONVERSION

Digital Turntables

CDJ2000 Nexus 2

by Pioneer

Professional Multimedia Player with Hi-Res audio support

The CDJ-2000NXS2 inherits all the best features from its predecessor – and takes a giant leap forward. Including a multicolor touch screen with a Qwerty keyboard and search filters to help you select tracks faster.

DJM900 Nexus 2

by Pioneer

Professional 4 channel DJ Mixer

Take your performance to new heights with the DJM-900NXS2, which features a 64-bit mixing processor for a warmer, more nuanced sound.

DJM 2000 Nexus

by Pioneer

Flagship 4 Channel Digital DJ Mixer

The DJM-2000NXS combines advanced performance features and an intuitive layout to empower unbridled creativity in the booth.

RMX1000

by Pioneer

3-1 Remix Station

The RMX-1000 serves up all the possibilities of studio effects and beatboxes, with the added physicality of pro-DJ equipment in a compact package.

DDJ-SX3

by Pioneer

Boost your creativity with the DDJ-SX3 4-channel DJ controller for Serato DJ Pro. Expanding on the features of our popular DDJ-SX2 controller, the DDJ-SX3 is strong yet portable with a familiar layout and lower latency jog wheels.

PLX1000

by Pioneer

High Torque Direct Drive Professional Turntable.

It is a precision engineered turntable coming from over 50 years of experience. Includes a high-torque direct drive system, multi-pitch control, club-grade build and sound quality, and detachable power and audio cables. (No cartridge/stylus included)

Xone 92

by Allen & Heath

Professional 6 Channel Analog DJ Mixer

The industry-standard Xone:92 is renowned for its expansive, involving sound. With its solid construction and easy to use interface, the 92 is on the riders of most of the world's top DJs and is a permanent fixture in the booth at many of the biggest superclubs.

Professional Lighting

Advanced Lighting Systems

Mega Pointe

by Robe

440W Osram Hybrid Moving Head

UHF-R® Wireless systems master the intense pressure and extreme conditions of any touring, installation or broadcast environment, while delivering unmatched Shure sound.

Spiider

by Robe

Next generation BeamWash Luminaire

A superbright next generation of LED WashBeam luminaires, using 18x 30 Watt and 1x 60 Watt LEDs and combining it with a very efficient 12,5:1 zoom optical system ranging from tight 4° Beam to wide 50° Wash, makes the product the most powerful LED fixture on the market.

BMFL Wash Beam

by Robe

1700 W OSRAM Lok-it! Moving Wash Beam

The BMFL WashBeam will enhance any show with its large beam produced through wide 180 mm front lens. With custom light source designed for Robe it produces an astounding 300.000 lux at 15'

Tetra2

by Robe

Generating an ultra-tight 4.5° beam from each of the 18 pixels, they combine to produce a bright, defined "sheet" of light, desired by Lighting Designers.

JDC1

by GLP

Moving Strobe/Blinder

When you look for a strobe, you look for power and the JDC1 from GLP delivers power in excess through a versatile and highly creative design, the likes of which has never been seen before.

RUSH MH 7 Hybrid

by Martin

Mid-Sized AIO Hybrid Fixture

The Martin RUSH MH 7 Hybrid is an all-in-one beam, spot and wash moving head with class-leading optics and a zoom system that allows designers maximum flexibility from the high-energy dance floor to performing arts spaces, all within an affordable price bracket.

MAC Quantum Wash

by Martin

LED Moving Head Wash

Combining an impressive 750 watt of RGBW LED power with Martin's market leading optical system ensures that the 1:5 zoom on the MAC Quantum Wash operates with maximum output and superior performance.

MAC Aura

by Martin

LED Moving Head Wash

The first LED moving head wash light to combine multicolor beam LEDs with a backlight LED array that takes the synthetic look out of LED wash lights.

MAC Quantum Profile

by Martin

LED Automated Moving Head

This extremely bright LED profile fixture combines top-quality white light with a fast, smooth CMY color mixing system and crisp gobo projection on surfaces as well as mid-air

MAC Viper Profile

by Martin

High Output Moving Head

The MAC Viper Profile is a new breed of high-output profile luminaire with an exceptional feature set, superior light quality and a highly efficient optical system.

Atomic 3000 LED STROBE

by Martin

LED Automated Moving Head

The perfect blend of a traditional strobe and cutting-edge LED technology. It offers the same extreme brightness as its iconic predecessor, but with substantially lower peak power consumption. It delivers stunning eye candy looks similar to the MAC Aura™ and the MAC Quantum™ Wash.

Storm Wash

by Chauvet

IP65 Rated RGBW Osram LED Moving Head

Maverick Storm 1 Wash is a powerful, IP65, RGBW Osram LED moving head, and the first of its kind to join the award-winning Maverick series! The outdoor-ready unit features a compact and rugged die-cast aluminum housing built with marine grade stainless steel screws to withstand even the harshest elements.

Maverick Storm 1 Spot IP

by Chauvet

IP65-rated Cool White LED moving head

Maverick Storm 1 Spot is a powerful, IP65-rated Cool White LED moving head that compliments the Maverick Storm 1 Spot perfectly. The outdoor-ready unit features a compact and rugged die-cast aluminum housing built with marine grade stainless steel screws to withstand even the harshest elements.

NEXT NXT-1

by Chauvet

Moving Head LED Panel

Next NXT-1 is a moving head LED panel with 25 pixel-mappable quad-color RGBW LEDs that brilliantly display pixel mapped images and punch through haze. The fast movement of the panel and rapid response of the narrow-beam LEDs let designers create engaging eye candy that enhances any live production.

ColorDash Par H12IP

by Chauvet

Powerful IP-rated LED

COLORdash Par H12IP is a compact, yet powerful IP-rated RGBWAUV LED wash delivering a beautifully mixed, soft field of richly saturated colors. It features a user-friendly OLED full text display. IP rated connections for power and DMX make setup a breeze.

Nexus 4x4

by Chauvet

Tour-Ready Wash Light

Nexus 4x4 is both a bold eye-candy and a tour-ready wash light, capable of delivering at once the sizzle of a pixel mapping display and a robust light output afforded by 16 27-watt RGB COB LEDs.

Ovation E-260WWIP

by Chauvet

Warm White LED Leko

IP takes the brilliant breakthrough concept of the Ovation E-260WW and places it outdoors.

Lumina Strip

by Elation

LED Strip/Bar Light

The Lumina Strip features a 15° Beam Producing a Smooth Wash or Blinder Effect, Electronic 16bit Dimming (0100%), Variable Dimming Curves, Individual Pixel Control (1-10), Flicker Free Operation for TV and Film and RDM (Remote Device Management)

SIXBAR 1000 IP

by Elation

LED Strip/Bar

IP65 Rated 12 x 12W 6-in-1 RGBAW+UV LEDs 25° Beam Angle Pixel Control Rugged Die-Cast Aluminum Exterior Glare Shield and (2) Lens Filters Included

CUEPIX Blinder WW2

by Elation

Reflector Spotlight

- 2 x 100W Warm White 3,200K COB LEDs
- 2 x 100W Warm White 3,200K COB LEDs
- 100,000 Hour Rated Life LEDs
- 60° Beam Angle – 80° Field Angle
- RDM (Remote Device Management)
- Individual COB Module Control Including
- Pan Focus Variable Dimming Curve Modes
- Strobe Effect
- Flicker Free Operation for TV and FILM

Cuepix 16IP

by Elation

IP65 Rated 4x4 RGBA

A versatile IP65 outdoor rated effect panel luminaire that features a 4x4 array of 16 30W 4-in-1 RGBA COB LEDs.

Lighting Controls & Effects

Grand MA3 Full

by MA Lighting

Flagship Lighting Console

The grandMA3 full-size console is the flagship of the range. It offers the ultimate MA lighting control hardware and is designed for professionals that appreciate the hands-on flexibility that a no-compromise solution can offer.

GrandMA2 Light

by MA Lighting

Live Digital Professional Lighting Console

The grandMA2 light has 4,096 parameters, 15 motorized executor faders and two touchscreens available. All further features and controls are identical to those on the grandMA2 full-size.

ROAD HOG 4

by High End Systems

Professional Lighting Console

The Road Hog 4 is unparalleled in the industry. Allowing full expansion in a compact package not only does this Hog pack an enormous punch but it is also the most affordable Hog console in a generation!

Hedge Hog 4

by High End Systems

Professional Lighting Console

A new array of HedgeHog 4's. There will now be 1 chassis allowing for 4 levels of features. HedgeHog 4, HedgeHog 4 N, HedgeHog 4 S and HedgeHog 4 X.

MQ500 Stadium

by Chamsys

Lighting Console

The MagicQ MQ500 Stadium is designed to operate at the highest level of show control, supporting up to 200 universes direct from the console without the need for external processing.

MQ80

by Chamsys, LTD

Compact DMX Lighting Console

The MagicQ MQ80 is an extremely powerful console in a small size, supporting 24 universes direct from the console. The large central touch screen provides easy access to all MagicQ features and display and selection from full lighting plots.

Proplex GBS EZ-LAN Unity 20

by TMB

Network Gigabit Switch

Multi-Way Ethernet Source Selector and Combiner. Extremely useful as a lighting console switcher!

JEM ZR44 Hi-Mass

by Martin

Professional Fogger

The Jem ZR44 Hi-Mass™ is a reliable and highly efficient fogger capable of precise fog delivery from subtle to massive.

HZ-1000™

by Antari

HZ-1000™ is most powerful, oil based, true compressor pro-tour hazer effect machine.

Amhaze Stadium

by Chauvet

Amhaze Stadium is a tour-ready professional water-based haze machine ideal for large-scale applications. With an output of 14,000 cfm, the Amhaze Stadium boasts an impressive 30-second heat-up time. It also features a durable, low-profile road case to survive the rigors of touring and production. The output and speed of haze can be easily adjusted via DMX or the LCD screen, and the unit comes equipped with an M12 threaded insert for hanging.

F-7 SMAZE™

by Antari

The ultimate all-in-one hybrid large venue touring atmospheric effect machine housed in an easily transported road case.

Atmosphere APS

by MDG

The world-famous ATMOSPHEREAPS, the industry standard professional haze generator for almost two decades, is the perfect match for all your lighting effects. Virtually noiseless, producing the finest haze with the longest hanging time and lowest liquid consumption.

Video Controls & Switchers

V-60 Switcher

by Roland

The V-60HD simplifies your set-ups and combines the best of both worlds that includes SDI inputs for camera sources and scaled HDMI inputs for data, computer, tablet and other video sources.

V-800 HD

by Roland

Picture Quality At The Pinnacle Of High Definition. Eight Multi-Format Channels From Sixteen Inputs.

The V-800HD Live Video Switcher is ideal for any live event or installation that requires the freedom to connect any type of source whether it be digital or analog, computer or video format.

HDMI20-Opti-RX220-PRO

by Lightware

HDMI 2.0 Full 4K Fiber Optical Extender with Gigabit Ethernet

The HDMI20-OPTC-TX/RX220-Pro is a HDMI 2.0 compatible extender pair for video, RS-232 and Gigabit Ethernet signals, supporting uncompressed 4K UHD resolution at 60Hz 4:4:4.

HDMI20-Opti-TX220-NTQ

by Lightware

HDMI 2.0 Full 4K Fiber Optical Extender with Gigabit Ethernet

The HDMI20-OPTC-TX/RX220-NTQ is a HDMI 2.0 compatible extender pair for video, RS-232 and Gigabit Ethernet signals, supporting uncompressed 4K UHD resolution at 60Hz 4:4:4.

Atem Production Studio 4k

by Blackmagic Design

ATEM Switchers work seamlessly with Blackmagic HyperDeck SSD recorders. You can connect up to 4 HyperDecks as sources, just like cameras, to playback pre-recorded clips during live program production! You can see the clips on each HyperDeck, select any clip, cue it, pre-roll, and play it back at any time.

Atem Television Studio

by Blackmagic Design

ATEM Television Studios are the first live production switchers designed for both broadcasters and AV professionals. There are 2 powerful HD models with 4 SDI and 4 HDMI inputs and a new Ultra HD model with 8 12G-SDI inputs. Packed with high end broadcast features, ATEM Television Studio models feature re-sync on all inputs so you always get clean switching whether you're using professional or consumer cameras.

Smart Videohub

by Blackmagic Design

Introducing the exciting new Smart Videohub, the world's first Ultra HD mixed format routers with built in video monitoring and spin knob router control. Smart Videohub includes the latest 6G-SDI or 12G-SDI technology depending on the model, so you can simultaneously connect and route any combination of SD, HD and Ultra HD video, all the way up to high frame rate 2160p60, all on the same router at the same time!

Livepremiere Presentation Systems

by Analog Way

LivePremier™ is a full range of modular and scalable 4K/8K multi-screen presentation systems and videowall processors, delivering uncompromising presentation experiences to high-end staging and premium system integration.

Ascender 16-4K

by Analog Way

A multi-output 4K seamless switcher and videowall processor that features a heavy-duty design, versatile connectivity, state-of-the-art real-time processing, advanced video effects and user-friendly web-based user interface, the Ascender 16 - 4K is a perfect fit for live events and system integration requiring the highest reliability and performance.

VIO 4k Converter

by Analog Way

The all-in-one multi input/output solution for any advanced conversion application up to 4K@60Hz 4:4:4

MCTRL4K

by Novastar

MCTRL4K is an independent master controller developed by NovaStar with an epoch-making significance. The loading capacity of a single unit is up to 3840x2160@60Hz, which is able to meet the on-site requirements of oversized LED displays. MCTRL4K makes it easier to create stunning visual effects for users.

CVT4k Fiberconnect

by Novastar

CVT4K is a fiberoptic converter developed by NovaStar independently, which enables the signal conversion between optical fiber and twisted pair cables. It allows long-distance signal transmission that is stable and not be easily interfered.

VX Series

by Novastar

A professional LED display controller of NovaStar. With high image quality and flexible image control, VX is able to meet the demands of the multimedia industry
