## CONNEX® PROBP™ 3400 DIGITAL BLOOD PRESSURE DEVICE

The ProBP 3400 is a convenient alternative to manual sphygmomanometers or larger vital signs devices for capturing reliable blood pressure readings during rounds or in triage settings. A mobile stand featuring a compact footprint and accessory basket enhances portability with an added measure of security and the ability to store extra cuff sizes on board.

SureBP® technology enables accurate blood pressure readings in about 15 seconds, improving efficiency and patient comfort.

- Obtains accurate readings and minimises errors, even in the presence of a weak pulse
- USB-wired technology enables connectivity to EMR systems
- Handheld, wall mount and mobile stand configurations
- Lithium-ion battery technology delivers up to 100 readings on a single charge with rapid recharge time
