HELMETS

SUPERTECH M10 ALLOY HELMET

SIZE | XS-2XL / \$ 649.95

- Lightweight outer shell is constructed from technologically advanced carbon in four sizes for best fitting. DOT 218 and ECE 22/05 certifications.
- Multiple density inner liner.
- Fitted with E-2, latest generation of MIPS, integrated low-friction layer designed to reduce rotational motion transferred to the brain from angled impacts to the head.
- Visor attached to helmet shell with patented system that will allow easy release in case of crash.
- Adjustable top pad height (Alpinestar's patented A-Head system).
- Maximized ventilation with 19 intakes and 5 exhaust ports.
- Side shell shape coupled with soft EPP foam prevents damage to collarbone in event of crash.
- Emergency release and removable cheek pads, 3D contoured foam.
- Removable comfort liner, anti-moisture and anti-bacterial fabrics.
- Hydration prepared.
- E-Ject prepared.

BOOTS

TECH 10 BOOT

SIZE | US 7-14 / EUR 40.5-49.5 / \$ 599.95

- New performance double pivot motion control system features:
- - Medial and lateral double pivot system for improved levels of flexibility and precision control.
- - Engineered front flexion control offered by a dual front blade system plus shock absorber insert to offer mechanical progressive force release which dampens and absorbs impact energies.
- - Redesigned dual density TPU rear blade system engineered to prevent hyperextension while offering improved flex control and impact resistance.
- Built into the Tech 10's unique and lightweight single-piece co-injected foot chassis is the patented Dynamic Heel Compression Protector (DHCP), an innovative safety feature which includes a fully integrated collapsible heel area with expanded polystyrene foam to absorb high impact energies during a crash. DHCP features a directional impact protection system which significantly reduces the effect of excessive, potentially injury-causing energy being transferred to the ankle and lower leg. DHCP has been developed and tested in the demanding circuits of professional Supercross and Motocross.
- Co-injected for strength and structure exclusive TPU and rubber

compound panels provide superb levels of grip contact, durability and heat resistance. Innovative material construction ensures panels are lighter, anatomically profiled and reduced in thickness.

- The contoured calf protector ergonomically wraps around rear leg and is constructed from a dual density compound rear blade system to offer progressive dampening of excessive torsional forces. Shin plate features new anatomic design for reduced surface area and weight-saving.
- Completely redesigned sole with proprietary grip sculpturing to improve foot-peg performance, grip and mud and water run-off. Exclusive dual compound sole is seamlessly integrated to the multi-density foot base structure with built-in support. The sole offers superior durability, grip and feel while riding and improved performance on shifter. The central sole insert features micro grip and side hooking grip design. It is easily replaceable and Alpinestars offers a full sole replacement and boot repair service.
- Anatomically optimized redesigned for weight-saving and ergonomics the new mechanical buckle closure system feature a nylon and fiberglass compound for improved durability and strength. New slim-line buckle closure system includes high-impact bridge closures which are cold forged for precision and strength. The buckle closure system features a memory and a quick release/

locking system with self-aligning design for easy, precise closure and improved riding performance and security. All buckles are easily replaceable.

- Innovative, lightweight upper combines advanced lightweight microfiber and impact and abrasion resistant TPU shell.
- Footshell features five different compounds in a single lightweight piece to offer strength while maintaining flexibility and structural integrity. Foot shell incorporates heel and toe protection is highly resistant to abrasion and impact, and adds to the boot's overall durability. Foot shell also includes integrated shank for support and structural integrity.
- Frontal protection features a dual closure system with an internal microfiber flap, plus hook and loop fasteners for a precise fit closure attached securely with a micro-adjustable, easy to operate, lightweight buckle. Shin incorporates a unique TPU blade system engineered to prevent frontal hyperextension and offer greater flex control.
- Soft microfiber gaiter helps seal out excessive water and dirt entry.
- Poly-fabric lining with 3D open cell foam incorporates anti-sliding suede on heel area to keep foot located inside the boot.
- Tech 10 boot is CE certified to EN 13634:2017.

TECH 7 BOOT

SIZE | US 7-14 / EUR 40.5-49.5 / \$ 349.95

- Lightweight upper combines suede leather with lightweight microfiber for impact and abrasion resistant TPU shell.
- Innovative, evolutionary TPU shin-plate construction for greater range of fitment features a reinforced hook and loop closure for comfortable, highly customized closure.
- Soft microfiber gaiter helps seal out excessive water and dirt entry.
- Evolutionary design for lateral flex zone provides front and rear flexion support and helps prevents torsion.
- Medial-facing panel constructed from TPU with rubber insert for maximum grip contact with bike and improved heat and abrasion resistance.
- Contoured TPU calf protector plate offers impact resistance.

- Extensive TPU protection on toes, foot, heel, ankle, calf and shin with extra hard compounds on the toe-box, heel and achilles tendon.
- New closure system includes polymer buckles plus aluminium frame with innovative self-aligning, quick release closures for customized secure fitment.
- All the buckles are replaceable.
- TPU lower shell is reinforced with metal shank and includes toe reinforcement for impact and abrasion resistance.
- Poly fabric lining with 3D open cell foam incorporates anti-sliding suede reinforcement on heel area.
- Exclusive dual compound sole is seamlessly integrated

- to the multi-density foot base structure with built-in support; the sole superior durability and grip.
- Main flexion of the boot is supported around medial and lateral ankle by low profile pivot system which all dissipates the friction when bending the boot.
- Shock absorbing padding on the heel and ankles plus an ultra thin and flexible forefoot area for increased sensitivity and control.
- Removable anatomic footbed in lycra on top.
- Replaceable footpeg insert on sole is constructed from hard compound vulcanized rubber for durability and protection.
- Tech 7 boot is CE certified to EN 13634:2017.

TECH 3 BOOT

SIZE | US 5-16 / EUR 38-52 / \$ 199.95

- Upper construction is made from lightweight microfiber material for flexibility, durability and abrasion resistance.
- Light microfiber front and rear bellow inserts offer improved comfort and flexibility in key area.
- Toe box is constructed from synthetic material for abrasion performance.
- Extended PU synthetic gaiter helps seal out excessive water and dirt entry.
- Contoured TPU calf protector plate, TPU higher medial protector, TPU outer lateral ankle and TPU heel counter offer support and resistance to impacts.
- Rear TPR gaiter patch applied on top of the TPU calf protector gives protection and comfort on rear flex.

- Injected TPU shin plate connected with the TPU medial protector panel; hook and loop grip upper closure, plus TPR flap for broad ranging calf fit adjustment and support.
- The TPU higher medial protector is designed with technical texture for improved grip.
- Bio-mechanical medial blade system allows front rear flex giving support and protection to the ankle.
- The ergonomic TPU triple buckle straps allow smooth frontal flex from the medial protector to the lateral side without compromising range of movement.
- New closure system includes 3 polymer buckles with an innovative closure system.
- This closure includes a micro-adjustable ratchet with memory and a quick release/locking system with self-aligning design

- for easy, precise closure. All buckles are replaceable.
- Innovative one-piece TPU injected dual compound foot shell, reinforced by a metal shank inside a co-injected toe reinforcement.
- Soft foam surrounds the ankles and collar offering comfort and shock absorbing performance.
- Entire textile interior lining for improved levels of comfort and moisture-management.
- Replaceable EVA footbed with textile lining on top provides arch support and comfort.
- Alpinestars' exclusive high grip rubber compound outsole provides grip and traction on various surfaces and is profiled to provide control and feel on the bike's footpegs. The sole is replaceable.
- Tech 3 boot is CE certified to EN 13634:2017.

TECH 7S BOOTS

SIZE | US 2-8 / EUR / \$ 199.95

- Tech 7S is specifically designed and sized for junior and/or smaller framed riders.
- PU-reinforced microfiber upper for flexibility, abrasion resistance and weight-saving. Material ensures consistent fit and is easy to maintain and clean.
- Contoured shin plate is injected with high modulus TPU for excellent levels of impact and abrasion resistance.
- Medial facing side incorporates TPU panel with specially designed sculpturing for maximum grip contact with bike and improved heat and abrasion resistance.
- One-piece injected dual compound foot shell with co-injected hard toe protector and integrated steel shank. The shell is

- highly resistant to abrasion and impact, adds to the boot's overall durability and improves boot's streamlining.
- Excellent flexion provided by low profile medial and lateral pivot system to offer movement and support.
- Instep and Achilles accordion flex zones constructed for superior control and support.
- Extended microfiber gaiter helps seal out excessive water and dirt entry.
- Soft poly foam reinforcement on ankles and collar for long lasting comfort and shock absorption.
- 3D mesh textile with open cell foam for improved air circulation and comfort.

- Buckle closure system incorporates polymer and fiberglass buckle arms and high-impact aluminum bridge closures for durability and weight-saving. Buckle system features memory and a quick release/locking system with self-aligning design for easy, precise closure and improved riding performance and security. All buckles are easily replaceable.
- Compound sole is seamlessly integrated into the base structure for superior durability, high performing rubber grip patterning, and feel. The sole is replaceable.
- Removable anatomic footbed for comfort and support ensures even weight distribution.
- The Tech 7S boot is CE certified to EN 13634:2017.

BIONIC 5S YOUTH KNEE BRACE

SIZE | OS / \$ 299.95

Innovative hybrid frames are constructed from a flexible composite over-injected with a high performance fiber reinforced polymer which provides optimal structural integrity and support while being ultra-lightweight and adaptive.

The frame system reduces the risk of sustaining injuries to:

The medial and lateral collateral ligament

The anterior and posterior cruciate ligament

The lateral and medial meniscus

Slim ergonomic design for riding comfort during dynamic movement.

Extremely stable slim-design four-point hinge system perfectly follows the articulation of the knee

Lightweight and highly ventilated knee protector offers strong impact force dispersion and absorption while ensuring maximum coverage area in all riding positions.
