MADE FOR WATER®

# OFFSHORE

Extreme conditions and racing on the edge call for outerwear tested to the highest standards, on the water and in the lab.

Zhik's Offshore range has been engineered with one goal: to combine top-level breathability with superior waterproof durability.

Categorised into Ocean, Offshore & Coastal use, this range offers complete protection from the harshest elements.

Developed in the most brutal environments during the Volvo Ocean Race, from the fierce Southern Ocean to extremely humid conditions, Zhik's Offshore range is proven to perform.

# WATER WEAR

The Zhik story began with our revolutionary range of Water Wear, redefining the landscape of equipment for the fast wet athlete.

World leading propriety materials, innovative new to world designs and viewing challenges with an outside the box attitude sets Zhik apart.

Developed with our Zhik Team of Olympic athletes and World Champions, the Zhik Water Wear collection is just like our team of athletes, top-of-class elite.

# WETSUIT | GUIDE

## THE X & V DIFFERENCE

### EXTREME

Our X Range of wetsuits are the pinnacle of performance. Designed to the highest standards and packed with all the features required for comfort, warmth & convenience. It is the ultimate choice for performance athletes, who demand the best gear.

### VELOCITY

Our V Range incorporates the same superior material and high quality properties of warmth and durability as our X range but without the added extra features, giving you a lower cost range for the aspiring athlete.

### FITTING NOTES

#### 1. FIT FIRM & TIGHT

The Powerpads sleeve should fit firmly several centimetres above the knee, this means the battens will stay in place. Once wet and out on the water you will appreciate the extra tightness. Pull them up high...

#### 2. TRY THEM ON

If possible; it's best if customers try the Powerpads on to make sure the fit is tight.

#### 3. SUIT & POWERPAD SIZE CHART

Powerpads are a versatile hiking system so

customise the fit as needed. You can mix any suit with any Powerpad size. Choose the size according to the best fit on the thigh. The suggested size chart is a very good guide, however it is possible for customers to be between sizes and need one size up or down depending on the body shape.

#### 4. WORKS UNDER ANY ZHIK SUIT

All Zhik suits are designed to work with the Powerpads. Choose from the Hybrid, Microfleece or Superwarm ranges. The Powerpads are designed to be worn UNDER the suit.

# ZHIKGRIP II

Our patented hiking boot & strap grip system.

A proprietary pattern of interlocking ridges connect boot and sailor, Zhikgrip™ II is made from a highly durable unique rubber compound. The tapered studs lock in at any angle or position for extreme grip while still allowing easy movement & adjustment of the boot under the strap. The interlocking grip pattern between boot and strap allows you to relax muscles, lock into the dynamics of the boat and hike harder for longer while maintaining full mobility. Experience it and you will never be able to go back to hiking without it.
