Elements of Literature

2nd Edition

Approach

- Critical

Organization

- Eight units divided into two parts: marks and modes of literature and genres of literature

Content

- Marks and modes of literature: imaginative comparison, sound and syntax, allusion and symbol, irony
- Genres of literature: folktale and epic, essay and short story, poetry, drama

Features

- This textbook builds on the critical foundation provided in the ninth-grade text. Having mastered the six fundamental components of literature, students are ready to focus on those literary elements that define and distinguish lasting artistic literature. Introductory essays, "Thinking Zone" questions, and critical thinking questions deepen students' understanding of key elements of style and expression as well as major forms important

to past and present literature. A firm grasp of these details will aid in developing essential skills in literary analysis and appreciation, skills that can be profitably applied to a study of Scripture. In addition, careful evaluation of worldview as expressed in an author's writing trains students to exercise biblically based moral discernment.

Spanish 1 3rd Edition

The *Spanish 1* textbook follows an innovative, standards-based approach to language learning that will help students develop their ability to use Spanish in all three modes of communication (interpretive, presentational, interpersonal). The text is organized thematically and supports students as they learn to describe, make comparisons, give

commands, and narrate in present time in the following contexts:

- School-related activities
- Family and life at home
- Activities in town
- Pastimes, sports, and ministry
- Travel and missions
- The workforce

Biblical worldview is heavily emphasized in the text as the

students learn about how to show biblical love to their Hispanic neighbors, how to share the gospel, and how to evaluate cultural products, practices, and perspectives from a biblical point of view.

Spanish 2 2nd Edition

This second-year book reviews and expands the material taught in *Spanish 1*. It uses a functional approach so that students learn to perform the following functions:

- narrating and describing events in the present, past, and future
- communicating facts, questions, and opinions
- communicating needs and wants in a variety of settings, such as a

restaurant, hotel, bank, airport, store, and doctor's office

- giving and following directions
- showing courtesy
- witnessing

The 12 chapters are divided into three lessons each and include a dialog or reading, vocabulary, grammar, and Scripture verses. The text covers the following grammatical structures: present

tense, preterite tense, imperfect tense, future tense, conditional tense, present perfect tense, pluperfect tense, future perfect tense, reflexive verbs, imperative verbs, the present subjunctive, and the imperfect subjunctive.

Spanish 3

This textbook contains 12 chapters that are divided into three lessons each and include letters, tips, cultural facts, Scripture verses, and stories from missionaries. It develops grammar concepts, vocabulary, and questions for oral communication. Students learn to give devotionals, tell Bible stories, follow a recipe, act as tour guides, make comparisons, and retell events using various verb tenses.

Verb forms reviewed or introduced include the present, stem-changing, imperfect, present perfect, preterite, future, conditional, past perfect, future perfect, conditional perfect, formal and familiar imperatives, and subjunctive moods in both present and past tenses.

reflexive verbs, direct and indirect pronouns, the subjunctive mood, and future, *passé composé*, imperfect, conditional, and pluperfect tenses. Chapter topics include animals, people and personalities, clothing and jewelry, the francophone world, numbers, weather, sports, French cuisine, promises and advice, war, education, opinions and judgments, witnessing for Christ, narration, money and banks, cars and traffic, and drama.

Latin I

2nd Edition

This course blends inductive and deductive teaching.

- The format is conversational.
- Understanding precedes memorization.
- Context derivatives are used to teach vocabulary.
- English borrowings from Latin are emphasized: derivatives and loan phrases.
- The declension and conjugation formats are traditional.

- "Real" Latin is introduced early and used throughout. This includes quotations from famous Roman writers and Latin translations of Scripture.
- Roman history is presented chronologically: kingdom, republic, empire.

The text contains 23 chapters, each including vocabulary, grammar, historical information, derivatives, and loan words, and one

or more paragraphs in Latin. At the conclusion of each chapter is a summary section that helps to prepare the student for the chapter test.

The activity manual contains extensive practice for all the concepts taught.

Latin II

This second-year Latin text contains 18 chapters and covers an overall view of Roman history through excerpts from Roman authors. Julius Caesar's writings provide much of the information, and there are other authors, including Cicero.

The beginning lessons are a review of first-year Latin. The subjunctive mood is introduced and compared to the indicative. As the lessons progress, more vocabulary and grammar rules are introduced and are seen in the historical writings.
