## FOREWORD

The Office of Business Analytics is pleased to present the *2021 Cox College Fact Book*. This book is intended as a readily accessible, consistent source of information about the Cox College community, its resources, and its operations. It is a summary of institutional data gathered from many areas of the College and compiled to capture the 2020-2021 fiscal and academic year. When possible, multiple years of data are provided for historical perspective. While not all encompassing, the *Fact Book* does provide relevant facts and figures valuable and frequently requested by administrators, faculty, staff, external organizations, and students.

I extend sincere appreciation to all contributors who offered their time and expertise to maintain the greatest possible accuracy and standardization of the data. A concerted effort is being made to make this publication an increasingly more useful reference, while at the same time enhancing your understanding of the scope and progress of the College. I welcome your comments and suggestions toward these goals.

## A BRIEF HISTORY OF COX COLLEGE

In 1907, Burge Deaconess Training School for Nurses was established with the admission of three students. Miss Janie Campbell completed her last course on December 31, 1909, and records have her comprising the Class of January 1910. On May 6, 1908, Missouri's first licensure legislation was enacted and Miss Campbell's license is dated August 8, 1910.

Class sizes remained small over the next four decades, with some years having no students enrolled. Following World War II there was a significant shortage of nurses. Under the guidance of Lester E. Cox, Burge Hospital had the services and capacity required by the State Board of Nursing to admit additional students, and 15 were admitted in January 1951.

In 1956, 100 students began living on the current campus and today's Fountain Plaza Room was the original lounge. The Helping Hands mural on the outside wall near the entrance became an icon to students who lived in the dorm.

The Burge Deaconess Training School for Nurses became a premier institution across the region. More than 2,500 nurses earned diplomas from the institution with the final Burge School of Nursing graduation held in June 1996. That year, the name was changed to Lester L. Cox College of Nursing & Health Sciences, in honor of the institution's long-time Chairman, Lester L. Cox, son of Lester E. Cox, and 49 students were admitted to the Associate of Science in Nursing degree program.

The Bachelor of Science in Nursing degree program became available in 1997. Since then, Associate of Science in Medical Assisting, Associate of Science in Radiography, Bachelor of Science in Diagnostic Imaging, Master of Science in Nursing, Master of Science in Nutrition Diagnostics, and Master of Science in Occupational Therapy, respectively, compile the list of Higher Learning Commission approved program options available through the College.

On July 15, 2008, the College Board of Trustees voted to shorten the name to Cox College. The CoxHealth Board of Directors reaffirmed the decision, and the change became official when the Higher Learning Commission also approved.

In less than a year, Cox College raised \$6.8 million to fund a renovation of its facilities that began in February 2019. Contributions came in a variety of ways, including \$2.2 million from the U.S. Department of Commerce, Economic Development

Administration (EDA), a \$1 million matching grant from the Mabee Foundation, and many donations from local benefactors and CoxHealth employees. The ultimate goal of this project was to enable Cox College to educate a larger number of medical professionals. Not only did this renovation project increase classroom space, but it also brought an updated appearance to the interior and exterior of Cox College's building.

## RETENTION

Calculation of Retention Rate<sup>1</sup>: Retention is defined as the percent of students enrolling in consecutive fall or spring terms (e.g., Fall 2015 to Fall 2016). The retention rate compares (a) the number of newly enrolled students who return the following year, to (b) the number of potential returning students. Graduates and completers are not included in the calculation because they have achieved their academic goal and are not expected to return for subsequent semesters. Students previously enrolled at Cox College and non-degree seeking students are also excluded.

## PERSISTENCE

Calculation of Persistence Rate: Persistence rate is defined as the percent of students enrolling in consecutive fall and spring terms (e.g., Fall 2015 and Spring 2016). The persistence rate compares (a) the number of new students who enroll in a semester to (b) the number of students enrolled the following semester. Graduates and completers are not included in the calculation because they have achieved their academic goal and are not expected to return for subsequent semesters. Students previously enrolled at Cox College and non-degree seeking students are also excluded.
