*Pennisetum alopecuroides* 'Love and Rockets' PPAF and 'Pure Energy' PPAF

## — Our Breeding Philosophy —

*Our plants are bred and selected in the tough conditions of the Midwest with hot humid summers and cold wet winters. We strive to breed plants not as a means, but with an end in mind.*

*Our goals are simple- improved, durable, ornamental garden plants for our own climate and the rest of the world! Our plants are bred to stand the test of time, if they don't survive or thrive in the garden why bother.*

## January 2021

Despite the challenges of 2020, we had one of our best years. We continue to focus our attention on the plants we have found to be durable and valuable in the garden.

2021 will be my 30th year growing perennials. Here some of my favorite new introductions.

*Allium* x 'Big Beauty' PPAF is showy right from spring emergence. Wide gray-green foliage is substantial followed by 18-24" stems in July. Silvery buds open to soft pink 2"+ flower heads. *Lobelia cardinalis* 'Pink Flame' is a pink twist on the normally red cardinal flower. This new seed strain is vigorous, growing 3'- 4' tall. Ideal conditions are moist yet drained soil. *Monarda bradburiana* 'Midnight Oil' PPAF is an exceptionally vigorous and disease-free selection. Chocolatey-red new growth remains clean of foliar diseases. Same soft pink flowers with wine red spots in June on 18" tall and wide plants. *Rudbeckia* x 'Sweet as Honey' PPAF is a new look in black eyed susans. Many small yellow flowers are held on upright stems over extra thin basal foliage. It is a perfect companion with short grasses. *Rudbeckia* x 'American Gold Rush' continues to be our top seller.

We have two new grass introductions. *Andropogon gerardii* 'Holy Smoke' PPAF has silvered gray foliage with nearly constant smoky purple to red highlights adding a constant complexity to it. It is very nice paired with *Echinacea*. One of our most exciting grass intros, *Pennisetum alopecuroides* 'Pure Energy' PPAF, is a wide blade, gold foliage fountain grass. Extra bright gold foliage June-September on substantial 30"+ plants. Reddish bottle brush flowers start in August. Both of these new grasses are being grown in Korea now, too. It looks very nice with 'Love and Rockets' PPAF, our short red fountain grass. John Friel called it a *Hakonechloa* 'All Gold' for full sun. In 2020 *Andropogon gerardii* 'Blackhawks' was awarded an ISU award in the EU.

*Sedum spurium* 'Rock Candy' PPAF is bound to become a groundcover legend. For those looking for a short colorful foliage all year long, this is one to try. Red-purple foliage is both smaller and tighter on 2-3" tall plants with rose colored flowers in July just above.

Thank you for your continued support of my breeding. Here's to staying healthy. Cheers!

Brent Horvath- Breeder

### GOT SEDUMS?

Brent Horvath's first book, *The Plant Lover's Guide to Sedums*, is available from Timber Press. It includes everything you need to know about these beautiful gems. Plant profiles highlight 150 of the best varieties to grow, with information on zones, plant size, soil and light needs, origin, and how they are used in the landscape. Additional information includes designing with sedums, growing and propagating them, where to buy them, and where to see them in public gardens.

Order online at [www.timberpress.com](http://www.timberpress.com)

**Allium cernuum** **Nodding Onion**  
**'Falling Stars' - white** — This white form of nodding onion has thicker gray green foliage on 18 – 24" tall stems, a bit taller than the species. Full sun to light shade, average well drained to dry soil. 1 Gal. 6.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2017			custom	

**Allium schoenoprasum** **Dwarf Pink Chive**  
**'Rising Star'** — Extra dwarf pink chives reaching only 10-12" tall and wide, bloom in May. Fine grey, green, grassy foliage looks nice all season long. 70 plug 1.00  
 Easy to grow. Plants prefer full sun and average to well drained soil. 4 1/2" 3.75

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2010			plugs	Blooming Nursery

**Allium x** **Ornamental Onion**  
**'Big Beauty'** PPAF — Extra wide grey-green foliage stands out early in the season on this robust growing allium. In July silvered pink buds open to soft pink 2.5" flower balls. Similar in color to 'Summer Beauty' this plant grows a bit taller to around 24" plus. Full sun, most any soil but wet. 1 Gal. 7.00

**NEW for 2021**

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2021	\$0.20	patented	custom	Blooming Nursery, Pioneer Gardens, Twixwood

**'Chivette'** PP#30,151 — A mostly sterile chive with edible kelly green foliage all season long. Initially upright but then more relaxed reaching 12-15" + long. This vigorous plant is easy to grow. Lavender purple flowers with a purple stripe down the middle of the pedal are also edible and held on 12" + stems. Beginning as round buds the flower open to 1" wide. Full sun preferred 70 plug 1.25  
 Average to dry soil. 1 Gal. 6.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2017	\$0.15	patented	plugs, bareroot	Pioneer Gardens, Garden Choice

*Allium cernuum* Falling Stars

*Allium x Big Beauty* PPAF

*Allium x Chivette* PP#30,151

*Allium schoenoprasum* Rising Star

**Allium** x **Ornamental Onion**

**'Windy City'** PP#28,100 – Dark green glossy foliage reaches 15" tall and wide. Dark rose purple flower clusters begin to color in June and open in July on 18-20" stems. Full sun is best. Average well drained to dry soil. Very drought tolerant.

50 plug 1.50  
1 Gal. 7.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2015	\$0.20	patented	plugs, bareroot	AG 3, Inc., Creek Hill Nursery, Garden World, Greenleaf Nursery, Pioneer Gardens, Twixwood, Van Essen Nursery

**Amsonia** *tabernaemontana* **Bluestar**

**'Fontana'** – This red stem selection has slightly darker blue flower clusters at the end of May into June on 36" + plants. In August the red seedheads are showy too. Zone 4-9. Full sun to light shade. Well drained to dry soil.

1 Gal. 6.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2015			custom	

**Amsonia** x **Baseball™ Bluestar**

**'Short Stop'** – Compact 2'+ plants bloom the end of May early June with light blue cone shaped flower clusters. While most Amsonias have a growth spurt after flowering this one is stopped short. Yellow fall color too. Full sun is best. Average to well drained soils.

1 Gal. 6.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2016			custom	

**'Bases Loaded'** – Intermediate, halfway type foliage, emerges dark green. These hybrid plants are heavy blooming. The light blue flower clusters are larger too and begin to open at the end of May on 18-24" stems. These plants have a reserved growth spurt to 30 inches plus after the flowers fade keeping the plant wider than tall. Full sun, average soil

1 Gal. 6.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2020			custom	Blooming Nursery

**Amsonia x Bases Loaded**

**Amsonia tabernaemontana Fontana**

**Amsonia x Short Stop**

**Allium x Windy City PP#28,100**

**Amsonia** x **Baseball™ Bluestar**  
**'Seventh Inning Stretch'** – Initially glossy foliage emerges green but smaller than a typical illustris. The habit on this hybrid is upright but more reserved and is bushier. Light blue flower clusters bloom at the top of the thin stems in late May, early June eventually reaching 3'. Full sun to light shade. 1 Gal. 6.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2018			custom	

**Amsonia** x **Bluestar**  
**'Halfway to Arkansas'** – The foliage is a glossy deep green and uniformly needle-like. Pale blue flowers cluster in May. Rounded mounds top out just over 48" tall and wide. Yellow fall color comes a bit later than the other Amsonias. Try it with Pennisetum 'Red Head,' and Penstemon 'Huskers Red' and 'Pocahontas.' Full sun to light shade in well drained to moist soil. 70 plug 1.25  
1 Gal. 6.00

Introduced	Royalty	Status	Liner Availability	Sources other than IPG
2005			plugs	Blooming Nursery, GET group, Hortech Twixwood

**Amsonia** x **Bluestar**  
**'Midway to Montana'** – Mature plants have intermediate foliage around 3/8 - 1/2" wide with clumps maturing to 3-4' tall and wide. Light blue flower clusters bloom at around 12-18" +with a bolt of foliage after that. These adaptable plants will grow in full sun to part shade and most any soil except wet. Fall color is a striking golden yellow. These plants can make a nice informal herbaceous hedge too. 1 Gal. 6.00

## INTRODUCTIONS

### *Andropogon gerardii* **Big Bluestem**

'Red October' PP#26,283 — Our second vegetative form of Big Bluestem and for its fall color its hard to beat. Initially it was selected for its finer foliage, and has a nice upright habit to 6'. Foliage emerges deep green usually having some red tips from spring on. Starting in August the red highlights increase and deepen to a rich burgundy red. After the first frost usually in October, the foliage turns a more scarlet red taking on a striking appearance. Red flowers begin in August. Full sun is best for the red foliage color. Well drained soil. John Greenlee called this "the New Rubrum."

### *Bouteloua gracilis* **Blue Grama**

'Honeycomb' PPAF — Hardy and adaptable plants with good vigor have a similar size and stature compared to 'Blonde Ambition'. Upright wire like stems stand 30" plus and begin blooming with eyelash like flowers, holding yellow pollen, in June. The tan color lightens with age, holding on for a long time and into winter. Full sun, average to well-drained soil.

### *Carex pensylvanica* **Pennsylvania Sedge, Common Oak Sedge**

'Straw Hat' PP#29,432 — This rhizomatous and vegetative form of penn sedge has a vigorous habit. It also has more substantial flower clusters than the species with reliable heavy spring bloom in April-May. It makes a good groundcover for dry shade. I have it planted with *Polemonium x 'Heaven Scent'* Tolerates full sun with irrigation. Part shade is best. The bright green foliage reaches only 5-6".

*Echinacea purpurea* Showoff

*Echinacea purpurea* White Showoff

*Eryngium yuccifolium* Prairie Moon

*Eupatorium perfoliatum* Milk 'n Cookies

### *Eupatorium* x **Boneset**

**'Polished Brass'** – The hybrid vigor is hard to miss on these robust plants. In spring the foliage emerges chocolate red, a trait that comes from the seed parent, *Eupatorium perfoliatum* 'Milk and Cookies'. The difference is the leaves are glossy and the whole plant is larger, growing 4' plus on sturdy stems. If you want pollinators and butterflies, this is your plant! In August into September the plant is magnet. It would be nice with *Vernonia*'s. Plant and enjoy. Full sun, any soil.

*Pennisetum alopecuroides* Ginger Love PP#26,442

*Pennisetum alopecuroides* Piglet PP#19,074

*Pennisetum alopecuroides* Love and Rockets PPAF

**Pennisetum alopecuroides Golden Fountain Grass**

**'Pure Energy'** PPAF — A first when it comes to wide gold foliage in a hardy grass for full sun. John Freil called this a the Hakonechloa All Gold for full sun. Foliage reaching 1/2" wide is substantial and showy peaking in July just before the reddish bottle brush flowers begin. Plants reach 30-36" tall. Will work in containers too. Full sun, average soil.

**Pennisetum alopecuroides Red Head Fountain Grass**

**'Red Head'** — An early form of red flowering Pennisetum. I selected this one in 1998 from among Pennisetum National 'Arboretum.' 'Red Head' shows its red inflorescence the beginning of August, one month earlier than most. It looked stunning against the Feather Reed Grass in the field beds at the nursery. Nice with other red grasses, variegated Miscanthus and Joe Pye Weed. Full sun, well drained to moist soil. It should be deadheaded in October to prevent reseeding. Awarded in 2010 at the ISU Conference in Europe.

## INTRODUCTIONS

### *Penstemon digitalis* Beardtongue

'Pocahontas' PP#24,804 – Burgundy foliage emerges in spring quickly followed in June by 3-4' burgundy red stems holding loose clusters of purple pink flowers.

An irresistible combination judging from the womens reaction when we had it blooming near the office. The hummingbirds also had a taste and find it equally appealing. Plants prefer full sun, and well drained to rich soil.

2012	\$0.20	Patented	plugs, URC	Blooming Nurseries, GET Group, Greenleaf Nursery, Grow 'n Sell, New Moon Nursery, Quality Cuttings, Skagit Gardens, Stonehouse Nursery, Twixwood, Vitro Westland, Walla Walla

### *Polemonium* x *Jacob's Ladder*

'Heaven Scent' PP#20,214, EUPBR#32,205 – Lacy pinnate foliage emerges red and continues to hold red highlights until summer. Grape scented blue flowers begin in May and can continue into June. Plants top out at 18-24" tall. Drought tolerant clumps can grow in full sun to part shade. Makes a good cut flower, too. Nice with Geum.

2019	\$0.15	patented	custom	Blooming Nursery

**Rudbeckia x Black Eyed Susan**

'American Gold Rush' PP#28,498, CAPBRAE, EUPBR#49,424 — One of my best plants! Naturally compact plants reach 22" at the most, with a rounded habit and heavy bloom starting in late July through September. The golden yellow 3" flowers have arched petals. Foliage is thinner and hairy giving this plant excellent resistance to Septoria, the fungus that affects Goldstrum. Full sun, well drained soil. An All American Selection!

## INTRODUCTIONS

**Rudbeckia** x **Black Eyed Susan**  
**'Sweet as Honey'** PPAF — Sprays of smaller yellow flower are easy on the eyes when they begin in July. Noticeably thinner and disease resistant foliage is also refreshing in their strongly basal arrangement. Hairy green stems grow 18" plus or minus depending on soil. Smaller black cones mostly around 1/2" wide are also nice too. Overall upright, smaller and lighter both in presence and in color. Full sun, well drained soil.
