Built To Fit

**FEELS LIKE OE.
STOPS LIKE OE.**

Setting the standard for quality and innovation in braking technology, Centric® brakes are designed, manufactured, and tested to exacting standards. To meet the demands of today's vehicles, our Centric R & D team analyzes the OE product and engineers brake pads that match or exceed OE effectiveness. We continually strive to make sure that Centric aftermarket pads feel and function just like OE.

EARN REWARDS ON THE FALKEN CROSSOVER TIRE LINEUP

SIZZLIN' SUMMER SPIFF

FALKEN HAS YOU COVERED

Crossovers are taking the automotive world by storm. Experts anticipate more than 9 million new crossovers will be sold by 2024, compared to just 5 million passenger cars that same year.¹ But Falken knows that a crossover is only as capable as the tires it's riding on. That's why we've developed two tires specifically for the modern CUV. With tires built to match a crossover's unibody platform and higher center of gravity, drivers will see improved handling, superior braking performance, and increased tread life. And your customers will need it, because Summer 2021 is quickly becoming the summer of road trips. Whether they're staying on the highway or heading off the beaten path, make sure your customers are prepared for their summer adventures.

¹IHS Markit® Automotive Light Vehicle Sales Forecast.

OFF-ROAD ADVENTURE READY

Finally, an all-terrain tire made specifically for CUVs. Durable 2-ply polyester construction and rugged upper sidewall features protect the WILDPEAK A/T TRAIL from sharp rocks and off-road terrain, so you can take your crossover anywhere.

WILDPEAK A/T TRAIL

RUGGED CROSSOVER CAPABILITY ENGINEERED FOR ADVENTURE

SEVERE SNOW RATED

The WILDPEAK A/T TRAIL's increased tread depth and 3D Canyon Sipe Technology help provide more winter traction than a traditional All-Season tire. Backed by the USTMA's Severe Snow Rating, the A/T TRAIL helps crossover owners discover true all-weather capability.

INDEPENDENT TIRE DEALERS EXPANDED THEIR MARKET SHARE DURING 2020

Independent tire dealers remain the dominant force when it comes to replacement consumer tire sales in the U.S. and even gained ground during 2020 as pent-up demand broke loose during the second half of the year.

According to MTD's 2021 Facts Issue, independent dealers account for 65.5% of the U.S. consumer tire replacement market at the retail level. That's an increase of 2.5% from 2019 levels. (In 2018, MTD estimated that independent dealers enjoyed 62.5% share.)

Mass merchandisers lost share during 2020, driven in large part by the temporary, COVID-19-related shutdown of Walmart Auto Care Centers, followed by a slower-than-anticipated

reopening of those outlets. At the end of 2020, it was estimated that mass merchandisers had 8% of the consumer tire replacement market — down from 10.5% just one year prior. Warehouse clubs also lost share during 2020, dropping from 8.5% to 8%.

Auto dealerships (9.5%) and tire manufacturer-owned stores (6%) managed to maintain their shares of the market at a flat level.

Here's a snapshot of how many outlets non-independent tire store chains operated at the end of 2020, courtesy of MTD's 2021 Facts Issue:

Mass merchandisers: Walmart Auto Care Centers (2,582) and Sears Auto Care Centers (39)

Warehouse clubs: Sam's Club (557), Costco Wholesale Corp. (554) and BJ's Warehouse Club Inc. (219)

Tire manufacturer-owned retail stores: Bridgestone Retail Operations, which does business as Firestone Complete Auto Care, Tires Plus and Hibdon Tires and Wheel Works (2,200); Goodyear Tire & Rubber Co., which includes Goodyear Auto Service and Just Tires locations (557)

Retail auto parts chains: Pep Boys — Manny, Moe & Jack (951)

The number of Sears Auto Centers locations dropped from 199, which was the chain's total store count at the end of 2019.
