

2021 Tundra

Power, functionality, reliability

The vehicle and/or its accessories may not be available in US Virgin Islands. The Audio Multimedia System is available only on selected Toyota 2018 models and forth.

The vehicle and/or its accessories may not be available in US Virgin Islands. The Audio Multimedia System is available only on selected Toyota 2018 models and forth.

Tundra Highlights

Style inside and out

This full-size pick-up elevates the style standard with its new front grill styling and TRD sport design, which highlight its functional capacity and strength. Inside, luxury is defined with a special attention to detail.

Powerfully safe

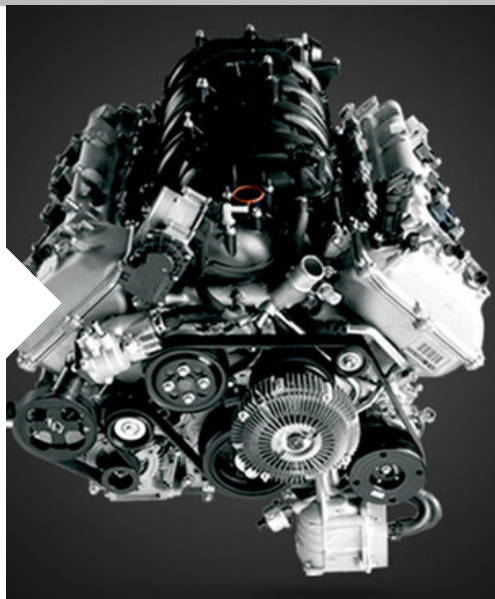

The 2021 Tundra comes standard with Toyota Safety Sense P™ (TSS-P), which includes Pre-Collision System (PCS), Lane Departure Alert (LDA) with Steering Assist (SA), Automatic High Beams (AHB), and Dynamic Radar Cruise Control (DRCC).

The force of technology

With backup camera available in all Tundra models, the navigation system with 7.0-in. high-definition multi-information display and dual zone climate control will certainly exceed your expectations.

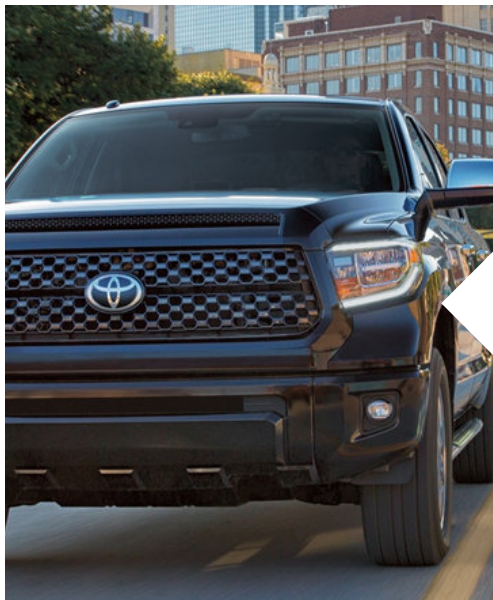

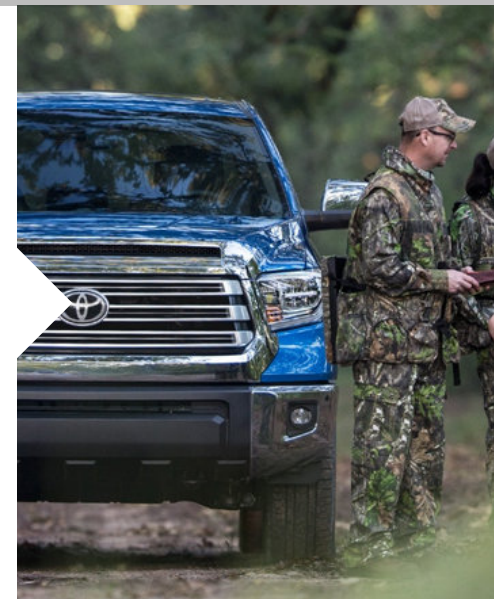

Power and torque

What do you think of an 5.7-L V8 engine with 381 hp @ 5,600 RPM and 401 lb.-ft. of torque @ 3,600 RPM. Tow what you think is impossible... even a space shuttle!

Effortless cargo

Tundra is always ready to handle any type of cargo, and now even more so with A-TRAC technology. This is an active traction control system that simultaneously optimizes the front and rear axles. It combines torque and strength with great power and efficiency.

Lead with more control

Not only does the 2021 Tundra come with a powerful engine that complements its extroverted style, it also comes with new stabilizing bars that allow the driver to have greater control on the road.

Tundra Nightshade Special Edition

This unique and elegant sleek exterior treatment includes a dark chrome grille, black mirror caps, black exhaust tip, black door handles and black badging to complete the look. Keep driving in style.
