ARCADIA UNIVERSITY

Founded in 1853, Arcadia University is a leader in international education. The first group of Beaver College women traveled overseas in 1948 to study the economic effects of World War II in Europe, paving the way for generations of students to study abroad. Over seven decades later, Arcadia University continues to offer excellence in international education and has integrated it as a core component of the higher education experience.

Educating the Whole You

Our goal is to help you develop and enrich your life in different ways: intellectually, through personal development, through building lifelong friendships, by cultural experience, with authentic community engagement, contextualized academic study, and the acquiring of life skills through applied learning.

LEADERSHIP

COMMUNICATION SKILLS

INDEPENDENCE PROBLEM SOLVING

CRITICAL THINKING

RESPONSIBILITY EMPATHY

CULTURAL AWARENESS

Excursions

All programs include guided visits to key places of interest, from historical landmarks and bucket list venues, to key local community hotspots - including many off-the-beaten-track experiences.

Activities & Events

From trying a new sport or joining a club or society, to attending Arcadia-organized social events, there will be many ways for you to bond with other students and feel part of a special time and place.

Volunteering

Many opportunities exist for you to help different organizations give back to local communities or causes.

Résumé Building

Meaningful and challenging experiences add depth to your résumé and show employers and graduate schools you have acquired valuable skills and abilities.

Will I have authentic involvement in the local community?

Will this program give me the best academic experience?

HOW WILL THIS EXPERIENCE BE MEANINGFUL FOR ME?

WHAT LIFE SKILLS WILL I TAKE AWAY FROM THIS?

“ Arcadia lives up to the mantra of “Learn Everywhere.” Part of studying abroad really made me open my eyes to taking lessons at any and all opportunities. It’s not always about the classroom and it is certainly not always about the grade, but it's definitely about what you can take away from the lesson.”

Rachel Shaffer
Illinois Wesleyan University

Educating the whole you – what does that mean?

Learn and enrich the whole you – from wonderful academic development to personal and professional growth and fulfillment.

It's **Applied Learning** in action – learn as you go and use your skills everyday in different situations so when you come home you have a whole new level of confidence and ability.
