Incontinence

Select the Size

Selecting the right size is critical for containment.

Bladder Control Pads and Liner Sizing

One size fits all. Continue to Step 3.

Briefs, Protective Underwear and Knit Pant Sizing

For briefs, underwear and pants, measure the hips or waist (select the larger of the two) as follows:

Step 1

Measure the largest area from hip bone to hip bone and over the abdomen (see illustration above).

Example:

Hip bone to hip bone =
19 inches (48.3 cm)

Step 2

Double the measurement in Step 1 and add two inches.

Example:

19 inches (48.3 cm) x 2 = 38 inches (96.5 cm)

38 inches (96.5 cm) + 2 inches (5 cm) = 40 inches (102 cm)

Step 3

Using this number, select the product size from the chart below.

Example:

40 inches (102 cm) = Medium or Regular brief

Brief Size Selection

Small = 20–33" (51–81 cm)

Medium = 32–42" (81–107 cm)

Tips for choosing incontinence products:

Thicker isn't always better. There are products available with superabsorbent polymers that are thin and discreet while offering excellent protection. Superabsorbent polymers are as tiny as salt crystals but can absorb and retain extremely large amounts of fluid relative to their mass.

Bladder pads are not the same as feminine hygiene pads. Bladder control pads have unique superabsorbent polymers that allow them to absorb urine quickly.

Bladder pads are not for women only. Men with light urinary incontinence can also benefit from products that are thin, discreet and absorbent. Today's bladder control pads are comfortable for both men and women.
