- 👤 BUILDING MANAGER

"Strata House has been a perfect location for the MultiTech UK EMEA headquarters. We moved into this leased space in 2015 after selling and moving out of previously owned office space in Reading. The location offers easy access for customers and colleagues arriving via Heathrow Airport, has good transport options for travel to and from London, and has many hotel choices within walking distance. The advantages of leased office space are tangible as our MultiTech UK team is small and we can focus our time and energy entirely on our business. Our overall experience has been positive and is a result of Orbit Southern being very responsive and accommodating when it comes to meeting our needs."

Dedicated and Experienced Commercial Property Experts

Orbit Developments is the commercial division of The Emerson Group and was established in 1971 by Peter Emerson Jones. Since then the company has grown to be one of the country's largest private commercial property developers and investment management companies, operating in the North West and South East of England and the USA with an extensive portfolio of over 250 buildings across 7.5 million sq ft.

A professional approach

The Managing Director of Orbit Developments, Tony Jones, heads up an experienced team that manages a seamless provision of all services direct to our clients. In the UK alone we have just under 3 million sq ft of office space to rent and we pride ourselves in providing high quality offices to let.

Large property portfolio

Our Orbit Southern team market and lease offices to let in the South East of England, including headquarters office buildings in Redhill, Brentford, Egham, and directly opposite Heathrow Airport. The Orbit Southern portfolio totals approximately 450,000 sq ft and consists of 32 commercial buildings across 12 sites located, all within easy access of the M25.

Our customers always come first

We aim to meet the individual requirements of our clients by working together to adapt our properties to suit specific requests and create tailored packages.

We have a dedicated in-house property management team who are responsible for the day to day management of the portfolio and liaison with our clients. Our larger multi-let buildings and business parks have building managers working within the facilities management team who are based on site providing immediate client facing support.
