## **The voice of Europe's airports**

ACI EUROPE, the voice of Europe's airports, is based in Brussels, Belgium and represents the interests of over 400 airports in 46 countries. Our members account for over 90% of commercial air traffic in Europe. The Brussels-based team comprises 15 permanent staff and more than 300 airport experts, under the leadership of Director General Olivier Jankovec.

ACI EUROPE is the European Region of Airports Council International (ACI), the only worldwide association of airports, whose prime purpose is to represent the interests of airports and their commercial partners, and to promote professional excellence in airport management.

ACI EUROPE promotes the exchange of industry know-how through our internal committee structure and extensive schedule of conferences and exhibitions. By actively seeking the views of airport members, we generate comprehensive industry policies that serve as a reference to the entire aviation industry.

The ACI EUROPE team works a day-to-day basis with the institutions of the European Union, the European Civil Aviation Conference (ECAC) and the European Agency for the Safety of Air Navigation (EUROCONTROL).
