4th William H. Bell Northeast Orthognathic Symposium

Fundamentals and Advances in Orthognathic Surgery

Saturday, July 23, 2016 New York, New York

Location

Icahn School of Medicine at Mount Sinai Hess Center for Science and Medicine Davis Auditorium 1470 Madison Avenue New York, NY 10029

Course Co-Directors Daniel Buchbinder, DMD, MD Sidney B. Eisig, DDS

A Continuing Medical Education Activity Sponsored By

Pfiedler

Overview

The 4th William H Bell Northeast Orthognathic Symposium features outstanding faculty in the field of orthognathic surgery. Dr. Bryan Bell will highlight the contribution of William H. Bell to the field of orthognathic surgery. Faculty will address the spectrum of care, including contemporary approaches to orthodontics, computer-assisted planning, surgical techniques and adjunctive esthetic surgery. Physicians and orthodontists who manage facial trauma and deformities will find this Symposium offers contemporary evidence-based treatment strategies. The Symposium provides lectures and discussion time with ample opportunity for audience interaction.

Target Audience

This CME course is designed for residents, fellows and practicing physicians in the specialties of Oral & Maxillofacial Surgery, Plastic & Reconstructive Surgery, Orthodontics and Otolaryngology-Head and Neck Surgery who desire a refresher of the fundamentals and a clinical update of best practices.

Needs Assessment

Advancements in imaging, devices and techniques have created improvements in the care and outcomes for patients with facial traumas and deformities. These advancements require physicians to expand their knowledge, update their care algorithms and consider new technologies in their practice setting.

Practice Gaps

Optimum practice reflects the incorporation of evidence based algorithms, which include the consideration of conventional and new surgical and orthodontic strategies, and the appropriate use of technological advancements in imaging and devices. Currently, some physicians may not be aware of expanded choices in care, and therefore may be missing opportunities to provide better patient outcomes.

Objectives

Upon completion of this course, physicians will be able to:

- 1. Discuss the contributions made by William H. Bell to the field of orthognathic surgery.
- 2. Delineate care algorithms for managing patients with facial trauma and deformity, including evidence for orthodontics-first and surgery-first approaches.
- 3. Review dentofacial deformity and presurgical orthodontics.
- 4. Assess the incorporation of advanced technologies to improve diagnosis and treatment; such as virtual surgical planning, computer- assisted imaging software, techniques and devices.
- 5. Discuss fixation of the sagittal split ramus osteotomy and mandibular narrowing.
- 6. Describe steps to prevent complications and improve outcomes in orthognathic surgery.
- 7. Discuss the advantages and patient outcomes related to adjunctive esthetic surgery.

Accreditation

Pfiedler Enterprises is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation

Pfiedler Enterprises designates this live activity for a maximum of 7 *AMA PRA Category 1 Credit(s)*^{\bowtie}. Physicians should claim only credit commensurate with the extent of their participation in the activity.

AdvaMed Code of Ethics

This course complies with the "Revised and Restated AdvaMed Code of Ethics" effective July 1, 2009. The educational meeting and associated hospitality events are intended solely for the registered attendees and faculty. Therefore, guests/spouses and other healthcare.

Education Grants

This course is supported by educational grants, in accordance with the ACCME Standards. **Stryker.**

Exhibitors

We acknowledge the following exhibitors: 3D Systems Dolphin Imaging KLS Martin

Registration

\$250 physicians/orthodontists, Fee waived for Residents/Fellows

Agenda

8:00 – 8:45 am	Registration, Breakfast, Exhibits
8:45 – 9:00 am	Opening Remarks Sidney Eisig, DDS
	Daniel Buchbinder, DMD, MD
9:00 – 9:45 am	Keynote Lecture: Dr. W.H.Bell and His Contribution to Orthognathic Surgery
	R. Bryan Bell, DDS, MD
9:45 – 10:30 am	Occlusion, Optimal Smile Aesthetics, Dentofacial Deformity Overview, Presurgical Orthodontics
	Flavio Uribe, DDS, MDS
10:30 – 10:45 am	Break/Exhibits
10:45 – 11:30 am	Work-Up & Computer Assisted Pre-Operative Planning R. Bryan Bell, DDS, MD
11:30 – 12:15 pm	Techniques in Orthognathic Surgery: The Maxilla and Midface <i>Timothy A. Turvey, DDS</i>
12:15 – 1:15 pm	Lunch/Exhibits
1:15 – 2:00 pm	Techniques in Orthognathic Surgery: The Mandible Timothy A. Turvey, DDS
2:00 – 2:20 pm	Sequencing in Bimaxillary Surgery Edward E. Ellis III, DDS
2:20 – 2:45 pm	Fixation of the Sagittal Split Ramus Osteotomy and Mandibular Narrowing Orthodontic and Surgical Tips to Facilitate Orthognathic Surgery <i>Edward E. Ellis III, DDS</i>
2:45 – 3:00 pm	Break/Exhibits
3:00 – 3:45 pm	Complications in Orthognathic Surgery Myron R. Tucker, DDS
3:45 – 4:30 pm	Adjunctive Esthetic Procedures Tirbod Fattahi, MD, DDS
4:30 pm	Summary Remarks, Evaluation, and Adjourn
