

5/26/71

Dear Mae,

Had your letter not come today, I'd have written you tonight for a different reason.

The book will go out in the a.m., with this, when I go to the P.O. Thanks. Sorry there has been no mention of it out there. The axmen lined up early and the publisher has arranged no sinle promotion. Even Jim Mason didn't respond, wjoch I can't understand.

I have to leave town inx the a.m. and I'll take the Kimonisky with me to read. I'd not heard of him, or I don't remember.

What I was going to ask is whether you have any more on Jaworski's connections with CIA foundations (or any other way) than is in your Xmas newaletter, which is a bit less than I have, and whether you have any sunh connections for Storey or Carr. It recently entered my mind as I was preparing some notes for writing. I've never had time to organize those files. I have a fairly complete set of clips, if I can find them, but reading them now would be impossible.

Glad somebody is collecting what there is on those Schmidt Nazis.

On Kaplan: we'd crossed swords before, but he chickened. He was Tom Clark's Law clerk, was in DJ Criminal Division (and Clark's son and that division did the Ray job), you know about his Ruby book, he is a professional Warren Commission sycophant (American Achalar, Spring 1967), and has just done an anti-Angela Davis piece for USIA. Could he have better qualifications? In three weeks, the Times has not answered my letters.

When people ask me about my farming to my face, I ask them when they last called Ike or LBJ a bull merchant.

I asked the same questions of the Times.

When I looked again at the Kominsky flyer and saw it was but four pages, I read it. Looksinteresting and very worthwhile.

Gotta get ready to leave in the a.m. Hope the family come along well.

Best regards,

Dear Harold,

Hi. Of course I want your new book on James Ray.

Do you know of Morris Kominsky? I spent the day at his home in Elsinore that wee. He is coming here in a short time to do a chapter of Assassinations in his second book. You should become familiar with him. He has fantastic research...15,000 files, index cards, perhaps the best work on right wing groups done by a single individual.

I went to see his files on Larrie Schmidt, and the boys I call the "Munich gang"... Nobody has gone into the Neo-Nazi element, with Dr. Robert Morris. My research on this gang is complete, but I will put it into a second book.

Best regards.

I haven't done a bit of work for six months. Saw David Lifton in LA, and Morris, and that was a starter. The winter was spent getting Barbara well again. She still can't walk, and the other children have needed special attention.

P.S. I just opened this letter because last night I read the New York Times Review of your book by John Kaplan.

That disgusting pig did a cover-up on the Jack Ruby case...and wrote a book which should be taken apart, sentence by sentence. At the time, I questioned who Mr. Kaplan was and where he came from. I believe his background was investigated by Bill Turner, and in my files I have memoes on this man. I went to a lecture he gave, covering up the JFK assassination...There is not a worse kind of person alive. Before reading one word about your book, I saw the name "John Kaplan" and knew immediately what the tone would be. References to wealth of Mark Lane, or your "chicken farming".

My language is usually less than what is considered "ladylike" and only the unpopular names are reserved for people like Mr. Kaplan.

More important...of all...is WHO HIRED HIM TO REVIEW YOUR BOOK?

WHY DIDNT SOMEONE LIKE ANTHONY LUKAS, WHO IS MORE OBJECTIVE OUT OUR SOCIETY, HANDLE THIS REVIEW?

/We know the role of the New York Times in connection with the JFK cover up.

How does Kaplan, from out West, get into the act of chopping you down....to protect his own position?

This insidious network of faces, appearing through the JFK, MLK, RFK, Manson frame-ups is consistence and continuous.

I saved all these articles..of the teams in common...to do some serious work some day.

Could you find out why Mr. Kaplan was chosen to review your book? Or was it a toss-up between him and Hartogs and a few other creeps they keep around for just such purposes?

"For eight years... Morris Kominsky has been doggedly, bravely, systematically, and expensively investigating the Ultra-Rightist and neo-Fascist individuals and organizations in the U. S. A., and his findings are frightening... One usefulness of the book for the 1970's is the thoroughness with which Mr. Kominsky has run down the falsification by the Ultra-Rightists of the facts of history, race relations, and international relations... Mr. Kominsky shows where these ideas originated... and the utter lack of evidence for their validity."

THE HOAXERS

Plain Liars, Fancy Liars, and Damned Liars

By
MORRIS KOMINSKY

This monumental book is a well-researched and well-documented exposé of the individuals and groups behind the trends in the United States towards Fascism and a third world war. It is designed to help awaken the American people to the dangers ahead and to arouse them from their complacency. What Ralph Nader's book, *Unsafe at Any Speed*, did to expose the dangerous defects in automobiles, this book can do to the Fascists and war-mongers.

In the Introduction, Morris Kominsky writes, "The dilemma that faces the American people, as well as all mankind, was very well described a few years ago by the distinguished clergyman, Dr. A. Powell-Davies: 'The world is now too dangerous for anything but the truth, too small for anything but brotherhood.' An obvious corollary to Dr. Davies' dictum is that the American people cannot act intelligently in a world fraught with danger, unless their opinions are formed on the basis of truthful information.

"Proceeding from these assumptions, this study has been undertaken in order to show how lies and distortions of truth are systematically used to generate hysteria, to mislead the people, and to prevent a rational approach to the solution of the most pressing social problems."

Conclusion
 Epilogue—An Open Letter

"While reading the manuscript of your book, I was amazed at its breathtaking scope. I commend you for your diligent and painstaking research. There has been a crying need for this kind of a study, and you have done it superbly.

I agree with you that our beloved country is worth saving from the perils of Fascism and a third world war. Your book clears the air of falsehoods that bedevil us, and as a result, the reader can face reality with his sober senses. That is the prerequisite for the intelligent action that can save this country from disaster.

It is my fond hope that your book will get the massive distribution that it deserves."

Judge Robert W. Kenny
 Former California Attorney General
 Superior Court Judge, Los Angeles

"I found (reading this book) an extraordinary experience despite my many years of familiarity with the political situation in this country and elsewhere... Like all those who are actively engaged in research, ... I am bound to stand in awe of the monumental job of research epitomized by the work of this book. I find it beyond compare... But far beyond the perfection of research is the fact that this is a dynamic exposure of the greatest danger that exists in the history of the world... I cannot commend too heartily the necessity of preserving our own lives by learning the lessons that are set out in this book."

Herbert M. Porter
 Distinguished Hollywood attorney

"You are a vigorous fighter for what you consider right and I compliment you for your public-spirited attitude and sincere concern for mankind."
