5600 Toolcat Utility Work Machine Specifications

The 5600 Toolcat utility work machine does many of the jobs you'd do with a pickup truck, compact tractor, utility vehicle or an attachment carrier, plus a whole lot more. Add the precise maneuverability of its all-wheel steer, and you have the most versatile worker in your fleet or on your estate.

Maximize your production and return on investment by connecting your Toolcat™ utility work machine to one of more than 40 front-mounted attachments. Changes take less than a minute – so it's simple to mow in the morning, remove downed trees in the afternoon and dig post holes in the evening. It's an investment you can leverage a different way every day, all year round.

The panoramic cab offers a clear view of your attachments and surroundings. Everything you need to operate is cleanly laid out, within easy reach, and most importantly, simple to operate. The Toolcat utility work machine's simple, responsive joystick provides hassle-free attachment control. A simple switch or lever activates most features.

The 5600 is engineered to meet the same standards as the rest of the Bobcat equipment lineup. Many of its components—such as the engine and cooling system—are the same as those found in our legendary loaders and excavators. These components are rigorously tested in a wide range of applications, including construction, agriculture, military and more. Bobcat designs the durable 5600 Toolcat machine with maintenance points that are easy to find and reach, because when upkeep is quick and easy, maintenance is more likely to get done. That means you'll get peak performance day in and day out for years to come.

[Approved Attachments](#)

	TC 5600
Engine Cooling	Liquid
Emissions Tier (EPA)	Tier 2
Engine Fuel	Diesel
Horsepower	59 HP
Turbocharged Engine	Yes
Operating Weight	5490 lbs
Travel Speed - High	18 mph
Travel Speed - Low	9 mph
Travel Speed - Reverse	9 mph
Machine Rated Capacity	2200 lbs
3-Point Hitch	n/a
Lift Capacity at 24" behind Lift Point	N/A
Rear PTO System	N/A
Rear PTO - RPM	N/A
PTO HP	N/A
Fuel Tank	20 gal
Cargo Box Length	56 in
Cargo Box Width	51 in
Cargo Box Bed Load Capacity	2000 lbs
Cargo Box Height	10 in
Cargo Box Bed Load Height	36.7 in
Total Vehicle Rated Capacity	4200 lbs
Auxiliary Std Flow	18.9 GPM
Auxiliary Pressure	3000 psi

Auxiliary High Flow	27.9 GPM
Length	181.6 in
Length without Attachment	144.4 in
Width	60 in
Width (with bucket)	62 in
Height	81 in
Height with Operator Cab	81 in
Bed Height From Ground	37 in
Cargo Box Maximum Load	2000 lbs
Cargo Box Volume	18 cubic ft
Ground Clearance	9.25 in
Turning Radius (AWS Mode)	17.5 ft
Outside Turning Diameter	210 in
