

A-HConnect Help Card for Staff

This document provides a list of applications available to Anoka-Hennepin staff through the A-HConnect portal. Common terms and items to note:

Credentials: User name and password. *AD (Active Directory) Credentials* are what you use to log into the network or email. Other credentials will be listed by source.

Staff, Regular Staff, Casual Staff, Former Staff: *Staff* indicates all active AH staff. *Regular Staff* are active staff with a district (@anoka.k12.mn.us) email account. *Casual Staff* are staff without an email account. *Former Staff* are users who have left the district within the past 18 months.

Support: **Unless otherwise noted in the Support column, questions about using the application should be directed to your building or department tech contacts.**

Any application without “separate login” in the title will pass the user directly to that application, without requiring the user to provide additional login credentials. Refer to the table below for information. If you have trouble accessing any application, call the HELP desk at 6HELP (64357). Questions about how the application works should be directed to the support number indicated in the Support column.

Don't see an application and think you should, or have a suggestion? Send a message to AHC.Support@anoka.k12.mn.us.

Application & Description (Apps in Blue require a second layer of login credentials)	Used by	Credentials Required (left blank if passthrough authentication or credentials not required)	Application Support – contact building tech staff first
