RENAL
ISSUES

RESPIRATORY
PROBLEMS

DIABETES
MELLITUS

Experts recommend daily dental chews

The World Small Animal Veterinary Association (WSAVA) Global Dental Guidelines recommend daily dental chews as an effective and convenient option for home care.⁵

“Daily home care is critical in management of oral health. Consistent and effective active home care is rarely performed, therefore, passive home care with dental chews or water additives is likely the best option.”

Brook A. Niemiec
DVM, Fellow AVD, DiplEVDC, DiplAVDC

The same great features as C.E.T.[®] VEGGIEDENT[®] Tartar Control Chews for Dogs

TRUSTED FORMULA

-  Plant-based alternative to rawhide chews — free of animal protein and wheat gluten
-  Non-GMO corn used, no artificial ingredients, and moderate in calories
-  Great taste that dogs love³

PROPRIETARY Z-SHAPE

- Maximizes prehension, allowing the chew to scrape away tartar in hard-to-reach places
- Enhances the mechanical action of chewing
